AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF
COUGH, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American Union, its wonderful cures of pulmonary complaints have made it already known, and the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful solvent and healer of the human frame, and a remedy for all other complaints which are not incurable, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden attacks to which they are upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptive it prevents than any other medicine. Keep it by you, and cure your colds while they are curable. Don't neglect them until no human skill can master the incurable malady that, fastened on their vitals, ends your life away. All know the dreadful fatality of lung diseases, and we they know to the virtues of this remedy, we need not de more than to assure them it is still made the best it can be. It is open to all, and we think it deserves to be the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FARRES & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honourable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the number of tickets in a lottery, one must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes range from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta,* Mobile *Register,* Charleston *Standard,* Nashville *Gazette,* Atlanta *Intelligencer,* and New York Weekly *Day Book.* Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

Tremont Mills.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding Coffee.)
141 Washington St., Boston.

SUPPLY the best, finest and purest articles, at the *lowest Cash prices!*

Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we append the following scale of prices, viz:

5 lb. Souchong Tea	1 10	5 lb. Java	1 00
5 lb. Oolong do.	1 75	5 lb. Java do.	90
5 lb Y. Hyson do.	2 25	8 lb good do.	1 00

The Spices are put up in ¼ and ½ lb. in cases, expressly for family use, and we warrant them to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, and mixed of this coffee, it is believed, is equal to ⅓ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages having our trade mark, and we feel no reliance on as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of Coffee. The price is 20 centsper pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This article, a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as beets suits the taste, and is a healthy, nourishing and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c., &c.

☞ Be careful to observe that all our *Taraxacum* has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, called Taraxacum, in the market.

☞ *Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to sell large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZED CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with other facilities, I can offer to work of such nature as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a well-sized picture up to Cabinet or even the size of LIFE. This process also I have obtained, so that any one possessing a small picture of a lost friend, or relative, can have a beautiful life-like Photograph executed from it. A. GREGORY.

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, the POCKET ESCULAPIUS, or *Every One His Own Doctor,* by WM. YOUNG, M. D. It is written in plain language for the general reader and is illustrated with upwards of one hundred engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that should be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by forwarding One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below prove that none is HERE PRESUMED OF, AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense and important collection of drawings twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them the early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most competent and faithful practitioners with whom I have had official intercourse.

GREAT ENTERPRISE.—J. W. Sullivan, of San Francisco, the Noisy Carrier, is getting ahead of his rivals. On the arrival of the last steamer, he immediately chartered a steamer for a trip to Sacramento, with a view of carrying up his packages for the interior. By this means papers from all parts of the Union (among the best the Portsmouth Weekly Chronicle) found their way through California twenty-four hours in advance of mails and expresses. It was accomplished at an expense of about $1000.

TYPE FREAKS.—The Lewiston Falls Journal man regrets a typographical blunder in an obituary notice, by which the deceased was made a leading member of the society of *soakers*. It should have been shakers.—*Augusta Age.*

Rather an unlucky mistake, especially as the shakers are generally a temperate people. But the society of "soakers," accidentally mentioned, is a thousand times more numerous than the shakers; though the membership is rarely named in obituaries. Better, perhaps, if such *were* the case.

FATAL SHOOTING AFFAIR.—Solomon Stebbings, of St. Albans, Vt., having rendered himself obnoxious to some of his neighbors, his house was surrounded on the 9th inst. by a gang of men and boys, who commenced breaking his windows, firing guns, &c. In retaliation, Stebbings fired a gun, heavily loaded, into the crowd, fatally wounding a young man named Perley Childs.—Stebbings was arrested and gave bail for trial.

☞ A College of Agriculture has been established by the State of Michigan, on a handsome farm of 700 very productive acres, near the city of Lansing. It has an endowment of $56,000, and in each of the last two years the Legislature has given it $20,000. Students are admitted without fee, but are obliged to labor three hours each day. J. R. Williams, formerly editor of the Toledo Blade, is president.

THE PEACH CROP.—The Philadelphia Bulletin has reports from various parts of Delaware, New Jersey and Pennsylvania, that there is every appearance of the heaviest crop of peaches ever known. In regard to other fruits, the prospect is said to be as favorable, or nearly so.

A LONG RIDE.—A company recently took a train of cars from Memphis to Savannah, a distance of 750 miles, which was performed without change of cars in fifty-two hours.

LINES.

As distant lands beyond the sea,
When friends go thence, draw nigh,
So Heaven itself, through loved ones dead,
Draws nearer from the sky.

And as those lands the dearer grow,
When friends are long away,
So Heaven itself, through loved ones dead,
Grows dearer day by day.

Heaven is not far from those who see
With the pure spirit's sight,
But near, and in the very hearts
Of those who see aright.

CHAPTER I.

AN INTERRUPTED WEDDING.

It was the first of May, the marriage day of the Viscount Montressor of Montressor Castle, Dorsetshire, and Estelle, only daughter and heiress of Sir Parke Morelle, Hyde Hall, Devonshire.

A glorious morning! the cloudless, blue sky smiled down upon the green hills and dewy dales and deep woods of Devon; and the park around the Hall was all alive and musical, with the joyous songs of birds, and the merry laughter of young men and maidens gathering to celebrate their May-day festival, and to do honor to the marriage of their landlord's daughter.

The elm-shaded, winding avenue that led from the highway to the house, was arched at each terminus by a mammoth wreath of flowers, and many were the carriages that passed under them, on their way to assist at the wedding; and these contained only the bridesmaids, and the nearest friends and relatives of the family, whose relationship or position gave them the right to attend the bride to church;—for a still more numerous party had been invited to meet her at the altar. The villagers and tenants, grouped about under the shade of the great old trees, or wandering over the greensward on either side the avenue, watched these equipages as as they rolled on, commenting as usual on such occasions.

'Oh—dear me! the weddingers won't pass till nearly twelve! and here we are to wait two mortal hours!' said a young girl to the game-keeper.

'Hush! my darling, look, here comes his Lordship's carriage itself, just as sure as you are the prettiest lass in the country.'

It *was* Lord Montressor's carriage.

Early that morning a note from his affianced bride had been put in his hands summoning him to a private conference with her in the Hall, before they should proceed to the church. Surprised and filled with vague uneasiness, his lordship lost no time in obeying the behest.

Within the most secluded of her richly furnished apartments at the old Hall, half buried in the depths of a cushioned chair, reclined the bride expectant, in bridal array.

She was alone, her attendants having, by her own desire, withdrawn.

Estelle Morelle—or 'la belle Estelle,' 'Beautiful Stella,' 'the Midnight Star'—as for her resplendent dark beauty, she was poetically named—was at this time twenty-five years of age, and more lovely than a poet's or an artist's ideal. Her form was of medium height, and very slender, though well rounded, with a graceful head, over which fell rich masses of jet-black silken ringlets, shading a face of pure, pale olive complexion with large mournful dark eyes, habitually veiled by the long, drooping lashes, and delicate, though full, curved lips, ever patiently closed as in silent resignation. The prevailing expression of her dark, brilliant countenance was a profound melancholy.

The announcement of Miss Morelle's approaching marriage with the Viscount Montressor had created a profound sensation in the fashionable and aristocratic circles. A peerless beauty, the only child and heiress of the oldest, wealthiest and haughtiest baronet in the West of England, her heart had been as much the object of aspiration to the youthful and ardent, as her hand and fortune had been the end of desire to the mercenary and ambitious.

At the early age of seven years, Estelle had been placed at one of the first-class female institutions of learning at Paris, then as now, considered among the very best of their kind in the world; and there had been left to remain until her sixteenth year, when the sudden and calamitous breaking up of the institution, and her own severe illness had occasioned her removal. *That illness had been attended with marked changes in its constitution and temperament of the young girl.*

Estelle, previously the most careless, light-hearted and capricious of children, left her chamber of convalescence a subdued, thoughtful, melancholy woman! The laughing lips of girlhood closed in patient sadness; the sparkling eyes sheathed their beams under long, shadowy lashes, now seldom lifted;—the silvery, elastic voice sank into deep and thrilling tones; the free, glad motions were measured and controlled.

She never entered another school, but completed her education under the best masters at home. To dissipate what was considered a transient melancholy, her parents travelled with her over Europe, pausing at each capital and chief town, to show her all that was interesting and instructive. But though their daughter repaid their attentions with the sweetest gratitude, and obeyed them with the gentlest docility, she showed no interest in the passing scenes. And though everywhere her extreme beauty and sweetest of disposition, not less than her fortune and position, drew around her many friends and admirers, Estelle remained alone in her isolated tho'ts and feelings. Every most distinguished physician in Europe had been consulted on her case, and the result of their wisdom was a decision that this melancholy was not the effect of ill health, still less of secret sorrow, but that it was a constitutional phase that would probably pass away with maturing years.

They returned to England, presented their daughter at court, and introduced her into all the gaieties of fashionable life. And hence the happy effect upon the spirits of Estelle, who remained profoundly unmoved amid the *eclat* that greeted her *debut*. Her picturesque beauty was the theme of all tongues—her mournful glance was fascinating—her deep tone thrilling—her touch magnetic; all felt her power, yet she who could move all others was herself unimpressed. She who sought no conquests, for that very reason perhaps, made many. A peer and two commoners, in succession, laid their fortunes at her feet, and were in turn kindly and firmly rejected.

So passed her first season in London, at the close of which her parents took her down to their seat in Devonshire. Here, in her thoughtful, quiet, unostentatious manner, she engaged in works of benevolence among the villagers and the tenantry. And her father, hoping much from this employment, gave her full liberty of action, and smiled to see that she seemed less pensive than before.

At the beginning of the parliamentary term the family went up to London.

And it was here in her second season in town that Estelle formed the acquaintance of Lord Montressor, a young nobleman but lately acceded to his titles and estates, but already known as a man of the most high-toned moral and intellectual excellence, as a righteous as well as a rising statesman, and as one, who, in the event of a change of ministry, would be likely to fill a high official position in His Majesty's cabinet. Aside from the glare of rank and wealth and power, Charles Montressor was a glorious specimen of the Creator's workmanship. Above the average standard of height among his peers, a broad-shouldered and deep-chested, with a noble head, and a face full of wisdom and goodness, his appearance truly indicated the warm benevolence, clear intelligence, and pure spirit of the man. His presence soon inspired Estelle with a faith that she had not been able to feel in any other that approached her. He drew nearer to her than any other had been permitted to come; he crossed the magic circle of her isolation, and conversed with her as no other had been allowed to do. The world looked and said that the beautiful Stella had at last met her master and was conquered.

At this stage of affairs, the parliamentary term being over, Sir Parke Morelle and his family left London for Hyde Hall.

Lord Montressor asked and received permission to follow them, and in less than a month availed himself of the privilege to do so. Thus it was in the home of her ancestors, after having obtained the cordial sanction of her parents, and believing himself sure of the affections of their daughter, Lord Montressor offered his heart and hand to the lovely Estelle, and was to his profound astonishment instantly and firmly refused! In thus rejecting his suit she wept long and bitterly, praying his forgiveness, that the happiness she had experienced and exhibited in his society should have betrayed him into making this declaration, and beseeching him never to renew his suit; but to leave and forget her.—There was something in the tone of her refusal which confirmed and deepened his previous conviction that—even in rejecting him—she loved him! But with his high-toned sentiments he would not in the least degree presume upon that knowledge. Taking her hand with deferential tenderness, he said—

'Stella! a man never but once, in his whole existence, loves a woman as I love you! I will not inquire the cause of the rejection, which you have certainly a right to make without assigning any reason for the act. And after having received this repulse, I may not distress you by a renewal of my suit. But this, in parting, I must say to you—that, though I go hence, I shall not go out of the reach of your friends; I shall never address another woman; so if ever in the course of future weeks, or months, or years, however long, you may think proper to review the decision of this evening, Stella, I implore you to let me know! Write but one word, 'Come,' and I will return to lay an unchanged heart at your feet!'

Estelle was weeping too bitterly to reply.

'Lord Montressor, best and dearest friend! do not seek to bind yourself to one who can give you nothing in return! Try to think of the melancholy girl that you have pitied and loved—only as a shadow that fell for a moment across the sunshine of your path, and then passed away forever!—and so forget her!'

'Stell! I have pledged my honor never to renew this suit, unless you reverse in my favor the sentence you have pronounced upon it; but, inspired by the fond and deathless love I bear you, and 'hoping against hope,' I feel impelled to implore before leaving you, that, in the event of a favorable change of sentiment or purpose towards me, you will not hesitate to give me leave to return. Stella, will you promise me so much as that?'

'Noblest friend that I have in the world!—how gladly would I promise, but I must not, Montressor. Were I to do so, you would feel bound to wait the changes of my mood, and so, for a most undeserving love, might miss, in some nobler woman's affections, the happiness in store for you!'

'Stella, will you raise your sweet, mournful eyes to mine, one moment, that you may read my soul while I speak?'

Estelle lifted her dark orbs to meet the clear, pure, blue eyes bent with so much love and candor upon hers, and read the deep, unchanging truth of the constancy of his soul as he said—

'Stella, in the presence of the heart-searching God who sees and hears me, I assure you that I shall never love another woman as I love you, and, therefore, of course, can never wed another; so that whether you give me this slightest of hopes or not, I am equally and forever bound! *Now* will you promise, Stella? Remember, it is only to let me know in case of a change in your sentiments."

For an instant the light of an unutterable love and joy broke on her beautiful, dark face, and her smiling lips parted to speak—when—as if a sudden memory and warning had gripped her very heart—she uttered a low, sharp cry, turned paler than before, and then said—

'No! no! my Lord! Stella cannot even give you that! She is poorer than the poorest, in gifts to you! She can only pray that you may forget her and be happy.'

He looked profoundly disappointed and troubled. But soon mastering his despondency he said hopefully—

'Well, dearest Stella, although you reject me without apparent reason, and refuse to give me the slightest promise or the most distant hope, yet *I repeat*—should you in the long future, change your purpose, and write to me one word,—'Come,' I will hasten to lay at your feet, an unchanged heart! Good bye! God be with you!' and raising her hand, he bowed over it, pressed it to his lips, turned and left the room.

Some moments after, Lady Morelle, who came to seek and congratulate her daughter upon what she imagined to be the only possible result of the interview—found Estelle lying upon the floor! It was followed by a long and terrible illness, terminating in a tediously protracted convalescence. The town season was at hand before Estelle was able to re-enter society.

They went up to London, and once more the 'star of beauty' arose upon the world. And though the cloud upon her life settled darker and heavier, day by day, she was more followed, flattered and courted than before.

Thus three years had passed away, when one morning, while the family, then occupying their town house in Berkely Square, were seated at a late breakfast, and Sir Parke was engaged in *reading aloud from the London Times on account of the saving of the French ship—Le Duc D' Anjou—wrecked off the coast of Algiers—Estelle uttered a low cry and sank fainting from her seat.*

This attack was not, as the other had been, followed by illness; on the contrary, from that day, the cloud seemed lifted from her head, and even those who had admired her face in its shadow, were enchanted to see how brilliant was her beauty in the sunshine! Her health and spirits daily improved, yet in the midst of all this flowing tide of new life, Estelle astonished her friends by suddenly, in the height of the London season, retiring to her father's country seat, where she remained in strict seclusion from the world for eighteen months.

At the end of this period, Lord Montressor, who had never left England, or lost trace of his beloved Stella, and who was now staying at his castle in Dorsetshire, was one day seated at table, when the morning mail was brought him. Among a score of letters, the first that attracted his attention was a dainty white envelope superscribed in a delicate handwriting. He took that up first and opened it—it contained but one word—'COME.'

The light of an ineffable joy broke over his face! Oh! he had waited, patiently, hopefully, years, for that word, and at last he received it! Thanks to heaven in the first instance! and then pushing all the other letters unopened aside, he sprung up, rang for his valet, and ordered his valise packed, and horses put to the carriage.

In twenty more minutes he had reached the railway station just as the cars were about to start, and in three hours he was at Hyde Hall and standing in the presence of Estelle!—she looking so beautiful and happy!

With the old chivalric enthusiasm of devotion, he dropped at once, upon his knee, and raised her hand to his, saying—

'For four years, I have hoped and waited for one word from you, and at last, beloved, you have written—'Come," and I am at your feet, as I said, with an unchanged heart!'

'But I,' she said, deeply blushing, while she held both hands to raise him, 'I, my lord, have not an unchanged heart! more than four years I have loved you more than woman's tongue may tell—and never more, than at the hour in which we bade farewell, as I thought, forever!'

'I know it, beloved! knew it *then!* know it *always!* I never doubted it! Could I be deceived in the dear heart of the woman I loved! No! and that was the secret of my patience?' he replied, taking his seat on the sofa by her side.

'And yet you never inquired, and do not even now inquire, why, without explanation and without hope, I sent you from my presence, and why now, without apparent reason, I summon you back!' she said, as a shade of the old sadness fell upon her beautiful face.

'Your motives, dearest, were, and are your own. Not until your spirit moves you to do so, shall you give them to me! I have full confidence in you, beautiful Stella!'

'*Confidence!* O my God!' she exclaimed in a low, deep, thrilling voice.

'Why, what is the matter, dearest?'

She looked up suddenly, a smile of worshipping love, breaking like sunlight over her dark face, and said—

'Nothing, nothing, my lord! but that all your thoughts and feelings are so elevated beyond poor Estelle's! And yet she would almost choose it so! for could she be an angel, she would wish you to be something far higher—a god!'

'Sweet enthusiast! moderate your aspirations, or the world and its people will disappoint you! be not an idolater; worship only God, my Stella.

Such was their meeting!

Yet, occasionally, throughout the interview, a sudden shadow like the recurrence of a painful thought would fall upon her bright face and then pass as it came.

They were engaged, and within a few days the marriage was announced to take place on the first of May.

But it was observed by the nearest friends of the bride, that from the day of her betrothal, her spirits had been marked by the strangest fluctuations. Sometimes with her beautiful dark face illumed with a deep, still almost religious joy, she moved about, as it were, on 'winged feet,' or sat brooding in a happy trance. At other times, she fell into deep gloom and anxiety, as inexplicable, as it was alarming to her friends, who greatly feared her relapse into the deep melancholy that had so long overshadowed her, and that they had grown to dread as a serious constitutional malady. But they hoped everything from her approaching marriage with the man she loved. Lord Montressor observed with the deepest interest the uncertain moods of his betrothed; but with the high-toned sentiments that distinguished him, refrained from inquiring, and awaited hir voluntary revelation.

At last the first of May, the marriage day, upon which I have presented the parties to the reader, arrived, and all the *haut ton*, as I have said, were gathered at the Hall or at the Church to do honor to the solemnities.

And the expectant bride, in her bridal robe and veil, waited within her boudoir the arrival of the bridegroom, whom she had summoned to a private interview before they should proceed to the church. She had not long to wait. He who quickly responded to her slightest inclination, immediately obeyed her call.

Yet when she heard his firm elastic step approaching.

'Now God have mercy on me!' she prayed, and covered her face with her hands.

He entered, unannounced, and saying,

'My beautiful Stella! I am here, you perceive, by your commands!'

She dropped her hands, and revealing a face pale with misery, spoke in a thrilling, deep, impassioned tone—

'You are here by my *supplication*, my lord! I have no right to command.'

'We will waive that! What is your will my dearest Stella?'

'My *prayer*, my lord—is first, for your forgiveness.'

'*Forgiveness?*—my Stella!'

'Ay! my dear lord! you see me before you a penitent and a suppliant, who may soon be something far more wretched!'

'My Stella! what mean you?'

'Come to the window, Lord Montressor!' she said, rising and preceding him. 'Look out,' she continued, putting aside the rose colored hangings, and revealing a view of the park below, alive with its restless multitude. 'What are all these people waiting for, my lord?'

'What are they waiting for, my Stella?—for that, for which I also wait, with how much more impatience!' he answered, while a deep flush of love and joy, for an instant, supplanted the anxiety on his face.

'They wait to see a bride pass, where a bride may never go!' she said, in a solemn voice.

'Stella! great Heaven! what say you!' he exclaimed, gazing on her with profound astonishment.

'That the bride they expect is unworthy to stand before God's holy altar beside Lord Montressor!'

'Unworthy, Stella! You!'

'*Most unworthy*, my lord!' she said, dropping her arms, and dropping her head in an attitude of the deepest misery. 'I should have made this confession long ago, Lord Montressor; but I have deceived you!'

'In what respect, Stella? My God! It cannot be! No, it cannot be! that while betrothed to me, you do not love me!'

'*Not love you! Oh my dear Lord!*' she murmured, in a voice of thrilling tenderness that carried conviction of her truth to his deepest heart.

'What mean you then, dearest one? if indeed you retain my deep love.'

'Oh! I do, I do, Montressor; whatever happens, wherever you go, take that assur, ance with you! I love you my lord! shall ever love you, even though even after what I shall have told you, you repulse and hate me and go to our friends and say—'That woman whom I was about to wed, is but a whited sepulchre, whom I have proved, and whom I now reject'—and so leave me to the scorn of men, still I say—ever shall say—I love you, Lord Montressor! I love you, and the consciousness of being unworthy of your love is the bitterest element in my punishment,' she said, in a voice of such profound misery, that Lord Montressor could scarcely continue to beleive her, agitation unfounded or exaggerated.

He dropped upon a seat, and sitting still and white as a carved image of stone, gazing upon her, waiting her further communication.

The above is all of this beautiful and highly interesting story that will be published in our columns. We give this as a sample.—The continuation of it can be only found in the New York Ledger, the great family weekly paper, for which the most popular writers in the country contribute, and which can be found at all the stores throughout the city and country, where papers are sold. Remember to ask for the New York Ledger of May 30, and in it you will get the continuation of the story from where it leaves off here. If you cannot get a copy at any news office, the publisher of the Ledger will mail you a copy on receipt of five cents. Fanny Fern writes only for the New York Ledger; Sylvanus Cobb, Jr., writes only for it; Emerson Bennett writes only for it; and nearly all the eminent writers in the country, such as Mrs. Sigourney, Mrs. Emma D. Morning Chronicle.

THURSDAY, MAY 21. 1857.

THE MEXICAN CLERGY AS REFORMERS.—Accounts from Mexico, to April 26th, say that the great struggle between the civil and ecclesiastical powers, has taken an entirely new turn, the Archbishop, to the surprise of everybody, having left President Comonfort far behind in the work of church reform. The occasion was a decree of the Government which revived an ancient law, providing in certain cases for religious services to the poor, free of charge. So far from resisting it, the Archbishop immediately issued a formal circular letter, not only confirming the law, but in effect making the priesthood dependent upon voluntary contributions, instead of compulsory dues, imposed by the civil authority. The Extraordinary says:

"This will do more towards securing a pure and beneficient ministration of religion in Mexico, and towards advancing the civil and political welfare of the country, than, perhaps, any measure that could be adopted."

The circular, however, created a rebellion in the church. The curates in a body have refused to obey its commands, and have resigned their charges, to avoid complying with it.

WEALTH OF THE JEWS—The French correspondent of the New York Times says "some one has made a singular calculation in regard to the Jews in Paris. In sharing among the entire Hebrew population of the city the total fortune of all the bankers, capitalists, negociants, merchants, &c., belonging to the great Jew family, each of the children of Israel would have an annual income of about $2500. The same calculation was made for the Christian population, and it was found, that in case of an equal distribution, the annual income of each individual would be only $60.

LAW.—The Boston Journal says that Judge Sanger has been meteing out the law in its full force to a number of liquor sellers convicted at the present term of the Court of Common Pleas in Norfolk county. Nine of them were sentenced to the House of Correction for terms ranging from 150 days to a full year—besides paying the customary fines and costs. Nearly every House of Correction in the State, with the exception of the one in Suffolk county, contains prisoners serving out the penalties attached to a violation of the liquor law.

MUNICIPAL COURT, BOSTON: — William Jennings was convicted of an attempt to kill officer Sawyer, in the House of Correction, whom he wounded in the neck with a shoe knife. He had confessed that he intended to kill the officer, in revenge for having had his bed taken from him one night, and being deprived of one meal,—punishments inflicted for making signs to a fellow prisoner in the bath-room. Sentenced to ten years in the State Prison.

His trial occupied ten minutes.

THE REMOVAL OF JUDGE LORING.—The address to the Governor of Massachusetts, requesting the removal of the Hon. E. G. Loring from the office of Probate Judge, in consequence of his action in the Burns rendition case, passed the House of Representatives Wednesday forenoon by the strong vote of 210 against 69.

☞ The Spiritualists of Manchester are divided into two "circles"—the Penetralian and the Mystic. Last Sunday evening the leading speaker at the Mystic circle spoke upon the "three cardinal points of sins," viz., the Clergy, Lawyers, and Doctors.

A FAST MILE.—A mile race has just been run in Manchester, England, by two men named John Saville and John Syddall, in *four minutes and thirty-six seconds*. Saville was the winner by ten yards.

Dudley Dexter was drowned at Bethlehem, N. H., on Tuesday, by the caving in of the bank of the stream on which he was standing.

THE BEGINNING AND END.—"How strange it is,—that all our lives should begin with a *lying in*, and end with a *laying out!*"

UNPLEASANT MONDAYS.—The Springfield Republican says the 18th was the first fair Monday they have had in that region for twenty consecutive weeks.

☞ There is to be a Temperance Convention in Portland on the 18th of June, by the Sons of Temperance.

☞ Hon. John S. Wells declines running a third time for Governor of New Hampshire.

IMPORTANT ARREST IN NEW YORK.—From a telegraphic despatch received from Boston, officer Bowyer, of the Chief's office in New York, arrested a man named James Haley, on Thursday night, on a charge of larceny from Jones, Shreve, Brown & Co. of Boston.

Haley has been employed for three years, as porter in the establishment, and was discharged from his situation some time ago, in consequence of the firm having suspicions that some one was robbing them, although they could not directly accuse him.

Haley and his wife having been intemperate, and have frequently quarrelled, and from this, the police found it necessary to arrest the wife last week, at her residence in Washington Village. From information given by her, the house was searched, and a portion of the property missed from his former employers' stock was found. This led to further investigation, and the telegraphic despatch for the arrest of Haley. On searching him, a valuable gold watch and other property of Jones & Co. was found.

The amount stolen from the firm cannot at the present time be estimated, but it is very large undoubtedly.

Haley had a considerable sum of money deposited to his credit in the bank, which he drew out previous to his leaving for New York.

☞ According to an address just published by forty-two Democratic members of the late Legislature of New York, the canals of that State are no longer a source of revenue, and are now unable to sustain the immense burden of debt, which improvident legislation has cast upon them. The total State debt on the 1st of January, 1857, was over $31,000,000, and with the amount chargeable on the canal revenues, $36,000,000.

☞ The fishing business has well nigh died out in Yarmouth, Mass. Not more than two or three vessels have been sent from that port the present season, where formerly twenty or thirty sail were employed. The citizens have turned their attention to foreign commerce, or the coasting and packeting business.

☞ Mr. Charles L. Spinney, of Eliot, fell from the royal yard of ship Antelope, 130 feet, at New Haven, Connecticut, on the 14th, and died on Tuesday, having survived the accident five days. What is very remarkable, in consideration of the great height from which he fell, is that not a bone was broken, his death being caused by the rupture of a blood vessel in his head, which produced inflammation of the brain.

BLANK CARTRIDGES.—We perceive, by reading a particular account of the mob which overawed the Jailer and Police at Louisville, that the police force in the jail fired blank cartridges to disperse the mob, some time before the final attack. No wonder the mob prevailed. The *first* discharge was made in Paris with ball, well aimed, by General Napoleon Bonaparte. Afterwards, when they began to run, Bona. chased them with blank cartridges.

DR. GALE PROSCRIBED.—The public are aware that there is a *free negro school* in the city of Washington.—Among the trustees is Dr. L. D. Gale, who is the oldest examiner in the Patent Office, with a salary of $2500. This office, he has been obliged to resign, in order to avoid removal, because he is trustee of the negro school!—The Traveller remarks:

The Buchanan administration thus announces to the world that it will not allow free colored children to be educated, if it can prevent it, in the capital of the nation, a place bearing the name of Washington! If an office-holder there shall be so much an enemy of Democracy, as to labor for the spread of knowledge among men, he must be removed. Perhaps he ought to hold himself fortunate if he is allowed to escape from the capital of the "land of the free" with his life, after having thus offended against the great Democratic principle, that heaven made one branch of the human family to be slaves; whence it follows that to remove the surest protection to slavery, ignorance, or to labor for its removal, is a species of practical blasphemy. Did not the chivalrous State of Virginia lately imprison a woman for teaching colored children how to read? And if a woman can thus be treated, what ought to be the punishment of a man guilty of the same offence against slavery?

This attempt to destroy this school for free colored children in the District of Columbia, will excite peculiar indignation in Boston; for, but a few days ago, our liberal citizens interested themselves in its success, as a deserving and not contraband charity, and contributed handsomely to its sustenance. But it is *doomed*, and will be *crushed out*, at the demand of intolerant slavery.

☞ Samuel W. Sargent has been arrested in Manchester, N. H., for Adultery. Perhaps it may turn out to be bigamy.—Sargent is a shoemaker, about 30 years old.

☞ There was issued, several days ago, to Mrs. Mary Elizabeth Bliss, widow of Col. W. W. S. Bliss, and daughter of Gen. Taylor, a warrant of 160 acres of land, on account of the services of her husband.

☞ In the eastern division of Tennessee, the scarcity of food for man or beast, it is said, is absolutely distressing at present, and promising to become worse. The farmers have no corn or rough feed, the hogs have perished from starvation, and the cattle are dying rapidly.

NO PLANTATION.—The Manchester American don't believe a word about the $96,000 subscribed at Vicksburg for a plantation for President Pierce. It styles the talk a farce, and the pretense a humbug. Nothing more likely.

A BLACK MARK.—The N. H. Patriot says of our Democratic New Hampshire;

The black republican majority for Railroad Commissioner is 3101, and for members of Congress 3152.

This looks something like a fixed fact.

☞ The reports of fifteen of the principal religious and philanthropic societies, made at the New York anniversaries last week, show a total receipt during the year of $1,278,328, and an expenditure of $1,310,049.

☞ The Brooklyn, N. Y., cars commenced Sunday trips on the 17th, and after 11 o'clock in the day were crowded inside and out till evening, particularly the Greenwood Cemetery cars, the tops of which even were covered with passengers.

SPECIAL NOTICES.

Colic, Flatulency, Nervous affections, Green Stools, Restlessness, and all diseases incident to weaning and teething, cured by the use of Lawrence's Carminative.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; no wonder such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No. 12 Market street,—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Jarookah's Italian Balsamic Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose veracity cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it has saved the lives of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

General Agents in Boston, BURR, FOSTER & HOWARD, Wholesale; Retail Agent, J. RUSSELL SPALDING, 24 Tremont street, opp. Museum.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

S. D. & W. H. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys are brought together at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that can from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen. In short, we will promise our instruments an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Ellis.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This offer is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOCAL.

FOURTH OF JULY.—The question now is, whether we are to *have* any "Fourth," this year,—or whether it is to go by default, as has been the case for the past three years. The people generally, we believe, are in favor of having a good show this time, at home, instead of going abroad. We certainly hope our City Fathers will appropriate at least $500 for a Celebration; and have no doubt the citizens generally will commend such a course, and take hold in earnest to carry out the object.

☞ We learn that H. F. Wendell, Esq., has presented the Boys' High School in this city, a fine portrait of Franklin, painted in oil, and with heavy gilt frame—a splendid picture, and a costly and most appropriate gift.

With their new and beautiful rooms, their excellent teachers, and the repeated evidences of public consideration the High Schools are receiving, may we not expect the scholars so favored, to emulate the example set them by the practical philosopher whose likeness will now be continually before them?

NEW YORK, May 19.—Ex-President Pierce and family arrived in the city today, stopping with Ex-Senator Fish.

The Police Troubles.—District Attorney Hall has issued a card this evening, stating that he has reliable information to the effect that in consequence of the present disorganized state of police, attempts of an organized nature are about to be made to commit burglaries in the city, and he calls upon the citizens to stengthen the private watch, and take other precautions. From present appearances there seems to be a likelihood of collisions between the two police organizations, both in this city and Brooklyn. The Mayor of Brooklyn repudiates the action of the Chief Police there, who has acknowledged the authority of the new Commissioners. The Mayor threatens to assume the command of the Police himself, and use force, if necessary.

REMOVAL.—Mr. James M. Stevens, a member of the Common Council from Ward Three, has been removed from a clerkship in the Boston Post Office.—*Bee.*

We can say of Mr. Stevens that a more capable, efficient, and energetic man, and a more faithful and consistent Democrat is not to be found in Boston. He is a worthy and influential member of the Common Council, and has hosts of friends in the Ward he represents. The *grounds* for his unexpected removal from the Post office, we have not learned, and we are at a loss to understand what mighty reasons—for they certainly ought to have been such,—counseled the step that has been taken by the Postmaster. We are satisfied that the Democratic party of Boston, do not, and never will countenance the movement.—*Ledger.*

DISASTROUS FIRE.—Some few days since, a most disastrous fire occurred in Newbury, this State. The property destroyed belonged to Joseph Bean, Esq., (a brother of Mr. James M. Bean of this city,) and consisted of a new dwelling house, barn, woodshed, and all the outer buildings attached to the house and barn, two horses, two cows, two four years old heifers and some six other young cattle, twelve sheep, and all the farming tools, provisions, wearing apparel, and everything except a small portion of their parlor furniture.—Mr. Bean and family were away when the fire first broke out, and they were apprised of the intelligence by a most singular occurrence.—Mrs. Bean was visiting at one of the neighbors, about half a mile distant, and Mr. Bean was attending a school meeting. One of the horses tied with a halter, as soon as the halter was burned off, rushed from the stable, and ran to the house where Mrs. Bean was stopping, and neighed. She exclaimed at once, that was like the neighing of their horse, and rushed to the door, when she saw the buildings in a blaze. The loss is estimated at $2000. No insurance.—*Manchester American.*

VILLAINOUS.—Some nefarious rascal lately entered the room of the District Judge, and carried off sundry shirts and a tooth-brush. That's robbing Justice of its robes. We hope the vile thief will meet with the condignest punishment, for we have a strong suspicon that some of those shirts were ours.—*Nevada (Cal.) Journal.*

THE WASHINGTON POISON CASE.—We have seen a letter from a physician of Washington, dated last Saturday, which mentions that workmen employed in the open air, in cleansing the outlet of the National Hotel sewer into the canal, were made violently sick. This confirms Dr. Charles T. Jackson's theory of the cause of the malady at the National Hotel.—*Boston Trans.*

There is an older citizen than Peter Nassau, Pomfret, Vt, in Wisconsin. He is called "Old Crele," and was born in Montreal 130 years ago. His memory is distinct for a period of 117 years. He was married at New Orleans a century ago, and now resides with one of his grand-children, who is upwards of sixty years of age. He is still hale and hearty, and does not appear to be over 70.

☞ Alderman Edward Ward, of Charlestown, Mass., has absconded, with $15,000 or $20,000, belonging to his partner in trade, and others. His family have all disappeared.

THE GOVERNORSHIP OF UTAH.—*Washington, May 19.*—A member of the Cabinet to-day, received a telegraphic despatch from Major McCulloch, declining the Governorship of Utah. He, however, expects to reach this city in the course of ten days. It is not true that Judge Drummond has been offered the appointment, but this afternoon a telegraphic despatch was sent to a Western man, whose name is officially concealed for the present, tendering it to him.

Recent information has caused a change in the policy hitherto contemplated, the condition of Utah now being such as to require vigorous measures. Troops in large numbers, will be sent thither, probably under command of Gen. Harney. The administration is anxious to at once act in this important matter, especially in view of the late obstruction to judicial proceedings, and accounts frequently received, relative to the oppressions by the Mormons of those who do not belong to their fraternity.

Pension Frauds.—Much excitement has existed for several days past in the Pension Bureau, in consequence of the alleged discovery of extensive frauds. Commissioner Whiting, after close investigation, found no proofs of venality, but discovered that a clerk therein had extended undue facilities to an agent for claims, some of which were improperly allowed, and required the clerk to resign his office.

WASHINGTON, May 19.—A letter from Mr. Dennison, Indian agent, represents the accounts of Pawnee depredations to be much exaggerated. These Indians, 3 or 4000 in number, are in a starving condition, and retaliated upon the whites for supposed wrongs. In the council which Denison held with them, they did not deny that some young men of their tribe were guilty of misdemeanors, but none of so serious a nature as to warrant the whites in taking the life of one of their chiefs. They said they were willing to make a treaty, to be placed on an equal footing with the Otoes, Missourians and Omahas.

Algernon S. Garnett, of Virginia, has been appointed an assistant surgeon, and Charles A. Davis, chaplain in the navy.

TOLEDO, May 19.—The elevators and grain ware-houses of the Toledo, Wabash and Western Railroad Company were destroyed by fire this morning. Loss $40,000; insured $20,000.

LOUISVILLE, May 19.—A meeting of citizens was held at the Court House to-day, against mob law. Andrew Monroe presided. Resolutions were passed in favor of supporting the civil authorities, and to enforce the laws.

☞ You can't stop them—and what 's the use to try? For while they continue to open the prettiest and latest style of goods in town, at *Allen & Paine's New Store*, the ladies will rush to see them, and it 's no use to try to stop them.

They have returned from Boston to-day, and are opening some *splendid new goods* for *warm weather.* For further particulars we refer you to their advertisement.

TO THE CITIZENS OF THE UNITED STATES
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simille of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

BUCKTOWN CHAIR FOR THE PRESIDENT.—The San Francisco Herald notices the arrival in that city of Seth Kinman, a hunter from Humboldt county, en route to Washington, with a curiosity in the shape of a chair made entirely of elk antlers, and designed as a present to Mr. Buchanan. The chair is very ingeniously and handsomely put together. The seat is of white buckskin, prepared expressly for it by the maker.

LYNN AQUEDUCT.—A bill is before the legislature to incorporate the Lynn Water Works with a capital of $250,000, and to hold real estate not exceeding $40,000, to supply that city with pure water from Humphrey's Pond, (Suntaug Lake,) in Lynnfield. This beautiful sheet of water affords a copious supply of the best of water, and is 108 feet higher than Lynn Common, so that it would carry water to the upper stories of their houses. Some years since surveys were made with the idea of supplying Salem from this source.—*Obs.*

☞ An aqueduct company, in Chelsea, Mass., propose to bring the water of Spot Pond, in Stoneham, through Malden and Charlestown to Chelsea. It is excellent water.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read the Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any human being ever had, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my family and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their rapid killing action on the liver is equalled by the consequents by they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured his child, two others of your Pills, which others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be "good for something."

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Hines, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HINES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cleared my little child of a form of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples upon her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should do injustice to my feelings if your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were startling and decisive. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 2 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease which had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are decidedly the best and most efficacious.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures are known. Its complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumption it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the incurable disease that fastened on the whole vital system like a vampire. All know the dreadful fatality of lung disorders, and all they know too the virtues of this remedy. We need not dwelling on them here. It is still made the best it can be. We spare no cost, care, nor toil to produce the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which E. FRANCK & Co are the managers, are drawn in the City of Baltimore under a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact worth the consideration of adventurers is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. The lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets vary from $1 to $100. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and 7 rotary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Patriot, Patriot, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at the lowest prices. Their Stock consists of

Teas, Coffees, Chocolates,
Allspice, Pepper, Mustard, Ginger, Cayenne
Pepper, Cloves, Cinnamon, Cloves, Cream
Tartar; Taraxacum, or
Prepared Dandelion Root,
&c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea, 1 50 | 5 lb. Mocha Coffee, 1 00
5 lb. Oolong do. 1 75 | 5 lb. Java do. 80
5 lb Y. Hyson do. 2 25 | 8 lb good do. 1 00

☞ The Spices are put up in ¼ and ½ lb. tin cans, expressly for family use, and are warranted to be strictly pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee,*" may be relied upon as the best article extant. The prepared Root is about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, is not mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c., &c.

☞ Be careful to observe that all our *Taraxacum* has our trade mark, "*Chinaman grinding Coffee,*" as many imitations of our article, *called* Taraxacum, in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices, as compared with those of any other house.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $1, halves, 50, quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to parties interested.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Dog Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters pertaining to the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of their inventions, decidedly, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AT THIS PATENT OFFICE THAN THE PRESENT, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that his charges for the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty-three years, has enabled him to make a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full models of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring gentlemen that they may safely employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner of Patents.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.
THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st Premiums have been awarded it, including the Grand 1st Class Silver Medal at the WORLD'S FAIR, PARIS, 1856.
With the two past years' experience, we have been enabled to make a number of very important improvements. We find New England farmers require a different Machine from other sections; the fields generally being small. It must be light, at the same time possess great strength; portable, with facilities to raise the cutters to pass obstructions, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to cut in the grass standing, easily adjusted to cut high or low, and have a feed to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.
With this knowledge of the farmers' requirements, and with the determination to build a perfect Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.
☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.
Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

FRIDAY, MAY 22, 1857.

THE DECISION.

At last, we have a full length, official copy of Judge Taney's Opinion, in the Dred Scott case, delivered at the time when that case was decided.

The only real decision is in the following words, viz :—

Upon the whole, therefore, it is the judgment of this court, that it appears by the record before us, that the plaintiff in error, is *not a citizen of Missouri*, in the sense in which that word is used in the Constitution; and that the Circuit Court of the United States, for that reason, had *no jurisdiction* in the case, and could give *no judgment* in it. Its judgment for the defendant must, consequently, be reversed, and a mandate issued, directing the suit to be dismissed *for want of jurisdiction*.

This, we repeat, is the only decision made; and this was made by a mere majority of the judges, while a very respectable minority dissented from it.

The opinion of Judge Taney, which occupies 13 columns of the Boston Courier, in small type, is just so much special pleading against liberty, and for Slavery.

So far as we have ever seen, it has nowhere been asserted, that a majority of the judges agreed with Mr. Taney, on any of the points on which they make *the decision* we have copied above. Some of them agreed to one, and some to another.

Now as to the manner of the Taney opinion. It is written by an old lawyer, who was jumped into the place of Chief Justice, over the heads of better lawyers and better men, as the reward of man worship, and especially, of giving a legal opinion, in favor of an illegal act. His opinion is almost equally an outrage on history and on humanity.

Let us look at a few extracts from Judge Taney, with some notes.

Judge Taney.—4.—A free negro of the African race, whose ancestors were brought to this country, and sold as slaves; is not a citizen within the meaning of the Constitution of the United States.

Uncle Toby.—What makes you think so?

Judge T.—5. When the Constitution was adopted, they were not regarded in any of the states as members of the community which constituted the state, and were not numbered among its "people or citizens."

6. The only two clauses in the Constitution which point to this race, treat them as persons whom it was *morally* lawful to deal in as articles of property and to hold as slaves.'

Uncle T.—Your statement in No. 4, we see, depends entirely on the truth of No. 5.—Now No. 5 is notoriously a falsehood; for there were negro citizens in New Hampshire when the Federal Constitution was adopted. What you mean by *morally lawful* in No. 6, is beyond all comprehension. The word morally must have slipped in there somehow by a blunder, because you tell us in another place,—

It is not the province of the court to decide upon the *justice* or *injustice*, the *policy* or *impolicy*, of *these laws*. The decision of that question belonged to the political or law-making power; to those who formed the sovereignty and framed the Constitution.

Uncle T.—You see, here, contradictions! The question you discuss, is not moral at all,—but legal.

Judge T.—In discussing this question, we must not confound the rights of *citizenship* which a state may confer within its *own limits*, and the rights of citizenship as a *member* of the *Union*. It does not by any means follow, because he has all the rights and privileges of a citizen of a state, that he must be a citizen of the United States. He may have all the rights and privileges of the citizen of a *state*, and yet not be entitled to the rights and privileges of a *citizen* in any *other* state.

Uncle T.—Is this law? or gospel?—It is certainly not Constitutional. Listen now to what George Washington, John Langdon, Nicholas Gilman, and other men of the Revolution, said in 1787.

Constitution.—Art 4. Sec. 2.—The Citizens of each *State*, shall be entitled to *all privileges*, and immunities of citizens in the *several* States.

Judge T.—9.—The change in public opinion and feeling, in relation to the African race, which has taken place since the adoption of the Constitution, cannot change its construction and meaning, and it must be construed and administered now according to its true meaning and intention when it was formed and adopted.

Uncle T.—Exactly so; but you violate this principle at every step in your opinion or argument.

Judge T.—It will be observed, that the plea applies to that class of persons *only*, whose ancestors were negroes of the African race, and imported into this country, and *sold* and held as slaves.

Uncle T.—Then you ground your whole *plea* on the African slave trade, which now stands on our Statute Book, as *piracy*.—On such a rotten foundation stands your miserable plea for slavery.

Judge T.—The situation of this population was unlike that of the *Indian* race. The latter, it is true, formed *no part* of the colonial *communities*, and never amalgamated with them in social connections or in government. But, although they were uncivilized, they were yet a free and independent people, associated together in nations or tribes, and governed by their own laws. * * * But they may, without doubt, like the subjects of any other foreign government, be naturalized by the authority of Congress, and become the citizens of a State, and of the United States; and if an individual should leave his nation or tribe, and take up his abode among the white population, he would be entitled to the rights and privileges which would belong to an emigrant from any other foreign people.

Uncle T.—On this ground, the negroes of the Amistad, might be citizens,—a negro from Hayti, Brazil, Cuba or Cape Palmas, might be a citizen—but not the descendant to a thousand generations, of a negro who was stolen from Africa, and sold in this country.—And this is Taney law, is it? Indeed there may come changes,—and we trust there will come, which will sweep such law and logic, such history and such morals, into the same receptacle where now repose "the trial by battel" the hanging of witches, and the burning of heretics, all under the form of law,—but all against Justice, Mercy, and Common Sense.

THE OFFICIAL VOTE.—The Governor and Council were in session last week at Concord, all present except Councillor Dame of this district, who had gone to Kansas. The votes for members of Congress were counted and officially declared, as follows:—

District 1.—James Pike (Republican,) 12,242; G. W. Kittredge (Democratic,) 11,206; Scattering, 273; majority for Pike, 768.

District 2.—M. W. Tappan (Republican,) 10,685; G. W. Morrison (Democratic,) 9,180; scattering, 47; majority for Tappan, 1,458.

District 3.—A. H. Cragin (Republican,) 10,692; W. P. Wheeler, (Democratic,) 9,686; scattering, 75; majority for Cragin, 931.

Totals.—Whole Republican vote, 33,619; whole democratic vote, 30,072; whole scattering vote, 395; Republican majority, 3,152.

The Manchester American says:

No returns were received from some ten or twelve towns for Senators, or for members of Congress, and the vote of Lebanon, for Congressmen, was lost, because the town clerk forgot to sign his return."

Those named first in the several districts are elected; Messrs. Marcy in No. 1, Webster in No. 6, Paige in No. 8, and Burns in No. 12, being Democrats. The other eight are Republicans. These figures show the equity of the Districts. The Patriot said, two years ago, that with 2000 majority the Democrats could elect 8 Senators. Now, the Republicans elect eight, with 3000.

S. P. Adams, Esq., one of the representatives to the Massachusetts Legislature, recently resigned his seat and left for Dubuque, Iowa, where he will take up his residence.

The Advertiser, in noticing his departure, has the following well merited hit at the long session of the Legislature in that State:

"It was Mr. Adams' original intention to wait till the adjournment of the legislature before he left, but finding that extreme old age or death must necessarily overtake him before that event, he very wisely concluded to "go at once."

Prof. J. G. Hoyt, of Exeter Academy, has accepted a Professorship in Williams College, Williamstown, Mass., whither he will remove at the close of the present Academical term. In all the qualities of the scholar, the teacher, the citizen, and the MAN, he leaves not his superior behind him in New Hampshire. His departure will be a positive loss to the State.—*Ind. Demo.*

POTATOES.—A writer in New York expresses the opinion that people make a mistake in paying so much for potatoes; There is more nourishment in one bushel of good white beans, than in five bushels of potatoes; and what is better than bean soup, or more palatable than good, old-fashioned "bean porridge?" He says the "age of beans" should be revived, as well for economy as for health.

☞ On Saturday evening last, W. F. Hooper, Esq., of New Salem, Pike county, Me., was instantly killed by a kick from a horse which he was trying to quiet. His entire head was smashed in by the horse's hoof. Mr. Hooper was one of the most prominent citizens of Pike county.

A VALUABLE HORSE.—The highest price ever given for a horse, of which there is any authentic account, was paid in 1851, for a race horse that brought $32,500.

☞ Rev. J. H. Stearns has been dismissed from the Congregational church in Dennysville, Me., to accept a call from Epping, N. H.

EXTRAORDINARY FECUNDITY.—The last Mexican news includes the alarming item that, on the 20th ult., a woman at the capital gave birth at once to seven children.

☞ Hon. Atwood Levansaler has been appointed Deputy Collector at Thomaston, Maine.

SENATOR BELL.—Hon. James Bell, whose health has been impaired for a year past, is now confined to his house at Gilford.

SPECIAL NOTICES.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No. 12 Market street;—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

REV. RUFUS W. CLARK.—At the Anniversary of the Society of Congregational Ministers, at New York, last week, this was one of the sentiments given:

The New-York and Brooklyn colonies of Congregationalists send greeting to their New-England mother. As long as she shall continue to send us her sound and vigorous sons, we shall remain faithful to her teachings and interests.

The Rev. Rufus W. Clark of Brooklyn responded to this sentiment. He felt rather embarrassed, he said, in attempting to speak before such an audience, and especially before the ladies. Yet, he said, he had once successfully addressed at least *one* of the ladies then in the room [laughter], and perhaps he might now be successful in addressing the rest.

He rejoiced to bring from New England the congratulations of the mother, and he rejoiced also that her children in New York and Brooklyn are doing so well. If the mother had known that he was expected to speak, she would no doubt have sent her love to all the children.

She has, he said, one son—RICHARD (referring to Dr. Storrs of Brooklyn)—who went away young, but was a very good boy [Applause]. He was fond of looking at the stars and flowers, to which his beautiful and eloquent style now bears resemblance [Applause]. The mother sent her love to him.

She sent her love to another son, Henry [the Rev. Henry Ward Beecher—great applause], the chaplain of a noble citadel across the water, that is always ready to throw hot shot into any iniquity. He had always supposed that Henry was rather a wild lad in his youth [great applause], but since he (the speaker) had come there tonight he had taken occasion to ask Henry's *father* [great laughter], who assured him that on the contrary he was a very good boy.

There was also a Joseph (the Rev. Dr. Joseph P. Thompson), a native of New England, but a boy adopted into the family [Great applause.]

The mother also sent her love to George (the Rev. Dr. George B. Cheever). She feels much obliged, said he, to George, because he had taken the *Judges* in hand [great applause], and because he is reversing a decision which is an outrage to humanity [Great and long applause]. The Supreme Court of this nation is the *people*, and the mother thanked George because he had so eloquently expressed the decision of this final court.

The mother would also send her congratulations to Joseph and *all his brethren*" [great applause]. He could not mention all their names, He referred to what is called "political preaching," and put in a plea for the freedom of the pulpit. He said that his remarks would have to be brief, because he had been advertised to speak at another place during the evening. He referred to the coming "feast of fat things," said he would try and be back in time for that [Laughter]. He could say with truth that there were two places where he always had a good appetite.—The first was when he was at home, and the second was when he was *away* from home [Great Laughter.].

DEATH BY FIRE.—On Wednesday night, at half past 11, a fire broke in the basement of an old ricketty brick house, 8 Stillman street, Boston, occupied by a widow Fitzpatrick, who kept boarders. The fire spread from the basement in which it caught, through the furring and by the wood work, filling the building with a dense smoke. Mrs. Fitzpatrick slept upon the first floor, and upon perceiving the fire, ran into the street and gave the alarm. She then went into the second story and alarmed the boarders there. The smoke was by that time so thick as to suffocate her. She fell, and when the firemen entered the house she was dead.

David Fisher, a cord-maker in Blackstone street, who resided in the third story, was found by Engineer Chamberlain, when he entered the house, lying on the landing of the 2d story, burned to death.

A woman leaped from the second story, and hurt herself severely.

IOWA ELECTION.—The official results of the Iowa election show that the Democratic candidates for Register of the Land Office and Superintendent of Public Instruction, are elected by 500 majority, and the Republican candidate for Commissioner of the Des Moines improvements by 300 majority. The votes polled was 64,628, against 91,904 last fall. The K. N. and Democracy voted together against the Republicans, and the best they could do was to make a *draw-game*. Last fall Fremont had 45,181 against 46,723 for Buchanan and Fillmore.—*Detroit Advertiser.*

PHILADELPHIA, May 21.—Schooner D.C. Foster was wrecked off Delaware Breakwater, in the late gale. The wreckmaster's boat, in going to rescue the crew, was upset and three men drowned. Crew of the schooner saved.

THE STORM.—There was little or no damage to vessels in this vicinity by the late storm—or rather the present storm, for we do not see that we are to have fair weather yet. Two or three schooners and a brig were driven on the shore back of New Castle, but got off without damage.

The schooner Oneco, Captain Haskell, from Robbinston, Me., for Boston, with lumber, anchored near Clark's Island, in Portsmouth Harbor, on Wednesday. After riding out the gale in safety, she swung with change of tide and struck a ledge, by which her stern was lifted and the schooner thrown down on her beam ends. The Oneco has been got off by lightening; but now lies on her beam ends, full of water—the deck-load preventing her rising.

Another schooner, loaded with wood, anchored in the river, just above Church Point, on Tuesday, and was dragged about by the wind and tide, Wednesday, but without damage.

LOOK OUT!—There was almost a fire, and quite an alarm, on Thursday morning, at Tilton & Nowell's Union Store, Market st. A fire had just been kindled, in the stove, and somehow the flames were communicated to a barrel of shavings not far off, which blazed up nicely, and singed a lot of brooms, clothes lines, pails, &c., hanging overhead. But before more than a dozen of the early risers got a chance to holler fire, it was all out, and the smoke clearing away.

☞ It will be seen by their advertisement, that Ole Bull, the celebrated, inimitable violinist, with his troupe, are to give one entertainment in Portsmouth, on Saturday evening of next week. This will doubtless be the last chance to hear Ole Bull, and will of course, be improved.

ROWDIES FINED.—George W. Griffin and Alonzo Griffin of Candia, together with one Bean, on Monday last started from Candia for Raymond in the cars, for what one of them called a "bender;" in other words in quest of a new supply of rum.—They had a bottle with them, out of which they had been drinking. When Mr. Bailey, the conductor, asked for their fare, 25 cents each, Bean gave him a $10 bank note of New York, upon which there was a discount. This being noticed by a passenger, Bean afterwards offered to take back the bill and give other money for it. Mr. Bailey returned him the $10 bill; and Bean, after some delay, returned $9 which Mr. Bailey had given him, but refused to pay the fare, and retained 25 cents of the money of the conductor; and slapped Mr. Bailey in the face.

About this time the train stopped to take up the regular conductor, Mr. Sanborn, to whom these facts were reported. Mr. Sanborn then notified the three that their fare must be paid, or they must leave the cars. They peremptorily refused to do either, and threatened Mr. Sanborn. The train was then stopped, and the conductor again demanded the fare, which was again refused. He then put one of the Griffins out of the train, who struggled ineffectually to prevent him; and the brother struck Mr. Sanborn in the eye; and the other Griffin, who was put out, threw a large stone at Mr. Sanborn, which passed between the passenger car and the baggage car. Other stones were also thrown.

The two Griffins were brought to this city on Tuesday, by Deputy Sheriff Joseph P. Morse, and on Wednesday they were examined before William H. Y. Hackett, Esq., Justice of the Peace.

After a full hearing of the evidence and the agreement of Counsel, Mr. Hatch for the prisoner, and Mr. Emery for the prosecution, Mr. Hackett fined one of the Griffins, for striking the conductor, $5,00; and the other for throwing a stone at the Conductor and a car of the train, $10,00. Bean has not yet been arrested.

The conduct of the three culprits, in the whole affair, their swearing, swaggering, and general rowdy demeanor, showed them up as belonging to the class of idlers and nuisances, who defend the groggeries, aid in supporting them, infest our villages and still more our cities, annoy all decent people, and poison everything within their reach.

REV. MR. JEWETT.—This gentleman has just virtually lost his case against the Concord Railroad, at a trial in Salem, Mass.—The Manchester American says:—

Before this case went to trial, the company offered Mr. Jewett $15,000, or $1500 a year as long as he should live, and $1000 a year to his wife as long as she should survive him. Both were declined. After this result the company will not be likely to repeat those offers.

WHITE RIVER JUNCTION, Vt., May 21.—Heavy rain here for thirty hours, and no prospect of abatement. Connecticut and White rivers rising rapidly.

WASHINGTON, May 20.—The following candidates, on recommendation of the Board of Examination, have been admitted into the Navy as Third Assistant Engineers:—Wm. P. Dessano, E. A. C. Duplaine, Thos. Cronin, Samuel Savage, Jos. H. Warrington, of Philadelphia; Francis Lovering, N. B. Littling, Wm. B. Schley, of Md.,; Chas. B. Kidd, Benj. C. Hampton, of New York; J. B. H. Custom, Geo. S. Bright, Wm. L. Walter, Geo. Houston, of D. C.; Eben Hoyt, of Mass.; Wm. H. King, of Va.; John Johnson, of Del.

WASHINGTON, May 20.—The Indian Bureau has received despatches from Brigham Young, giving an account of his transaction as Superintendent of Indian Affairs, dated March 31, in which he says: "Since my last report we have had a time of peace, and apparent great contentment generally, and more especially among the Indians." This is the only allusion he makes to the social affairs of the territory.

ST. LOUIS, May 18.—The St. Louis delegation to the Unitarian conference at Alton, withdrew from the body on Saturday, in consequence of the adoption of a resolution, declaring the United States Constitution a failure, and that the decision of the Supreme Court in the Dred Scott case was of no binding power.

NEW YORK, May 20.—Coroner Connery's case was dismissed to-day by Gov. King.

The screw steamship City of Manchester, from Liverpool 6th, arrived here this afternoon. She brings about 70 cabin and 585 second cabin and steerage passengers. Her advices have been anticipated.

A letter from Key West to the Journal of Commerce says:—"A shocking affair happened at Cape Sable on the 5th inst.—Two privates of Company H. 4th artillery were capsized, while sailing in the bay, and one of them named Dunn, while swimming ashore, was seized by a shark and eaten up. His companion got safely ashore."

AUGUSTA, Ga., May 20.—The latest intelligence is that Senator Butler of South Carolina is rapidly recovering.

TO THE CITIZENS OF THE UNITED STATES
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogee, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE,

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURGH, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache by your Cathartic Pills, and know two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do as others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEBBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since they were made, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an invaluable remedy in derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, J. ADAMS BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and pining away for more than a year, unable to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid large bills to doctors and their bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized by us.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours,

J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet, which had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. By her use of your Pills she tells me she tried your Pills, and they have cured her. ASA HOSKRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me if I did not write you. For years A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, I grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now perfectly cured.

REVERDY JOHNSON, Baltimore, Md.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years.

FRANCIS EWING.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness** and **Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, yet in the hands of the ignorant it produces such consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Yet, few are the families in any divided country on this continent without some personal experience of its effects and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and fatal previous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the fearful and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the croup, to which they are subject upon their approach. We have abundant proofs, and believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are colds. Let the first cough be your signal for the use of the remedy. Some of the lurking ankor that, fastened on the vitals, cuts your life away. All know the dreadful fatality of neglected coughs and they know too the virtues of this remedy, we need not dwell upon them to assure them it is still made the best it can be. We spare no cost, no care, nor toil in its preparation, the most perfect possible, and those who rely on it the best agent which our skill can furnish for their ease.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fenner & Co are the managers, are conducted under the immediate charge of a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the managers of lottery who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers wish to notice is, that all managers have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If the prizes are not named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are forwarded sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combinations. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings and numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

It is prepared with particular care, and by a peculiar process in roasting, some of this coffee, it is believed, is equal to 1 lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and we think goes beyond any other trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

☞ *Our Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as Dandelion has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as tests suits the taste. It is a healthy, nourishing, and pleasant tasting beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and nursing persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c., &c.

☞ Be careful to observe that all our *Teas* now has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, *called* Tunxacum, in the market.

☞ *Wholesale* Dealers (liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being from large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of our stock of our stock and our prices, as compared with those of any other house.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have some of the commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity to participate, the interests of all parties at a distance as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten has a prize, viz: one prize $20, Halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, are so simple that some one will be able to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $20 to $500, 100; every prize being drawn, and result of drawing forwarded to all ticket holders.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published immediately after drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Herald*.

☞ Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1836*)

No. 78 State st, opp. Kilby st, Boston, AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, specifications, assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of any Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished for twenty cents, one Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages not possessing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. These, besides his extensive practice, none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITIES, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate, or Patents obtained on terms so favorable to inventors. Inventors, the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive stock of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him competent to give opinions, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most successful practitioners in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in the form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the rules and practice of the Patent Office, and the law, and the rules of practice, and is one of the most capable and successful practitioners with whom I have had official intercourse. WOMEN OR BUTTERFLIES—LADIES OR WIVES.—Once was the time when a wife was a "helpmeet; now in a thousand of cases you can change the "meet" to "eat" and make it read more truthfully. We boast of our system of education; we have public high schools, female colleges, female medical schools, and female heavens. Our girls are refined, learned, wise; they can sing, dance, play pianos, paint, talk French and Italian, and all the soft languages, write poetry and love like Venuses. They are ready to be courted at ten years, and can be taken from school and married at fifteen, and divorced at twenty. They make splendid shows on bridal tours, can coquette and flirt at the watering places, and shine like angels at winter parties. But heaven be kind to the poor wretch that marries in the fashionable circle.

What are they at washing floors? Oh, we forgot, nobody has bare floors now—how vulgar that would be! What are they at making bread or boiling beef? Why, how thoughtless we are—to be sure they will board, or have servants. What are they at mending old clothes? But there we are again; the fashions change so often, that nobody has old clothes but the rag men and paper makers now! What are they at washing babies' faces, and pinning up their trowsers? And here is our intolerable stupidity once more; having children is left to the Irish! What lady thinks of having nasty children about her now?—or if she is so unfortunate, don't she put them to wet nurses to begin with, and boarding schools afterwards?

We have come to a point, where young men hesitate and grow old before they can decide whether they can marry, and afterwards keep clear of bankruptcy and crime. What is the consequence?—There are more persons living a single life—are there more leading a virtuous life? It is time for mothers to know that the extravagance they encourage, is destructive of the virtue of their children; that all the foolish expenditures making to rush their daughters to matrimony, are, instead of answering that end, tending to destroy the institution of marriage, altogether.—*Newburyport Herald.*

BOSTON BAR ROOMS.—The Boston Journal says two cases under the new law, which provides for the indictment of barrooms as common nuisances, have just been tried in the Municipal Court. In one case the jury failed to agree for want of evidence. In another case the party indicted was convicted. All right. There are some hundreds more low drinking shops which deserve to be indicted.

REAL ESTATE IN KEENE.—A Building Lot of six rods front, and of a depth of nearly 14 rods, was sold at auction on Saturday, the 9th inst., for $2,736, which is $456 per rod, and nearly $28 per foot. The lot was a part of the estate of the late Aaron Hall, and is situated on West St. It was purchased by one of our go-ahead citizens, who will erect a dwelling-house corresponding in beauty and value to the lot.—*Keene Sentinel.*

POTATOE-DIGGING BY MACHINERY.—Every one who has dug potatoes, and felt the back-breaking, head-aching trials which accompany the tedious hand process, will feel a bound of pleasure on learning that Yankee ingenuity promises to supersede by machinery the afflictive labor of gathering this important harvest. Capt. Taggart, of Roxbury, has patented a simple contrivance for the purpose, which an agricultural house in Utica is about to carry into practical use. It is a plough-shaped machine, with a double set of revolving metal fingers, which take up the favorite fruit, winnow them from the earth, and deposite them in baskets hung on each side, or in a couple of rows upon the earth. With a pair of horses, a man, it is calculated, can dig from six to ten acres per day. We shall watch with curiosity the results of a trial of this very useful invention. It will work a very important revolution in potato-raising, if successful.—*Traveller.*

TAKE CARE, BOYS.—In Boston the inquest on the body of William Henry Walker, killed on the Metropolitan Railroad on Monday, attaches no blame to the driver or conductor of the car, but suggests to parents and guardians the necessity of cautioning children against playing on the railroad tracks.

Sterne says:—"The grand error of life is, we look too far; we scale the heavens—we dig down to the centre of the earth for systems—and we forget ourselves, truth lies before us; it is in the highway path, and the ploughman treads on it with clouted shoes."

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

CITY COUNCIL.

In the Board of Aldermen, on Thursday evening, the Mayor was authorized to examine the Bridge on Rye road, and cause it to be repaired or rebuilt, as may be necessary.

The Committee on the petition of A. W. Haven and others, for widening the part of Congress St. between W. H. Hackett's and corner of Chestnut St. reported in favor of the petition—the expense not to exceed $200.

In Common Council, the appropriation bill, with various modifications, was passed. The proposed appropriations for Schools was reduced to $11,000; that for Streets to $2,000, besides a special appropriation of $200 for widening Congress St. That for roads out of the compact part of the city was raised from $800 to $1,000. It was voted to purchase a new engine for No. 3 Co. and not to build another reservoir. Resolutions were passed that the School Committees shall not exceed the amount of their appropriations, but shall be liable for all debts incurred; also, that no part of this year's appropriations shall be applied to the payment of the debts of last year.

THE DRED SCOTT DECISION IN CONNECTICUT—Gov. Holly presented in his Message to the Legislature the following very appropriate comments on the decision of the Supreme Court on the Dred Scott case:

"In this connection, a recent opinion of the U. S. Supreme Court presents itself to our consideration. Having no authenticated copy of that opinion, there may be doubts as to the precise points adjudicated, yet it is generally understood that it affirms that colored persons cannot be citizens under the Federal Constitution—that Congress cannot prohibit slavery in the Territories; and consequently that all former legislation on this subject has been unconstitutional. It is apparent that this decision not only greatly limits the sphere of Congressional action, but that it involves many questions of State authority. It is not too much to say that if the principles laid down as the opinion of the majority of the Court be followed to their legitimate issues, slavery becomes a national institution. Not only is the Federal Government made subservient to its interests, but all legal power is taken from the several States to resist its encroachments. It is a duty that we owe alike to ourselves and our children to stand firmly by the constitution and maintain it in its purity. I believe, gentlemen, that we are all of one mind in affirming that freedom is the law of our land, and servitude the exception. Wherever slavery exists, it must be by positive enactment; our national constitution does not carry it into our territories.

If every successful aspirant for place and power is allowed to pervert this sacred instrument to the purposes of sections and parties, the time has surely arrived when men seeking the perpetuity of Republican Institutions must determine whether they will stand by this time-honored charter as it was expounded by its intelligent authors, or whether it shall be permitted to become the exponent of every new doctrine which may be inaugurated for the advancement of individual or sectional interests."

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

Morning Chronicle.

SATURDAY, MAY 23, 1857.

BENJAMIN SARGENT.

Uncle Toby has read with much interest, in the Congregational Journal, the Missionary Correspondence of Rev. Wm. Clark.—As Mr. Clark writes from Auburn, formerly Chester West Parish, he pays the following well-deserved tribute to the Rev. Benjamin Sargent, once pastor of the Presbyterian Church there.

Many of the older ministers in our State, particularly in Rockingham county, will remember Mr. Sargent became very ultra on the "abolition" question, and others growing out of, or rather, illegitimately connected with it, as the church, the ministry, the Sabbath, civil government, &c. The writer recollects often to have conversed with him on these points, when he appeared anything but rational. But he is now of opinion, and he finds himself sustained in it by many of the good people here, that, had Mr. S. been duly sympathized with, by his brethren in the ministry and the churches, in regard to the sin of slavery, and made the admission of its enormities, its tendencies and its ultimate designs of triumph over the free institutions of our country, which, alas! we are now compelled to make, and do make, with feelings of shame, grief and fearful apprehension of the consuming displeasure of God against our beloved land, he and many others in the ministry and out of it, might have been saved to themselves, to the ministry, to the church.

"Oppression makes a wise man mad." The discussions of the day on the slavery question, awakened a difference of feeling among the members of his church, as was true in many other churches. This excited Mr. S. greatly. About the same time, he lost all his children by death; and not long after, his wife. This, it is thought, induced insanity, under which he appeared to remain, with, perhaps, a little relief, till his death, not long since, in Pittsfield, the place of his early residence. It is pleasant to find the people of his former charge here, even those who could not sanction his fanatical course, speak very kindly and charitably of him, and express the belief that he was a good man, and has entered heaven, where all mental, as well as moral disorders, are forever unknown.

Benjamin Sargent and his family, now all departed, were not rich, nor great, as the world goes; but they were noble, in the true sense of nobility, people of great hearts, warm affections and truthful lives. At their mountain home, amid the rocks and rills of New Chester; and then at their parsonage amid the grand and beautiful scenery of West Chester, was the writer of these lines met by this happy family circle, with a welcome as warm as it was simple, and with comforts as real as they were unpretending.

Brother Sargent always aimed for the right; generally perceived what was right; but he was not sufficiently hopeful. He did not see—probably he *could* not see, that in 20 years, the churches and ministers of nearly all names in New Hampshire, would rise up and stand on the ground where we then stood together, as to slavery and freedom.

On the 4th of July, 1837, the writer of this notice delivered in Chester, two addresses, the one on slavery, and the other on temperance. The visit was at the request of Br. Sargent, and among the hearers of the Anti-Slavery Address was Hon. Samuel Bell. This latter gentleman is named here, because at that day, it required some little moral courage, for such a man to hear such a thing. But now, how changed! The earth moves,—and though the ashes of these beloved are mingled with dust, yet in her bosom she bears them on with us who survive to see what they prayed for. Though dead, they speak this day to us; and their prayers, having entered into the ears of the Lord of Sabaoth, are answered in blessings of which they cherished but faint hopes, and about which they oft indulged gloomy forebodings.

MILITIA.—The Boston Journal comes out in defence of military encampments, and quotes from various officers in their favor. The Newburyport Herald says:

The Republicans begin to fear the effect of the abolition upon their party; but there is nobody out of the militia, who has ever attended one of these encampments, who does not say that the Commonwealth would be the gainer to throw the money they cost into the sea, and five times more with it. If the militia can't live without the encampments, let it die and be done with.

In New Hampshire, the coalition of whigs, freesoilers and independent democrats, which first sent J. P. Hale to the Senate, arranged the militia so that only the uniformed companies should train and be paid.

When the Democratic party regained their power, after a single year, they repealed the bill, and thereby revived the militia as before. But in two years more, the democratic party, still in power, hung the whole militia system up to dry—and it has has been drying ever since. Nobody trains here, unless he pleases—and nobody pays him.

☞ Ex-President Pierce has received much attention during his sojourn in New York from his political and personal friends. He was to leave on Friday for Concord, N. H., and it is stated that he will stop a few days at Boston. The friends of Mrs. Pierce will regret to learn that she is still laboring under the effects of illness.

WM. A. WHITE, Esq., formerly of Boston, who died at Milwaukie, was an eminent editor, and able man.—It was said he committed suicide,—but it is quite improbable;—more likely from disease of the heart, to which he was subject. There was nothing whatever in Mr. White's circumstances or character that rendered it probable that he had committed suicide.

BOWDOIN COLLEGE. — Commencement takes place this year, Wednesday, August 5th. Rev. Dr. A. P. Peabody, of Portsmouth, N. H., delivers the oration, and Rev. H. W. Parker the poem, before the United Literary Societies, on Tuesday, 4th August.

☞ John T. Gibbs, Esq., of the Dover Gazette, has engaged George W. Stevens, Esq., as associate editor.

SPECIAL NOTICES.

DAVIS' DAGUERREIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

Old Spanish Quarters are received in payment for a bottle of Lawrence's Carminative.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 16, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, and together, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No 12 Market street.—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah and gen Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kenpedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Gazette.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt longer?

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

BOSTON MUNICIPAL COURT.—The Boston Courier of Friday, says, in relation to the Ellen Desmond Tragedy:

The trial of Samuel A. Goodrich was commenced before a special jury summoned for the purpose.

The District Attorney stated that he should propose to put in evidence of the declarations of the deceased in relation to the outrage perpetrated upon her by the brutal gang, from whom she could only escape by jumping out of a window. It is not likely, however, that he will be able to bring the declarations within the rule. His remarks upon her fatal leap, as a basis fact, which no rule of law could deprive of force, were vigorous and to the point. Goodrich is a respectable man in appearance. It is said that he has attributed his being involved in the affair, to liquor.

No doubt of it.—No total abstinent can be found engaged in such affairs.

A FARCICAL END OF A TRAGEDY.—Under this head the Boston Transcript of Friday evening says,—in the Municipal Court this forenoon, in the case of Samuel A. Goodrich, on trial for participation in the outrage resulting in the death of Ellen Desmond, the judicial proceedings were suddenly stopped by a "point of law" raised by counsel for defence, the case was withdrawn from the jury, and Goodrich was discharged from custody.

It appears that though Goodrich was seen going with the woman up stairs in the building in Williams court, from the window of which she jumped to the pavement and received mortal injuries, yet the District Attorney had no evidence to identify her as the same woman, except her own statements, which, not having been made under oath as a "dying confession," were ruled out by the Court, (Judge Abbott,) and hence the defendant's easy escape.

The Transcript then adds the following just remarks:

"If such results in cases of gross crime are to come from the boasted "perfection of human reason" styled *law*, it were well to make new inquiries as to how far technical "law" tends to the furtherance of public justice, and whether it be not unfrequently opposed to the plainest dictates of *common sense.*"

It certainly is so in this case. The judge has donkeyized himself.

"THE POET OF NEW HAMPSHIRE."—The Concord Statesman of last week says that Albert Laighton of this city is unquestionably entitled to the distinction of "The Poet of New Hampshire." "So say we, all of us."

A WELCH COLONY.—The steamer Circassian brought to Portland a company of about two hundred persons from Wales, bound to the State of Tennessee, where they have purchased lands and intend to locate themselves. They are accompanied by their pastor, Rev. Mr. Roberts, who is the chief of the party.

The tonnage of the United States amounts to 500,000 tons—which gives employment to 40,000 seamen.

MARRIED.

☞ The Selectmen of Hillsborough, N. H., have been examined before a Justice in that town, on a charge of refusing to place the name of Enoch G. Bartlett, a legal voter upon the check list, and bound over for trial, at the S. J. Court, in Amherst, next September.

On Friday last, Jonathan Gove, John H. Prescott, and George Sawyer, Selectmen of Epping, were arraigned before Justice Moses N. Collins of Exeter, upon four complaints, and waived an examination. Two of the complaints were for putting the names of foreigners upon the check list, who procured their papers within 30 days of town meeting. The selectmen stated that Hon. John S. Wells advised them that the law of our State requiring naturalization papers to be presented thirty days before town meeting was unconstitutional (!) but Mr. Wells did not appear as counsel to maintain that position. The other two complaints were for refusing to insert the names of two voters who moved into Epping on the *ninth* of December—the reason assigned being that they had not resided a sufficient length of time in town. The respondents were bound over to the Supreme Judicial Court at Portsmouth, in October.—*Ind. Dem.*

THE WAY OF TRANSGRESSORS IS HARD.—The Hon. Barker Burnell, formerly State Senator from Nantucket county, is now in the chain gang at Valparaiso, having been sentenced for robbing the mail. He may be seen daily in the streets of that city with a ball attached to his leg, working with his fellow-convicts. He was indicted several years since for embezzling the funds of the Nantucket Bank; but escaped the punishment due to his crime, by "leaving his country's good."—*Boston Transcript.*

☞ The Louisville murder mob was largely composed of boys, some of them not more than ten years old, who cried vociferously for the hanging. The Louisville Courier of Saturday says that the deepest indignation was expressed throughout the city by all classes, at the miserable and criminal inefficiency of the city authorities and the police, as exhibited during Thursday evening and night. No arrests had been made. The bodies were buried on Saturday in a city graveyard.

The confession of the negroes fully implicated them in the murder of Mr. and Mrs. Joyce, their daughter Mrs. Webb, and her little child, and of burning the house to conceal the crime. The people of Louisville had a meeting on the 19th to protest against mob law, and passed resolutions in favor of forming independent military companies, there being none in that place.

BOSTON POLICE COURT.—On Thursday, says the Courier,—the examination of Jeremiah Grady, upon the complaint of murdering his wife, was brought to a close. Her death was caused by effusion of blood upon the brain. She was of intemperate habits; and on the night before her death, 14th inst., she tore out the bosom of her husband's shirt and emptied a basin of water upon him, at the same time wetting herself. Then, with her wet clothes on, she repeatedly attempted to get into bed, and was as often ejected by Grady. In the course of the night, however, he undressed her and placed her in the bed. Whether he had previously struck her a mortal blow on the head, has not yet been made to appear, but she was found speechless and dying the next morning. It not being the practice of an examining court to take final jurisdiction in a case in which violence and death come so close together, Grady was fully committed without order of bail, to await the action of the grand jury.

The coroner's jury, say she came to her death from effusion of blood on the brain, caused by external violence inflicted on the night of the 13th instant by her husband, Jeremiah Grady.

POLICE COURT, MANCHESTER, MAY 20.—The case of Samuel W. Sargent for adultery came up, and was *not pros'd* for want of evidence which the government expected but failed to produce. It seems that in both cases the women who have supposed themselves to be the wives of Sargent have been duped, and the marriage ceremony was performed by a bogus clergyman.

☞ The Rockingham County Conference of churches will meet with Rev. J. Dinsmore's church at North Hampton on Tuesday, June 9th, at 10 o'clock, A. M., and continue its session two days. The sermon at the opening meeting will be preached by Rev. Lyman Whiting, or his substitute, Rev. J. M. Palmer.

W. FITFIELD, Scribe.

HIGHLY IMPORTANT.—The editor of the Gazette, accompanied by Messrs. Cass, Cobb and Toucey, of President Buchanan's Cabinet, is to attend the great Railroad celebration at St. Louis.—"What an excitement the arrival of the" editor of the Gazette, "must produce among the sturdy" citizens of Missouri!

☞ Messrs. James Miller and James M. Sheldon, of this city, have settled at Cedar Creek, Wisconsin. We acknowledge the receipt of some splendid duck's feathers, and regret more than the donors, their inability to send the ducks *in toto*.

☞ T. L. Tullock and Rufus K. Oxford of this city are reported among the arrivals at St. Louis on Monday last.

☞ "The Island Princess" is the title of Mrs. Southworth's new and powerfully written story. It is decidedly the best tale she ever wrote, exceeding in interest even "The Deserted Wife," and "The Lost Heiress," which have been considered her most popular works. The New York Ledger commences the publication of this charming novelette in this week's issue.—The humorous department in the Ledger will hereafter be edited by George D. Prentice, Esq., the well known and universally popular editor of the Louisville Journal. With such contributors as Fanny Fern, George D. Prentice, Mrs. Southworth, Sylvanus Cobb, Jr., Mrs. Sigourney, Emerson Bennett, Alice Carey, Mary Stanley Gibson, Mrs. Vaughan, and a host of others, the Ledger stands unrivalled and unapproachable, among papers of the sort. No other can produce such a powerful array of names.

SINGULAR.—The Newburyport Herald says:

How singular it is that people who were never alarmed that whiskey should poison men, denounce the poisoning of pigs with the grain from the distilleries, and think that the law should punish the offence.

NEW YORK, May 21.—The steamship Black Warrior arrived at this port last evening with Havana dates to the 15th inst.

The Spanish steamer was hourly looked for, with orders for the immediate commencement of hostilities against Mexico.

The sugar crop was expected to fall short 29 per cent. as compared with last year's yield. Prices still tended upward, while freights continued dull.

The Black Warrior encountered heavy gales during the voyage.

Private letters state that the crops in Alabama have had to be planted three times. The corn was killed by the frost.

TROOPS FOR UTAH.—*New York, May* 21. [Correspondence Daily Times.]—*Washington, May* 20.—A large military force has been ordered for Utah to take their position on the Government Reserve, within forty miles or so of Salt Lake City. The new Governor of the Territory has been selected, but has not yet been heard from, and his whereabouts is unknown. Whoever and wherever he may be, it is understood that he was recommended by Mr. Bright, of Indiana.

NEW YORK, May 21.—*Death of a French Fugitive.* — Eugene Grelot, one of the French fugitives charged with swindling the Northern Railroad of France, died in prison to-day.

THE POLICE.—*New York.*—Capt. Carpenter, of the 5th Ward, has been appointed Deputy Superintendent of Police, in place of Matsell, removed.

MURDER.—At St. Louis, last week, Dr. Eaton and Robert Webb, both on their way to Kansas, left a Pittsburgh steamer in the evening, to have a card inserted in a newspaper, and on their return could not find the boat. They called at a house where two men volunteered to direct them, who soon after demanded their money. A fight ensued, and both the emigrants were beaten with slung shots, so that Webb died, and Eaton is confined to his bed. The former was a young printer, and had a press and types with him.

The worst species of bat that flies in the night is said to be a brick-bat.

TO THE CITIZENS OF THE UNITED STATES
ATTENTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic denotes the name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Phila lelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in quart and pint bottles; in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN

Is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have used your Cathartic Pills for the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, Feb. 7th, 1855.

SIR: I have used your Cathartic Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the bowels is quite equal to calomel, and they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious *dolor* or obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

FORT ONTOIR, HAVELOCK, LYC. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling a great quantity of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had fit best, and my wife cured him with your Pills. Others, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be sought for.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. H. Hinks, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among my parishioners. They are admirably adapted to correct the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

J. V. HINES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountain of life.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with ulcerous leg, pronounced by physicians incurable. Her child was cured, she also tried your Pills, and they have cured her. ASA MCGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawley, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I feel it my bounden duty to ask, what your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in inflammatory rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. Suffice it, by persisting in the use of them I am now entirely well.

SENATOR CRAWFORD, BARON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SLUTZALL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are unequalled.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although it may be salutary in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the croup, which every hour may upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than it cures. Keep it by you, and cure your colds while they are curable, not neglect them until no human skill can master the internal ranker that, fastened on the vitals, mocks your efforts. All know the dangerous fatal results of being careless, and they know too the virtues of this remedy, we need not stop here than to assure them it is still made the best in our power. We spare no cost, no care, nor toil to produce it the most perfect possible, and to afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which Mr. Samuel Swan is Agent, are now chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is done in a fair manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which should attract all attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication reaches hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Gazette, Commercial, the following papers: Sun, Clipper, Patriot, American, Post, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding Coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.*—Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves. Cream Tartar; Tarazacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the articles named, the public may rely upon having them *pure and genuine* as they are put up under their own and our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we annex the following extract of our daily sales:

5 lbs. Souchong Tea, 1 50 | 5 lbs. Mocha Coffee, 1 00
5 lb. Oolong do. 1 75 | 5 lb. Java do. 90
5 lb. Y. Hyson do. 2 25 | 5 lb. good do. 1 00

Thus it will be seen, that for every dollar's worth we process yearly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care by a peculiar process of roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAZACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "Chinaman grinding Coffee," may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as taste or fancy dictates, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c., &c.

☞ Be careful to observe that all our *Tarazacum* has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, called Tarazacum, in the market.

☞ To CASH PURCHASERS a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ To CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have never been contested. Commissioners superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. In order to afford a public opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the order in which they are received they must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $20 to $30,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published in every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Banner*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. He offers advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered from any other hand. Testimonials below given prove that none is MORE SUCCESSFUL, AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF SKILL AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions not to be equalled, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, at all times, competent to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patents Solicitors in the United States, and have no hesitation in assuring inventors that they could employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the Office. He is also as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

The publishers are happy to announce that this work, which has been looked for during the past few months with so much interest on the part of the lovers of pure and healthy literature, is now ready, and fully meeting the most sanguine expectations of those who are acquainted with the author's former productions, expected something far above the multitude of works issued from the American press during the past few years. John G. Whittier says, in a letter alluding to the work, that "it is refreshing to read a work whose tone is so eminently healthful, inculcating a cheerful Christian morality, free alike from cant and irreverence." ☞ Orders solicited from the trade.

SCANDAL!

BY MRS. J. T. BICKFORD.

WITHOUT EXCEPTION,

The Most Intensely Interesting Book of the Season.

1 vol. 12mo., pp. 394.....Price, $1.25.

This work is not a mere repetition under a new form, of old plots, characters and incidents—but one that possesses the distinguishing characteristic of *originality* in all these particulars. Its subject is as universal as the air we breathe, and the evils it vividly portrays will serve as guiding lights for tens of thousands who might otherwise be led to sorrowful relations with those about them. It exhibits in the broad noonday light of God's truth the *Rights of Humanity*—the *Innate sentiment of virtue of every soul*;—proves conclusively that *Trials, however severe, refine the spirit*, and

'Ever the light comes uppermost,
And ever is justice done."

THE INDEPENDENT, NOBLE TONE

that pervades every chapter; the

FREE UNTRAMMELLED EXPRESSION OF THOUGHT

that will distinguish it from the libraries of books now emanating from the American Press; the ENTERTAINING PICTURES of the BEAUTIFUL and the

VIVID CONTRAST OF RIGHT AND WRONG

will at once commend the book to the

HEARTS AND HOMES OF THE PEOPLE.

It needs but to be read to be admired; and wherever one reads it a score will be sure to fol low. Copies of the above sent by mail (postage paid,) on receipt of the retail price.

The Great Remedy Found at Last!

SHERWIN'S

VEGETABLE COMPOUND,

FOR THE PERMANENT AND SPEEDY CURE OF SCROFULA, ERYSIPELAS, SALT RHEUM,

and all diseases arising from impurity of the blood, and quickly restoring the patient to almost

NEW LIFE.

This eminently successful medicine not only gives prompt relief to those who have been suffering for years from the ravages of the fell destroyer,

ERYSIPELAS, SCROFULA AND LIVER COMPLAINTS,

with their attendant evils of Dyspepsia, Pain in the Stomach, Costiveness, etc., but completely eradicates every trace of the virus from the blood, and exerts an invigorating influence upon the whole system.

To Bilious people this compound is of inestimable value—as it removes the bilious secretions to which most people are subject, and if taken freely, no other medicine is ever needed for the purpose.

This compound has been in constant private practice for years, but has never before been offered to the public, but the steady and increasing demand is a sure proof of its value, and the proprietors feel no hesitation in offering it to

AFFLICTED HUMANITY

as the most potent medicine for the cure of diseases that has ever been placed before the public. It is a *vegetable compound*, and no one can have the least fear that any mineral substances are used in its preparation—and to verify this, he would state that every physician acquainted with the formula, freely prescribe the compound to their patients needing a remedy to invigorate the blood and eradicate *humors* from the system. It is unnecessary to enlarge upon the virtues of this medicine, as it has been tested by so many whose certificates are attached to each bottle, who can be consulted at any time.

We would say that if a cure is effected once it will do again—that is, relieve the patient from disease, and restore the system *to a healthy state.*

The good effect in every class of diseases must be witnessed to be fully appreciated. It has never been used without giving prompt relief, and ultimately *completely removing the patient.*

THE BEST

Planing, Tonguing & Grooving Machine

IN THE WORLD!

PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1856. By the combination of these several improvements, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

MONDAY, MAY 25, 1857.

☞ The County Commissioners for Hillsboro', met at Manchester Poor House, May 20, and made a full examination of Dunlap's case, closing with this statement.

We are satisfied from said examination, that Mr. Frye's treatment of John Dunlap, was kind and proper under all the circumstances, and that there is no foundation for the reports that have been circulated with regard to the ill-treatment of the said Dunlap at the time of his sickness and death.

Editors who have published any statements relative to the death of the said Dunlap, are requested to notice this statement.

This knocks the reports higher than a a kite.—Now for McCarty, "the respectable."

Henry G. Lowell (Marshal) had known Dunlap when a temperate man some years ago, but knew that for four years past, he had been exceedingly intemperate. Saw him on the day before he was taken up, and remarked that Dunlap was almost done for, as his eyes were swollen, and his appearance stupid and feeble. Would not believe Dennis McCarty's word or oath. Mr. L. produced an affidavit of McCarty's before the Police Court as to his property, which was proved to be false. He was frequently before the Police Court, for stealing, &c. His occupation was peddling—usually of stolen articles, obtained from boys, such as lead pipe, copper and small matters.

J. Black lives on the road to Manchester, one mile from County Farm. About 3 o'clock, on Sunday afternoon, met a man whom I have since learned to be McCarty. He stopped and asked if a man had a right to see a friend at the County Farm—he had come fifteen miles on purpose, and had been refused. If Mr. Frye had no right to forbid, he would pay him for it, to-morrow.' He appeared water-logged—drunk and just coming out of it. Said nothing about Dunlap.

New York Sons of Temperance.—The Eastern Division say, in a late letter to England:

In our own Empire State, we regret to say, that a wise and just law, passed by the Legislature of 1855, has been entirely frustrated by a decision of the Court of Appeals, that its most necessary and effective features were unconstitutional.

We believe that a large majority of the people in this State, are in favor of Prohibition, and that an effectual Prohibitory Law can be framed to avoid judicial restrictions. A movement, as yet but slight, has been begun to amend our Constitution so as to embody Prohibition in its own articles. This will be a work of several years to accomplish, but should it be attained, the change must be, at the shortest, of equal duration.

In the meantime, we continue our efforts for a Prohibitory Law. At the session of our Legislature, recently ended, a very stringent License Law was enacted. We declare in favor of Prohibition only, inasmuch as the liquor traffic in all, even its best form is a curse to the community in which it is carried on; and to concur in sustaining that part of the present law which licenses the curse, would be a departure from sound principles, which we can neither compromise nor abandon.

The friends of License, as an alternative for Prohibition, have now the fairest opportunity to test the efficiency of their system. We shall offer no hindrance to their effects; on the contrary, it will be our duty to aid in the enforcement of the *penal and prohibitory* clauses of the statute, and yet we feel assured that a longer experience will demonstrate, as the past has done, that there is no effectual remedy but Prohibition.

The Executive Committee of the New York State Temperance Society, at a recent meeting, among others adopted the following resolution:

"*Resolved*, That we know nothing, will sustain nothing, and act for nothing but prohibition, and that we will leave to those who have procured the enactment of this law, and are interested in sustaining it, the labor and effort that may be necessary to secure its effectual observance."

It is due to one member of the Committee, (Prof. McCoy, of the Prohibitionist,) here to say that the resolution was adopted without his assent. As a substitute, he offered the following, which was rejected:

Resolved, That it is both proper and expedient for the friends of Temperance in the State of New York, to co-operate with the authorities, and the public generally, in enforcing the prohibitory parts of the new License Law.

And in a note, Mr. McCoy remarks:

I did not vote for the resolutions passed by the Executive Committee, nor sign the Committee's address touching the new License Law. I abominate the license features as much as any one; but I do not see how it would defile me with the license parts of the law, if I were to help enforce the prohibitory parts of it.

Salary.—In accordance with the provisions of a statute passed at the recent session of the Legislature of Maine, the Mayor and Aldermen fixed the salary of the Judge of the Municipal Court in Portland at $1000 per annum, the same sum he received under the provisions of the statute forming the Court.

Southern Wheat Crop.—The New Orleans Picayune of the 13th says: From every Southern State we have the most gratifying accounts of the wheat crop. In the Carolinas, Georgia, Alabama, Mississippi, Tennessee, Texas, and our own State, the promises of an abundant harvest were never better. Everywhere the crop is backward, but vigorous and healthy; the recent genial weather is bringing it forward rapidly, and, unless something now unforseen occurs, to a rich and early harvest.—It is probable that the cold spring has been favorable to it, causing it to take firmer root and to "spread," as the farmers say.

Filibusters.—The Washington correspondent of the N. Y. Times says:

Private advices have been received from California, stating that the ship Ocean Bird had sailed from San Francisco for San Juan del Sur, with 293 men, well officered, equipped and provisioned, to aid Walker. Considerable excitement prevailed in San Francisco, and the Californians were determined to take forcible possession of the Nicaraguan route to insure the safety of travel and the transit of its treasure. I am informed that a similar movement is being made in the Southern States and in New York.

Don'r, or Don'r?—We have so much regard for our friend the Nashua Telegraph, (the paper, for we have never yet seen the editor,) that we are constrained to say a word to it by way of counsel. Almost the only fault we can find is, that it is eternally telling, directly or by insinuation, of printers' and editors' hard work and harder fare,—poor pay and short commons. Now, as we believe, from experience, that our craft is as well treated and liberally paid as most any other, we can't bear this common habit they have of crying poverty, and the like. Br. Board, don't do it.

Fugitive Slave Stopped.—At Portsmouth, Virginia, on Saturday last, a mulatto boy of 12 years was found concealed in a closet attached to the wheel-house of the steamer Roanoke, just as she was about leaving her wharf on her regular trip to New York, and his hopes of freedom were cut short by a return to his master's custody. He is one of four brothers, one of whom ran away from a Mr. Walters of the National Hotel, and is supposed to be in Boston.

Sad Affair in West Dennis.—A few days ago an affray occurred in West Dennis, between two men aged about 70 years, who were neighbors. One of them was named Capt. Edward Crowell, and the other Capt. Francis Small. Meeting upon the bank of a river, they had a dispute about a piece of fence, and Capt. Crowell struck his neighbor Small upon the head with his cane. Capt. Small was so much enraged that he dragged Capt. Crowell, who is a lame man, into the river and held his head under water, until life was almost extinct. Capt. Crowell has since died from the effects. Small is arrested.

☞ At Cleveland, Mississippi, on the evening of the 6th instant, Mr. W. D. McKree, principal of Georgetown Academy, was married to Miss Mary Roberts, and at midnight, during the rejoicings of the bridal party, he fell dead among them.

Heinous Offence.—A married man was on Tuesday arrested at Lowell, and bound over for trial at the Lowell Common Pleas Court, on a charge of lodging with his sister, at the Mechanics' House, over night. Another brother at Woburn at whose house she was residing, and also her affianced lover, followed him from Woburn and caused his arrest at the hotel. He is 31 years of age, while the girl is but 21. The penalty for this offence is not more than twenty years' imprisonment in the State Prison.

Hon. Fayette McMullen, late member of Congress from Virginia, has been appointed Governor of Washington Territory.—*Patriot.*

This "Hon. Fayette McMullen" is the most drunken, ruffianly bully in Congress; the same who brutally assaulted Gen. Granger of New York, a small, feeble man nearly seventy years of age, during the last session of Congress.—*Ind. Dem.*

Religious Anniversaries.—The Baptists have already held some of their most important meetings in Boston. And other denominations, together with several societies, wherein two or more sects unite, are to hold their meetings in Boston this week.

Burned to Death.—Ellen Kelly, a servant girl in New York, on Monday evening let a bottle of cologne drop upon a grate fire, and in an instant her clothes were in a blaze. She lived but about an hour afterwards.

☞ Over two millions of trees were planted last year in Ireland, which were registered with the magistrate.

Affairs in Utah.—The population of Utah is estimated at forty thousand, though Governor Young says it is double that. One half are foreigners. Formerly the proportion of Americans was greater. Young has an army of twenty-five hundred men, under good discipline.—They are drilled every day. They are mostly foreigners, and fit instruments for the purposes of Brigham Young.

There is nothing like an administration of justice between man and man. Assassinations are not unfrequent, and the seizure and confiscation of private property is a common occurrence. The American portion of the population are prepared for an insurrection against Brigham Young's rule, and if the federal government would send a sufficient number of troops to support them, would gladly assist in revolutionizing the affairs of the Territory.

One of the most repulsive features of Mormonism is the "proxy" system. When a married man is called by conference to a foreign mission, he has the privilege, as they call it, before leaving home, of choosing some one to take the oversight of whatever he may possess, and become the pro tempore husband of his wife.

The ostensible reason for this arrangement is to prevent the husband from "suffering any loss" during his absence on missionary labors, since the greatness of his "future kingdom" depends upon the number of children he has here. The wife is handed over to a deputy husband, who maintains his position in the family till the husband returns. Base and immoral as this theory may be, it is strongly advocated by the leading men at the Great Salt Lake.

Germans in New York.—There are one hundred thousand German inhabitants in the city of New York. They have upwards of twenty places of public worship, upwards of fifty schools, ten bookstores, and printing establishments, a German theatre, German opera, and *matinees* and *soirees musicale* innumerable. Many Germans are practical furriers, surgical instrument makers, manufacturers of pianos and fancy articles, grocers, bakers, confectioners and hotel keepers. There are German daily, weekly and monthly newspapers. The York States Zeitung, from which we gather these facts, has 18,000 daily subscribers. The character of the German merchants in New York is said to stand high. During the last year, according to our cotemporary, the direct trade with Germany from New York employed in its marine a tonnage of 99,000 tons, numbering 152 arrivals and 120 departures. There are six lines of packets and two of steamships. The number of seamen employed was 3547. The valuation of this trade for the year was $12,193,284,90 of direct imports, and $6,567,570 of direct exports. The indirect trade may be assumed at a higher rate. The number of passengers arriving during the same month was 38,289.

The Portland Advertiser, in commenting upon the falling off in business, and the hard times so evidently looming out ahead, borrows an expressive phrase from shallow navigation, and advises its readers—"to tie up, and wait for a rise." The advice is sound, there is a great financial storm about to burst upon this continent, it it does not involve the whole trading world, and those only will ride it out, who carry no more sail than will keep them steady. There never was a time at which business men required to exercise more judgment and caution than at present.—*Montreal Com. Adv.*

What makes a Bushel.—The following table of the number of pounds of various articles to a bushel, may be of general interest.

Wheat, 60; Shelled Corn, 56; Corn on the cob, 60; Rye, 56; Oats, 36; Barley, 46; Buckwheat, 52; Irish Potatoes, 60; Sweet Potatoes, 50; Onions, 57; Beans, 60; Bran, 20; Clover seed, 60; Timothy seed, 45; Hemp seed, 45; Bluegrass seed, 14; Dried Peaches, 33 pounds.

Horrible Outrage.—A negro was wickedly killed at Jersey City, by a party of low and brutal white men, last Monday.—The black man, an inoffensive character, was greatly addicted to liquor; and the white brutes gave him drink until he could take no more. Then they poured some down his throat, and next saturated his hair with camphene and set fire to it.—The negro was afterwards roughly handled by them, probably for the purpose of relieving him of the effects of the liquor, but he died that night.—*Examiner.*

An Infant Killed by Rum.—A Child 5 years of age named James Caffrey, whose parents keep a rumhole at No. 178 East Thirty-fifth-street, was killed yesterday by swallowing some of the poison which is dealt out behind the bar. It appears that the child helped itself to the liquor, and after playing a few minutes in the street, returned into the house and fell dead.—*N. Y. Tribune.*

There is a negro named Grey, now living in Chicago, who holds a passport under the hand of the Secretary of State, broad seal attached, which declares that he is a citizen of the United States, and guarantees him protection. Mr. G. also holds a certificate of commendation, made in 1835, which is signed by James Buchanan, who therein states that "Mr. Grey is a citizen of the United States." In view of the recent decision of the Supreme Court, the question arises how and by what law colored citizens have ceased to be citizens since?—*Poughkeepsie Examiner.*

A Warning.—We understand that His Honor the Mayor, and the City Marshal, have been round "warning" the liquor sellers, that, if they don't desist, they must incur the penalties of the Maine Law. We suppose the next piece in the programme will be a proclamation from the Mayor.—*Nashua Gazette.*

☞ A fine specimen of the American bittern was killed in Tompkins Square, New York, the other day, which will be stuffed and placed in one of the public institutions.

The Bangor Journal says that the sch. Evangeline, built in Prospect, Me., and owned by Capt. Pitman of Brewer, Me., who commands her, is strongly suspected of being a slaver.

Tobacco.—A letter from Kentucky says that tobacconists are using prussic acid to give an almond flavor to the leaf, and in consequence of this poison, a number of smokers have lost the use of their lower limbs.

We were surprised on applying the other day at the principal book stores in the city of Boston, for Homer's Odyssey, at not finding a copy in any of them, and we were obliged to wait until our return to Newburyport to obtain one. Strange reflection—that in the self-styled modern Athens the immortal work of the great poet of ancient Athens could not be found.—*Newburyport Herald.*

A resident of the White Mountain country informs us that it is not probable a carriage road will ever be constructed to the summit of Mount Washington—statements in the newspapers to the contrary notwithstanding.—*N. H. Statesman.*

SPECIAL NOTICES.

The Desire of Sudden Wealth.—Everybody desires to become rich, and that speedily too. Consequently, we find men and women hurrying to invest their money in speculations which promise large dividends. In 99 cases out of a hundred, such investments prove total losses, and yet the world says "it is all well—it was a commercial transaction, although an unfortunate one." How long will the world be deceived and cajoled by mere words? A lottery, like those of Messrs. Swan & Co., of Atlanta, Georgia, is a better affair to invest in than such commercial speculations. The purchase of a ticket for ten, five, or two dollars and a half, has more than one chance in ten, at least, and this is more than can be said for the ordinary business speculations of the day. Society has found this out; and hence it is, that from the patronage given by the people to the gentlemen above named, they can draw a lottery every Saturday. The drawings are superintended by the State authorities, and are conducted by men of known integrity. Correspondents will learn all particulars by addressing Messrs. Swan & Co., Atlanta, Georgia.

Davis' Daguerrian Gallery, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out positively at cost, for 21 days, previous to extensive alterations in the store.

Gossip.—The ladies are unanimous in their praise of the celebrated Carminative.

The Secret Discovered at Last.—We have noticed in passing through Market street, lately, that the New Store, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, Messrs. Allen & Paine, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We also, find that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No. 12 Market street,—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 63 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 *First Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the World's Fair, Paris, 1855.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different machine from other sections—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stand* in the grass without backing, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded free, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

AN OLD GRAVE STONE. — The severe weather of last winter killed a pear tree in the garden of Edmund M. Brown, Esq., between State and Warren streets. In removing this tree, to make the garden this spring, a rough grave stone was found, bearing this inscription:

1737.
Hear Lyes Bury'd
DINAH EMERSON.

What we have here is apparently only the top of the stone;—and we are inclined to believe it a mere fragment, broken from a grave in the old negro burying ground where Engine House No. 6 now stands.

Rev. John Emerson was the first pastor of the South Church, settled there in 1715, and died in 1732. Dinah might probably be a member of his family—but this is mere conjecture, and we offer it as such.

ALL RIGHT.—We are glad to see our people come up so liberally to aid the Cornet Band of our own city. We feel very sure that the Band will appreciate their liberality, and give them no cause to regret it. In return for it, we are to have music out of doors, one evening a week—and perhaps more—during the summer.—*Nashua Telegraph.*

We hear hints that arrangements are to be made for such entertainments in our city, this summer. So if you are called upon for a few dollars for such an object, why—— more anon.

☞ The Piscataqua Floating Bath is now open, and should be thronged from morning till night. To those few who have to go through their evolutions, as Mrs. Partington might say, in a wash-tub, (if they go through them at all,) the opening of this establishment is a great event.

☞ We understand that a meeting of the Teachers' Institute will be held in this city on Saturday May 30.

☞ McIntire & Co., who advertise as Machinists, are workmen who need not be ashamed of comparison with any work in their line. Col. M. was well known as a machinist here, previous to his employment at the Navy Yard.

THE TEMPERANCE ENTERPRISE will never cease to occupy a conspicuous place in the great field of moral and benevolent effort, so long as the use of alcoholic liquors continues to be one of the direst evils that afflict mankind. * * * It is the moral sentiment of the great public, on this subject, which has demanded the use of the legal arm of society for the abolition of the traffic in spirituous liquors. After long-continued experience and the most searching investigation, the conclusion has been reached by many of the purest and ablest minds of the country, that one of the most effective ways by which to lessen intemperance, is to forbid by law the sale of alcoholic liquors, except for medicinal, mechanical, and sacramental purposes.

The traffic which places a subtle and dangerous temptation before all ages and classes of society—which kindles fires of evil passions in every city, town and hamlet of the nation, causes untold pauperism and misery, lessens the public wealth, destroys good order, and blasts all that is fair and honorable among men—has no right to the countenance of good citizens and the protection of the law. It is entitled to no more immunity than wild beasts, obscene books, tainted meats, infectious goods, or counterfeit currency.

For centuries the *safety of the people* has been deemed *the supreme law*, even in monarchical countries. How much more so in a Democratic Republican State like ours, where the *people* are sovereign, an the makers of their own laws. Common sense, common justice, the Constitution of the State and the Constitution of the United States alike authorize and teach that the citizens of the State have the right to restrain, or prohibit, whatever impoverishes society, and mars its beauty and strength, from which they receive protection and common blessing. This is but exercising, in its just and most humane form, the *law of self defence*—a law as old as the human race, and necessary to the very existence of society itself. Whoever denies the State this right, asserts doctrines inevitably tending to anarchy and fanaticism of the most dangerous kind.

The natural and constitutional right of the people, through their representatives, to prohibit the traffic in intoxicating liquors is, therefore, settled and undisputed in the judgment of all candid and considerate men.—*Kennebec Journal.*

THE FAMINE IN MICHIGAN.—*Detroit, May 22.*—Additional information from the nothern counties of this State fully confirms the previous accounts of destitution existing there. Contributions for the relief of sufferers, from this city and the interior, are being freely received and forwarded by the executive Committee of this city.

NEW ORLEANS, *May 22.*—The steamship Catawba has arrived from New York via Havana 19th inst. Sugars were firm; the stock at Havana and Matanzas was estimated at 290,000 boxes. Molasses was active, and prices so high that speculators had been driven out of the market.—Freights were dull. There is no news of importance.

ST. LOUIS, *May 22.*—Gov. Walker arrived here yesterday, and left this morning for Kansas.

Col. Cumming, the Indian Agent for the West, has been tendered, but declined, the Governorship of Utah.

WASHINGTON, May 22.—The number of applicants for foreign appointments, particularly for Consulates, continues to increase. Every day brings both individuals and letters, strongly recommendatory for these office. The President has declared to his friends that the business greatly embarrasses him, particularly as he cannot gratify one in ten of the applicants. No doubt the appointments will be made gradually, he having the entire summer before him for that purpose.

None will, it is positively stated, be summarily recalled, and the utmost delicacy will be observed towards present incumbents.—This programme has caused much disappointment to those who anticipated an entire change during the ensuing months.

It is not true that Gov. Wright, of Indiana, or any other person, has been selected for Governorship of Utah. The difficulty consists in finding a man suitable for the emergency.

The Marshal of the District of Columbia has given notice to Mr. Blanchard, one of the printers of the National Era, and Mr. David A. Hall, of his intention to sell their property to pay the bail forfeited by Gen. Chaplin.

IMPORTANT NEWS FROM MEXICO.—*Washington, May 22.*—New Orleans papers of Friday last contain details of Mexican news. Vera Cruz dates are of the 9th.—Two French, and two British ships of war were at that port.

City of Mexico advices are to the 5th.

No positive information had been received touching the execution of Col. Crabb and his party.

The orders issued were to bring the filibusters prisoners to Mexico for trial.

Letters say that 500 more filibusters had entered Arizona.

The Mexican loss in the battle with Crabb was 50 men.

Another conspiracy to revolutionize the country was discovered on the 29th. The plan was to seize Comonfort, and then attack the city. The ringleaders were arrested, and it is reported beheaded.

A struggle is going on for the abolition of separate schools for colored children in Rhode Island, and the introduction of the blacks into the common schools. The petition to the Legislature in behalf of the measures was drawn up by the Rev. Dr. Wayland, and bore the signature of Bishop Clark.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for the word—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical evidence of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CONSUMPTIVE CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of this American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and many yet live communities any where who have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. Whilst it is the most powerful antidote yet known for the fatal and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in readiness against the insidious enemy that creeps upon them unprepared. We have abundant proofs to believe the CHERRY PECTORAL saves more lives by the consumptives it prevents than by those it cures. Keep it by you, and cure your colds while they are curable, or protect them until no human skill can master the inexorable ranker that fastened on the lungs. *Keep the whole family from the fearful fatality of lung disorders, and as they know too the virtues of this remedy, we need not dwelling upon them to assure them it is still more worthy their trust than any other they have had to produce it is the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Tucker & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend the drawing, and everything is conducted with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other Lotteries.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(*Sign of the Chinaman grinding Coffee,*)

141 Washington St., Boston.

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.*—The Stock consists of Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamons, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having the purest and genuine as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1 25	5 lb. Mocha Coffee,	1 00
5 lb. Oolong do.	1 25	5 lb. Java do.	1 00
5 lb. Young Hyson do.	1 25	5 lb. Rio do.	1 00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be of the finest quality, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-third the quantity of Coffee, and is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medicinal properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as taste suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is recommended by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Taraxacum* has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, entitled Taraxacum, in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of other houses.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Models for Patents, executed on the liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and with full and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages of securing patents, or ascertaining the patentability of their inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given represent no more is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has the most extensive practice, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

THE FREEDOM TREE.

Beneath the fairest skies of heaven,
A glorious region lay;
To North and South and distant West
It stretched itself away.
And in the midst of this fair land,
Uprose a wondrous tree;
It had no counterpart on earth—
So noble—lofty—free!

It was a tiny thing at first,—
Though ne'er by storms dismayed;
'Till by and by the nations came
For refuge in its shade.
And all who in its shadow dwelt,
Grew strong and brave and free,
And every virtue flourished best
Beneath the goodly tree.

While very young, it promise gave
Of vast intrinsic worth;
Its early blossoming indeed—
Sent fragrance round the earth.
And to the weary and oppressed,
The crushed beyond the seas,
It seemed, the very breath of heaven
Came floating on the breeze.

And swift with one accord they came
To find the hallowed sod.
As once of old the Magi sought
To find the son of God.
But gold nor frankincense they brought;
These they had yet to win;
Their souls for Freedom were athirst,
They came to drink it in.

And ever as the exile came
From tyranny's alarms,
The tree of Freedom broader spread
Its all-protecting arms.
Its healing leaves upturned to heaven,
Fairer and fairer grew;
They drank its glorious light by day,
At eve its pearly dew.

And as in mightier bands they came,
Emerging from the gloom,
They read on banners flung aloft;
"Brothers, there still is room."
And list, that long triumphal shout,
Which grateful tears baptize;
And "thank, thank God for Liberty!"
Rings echoing through the skies.

They pluck and eat the healing leaves,
And bind them on their scars,
And boldly fling unto the breeze
The glorious stripes and stars.
And though the fragrant blossoms breath
Had not yet died away,
The fair rich fruit upon the tree,
Was ripening day by day.

And still new blossoms burst to view,
Each one a kingdom worth,
Until the Freedom tree became
The fairest sight on earth.
And various were its fruits, as were
The wants of those it fed,
And yielded in the noblest sense—
To each his daily bread.

One of the blooms was industry;
Its fruits were—honest wealth,
And peace of mind, which passeth all,
And cheerful, happy health.
And knowledge blossomed into schools;
And halls of learning rose,
And offered all her glorious charms,
To him who wisdom chose.

No angel with a flaming sword
Stood now to guard the tree,
But all who were athirst might come,
And like the gods might be.
And for each pure and goodly gift
That man could wish below,
He, to the tree, if undefiled,
Might boldly, bravely go.

But there was one dear fruit most prized,
Which feared no tyrant's rod;
'Twas "Liberty of Conscience," called,
Freedom to worship God.
Years passed and grey haired, happy men,
Had found their time to die;
And met the messenger so grim,
With calm and peaceful eye.

And thus, with grateful hearts and words,
Serenely down they lay,
Leaving their children's children free,
Forever and for aye.

A celebrated Paris physician and surgeon lately performed an operation on a blind man, as an act of charity, and fully restored him to sight. In a few days the man sued the doctor for destroying his profession as a blind man, and taking away his tools, laying damages at 20,000 francs. The suit is now in court.

Morning Chronicle.

TUESDAY, MAY 26, 1857.

GOOD OLD TIMES.—"Say not, the former days are better than these,"—for it is not true. Yet many people say so. The Boston Courier says:—

The clergy of New England formerly exerted a vast beneficial influence upon society, and indirectly upon the affairs of state. This did not result from active efforts, as the partizans of any political opinions or organizations, but from the fact that they were Christian ministers, devoted to the legitimate purposes of their calling. That a serious change has taken place in their general standing, they must be as conscious as ourselves.

Their standing has undoubtedly changed several times, from several causes.—But the clergy of New England from the landing at Plymouth, till this day, have taken an active part in politics. In New Hampshire, for example, let us name Wheelwright, Moody, Bardett, Knollys, and Larkham among the very early ministers: Harris, McClintock and Buckminster in the revolution and afterwards; Ballou, and Parker, Portsmouth in 1812: Porter in Rye at the same time: Elias Smith, whose Herald of Gospel Liberty was as fully committed in the political, as in the religious arena: George Pickering, Alfred Metcalf, and John Brodhead, all methodists, all republicans, all active politicians at one time, and Mr. Brodhead, a member of Congress: Wm. Plumer; Payne Wingate: David L. Morrill; Elders Boody, Harriman, and Atwood: Matthew Hale Smith; and last, but not least, Brother Lovejoy, the rum missionary, who came over the border into N. H., to save the the Union.

Nine-tenths of the New England clergy have been politicians,—are now,—and will be.

☞ The Wheat Crops of the West continue to be matters of comment and speculation in the journals of that region, but they severally agree that in Illinois, Indiana and Missouri, and the states adjoining them, the crop will be of a full average, and that the alarms which have been received about them, are intended for speculative purposes. The Cincinnati Price Current of the 21st, publishes letters from twenty correspondents, in different parts of the western country, who had been requested to furnish an accurate account of the prospects of the crops, and they are nearly all quite favorable. Some speak of the fall sown wheat being winter killed, and the tobacco plants are very backward, but as a whole, the correspondence is very satisfactory.

Gov. Robinson of Kansas, and "old Brown," editor of the Herald of Freedom in Lawrence, have fallen out and openly denounce each other. To supply the place of the Herald, however, Robinson will have Stringfellow's "Squatter Sovereign" at Atchison, in his support, as that is coming out Free State, next week.—Stringfellow says the southern men are done in Kansas; they promised him men and money, if he would lead; they sent but a few hundred miserable emigrants, and left him so without means that after expending $8,000 himself, he was bankrupt. Now he has sold out to the Free State men, hoping the State will be free, that it may improve his lands, and thereby return him his money.

The Free State men are full of hope, and in addition to the "Squatter Sovereign," are to establish a German paper in the territory; and arrangements have been made to run a line of packet ships from Boston to Germany, for the purpose of bringing emigrants expressly for settlers in Kansas.—*Newburyport Herald.*

Southern men done in Kansas! are they? R. J. Walker, Mr. Orr and Stanton, are there. But we take it, from some newspaper *bosh*, they are all Freedom shriekers now. Believe this, who can.

☞ The sugar crop of Vermont this year is estimated by the Montpelier Watchman at over 8200 tons, which is nearly half of the maple crop of the nation, as returned in 1850, and one-eighteenth of the sugar crop of the United states. At 10 cents a pound, this year's crop amounts to $1,660,165. The sales have been from 10 to 25 cents a pound, though comparatively little has been disposed of. It is said that with proper care and utensils the crop might have been doubled.

☞ The city of St. Louis, though one of the most prosperous in the Union, is burdened with a large debt. From the recent message of Mayor Wimer, we find the bonded debt of St. Louis to be $4,856,966, of which nearly two millions are stock in railroads.

BREAKING UP GAMBLING HOUSES.—Mayor Wentworth is taking vigorous measures for breaking up the gambling houses at Chicago.

For the Chronicle.

"MARCH—MARCH—MARCH!"

We have devoted a little attention to the speech of Hon. Caleb Cushing, at Newburyport 22d ult., because he may be considered to be one of the exponents of the just expired administration. Mr. Secretary Marcy was the ablest statesman, and Mr. Cushing the most talented and ambitious member of the Cabinet. Mr. C. holds to "manifest destiny," as did Napoleon; and that "march—march—march" is the destiny of the United States, a doctrine which he had promulgated before, and now reiterates,—"I stand to my thought."

His idea is, if we understand him, that the United States are "destined" to subdue the American continent, and bring under their imperial sway all the nations of this continent! He therefore ridicules the policy of his native State, and indirectly the policy of the Northern States that are opposed to extension and foreign conquests.

We can hardly doubt that he intends that his "march" doctrine will give him sufficient popularity, especially in the slave States, to elevate him to the Presidential chair. If there be any general sentiment in our Union, to extend our already vast empire, it becomes the duty of the friends of our free institutions to expose the dangerous tendency of such sentiment. It is certainly opposed to the political creed of the wise founders of our government. Many of them feared that our original domain was too extensive for a republic. In that opinion they were guided by the light of history. They thought that a strong central or despotic power would be requisite to hold in subjection a largely extended empire. We need not say that even the most absolute despotisms have been insufficient to prevent the most extended empires from breaking into fragments.

But Mr. Cushing seems to disregard or overlook what our American sages held to be the only true supports of our free institutions, viz: the general diffusion of knowledge and virtuous principles. No truth is clearer than that without these two supports our republic cannot be perpetuated.—The reason is equally plain—for it is a government of the people—thus reversing the doctrine of monarchies that the political power is derived from the absolute ruler.

The notion of extending by conquest, or other means, our political institutions over the ignorant or half-civilized nations of this continent, is extremely ridiculous and absurd; because they are not qualified for self-government. There are various other objections which will readily occur to intelligent statesmen.

We trust that Mr. Cushing will find himself unable to build up a "march" party for military conquest—that the fate of Aaron Burr, filibuster Walker, and other ambitious spirits, may teach him a useful lesson. Let him remember that his recent declaration that the spirit of freedom should be "crushed out," did not meet with a favorable response at the North;—but if his unbridled ambition shall be gratified, he must, in the future, rely upon the dominant power of our Southern oligarchy. That power will rise as freedom sinks, and sink as freedom rises in this republic.

"Destiny" leads Mr. C. to infer that the Hispano-Mexicans will be received into our Union. "Immigration is the foundation in America of republican empires to outcount in numbers and outvie in strength the parent states of Europe." Indeed! our military strength to be derived from immigration and annexation! It is possible that we may follow in the track of past nations that have risen up and taken command of large portions of the world and have fallen from their lofty height. But God grant that it may not be our destiny to have the indolent, ignorant, superstitious and half-civilized people of Cuba and Mexico annexed to our Union.

Let us wait a quarter of a century at least, and see the result of annexing the vast regions of Oregon and California. The latter has a golden charm, but, ultimately, may not tend to increase the products which constitute true national wealth. It was American gold which sunk low old Spain.

CITIZ.

THE DIPLOMATIC APPOINTMENTS.—The Washington Star states that but few new appointments will be made at present.—Messrs. Vroom, Belmont, Owen, and one other representative to foreign courts, have applied to be relieved from their places.—It is still confidently asserted that R. J. Walker will be our next minister to England, and Mr. Slidell of New Orleans to France.

At one of President Polk's levees, a gentleman present addressed Mrs. Polk and said, "Madam, you have a very genteel assemblage here tonight." "Sir," replied Mrs. Polk, "I have never seen it otherwise."

TROUBLE AMONG THE FREE STATE MEN.—We learn from the Kansas correspondent of the New York Evening Post, that Gov. Robinson has felt called upon to defend himself before a public meeting at Lawrence, against the attacks of the Herald of Freedom. He said in explanation of the animus of these attacks, that when he was a prisoner at Leavenworth, and Brown, of the Herald, at Lecompton, the latter proposed that they should sell out the Free State party by acknowledging the territorial Legislature and laws, and thereby procure their release. The idea, Robinson rejected at once, and to the conscious disgrace of having made such a proposal, he attributes the enmity of Brown.

Mr. Brown denies the charge, and retorts by accusing Robinson of the same misdemeanor, referring to the proposition of the latter to go into an election under the bogus laws, if Stanton will give a new census and *four* judges of the election, two of whom shall be free State.

KANSAS.—The Lawrence Herald of Freedom of the 16th inst., reports that Mr. Sutton, who had been warned to leave that vicinity by "R. Sureshot, Sec'y of Division 4, Council 16, National Democratic Party," was visited a few days after receiving the notice, by a pro-slavery neighbor, who informed him that as he (Sutton) had failed to comply with the notice, he had come to inflict the penalty; at the same time he discharged a revolver, which missed its aim. Mr. Sutton returned the fire, killing his assailant, and then fled.

RATS, ROACHES, BED BUGS, INSECTS, &c. "Costar," the great Rat, Roach, &c., Exterminator, 388 Broadway, New York, is establishing depots for his remedies in every city, town, village and neighborhood in the United States, but seeks to do so in the hands of druggists, storekeepers, &c., &c. Where this is impracticable, orders by *mail* or *express*, enclosing the price of articles with sufficient to prepay, will have prompt attention. Address "Costar," 388 Broadway, New York.

See regular advertisement. For sale in Portsmouth by Jos. H. Thacher.

SPECIAL NOTICES.

DAVIS' DAGUERRIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

The Poor as well as the Rich man's child is cured by the use of Lawrence's celebrated Carminative.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, Messrs. Hale & Blaine, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days.—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No. 12 Market street,—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larcokah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 88 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

Agent in Portsmouth, JOS. H. THACHER. Wholesale Agents in Boston, Weeks & Potter, Retail Agents, Redding & Co.

IT IS AN ESTABLISHED FACT that Dr. Sanford's INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

NEW YORK, May 25th.—The American schooner Chas. Hill, from Mayaguez to San Domingo, ran into a Dominican packet, which had crossed her bows, during March. Capt. Smith is now in jail in San Domingo, in default of payment of a fine of $3000 for wilful damage to the Dominican vessel. He has abandoned his schooner to the government.

TROOPS FOR THE INDIAN COUNTRY.—*St. Louis, May 23.*—The Kansas correspondent of the Democrat says a force of dragoons and artillery has left Fort Kearney for an attack upon the Cheyenne Indians, who, it is said, are concentrated at Republican Fort, Kansas Blue River.

Kansas Affairs.—The Republican publishes a letter from Mr. Brown, of the Lawrence Herald of Freedom, to Mr. Brewster, the Kansas correspondent of the New York Herald, referring to the difficulty between Gov. Robinson and himself. Robinson had charged Brown with an attempt to sell out the Free State party to Gov. Shannon, on condition of being released from prison. Brown denies the charge, calls Robinson an unmitigated liar, and requests Brewster so to represent him.

Gen. Harney and Mr. Orr of South Carolina arrived in the territory. The latter declined the offer of a complimentary dinner which was tendered to him.

THE BURDELL MURDER.—*New York, May 24.*—The Sunday Mercury reiterates its statement of last week, that the Burdell murder was performed by two assassins, who entered the house No. 31 Bond street, by a back window; and asserts that evidence thereof will be forthcoming. The motive was revenge, and on the part of one of the parties an honorable one.

WASHINGTON, May 24.—Dr. Charles A. Frailey, who occupied a high and responsible position in the Department of the Interior, and formerly Chief Clerk in the Land Office, died this morning. He was Past Grand Master of the Masons in the District, and was known to the Masonic fraternity of the whole country.

☞ Harper's New Monthly for June, is received by A. Williams & Co., Boston, and by J. S. Harvey & Son, Portsmouth. It is a very interesting number,—containing an illustrated article on Charleston, the Palmetto City,—and another on the Adventures of the Early Settlers of New England.

☞ A cow, owned by Mr. Hammond, of Paris, Oxford County, averaged, last week, twenty-eight pounds of milk per day. This is claimed to be a quantity rarely equaled.

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and every where throughout the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*, and to adapt the Machine to require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *durable*, with facilities to pass the *cutter* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and to be managed by a lad; simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

SCHOOL ECONOMY.

Messrs. Editors:—I read in the last N. H. Gazette a report of the doings of the Common Council, containing these items:

The School appropriation was reduced from $12,077 to $11,091.81, which is an increase of $300 over last year's appropriation. It was voted, on motion of Mr. Hatch, that the city will not be held responsible for any excess of expenditure by the school committees over the appropriations; and on motion of Mr. Brooks, that no part of the appropriations for Schools for the present year be applied to the liquidation of debts incurred by the committees without authority last year. * * * *

Some very sensible remarks were made by Messrs. Hatch and Jenkins upon the great increase of school expenditures, the inequality of expenses in the several districts, and the duty of committees to govern their expenditures by the actual appropriations made by the City Council. Mr. Hoyt mentioned Mr. Payson, the teacher of the Hanover street grammar school in District No. One, as particularly deserving of the increase of salary ($50) which the committee of that district propose.

The most remarkable fact in relation to this economy in school keeping, is, that the "sensible remarks" about the increase of school expenditures, come from two men who have just doubled their own incomes by securing two good fat offices under the United States government.

The school expenses have increased. Yes, truly—and so have the expenses of bread and butter and sugar and shoe leather. The teachers lived, five or ten years ago, before these prices rose;—and if their wages had not been raised, how could they live now?

Ah,—says the well fed federal office holder, just as he begins to butter his bread on both sides,—ah—h—h—this dreadful extravagance must be seen to.—Mr. A. B. keeps school for 500 dollars, Mr. C. D. must not have $700,—no matter if the committee have agreed with him at that price,—we'll cut down the appropriations, and vote that they shall not go beyond them. No matter what becomes of C. D., or his children, or his school. We can live on our salary: why can't he?—This may be spoit to the officer,—but it is starvation and death to the school-master. Well, then, let the school-master seek and get a good fat office. That's ECONOMY.

CORNER STONE LAID.

On Monday afternoon, the corner stone of the new Sunday School Room in Court street was laid, with appropriate exercises, viz:

Hymn 528, Greenwood;

A brief address by Mr. John P. Lyman, of the building committee;

Prayer by Rev. Dr. Peabody;

List of deposits read, box deposited, and stone laid;

Hymn 65. Greenwood;

Benediction.

The articles deposited in the leaden box were: Service book of the South Parish Sabbath School, class papers, tickets, and catalogue of library; Reports of the Sabbath School; addresses to do.; Memorial of J. W. Foster; view of old school room; eight printed sermons by Rev. Dr. Peabody; Newspapers of the city; Printer's Centennial, Sons of Portsmouth do.;—Portsmouth Almanac; do. Directory; Unitarian Year Book; Parchment Sketch of S. S. Society, &c., &c.

There was a good attendance, and the exercises passed off very pleasantly.

☞ Several gentlemen of this city, without distinction of party, propose a Complimentary Levee to Gen. J. G. Hadley, the veteran landlord of the Piscataqua House, which is soon to be demolished, to make way for the new Custom House Building. This is a good idea. Gen. Hadley has been connected with this house since 1824, and for the last 29 years has been its landlord. He has always kept a respectable hotel, and his name is closely identified with the enterprises and interests of the city. It is proposed to have this Social Entertainment of his friends sometime in the month of June, at the old house. "May we be there to see."

1812.

AGRICULTURAL.—The warm weather has caused a great change in trees, grass, and vegetation generally. The former are very backward; grass looks unusually well; and we think all that is necessary to insure a good hay crop, is a warm, "wet June."

We notice that many farmers in this vicinity, have not planted their corn; and they need not be in a hurry, if they observe the old saying,—"When the leaves of the oak tree are as large as a mouse's ear, then plant your corn." A very good rule, we opine. There is another rule which is followed by a few: "When apple tree blossoms commence to fall, *then* plant corn." We prefer the former.

Owing to the late heavy rains, the ground is wet and cold; a few warm days, however, will make a great difference. C.

☞ Monday was one of the hottest days of the season, certainly,—and one of the hottest we ever have, in this section, in *any* season. The thermometer rose to nearly 90° in this city—varying from 87 to 89, in different locations. Whew!

THE PRESBYTERIAN CONVENTION.—*Cleveland, May* 23.—At the afternoon session of the General Assembly of the Presbyterian Church (second day) a report was read from a delegate to the Evangelical Convocation of Rhode Island, announcing the resolution of their Convocation to withdraw from all connection with the new school of Presbyterian Church. The report of the trustees of the church erection fund was read.

A report from a delegate to the General Association at New Hampshire was also read. It showed that the question of the separation of the New Hampshire, churches from the General Assembly had been discussed, but postponed, and that there was a fair prospect of an adjustment of the difficulties arising out of the slavery and church extension questions.

CURIOUS GIFT TO THE PRESIDENT.—*Washington, May* 23.—Mr. Kinman, the Californian hunter, presented the buck horn chair to the President this afternoon, in the East Room, in the presence of a large number of spectators, among whom was Gov. Dickinson. Mr. Kinman was introduced by General Denver, and made a speech, informing the President it was the first piece of Cabinet work he had ever attempted. The President's response, as well as Mr. Kinman's address, was loudly applauded. Having tried the chair, the President pronounced it comfortable, and promised to preserve it as a cherished memento.

Land Warrants.—A 160-acre land warrant was issued to-day from the Pension office, to Louis McLane of Maryland, Secretary of War under General Jackson, and subsequently Minister to England, for service in the war of 1812.

Senator Butler is approaching his end. His friends give up all hopes of his recovery, and say he will never rise from his bed again. His disease is the Sumner assault, and he has been failing ever since that occurred.—*Newburyport Herald.*

TO THE CITIZENS OF THE UNITED STATES
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be hailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE,

CHARLES' LONDON CORDIAL GIN

Is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success, in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach and Costiveness.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they always cure. If they will do as others say they do me, the fact is worth knowing.

Yours with great respect, ED. W. PRERLE,
Clerk of Common Council.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we have. Their range in being action on the *liver* is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seen some of the worst bilious diseases so shaken that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are doing wonderful cures here. They have done my wife more good than I can tell you. She had been sick and ailing away for months. Went off to be doctored at great expense, and came home worse. I then commenced her on your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody flux. A few of your Pills cured her of a bad lame back; my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even in one case. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Hines, Pastor of Advent Church, Boston.

DR. AYER: My wife has received great benefit from your excuse in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can cordially recommend them to my friends.

Yours, J. V. HINES.

WARREN, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Revending Wholesale Druggist of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples upon her face and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Bascom, of the Methodist Episc. Church.

FRANKLIN HOUSE, NASHVILLE, TENN., Jan. 8, 1855.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which could not be controlled by opiates. Nevertheless, I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Louisville, I tried your Cathartic Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SECRETARY CHAMBER, BATON ROUGE, LA., 8 Dec., 1855.

DR. AYER: I have been severely afflicted with the Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American Union, its wonderful cures of dangerous complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man, for the fatal, dable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for family use, and for children and invalids. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral has saved more lives by the consumption it prevents than these it cures. Now it lay you, and cure your cold while they are curable, neglect them until no human skill can master the inscrutable monster that, fastened on the vitals, only yield life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still the best of its class we can make it. We spare no cost, no care, no toil to produce it the most perfect possible, and then afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are secured by law to the Commonwealth, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another provision of the law makes it a misdemeanor, to, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of the legislature. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. Tickets are half $1 and quarter 25 cts. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, and the chances are as many as the number of combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Baltimore Patriot, American and Sun, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
141 Washington St., Boston.

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.*—Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the articles named, the public may rely upon having them *pure and genuine* as they are put up carefully, and bear our name and label—"TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we annex the following scale of prices, viz:

5 lbs. Souchong Tea $1 25 | 5 lb. Java do. 90
5 lbs. Oolong do. 1 75 | 5 lb. Java do. 100
5 lb. Y. Hyson do. 2 25 | 8 lb good do. 1 00

The Spices are put up in 2 and 4 lb. tin canes, expressly for family use, and have proved to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages bearing our trade mark, and we can rely upon us the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee,*" may be relied upon as the GENUINE ARTICLE. The preparation need be about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This article is prepared with the root, with all its medicinal virtues retained, can be mixed with coffee or not, as taste suits the taste, and is a mild and pleasant preparation as a family tea, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c., &c.

☞ Be careful to observe that all our *Taraxacum* has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, called Taraxacum, in the market.

☞ To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being realize large sales for small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices, as compared with those of any other house.

Progression.

I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called

Photographs,

as well as those on GLASS, known as

Ambrotypes,

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZED CAMERAS, and larger than any in use in this vicinity, exclusive of those used by Daguerreotypists, and other facilities, I can offer to work at such prices as cannot fail to be satisfactory.

One important feature in this connection, is the invaluable process of Enlarging a small sized picture up to Cabinet or even the size of LIFE. This process also I have obtained, so that any one possessing a small picture of a lost friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend the drawings, and certify that everything is conducted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of ladies and minors being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten gives a prize. Tickets are half dollar, $2, quarter, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that one can soon understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000 every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers—Sunday Times, *Delta, Mobile Register,* Charleston *Standard,* Nashville *Gazette,* Atlanta *Intelligencer,* and New York *Weekly Day Book.* Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.

(Late Agent of U. S. Patent Office, Washington, under the act of 1836.)

No. 76 State st, oppo. Kilby st, Boston, AFTER an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, prepared on the shortest notice, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching Patents. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, not enjoyed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. IT IS THE BUSINESS OFFICE that the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years, has enabled him to collect, at great expense, a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full access to the patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All successful of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner of Patents.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

CHILDREN.—It seems that the number of children born in Massachusetts last year, having one or more parents of foreign birth, is almost equal to those of American stock, and this should be a matter of consideration to patriots and moralists and religionists. The reasons are obvious. First, the native born population contend with fashions that destroy the health of women. At least three quarters of all American women are unhealthy, and the majority of them die young. This will be till there is a return to something of a more natural state, where food, clothing and exercise shall be such as physical nature requires. A second reason is, that in our false state of society, instead of reckoning children as "jewels," we count them a burden, and the wife who has none or few, thinks herself happy. This is not christian but devilish; not natural and true, but false and pernicious. How far murderous means are used to prevent the increase of population, we do not know; and it will hardly answer to inquire. The Dalton case turned over one leaf of that chapter; and almost every newspaper, with its thousand advertisements of quack doctors, and its announcement of a multitude of pills, with its cautions in regard to their use, give us other pages of the same chapter. God forbid that we should be too uncharitable, but when the makers and venders of such nostrums get rich, somebody must purchase and use their compounds.—*Newburyport Herald.*

THE BURDELL ESTATE.—In the Surrogate's Court on Saturday, Dr. Burdell's relatives moved for a commission to take the evidence of W. C. Hyde of California, who, they allege, has been engaged to Mrs. Cunningham. The deposition of an aunt of Mr. Hyde and of Mrs. Cunningham were put in in reply, and the motion was denied.

☞ The order of Jesuits have resolved to establish a Church, College and Free School in Chicago, on a scale of magnitude equal to any of the same character, in the United States. The church will be one of the handsomest in the West, and will cost about $100,000. The college buildings will probably cost $150,000.

☞ A white marble statue of Franklin is to be inaugurated in Philadelphia, on the first of June, by the Independent Lodge of Odd Fellows, on their lot, in the Odd Fellows' Cemetery. The statue, which is six foot in height, represents the philosopher at a period in life much earlier than the generality of the portraits and statues extant, represent him. He appears a hale, hearty man of forty-five.

HANDSOME IN DEED.—A gentleman in this city celebrated the sixth anniversary of his marriage yesterday by sending his wife a basket of flowers, and a deed for a $60,000 house on the Fifth Avenue.—*N. Y. Mirror, 22d.*

THREE DEGREES OF CHARACTER.—An excellent turn was made a few days since at dinner-table by Judge Hoar, of Massachusetts—altogether too good to be lost. A gentleman remarked that ———, who used to be given to sharp practice, was getting more circumspect! "Yes," replied Hoar, "he has reached the superlative of life—he began by seeking to *get on*—then he sought to get *honor*, and now he is trying to get *honest*."—*Detroit Advertiser.*

HORSES.—Col. Tuttle lost a fine horse, valued at $200, on Saturday morning. He got loose in the stable and ran down State street, Newburyport, when in turning into Essex street he slipped and broke a leg; the bones stuck through the hide.

A horse owned by a gentleman from Stowe, Mass., stopping at the Merrimac House, died on the same day, from over feeding after a hard day's drive.—*Newburyport Herald.*

The legislature did not rise on Saturday, and it is thought that they have been sitting so long as to be unable to rise, or lost the use of their lower limbs from Prussic acid, which is said to be extensively used in the preparation of tobacco. This is the 139th day of the session; and the day for sending cows to pasture—and we would suggest to the members that it is time to go home and look after their cattle.—*Newburyport Herald.*

Thomas H. Benton has written another letter to the Missourians against the emancipation movement in those parts. Alas, for his blindness in losing the first, last, and only chance of his long life to make his name really immortal.—*Newburyport Herald.*

During the past year they were compelled, owing to their increase of patronage, to enlarge their store to DOUBLE ITS FORMER SIZE, they have now ample room, notwithstanding their increase of custom, to accommodate all who may favor them with a call.
P. S.—In addition to the above they have a Large Stock of
Boys' Clothing,
OF ALL KINDS.
All who are in want of *Good Clothing at Low Prices,* will do us the favor to look at our large stock, and they will be convinced that

WEDNESDAY, MAY 27, 1857.

DELIRIUM TREMENS.

The Exeter News Letter of May 25, contains the following statements and remarks, which are worthy of serious consideration. They apply to other towns with quite as much force as to Exeter.

There was a death in Exeter, last week, which has produced quite a sensation, and many think that it ought to produce more efficient action for the suppression of the illegal sale of intoxicating drinks. Capt. Charles Moore, aged 35 years, died, it is said, of *delirium tremens*, a disease which is becoming more and more frequent, and is supposed by many to be caused by the use of liquor that has been drugged in the distilleries with poisonous ingredients. There can be no doubt that for the sake of greater gains such poisonous liquors are manufactured in this and other countries, and that this is done to so great an extent that a larger part of all that is sold is of this character. But pure alcoholic drinks, when daily used as a beverage, may produce the same deleterious effects in some constitutions, and the pure cannot be distinguished by most persons from that which is drugged with extra poisonous substances.

There is good reason, therefore, for prohibitory laws to protect the community, not only from *delirium tremens*, but from the tremendous evils and crimes of which rum drinking has been proved, over and over again, to be the source. One would think that the ruin and wretchedness, caused by the sale of it, would at once induce every friend of his race to abstain from the traffic. But it is not so. The sale is continued, and as is universally acknowledged, many persons are killed by the use of it. Let us suppose that not a drop of alcoholic, intoxicating drink could be obtained in the whole world for the next ten years, how many persons would probably die for the want of it, yet how many lives would be saved? Thousands upon thousands would be saved, to one that would be lost for lack of rum, brandy, wine, whiskey, gin, or any other intoxicating drink. So long as intoxicating liquors, pure or impure, are sold, it is certain that many lives will be destroyed, and though the venders may be made rich, yet multitudes will be made poor, and the public taxes increased. It would be cheaper for the community to support the rum-sellers, than to pay the expenses which result from their perseverance in the traffic.

In close connexion, but strong contrast, with the above, we make a brief extract from a paper called the Union Democrat, of Manchester:

"Bad as intemperance is, the Maine Law is worse."

Looking back on the extract from the Exeter News Letter, we see that intemperance is bad, and we see how bad, viz: delirium tremens and the death of the drunkard to one victim—and it is the same thing to hundreds like him, otherwise good men, useful men, beloved sons, fathers, brothers, husbands. The Union Democrat agrees with us that it is bad—very bad!—But—but,—bad as it is, "the Maine Law is worse," quoth the writer."

By the "Maine Law" be evidently means the New Hampshire Act for the Suppression of Intemperance. But in what sense is it worse? Let us see. In this city, during ten or twelve days while the law, nearly two years ago, was generally *obeyed*, we had such order, quiet and peace in our city, as we had not had for forty years before; such, indeed, as we had never had anything like except for a brief period in the Washingtonian era. Why?

Simply, because the open sale of the drunkard's drink ceased entirely;—and the secret sales were few and careful.

But these happy days were few. The waves of rum and misery rolled on again. Why? Because public opinion and public virtue among us, were not quite up to the mark of general obedience to so good a law.

The gains of the trader in intoxicating drinks, tempted him to elude the law by a stealthy breach of it, when the appetite of the tippler bade him hold up a piece of gold to buy a drink of rum. The craft of the demagogue was seen to be in danger, if all the voters should once exercise a *second sober thought*.

Yet this law, thus good, as obeyed, is pronounced worse than intemperance,—by a writer who must either be grossly ignorant of the whole matter, or else guilty of deliberate falsehood. We think the latter. He labors hard to make party capital out of it, and so have some other and greater men than he, undertaken to swim on the rum plank,—but got drowned.

We have spoken of a public opinion, and a public virtue falling below the mark—and we have spoken truly.

But there is a higher standard,—and while many persons fall below, there are many more who are strictly temperate; and as we verily believe, an immense majority of decent people in the State of New Hampshire, of all parties, wish to see the law maintained and judiciously executed, as are the laws against other nuisances.

Public opinion on these subjects is not unanimous.—The assaulter, the land shark, the brother keepor, &c., all to a man, oppose and denythe law; so do many sots, but not all; and so do some crafty scoundrels, worst of all, who wish to grow rich and great, by deluding and cajoling the poor fellows.

But the mass of good men, are and will be in favor of temperance, and of all moral and lawful means to so good an end.

THE DEMOCRATIC STANDARD.—The Concord, N. H. Democratic Standard, of May 23, speaking of the "Fraternity of the North and South," says:

And let us do away with this foolish and miserable prejudice which we have against their bringing their domestic servants with them. So far as we are concerned, in the abstract, what is the *difference*, between a *free* black man, and a *slave* black man? The *only* difference we know, is, that the slave is the most orderly and well-behaved. We do not want slaves ourselves, because our fathers found they were not *profitable*. But, if our Southern brethren *prefer* them, let them bring their household servants with them when they come to see us, instead of leaving them at home. It will not add another slave to the number already existing, nor keep one more in bondage. Let us, in short, through our legislative enactments, secure to our Southern brethren the right of traveling and sojourning temporarily among us with their domestic servants. * * * * It is time for the men of *wealth*, who have the greatest stake in the prevalence of *order* and tranquility, to set their forces sternly against this spirit of fanaticism, which threatens to introduce the reign of anarchy and chaos into society.

Freemen of New Hampshire; you who are not men of *wealth*, do you like this *Standard Democracy*,—which calls upon the *rich* men of the State to introduce and sustain slavery here, to stand side by side with your free labor? If you admire this golden image of slavery, you can bow down and worship it if you please, and let your richer neighbors crush out the liberty you have left, if they will be so base as the Standard advises.

ANNIVERSARIES IN BOSTON.—This is Anniversary Week, so called;—and the Boston papers contain a mass of reports which we can barely mention.

The *Southern Aid Society* has received during its three years' existence $24,828,-95, $11,348 56 of which was given the last year. Of this amount, 9,438 09 had been disbursed for ministerial labor and expenses in the field.

A dispatch was received, stating that since the anniversary in New York, $6470 had been received, and $5900 expended, $5400 of which went to missionaries.

Rev. Dr. Bethune, of New York, donkeyized himself in a speech against the puritans, whose old shoes he is not worthy to carry after them.

The *American Peace Society*, G. C. Beckwith agent.—The receipts have been $3,-157 27; expenditures $3,101, 54; leaving a balance of $55 73.

The chief financial movement of the year has been an effort to raise, in a period of five years, $30,000 as a permanent fund, the proceeds of which to be exclusively applied to the support of the Society, a principal actuary, for the publication of a periodical as its organ, and for the maintenance of a central office; said secretaryship, periodical and office to be made perpetual without interruption. Although the project has but just been started, it has been received with such favor, that, in a few months, nearly half of the whole sum has been prospectively secured—$5000 from one person and $2000 from another, $1000 each from two others, and $500 each from several more.

Massachusetts Bible Society.—During the year the income of the society has been $22,387 95. In the same time, there has been distributed 15,836 Bibles and 24,386 Testaments, besides other publications, making a total of 45,245 publications, an increase of 4000 over last year.

REV. HENRY WOOD, of New Hampshire, late United States Consul at Beirut, Syria, returned home by the last steamer from Europe, having left Beirut April 4th. He has been absent about two years, and returns in fine health, to assume the duties of the more agreeable post of Chaplain in the U. S. Navy, to which he was appointed by his friend President Pierce. His family residence is now at Hanover, but the location of his chaplaincy has not yet been made.—*Traveller.*

Chaplains of the Navy have no proper location. They are assigned to certain ships, to shore stations, or Navy Yards, on full pay; or on leave, with smaller pay. Real Chaplains, who begin when young men, commonly go to sea a good deal.—Sham chaplains, like Rev. Dr. Dewey, go to a Navy Yard, near Washington, as a reward for a pro-slavery sermon. Mr. Wood may possibly have a shore station also, as a reward for bogus certificates of character.

VERDICT IN A SLANDER SUIT.—The second trial of Mr. Bowen, of the firm of Bowen, & McNamee, for slander against Mr. Fowles, formerly his clerk, has resulted in a verdict for the plaintiff, with damages assessed at $4,500. At the first trial a verdict of $6000 was rendered, but exceptions were raised to the ruling of the judge, and a new trial ordered, which has resulted as above stated.

The Indian Enos, who was Fremont's guide across the plains, has been captured and taken to Port Oxford, Oregon, for trial, for being the chief of a gang that murdered the Indian agent Wright and his party a year since.

☞ With Harper's Magazine, we received their "Weekly," a fine paper which has already reached a circulation of 60,000 copies. Finely illustrated, and well printed, it is an interesting family publication.

☞ Putnam's Monthly for June, is received from A. Williams & Co., Boston, via J. F. Shores, jr. Three Illustrated articles;—Greenwood Court, Mackerelling in the Bay, and Miss Caley. With the June number, closes the present year.

SPECIAL NOTICES.

Mothers are invited to call on any agent and examine the elegant label on the bottles of Lawrence's Carminative.

DAVIS' DAGUERRIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and re furnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

The Poor as well as the Rich man's child is cured by the use of Lawrence's celebrated Carminative.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the New STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, all together, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No. 12 Market street,—also uniforms for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease in the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative!" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use such a valuable preparation.—[Cincinnati Daily Sun.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some cases that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

☞ Hon. JAMES BELL, Senator in Congress for the State of New Hampshire, died at his residence in Laconia, on the morning of Tuesday, May 26. Mr. Bell was a good lawyer, a business man of activity, ability and integrity; a good citizen and kind friend, a faithful and honorable Senator, worthily representing his native State in the councils of the nation.

DESCENT UPON LIQUOR PEDLARS.—A determined effort is made in Cambridge, Ms., by City Marshal Richardson to put a stop to the illegal traffic in liquors in the low groggeries in that city, who are supplied by some of their own countrymen, who procure the article in Boston, and deliver it in small quantities from wagons, that go the rounds daily. Under instructions from the chief, officers Willy and Hobbs arrested, on Friday afternoon, two men named James O'Donnell and Patric Devine of East Cambridge, while they were plying their nefarious business, and took also into the custody of the law their entire stock in trade, comprising four barrels of ale, and about twenty jugs of various compounds. A hearing was had in the case before Justice Ladd, and the parties were held in the sum of $200 each for further examination on Friday next.

ST. LOUIS, May 26.—Advices from Kansas state that Secretary Stanton had issued a proclamation for the election of delegates to the Constitutional Convention on the 3d Monday in June. The census returns from 19 out of the 26 counties were in, giving 9251 legal voters. It is said that many of the Republicans are going over to the Free-State National Democracy; also that an attempt was making by the northern men to send Free State men of that party to the Convention, and that Eli Moore, formerly of New York, has been solicited to run for Congress.

PHILAELPAIA, May 26.—This morning's train for Harrisburg got off the track and was dragged some distance, more or less injuring a dozen passengers, among whom was Col. Benton.

FROM TEXAS.—Col. Ben McCullock, who was offered the Governorship of Utah, has been qualified as U. S. Marshal for the Eastern District of Texas.

MARRIED.

LOCAL.

OLE BULL.—The great Norwegian Violinist is to be once more, and for the last time, with us, on Saturday evening, May 30th. When here some years ago, (says the American,) Manchester gave him the largest and most select audience ever convened on a similar occasion. Then the price of his tickets was $1.00; now they are only 50 cents.

The many friends and admirers of this distinguished Violinist should welcome him again, and the more warmly that he has been of late so great a sufferer by sickness and ill turns of fortune.

Ole is a man of genius, a magnetizer of men; and if his virtuoso life has been as injurious to him as it has been to all other artists who have followed it, he is still one of the greatest violinists living, and his instrument retains its spell over audiences. His celebrity extends to the bounds of Christendom; wherever his name is pronounced we associate it with his own magical instrument—the violin! Though bred in a stern climate in a high latitude, yet his soul is imbued with the rich music of the south—Italy. In the old world he gained an enviable renown, and his name had long been known in America ere his advent among us.

But fame has not flattered his genius;—his execution surpasses her marvellous story. Easily and gracefully he draws the bow across the strings of the Cremona which he hugs closely and lovingly, and forth comes, evoked by his magic touch, that bewitching music, whose strains, once heard, linger in the mind, "a joy forever."

We need not say—go and hear and see Ole Bull; for everybody is going to do so. It is really an *event* in one's life—an event ever to be remembered with pleasure—to witness this great artist's manifestations of genius, by which he has so nearly invested the violin with the romance and renown of the Orphean Lyre.

CURE OF INVALIDS.—Mrs. Anna Mansfield, a female practitioner of medicine, of celebrity, is announced to arrive on Thursday, May 28th, at the Rockingham House, where she will examine Invalids and the Deaf *free of charge*.

There is of course a great advantage in knowing precisely the physical condition of any one who is sick or out of health, and there are many who will be glad to improve this opportunity of learning it.

Mrs. Mansfield will probably deliver a free lecture during her stay. ¶

☞ We are requested to state that the meeting of the Young Men's Christian Association will be held on Wednesday evening, instead of Thursday evening, as of late.

FAILURES AT THE STOCK EXCHANGE.—*New York, May* 25.—Messrs. Beals, Merrick & DeWitt were reported this afternoon, at the Stock Board, as having failed in consequence of heavy losses in Erie Railroad stock.

Power's celebrated statue of the Greek Slave will be sold at auction by Henry H. Leeds & Co., on Tuesday, June 23, at 12 o'clock, at the Merchants' Exchange, in this city, on account of Mrs. Kate Gillespie, who drew it in the distribution of the Cosmopolitan Art Union of Cincinnati. The statue will previously be on exhibition in the Exchange.

THE POLICE ACT.—This morning, the Supreme Court, sitting at general term, affirmed the constitutionality of the Metropolitan Police Act, Judge Roosevelt dissenting.

☞ New Cents, in quantity, have arrived in Boston, and a few are finding their way here. A much better coin than the old copper. We recommended such a coinage, four years ago, in the Daily Chronicle, and sent copies to the President, Secretary of Treasury, Attorney General, &c., &c. Perhaps they took the hint,—and perhaps got it elsewhere. At all events, pedlars, bakers, and all retailers, will be glad of the new coin.

☞ The Prisoner's Friend for April and May, 1857, is just received from the editor, Rev. Charles Spear, Boston. Mr. Spear calls upon the Friends of the Prisoner to aid him in the purchase of a house for the purposes of his mission,—$3000 only being wanted for that object;—$500 to be paid now.

The periodical, called the Prisoner's Friend, is hereafter to be published quarterly, at $2 per annum.

MAN AGAINST A HORSE.—Curtis, the pedestrian (says a St. Louis paper,) has matched himself to walk one mile against the well known mare Flying Cloud trotting three.

NEW HAVEN.—There is to be a city election in New Haven, next Monday, over which there will be a sharp party contest. The Connecticut Legislature has passed a bill to re-divide the city into wards, and to prevent illegal voting. The democrats opposed the bill with great vehemence.—*Traveller.*

ARREST FOR PIRACY.—*Washington, May* 25.—Jonathan S. Jenkins, United States Consul at the Navigator's Island, was arrested this afternoon on the steps of the State Department, immediately after his interview with Assistant Secretary Appleton. The warrant was issued by Justice Goddard, on a charge of piracy, and was sworn to by Dr. Van Campt. The charge is seizing, by force of arms, and selling a large amount of property belonging to citizens of the ship Eudorus, in the harbor of Apia. It appears from papers filed in the department, that, on the arrival of Mr. Jenkins there he formed an Admiralty Court, styling himself Vice Commissioner, appointed Assistant Judges, Marshal, etc. The property alleged to have been sacrificed, amounted to about $70,000 while that of V. P. Chapin, and A. Van Camp was over $100,000. Mr. Jenkins was committed to await the requisition of the Governor of New York, where the case must be tried, he having first touched the soil of that state on his return to this country.

The Postmaster General has allowed the claims of Captains Breeman and Kelly, of $15,000 per annum, for extra steamboat mail service from Apalachicola to Henrique, Ga.

Mr. Morse, late Special Commissioner to Bogota, has arrived here on business concerning his mission.

Gen. Houston has declared himself a candidate for Governor of Texas, and commenced stumping the state.

Com. Riebrand, Mexican Consul at New Orleans, has been appointed by President Comonfort, agent to represent Mexican interests in the Tehuantepec Transit Company. This (says they Picayune) is an acknowldgement of the rights of that company.

MAIL ROBBERY.—*Chicago, May* 25.—The mail from Terre Haute to this city, was robbed last week, near Mattoon. It was supposed to have contained a large amount of money.

FIRE.—*Binghampton, N. Y., May* 25. The flouring mills of Wm. S. Weed & Co. in this city, were burned to-day, together with six dwelling-houses and four barns. Loss $40,000; partially insured.

ST. LOUIS, May 25.—Pratt, the Mormon elder, was killed on the 14th inst., near Van Buren, Arkansas, by a man named Hetor, whose wife Pratt had seduced.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Phila ielphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully represent a worthless or useless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHUS WOLFE,

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Sciatica, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I know new.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons, and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is promptly and reliable, either for performer or to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Pedal Instruments, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner, having removed to the spacious Buildings

511 Washington Street.

We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen; and in short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an article *perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine our large instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our establishment, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon: Chickering & Sons, Hallett & Cumston, T. Gilbert & Co., Wm. P. Emerson, Brown & Allen, A. W. Ladd & Co., George Hewes, Woodward & Brown, Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rental credited on the amount of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the Manufactory, with the money, cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which Messrs. Cohen & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is done in a creditable manner, and that the interests of parties who reside at a distance are as well protected as if they witnessed the process at the drawing. Another fact which the managers of the Lottery wish to impress on the public is, that it is a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of the legislature. Schemes are drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets are from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are on the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, City Item, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK. The POCKET ESCULAPIUS! or Every Man His own Doctor, by W. H. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young men or married or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, below Fourth, Philadelphia.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(*Sign of the Chocolate grinding Coffee,*)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we annex the following scale of prices, viz:

1 lb. Souchong Tea	75	1 lb. Mocha Coffee	1 00
5 lb. Oolong do	1 75	5 lb. Java do	90
5 lb. Y. Hyson do	2 25	3 lb. good do	1 00

☞ The spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and we warrant them to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of dealers to our Spanish Coffee, 1 and 2 lb. packages, which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, so that the sound of the coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages having our trade mark, and we offer it upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chicory Coffee*" may be relied upon as the GENUINE ARTICLE. The proportion used is only one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same article which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This article is prepared from the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which will go nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c., &c.

☞ Be careful to observe that all our *Teas are sold by weight,* and our Coffee, "*Chicory Coffee,*" as there are many imitations of our article, *called* Taraxacum, in the market.

☞ To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the sawa low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales and quick returns, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Progression.

I WOULD respectfully inform my friends and the generality, generally, that I am still prepared to make the new and desirable likeness on paper, called

Photographs,

as well as those on GLASS, known as

Ambrotypes,

and finished in the highest artistic styles.

Possessing one of the Largest-sized Cameras, and larger than any in use in this vicinity, expressly adapted to Photographic purposes, with other facilities, I can offer to work at such prices as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of Life. This process also I have obtained, so that any one having a likeness with a faded friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity to participate, the interests of parties in distances being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $5; halves, $2 50; quarters, $2,50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that anyone can fill or understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled, will be published after every drawing, in the following papers:—New Orleans *Delta,* Mobile *Register,* Charleston *Standard,* Nashville *Gazette,* Atlanta *Intelligencer,* and New York *Weekly Day Book.* Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Reviews and Appeals into America, Foreign works, to determine the validity or utility of Patents or Inventions.—and legal or other opinions rendered in all matters touching Patents. Copies or the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages, for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AT THE PATENT OFFICE, and with the public, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office in the United States, charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full copies of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot secure a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Agency U. S. Patent Office, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGOON,

OUTRAGE IN HAMILTON, MASS.—One night last week, as Mr. Henry Tibbets, of Hamilton, was walking homewards from the residence of Hon. Allen W. Dodge, County Treasurer, a distance of about a quarter of a mile, he was accosted by a stranger, who stepped forward from the side of a shop by the road, where he had been unobserved, and inquired what time of night it was. Mr. Tibbets replied that it was about half-past ten o'clock; when the stranger raised his hand, producing a rattling sound as if wielding a slung shot or false knuckles, and struck Mr. T. a stunning blow upon the side of the head, felling him to the ground, and rendering him insensible. When he recovered his consciousness, he found himself lying upon his back, and the stranger with one knee upon his breast and one hand clutching him by the hair of his head, while the other hand was rummaging his pockets. He informed his assailant, as soon as his frightened and half-smothered condition allowed him to do so, that he had no money with him; when the villain threatened to take his life if he should speak loudly enough to raise an alarm. He happened at the time to have no money about him; and the would be robber having satisfied himself that such was the case, arose to his feet and hastily decamped. It was very dark, and Mr. Tibbits was unable to discern the stranger's features so as to recognize him, should they again meet each other. Mr. had been to collect a sum of nearly $100 which was due him, and the fact that such was his errand when he left home in the day-time, he had made known to some acquaintances, before starting; and it is supposed that some stranger prowling about, overheard his conversation and laid in wait for him.—*Gloucester Tel.*

SOUTHERN LITERATURE AND ITS REWARD. Mr. Britton, publisher of the South Quarter Review, states that during 1856 he expended the sum of $6343 24 on that periodical, paying contributors liberally, and that his total receipts during the same time were $1919 90, so that he was "out of pocket" $4423 34. His subscription list is large enough to have yielded him $7000. This is the way they encourage indigenous literature at the South. There are plenty of subscribers to periodicals, but then they don't pay. They "patronize" publishers by "owing" them the amounts of their several subscriptions. If they are not more honest they will have to look to the North and to England for their periodicals, which would be another cause for disunion, quite as good as any that have been put forward. It is all owing to the North, to Yankee jealousy of the South, we suppose, that the Southerners are so slack in paying their printers' bills.—*Traveller.*

Is there a heart that music cannot melt?
Alas! how rugged is that heart forlorn!
Is there, who ne'er those mystic transports felt
Of solitude and melancholy born?
He need not woo the muse, he is her scorn;
The sophist's robe of cobweb he shall twine,
Speak with the scoundrel fox, or grunt with glutton swine."

LETTING DOWN THE ARISTOCRACY.—The elegant Miss Mason, whose father had made a splendid fortune as an enterp ising draper and tailor, appeared at ar magnificent entertainment in royal apparel.—With that fastidious exclusiveness for which the latest comers into fashionable circles are the most remarkable, she refused various offers of introduction as she did not wish to extend the number of her acquaintances: "her friends were few and very select."

The beautiful Miss Taylor, radiant with good-natured smiles, and once well acquainted with Miss Mason when they went to the public school in William street together, noticed the *hauteur* of her ancient friend, who was determined not to recognize one who would only remind her of her former low estate. But Miss Taylor, the rogue, as clever as pretty, determined to bring her up with a short turn, and not submit to being snapped up by one whose ancestral associations were no better than her own. Watching her chance when the haughty young lady was in the midst of her *set*, Miss Taylor walked up and with smiles of winning sweetness remarked,

"I have been thinking my *dear* Miss Mason, that we ought to exchange names."

"Why, indeed?"

"Because my name is Taylor, and my father was a *mason*, and your name is Mason, but your father was a *tailor*."

There was a scene then, but there was no help for it. The little Miss Taylor had the pleasure of saying a very cute thing, which was soon repeated in the ears of a dozen circles, and the wits wished to see her, but the proud Mason bit her lip in silence.

PUBLIC TASTE.—On Thursday night last, Sheridan's great comedy of the "School for Scandal," which Byron called the best comedy written in his day, was performed at the Boston Theatre, with a splendid cast of characters. Separated only by a wall or partition from the theatre, is a hall in which appeared on the same night a company of nigger singers, calling themselves slaves from Alabama, who excite public sympathy by saying they are singing for their freedom. Their chief merit is that they are real darkies. The niggers, with tickets at twenty-five cents each, took just one dollar more than the theatre.—*Ledger.*

GENTLEMAN AND NO GENTLEMAN.—The late Vicar of Sheffield, the Rev. Dr. Sutton, once said to the late Mr. Peech, a veterinary surgeon, "Mr. Peech, how is it that you have not called upon me for your account?" "Oh," said Mr. Peech, "I never ask a *gentleman* for money." "Indeed," said the Vicar, "then how do you get on if he don't pay?" 'Why,' replied Mr. Peech, after a certain time, I conclude that he is not a gentleman, and then I ask him!"

SUDDEN DEATH.—In Salem, on Sunday, Rev. James Conway, senior pastor of St. Mary's, Roman Catholic Church, died suddenly, about two o'clock in the afternoon, of heart complaint. He had been slightly indisposed, but was able to attend Mass in the morning, and died sitting in his chair. He was 60 years old, and had been in Salem 12 years, where he was highly esteemed by both Catholic and Protestant.—*Newburyport Herald.*

THURSDAY, MAY 28, 1857.

DEATH OF SENATORS.

"Thou seest that wise men die; likewise the fool and the brutish person perish."

The Boston Traveller says of our deceased Senator Bell, he was one of the best and ablest men now in public life,—honest, firm and true. The vacancy thus caused in the United States Senate will be filled at once by the new Legislature of New Hampshire, which meets next week, and which has a Republican majority in both branches. The term does not expire till 1861.

Three United States Senators from New Hampshire have died within three years, and all while in office, viz.: Moses Norris, Charles G. Atherton, and James Bell.

Senator A. P. Butler, of South Carolina, has also just died. He was the uncle of the late Mr. Brooks, and it was to avenge him for the severity of Senator Sumner's comments, that the nephew made that memorable assault, from which the Senator is now seeking recovery in foreign lands, while the other two principal parties to the transaction are laid down in death. The Traveller says the event is certainly remarkable. Mr. Butler's term in the Senate extended to 1861.

The assault on Sumner probably hastened the death of both Brooks and Butler. Like many other free-drinkers, they were men who, in their sober moments, had good feelings. Under the influence of these feelings, sorrow or remorse would trouble them—then how natural for a dram-drinker to deepen his cups, and repeat them often.

☞ The Calais, Me. Advertiser states that business of all kinds is unusually dull for this season of the year, and money is tight. There is not a building of any kind going up or in contemplation. There is not a vessel of any description on the stocks in a yard from Calais to Eastport.

The Robbinston, Me., shipbuilders have mostly gone to farming. A capital exchange (says the Advertiser,) for their health and the interest of the country. If there were more farming and less shipbuilding and lumbering done, the country would not be so liable to these sudden revulsions in business, with bankruptcy and a complete derangement of all branches of business.

UNITARIAN CONFERENCE AT ALTON.—A telegraphic despatch the other day reported the Unitarian Convention at Alton, Ill., had adopted a report denouncing the Dred Scott decision, and declaring the Constitution of the United States a failure. This was very far from truth. The committee to whom the subject of slavery was referred, reported that so far as they could ascertain the views of the members of the Conference, there was entire unanimity of opinion "in regarding the system of slavery as evil and wrong, doomed by God to pass away through the influence of the truths proclaimed by his Son." They further state "that as to prescribing a course of action to the churches here represented, the Conference has no such power." This is the report which was adopted.

THE NEW YORK POLICE.—The decision of the Supreme Court, that the Metropolitan Police Law is constitutional, has created a good deal of fluttering among Mayor Wood's adherents, and a large number of them have signified their desire to serve under the new Commissioners, whose headquarters are besieged by applicants for office. The decision of the Supreme Court, however, is not final. The question of the constitutionality of the new law will be taken to the Court of Appeal. General Henry Wilson, Commander-in-Chief of the New York Citizen Volunteers, has issued a card, saying that the recent meetings of some of the divisions of the organization, at which their support was proffered to Mayor Wood, were held without right or authority, and their proceedings are of no further force than as the expression of individual opinions.

MELANCHOLY CASE.—Miss Kate Ellingwood, a teacher in the public schools of Detroit, whose death, it is believed, was caused by the unwarrantable course pursued towards her by the school authorities, was buried in that city last week, with very affecting ceremonies. After the body had been deposited in front of the pulpit in the church, a procession of twenty-five of the young girls belonging to the Capitol school, passed up the main aisle and in front of the coffin, each depositing flowers upon it, and dropping a tear over the remains of one so shortly before their teacher and friend.

The man who is honest simply because it is the best policy, is half way towards being a rogue.

CONCORD RAILROAD.

The sixteenth annual meeting of the Concord Railroad corporation was held in the Depot Hall, Nashua, May 26, and was attended by a very exciting debate, in which Messrs. George and Means were conspicuous.

The receipts for the last year have been as follows:

From Passengers,	$114,983
" Freight,	194,650
" Express,	2,115
" Mails,	3,745
" Rents,	1,557
Total,	$317,050
The total expenditures for working the road have been	191,388
Leaving a balance of	$125,662

Col. George advised a compromise with Rev. Mr. Jewett, who has virtually lost his case at Salem.

N. G. Upham, the President, stated that for two or three years past there had been an indebtedness of $8242, which first arose in building the depot at Manchester. That debt, however, had been liquidated out of the net earnings of the road. In addition to that, there was a debt for keeping a year's supply of materials on hand for working the road, as it was deemed expedient to always have on hand a year's supply. Of late they could not do this, owing to a want of funds. $765 had been paid out the last year as interest money. With the exception that they had no money to keep a year's supply of materials for working the road on hand, the road stood free and out of debt. There were two rival roads competing for freight and passengers from Boston to Concord, and it was a fact that the stockholders of the Concord Railroad had to support two roads—the Manchester & Lawrence and their own—and the running expenses of both of these accounted for the great depreciation in the stock of the Concord road. When the two roads were united under one management, then this difficulty might be easily stopped.

After a bitter debate of some hours, the Directors' report was accepted almost unanimously.

Gen. Hunt moved that the meeting now proceed to the choice of seven Directors by ballot.

After a recess the vote was taken, and it was rejected, 1725 shares voting in favor of an immediate election of Directors, and 2014 against it.

On motion of Mr. Lovell the lease of the Manchester and Lawrence Railroad Co. to the Concord railroad for five years, with certain conditions, was approved and adopted, having been first sanctioned by the stockholders of the M. and L. railroad at their last annual meeting.

Also resolved that a committee consisting of one from each company be appointed to audit annually the Treasurer's, Directors', and other accounts of the road.

Mr. Dana of Concord was nominated on the part of the Concord road as one of the committee.

He offered a resolution to the effect that the committee appointed to examine the wood agent's account, also be instructed to investigate all other affairs and conditions of the road and report at the same time, as the auditing committee would not probably be filled until the M. & L. R. R. Co. had appointed a gentleman to serve on it, which would not take place, he supposed, until their next annual meeting. This was agreed to.

After the passage of an order obliging the conductors of the road to keep a strict account of all free passengers passing over the road, to be reported at the annual meetings, and also obliging ticket-masters and others to give bonds for their faithfulness, the meeting adjourned to December next for the election of new Directors, and the reception of fuller reports.

ENGLISH POLITICIANS.—The London Advertiser states a fact which shows that men occupying prominent positions are not above the need of the most elementary Sunday school instruction. It says that a candidate for Parliament at the recent election, in the course of an electioneering speech was asked, "What do you think of the Decalogue?" Confounded by the inquiry, he turned to a friend and asked in a whisper, "What does that mean?" The friend, whose acquaintance with divinity was on a par with his own, replied by suggesting that it probably meant flogging in the army. Whereupon the candidate declared: "I entirely disapprove of the Decalogue, and will never rest till I see it abolished." The gentleman was elected, and is now a member of the new Parliament. The Advertiser adds: "We pledge ourselves for the perfect accuracy of this statement."

CRIME AND SUICIDE.—It is stated of B. Steenburg, purser of the Belgian steamer Constitution, who lately committed suicide at Roxborough, Pa., that he had invariably borne a high character for honesty, but on a late voyage he was induced by a passenger to buy of him a quantity of watches and jewelry at about half the apparent value. Firmly convinced that he could double the money and thus make good the deficit, he "appropriated" the funds of the company for the purchase. On arriving at New York, he found that the apparent gold was pinchbeck, and being of course unable to retain his place, he wandered off to Roxborough and destroyed himself.

WASHINGTON, May 25.—[New York Herald correspondence.]—Commissioner Morse will have an interview to-morrow, with the President and Secretary of State. He has no doubt but that the pending difficulties between New Granada and the United States will be amicably arranged, the latter receiving all the satisfaction demanded for the outrages at Panama, and ample security against any future like occurrence.

Messrs. Soule and Slater left last evening, for New Orleans. I understand they were successful with the President, in accomplishing what they came for, viz.: the protection of American interests at Nicaragua, and the speedy re-opening of that route. A sufficient naval force will be kept at that station to protect American interests.

☞ A new paper, to support the Democratic party, is proposed in Boston. $10,000 are said to be subscribed. The Boston Chronicle began with $60,000, and sold out in four years.

SPECIAL NOTICES.

FORTUNE RULES IN COMMERCE, TRADE AND GAMING.—When a lady or gentleman enters into a speculation for the purpose of increasing their means, they calculate the chances in their favor, unless they rely entirely on the advice of others. They desire to be safe. Yet what speculation is certain to insure a return for investments? Fortune rules in every avenue of trade, commerce, or gaming.—The only thing that one should be sure of, is this—that he is dealing with honorable persons. This, we believe, no one can doubt with regard to the speculations offered by the lotteries managed by Anderson & Son of Savannah and Macon, Georgia, who are to draw the Jasper County Academy Lottery at Savannah, Geo., on the 15th of June, on the Havana plan of single numbers. There are only 30,000 tickets—and 3286 prizes—ranging from the capital prize $60,000; 20,000; 10,000; 5,000; 4,000; 3,000, and so down to *three thousand prizes of $30 each!* There is *one prize to every ninth ticket!!!* Any one sending them ten dollars for a whole ticket in one of these institutions, or a proportionable sum for a half or quarter ticket, may feel assured that the speculation is as safe as any other that can be named. They correspond with their customers in the most faithful manner, and supply all desirable information. Being men of the highest standing in commercial circles, and drawing these lotteries under the sanction and inspection of the state authorities, Anderson & Son furnish for those who wish to make small investments, means of speculation which are far superior to many that are known and used by a large portion of the community. ‡

DAVIS' DAGUERREIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

The Poor as well as the Rich man's child is cured by the use of Lawrence's celebrated Carminative.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods to great advantage; no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Nothing speak, we asked, "What do you think of the Decalogue?" Confounded by the inquiry, he turned to a friend and asked in a whisper, "What does that mean?" The friend, whose acquaintance with divinity was on a par with his own, replied by suggesting that it probably meant flogging in the army. Whereupon the candidate declared: "I entirely disapprove of the Decalogue, and will never rest till I see it abolished." The gentleman was elected, and is now a member of the new Parliament. The Advertiser adds: "We pledge ourselves for the perfect accuracy of this statement."

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, bronchitis, croup, chills, cramp, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

IT IS AN ESTABLISHED FACT that Dr. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

POLICE COURT.

May 26.

Before Justice Odell.—Thomas Palmer was accused of assault and battery on Mary Dorety,—found guilty; fined $7,00; costs 4,80. This assault was committed, as we learn from an eye-witness, in a general rum skirmish of an Irish [neighborhood, near Spring Hill.

SIGNS.—The new, and we think splendid and appropriate sign, "Chronicle," which was placed high over the entrance of our new and commodious office, on Monday morning, has elicited much attention and admiration. We say this without hesitation, as the sign was not of our planning, but was designed and manufactured by Mr. Joseph Henderson, of the firm of Gleason & Henderson, carvers and gilders, of this city.

And we take pleasure in recommending these young gentlemen to favorable notice, for the furnishing of any work in the wood carving line. They are prepared to furnish carving and gilding of every description, from the largest statue, to the most delicate articles; and a visit to their rooms, on Church Hill, will show any one with half an eye, that they are artists of no small merit and worth. Especially in the making of Signs, they cannot be excelled. And their prices are reasonable, too.

We regard the hanging out of signs as one species of advertising; and so we shall not be content with a shabby article, when a good one is to be had.

WHERE ARE THE ICE MEN?—The heat of Sunday and Monday, caused numerous inquiries as to whether there is to be any of last winter's concentrated cold circulated, this summer, or not; and if so, who is going to do it? We believe last year's icemen are living yet; but whether they are to continue their old occupation, of course, we can't say, without authority from them.

BURGLARY IN ROCHESTER.—The clothing store of Thomas C. Davis, in Rochester, was broken into on Monday night, and robbed of most of his stock of cloths and ready made clothing. The goods were brought down to this city by Packet, which left Dover at 4 A. M., and they were carried to Boston by Jackson & Co.'s Express, which left this city at 7.15 A. M. directed to No. 6 Sudbury street, Boston. One of the thieves went on in the same train with the goods. All this was very quick work. But the telegraph was a little quicker. As soon as the telegraph offices were open, dispatches were sent out, and the goods were stopped on their arrival in Boston. But as no one supposed the thieves would go on the same train with the goods, no despatch was sent to apprehend them; and they have not yet been arrested.

OLE BULL.—Ole Bull's life has been a peculiar and interesting one. On his first arrival in America he created among musical circles as much enthusiasm as Jenny Lind; only Ole Bull was never Barnumized. He amassed a large fortune, and with the benevolence that characterizes his noble spirit, he purchased a tract of land in Pennsylvania, where he founded a colony for his Norwegian brethren. Thither they resorted with every prospect of a happy future, when a flaw was discovered in Ole Bull's title to the estate; and thus, by a fraudulent process, he and his countrymen were reduced to poverty.

He has now resumed his occupation of concert-giving, and comes before us with a world-wide reputation as one of the most expressive and finished performers upon the violin that has ever lived. In his peculiar vein—in a genius for wild, glowing improvisations, he stands entirely alone.

NEW YORK, May 27.—A letter in the Daily Times dated Lawrence, K. T., May 18, says: "It is rumored that Judge Cunningham is killed. He left Kansas City three weeks ago for his Court, at Fort Scott, and has not been heard from since. He was the only Free State Judge in Kansas, and it is known that he has been somewhat obnoxious to the pro-slavery men since his appointment."

Jas. Hutchinson's party, from Randolph, Vt., had arrived at Lawrence, having made the trip through in less than 7 days.

THE RHODE ISLAND LEGISLATURE.—*Providence, May 26.*—The General Assembly met at Newport this morning. Gov. Dyer and the other new State officers were sworn in. Their being no choice of Lieut. Governor by the people, Thos. G. Turner, Republican, was elected in Grand Committee. Sullivan Ballou, Republican, was elected Speaker of the House.

ST. LOUIS, May 26.—Dred Scott with his wife and two daughters were emancipated to-day by Taylor Blow, Esq. They had all been conveyed to him by Mr. Chaffee of Massachusetts for that purpose.

PRESBYTERIAN GENERAL ASSEMBLY—NEW SCHOOL.—*Cleveland, May 25.*—Fourth Day—Morning Session. The report of the delegates to the General Association of Massachusetts, was read, showing some excitement in that body, relative to the sending of delegates to the General Assembly, by reason of its complicity with slavery. Referred to the General Association, and two delegates were sent from the present Assembly to the General Association of New York, they having refused to send delegates for the same reason.

A communication was received from the Ashmond Institute, of Newcastle, Pa., asking aid and co-operation for the education of colored youths for the ministry under the care of the Old School Presbytery. Referred to the Committee on Overtures.

New Hampshire is the only New England State represented in the Assembly.

CLEAVELAND, May 26.—The report of the Committee on bills and overtures, calling for the views of the Assembly in regard to slavery, caused a sharp debate yesterday, and was made the special order for this afternoon. This morning communications were read from the Consociation of Rhode Island, and the Associations of New Hampshire and Wisconsin, taking strong ground against slavery.

ANNIVERSARIES IN BOSTON.—On Tuesday, the American Tract Society disposed of "Sambo" and Rev. Dr. Adams, quite unanimously, by adding Rev. President Hopkins, of Williams College, to the list of Executive Committee, and then substantially requesting the parent or New York Society to place him on their Publishing Committee, in lieu of Dr. Adams.

President Hopkins had 59 votes; Dr. Adams had 1.

MAIL ROBBER.—The U. S. Mail Agent has arrested a young man by the name of Luce, only 16 or 18 years of age, on a charge of robbing the mail at various times this spring, while engaged as driver on the route between Dover and Dexter, Maine.

The true perceptions of a child are the objects that surround him; these are the instructors to whom he owes almost all his ideas.

TO THE CITIZENS OF THE UNITED STATES
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c, and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unaccustomed to drink water in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons, and PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized Reed Instruments, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute with the most rapid music without hurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

are adapted to the wants of Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and then put in one to give two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one set of the front one only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

TORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed in the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will produce our customers as good instruments, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical instruments, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., W. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can leave the rent credited as part payment of the purchase money. This we feel worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent of a year's use of the same.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and it is conducted for the benefit of the people, who is sworn to superintend and certify all drawings connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are secured as well as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons who have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prices vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The whole numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding Coffee.)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.*—Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Cinnamon, Cloves, Cream Tartar; Tapioca, and Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine* as they are put up *everywhere*, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we annex the following scale of price, viz:

5 lb. Souchong Tea,	1 50	5 lb. Mocha Coffee,	1 00
5 lb. Oolong do.	1 75	5 lb. Java do.	90
5 lb. Hyson do.	2 25	5 lb good do.	1 00

☞ They spices are put up in 1 and 2 lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to convince the public in their favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with sugar, and by a peculiar process, combined in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by those who use it. This being a preparation of the root, with all its medicinal virtues retained, can be offered with more ease, and beats quite the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed frequently by medical physicians for invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c., &c.

☞ Be careful to observe that all our *Taraxacum* has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, called Taraxacum, in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices, as compared with those of any other house.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner. The Lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from time to time, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*; Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1836.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twelve years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed in the shortest time, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered on all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unexpanded by what is not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AND THE PATENT OFFICE that is MORE FAVORED, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has sufficient reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them, early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1856.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

THE CATHOLICS ON THE DRED SCOTT DECISION.—We quote below from Brownson's Review upon the late slave decision. The paragraph is worthy of notice because Mr. Brownson is not only a Catholic writer, and the leading Catholic writer in the county, and Chief Justice Taney also a a firm and unwavering Catholic, but because no article appears in the Review without first being sanctioned by the Bishop; and this may therefore be taken as having the odor of authority, and being an expression of the Catholic voice in America. Mr. Brownson says:

Mr. Chief Justice Taney seems to us to proceed on the assumption that negroes are politically and legally a degraded race in the Union; but such is not the fact.—They may be so in some States, but they are not so in the Union, nor indeed in all the States. We regret that in giving the opinion of the Court, the learned Judge did not recollect what he is taught by his religion, namely, the unity of the race; that all men by the natural law are equal, and that negroes are men; and therefore as to their rights must be regarded as standing on the same footing with white men, where there is no positive or municipal law that degrades them. Here is what we dare maintain is the error of the Court. We admit that negroes, but not negroes any more than white men, may be reduced by positive law to slavery; but planting ourselves on the Constitution, and natural right as expounded by the Church and the Common Law, we maintain, and will maintain in face of all Civil Courts, that where no such law reduces the negro to slavery, he is a free man, and in the absence of all municipal regulations to the contrary has equal rights with the white man. Neither race nor complexion disables a man under our Federal system. That negroes may be citizens and possess equal rights with white men, is proved by the fact that we have made them so in the territories acquired from France, Spain and Mexico, by the very treaties by which we acquired those territories.

The opinion of the Court belongs to an epoch prior to the introduction of Christianity, and is more in accordance with the teaching of Aristotle than with that of the Gospel. We have no more disposition to interfere with slavery where it legally exists than have our Southern friends, but we do protest against an opinion which places negroes as such not only out of the pale of the republic, but out of the pale of humanity. If opinion once went that length, it was the duty of the Court to brand it with its disapprobation, and not to recognize it as law. The Court should lean to the side of the weak, and set its face against oppression. The negro race is, no doubt, inferior to the white race, but is that a reason why they should be enslaved, or why the Court should join the stronger against the weaker?

☞ Mr. Timothy F. Smith of Loudon, N. H., recently killed a pig, eleven months old, which weighed 460 lbs.

EFFECTS OF DRED SCOTTISM.—In Michigan the Democracy are having a very bad time of it on the Dred Scott decision. The Kalmazoo Gazette (Democrat) has gone over to the Republicans. The Coldwater Sentinel does the same, and the Grand Rapids Herald says:

There is no use in denying that the Democratic party of Michigan is in an exceedingly dispirited condition; and unless there is some change in its tactics or leaders, many a long day will elapse before the reign of Fusionism will cease. All over the State the bone and sinew are discussing these matters; and during the last Democratic Convention at Detroit, we found in conversation with Democrats from various sections, that the same feeling extended to all parts of Michigan.

PASSMORE WILLIAMSON CASE.—The Philadelphia North American says that the action for damages brought against Judge John K. Kane, in the Court of Common Pleas in Delaware county, was sometime since argued upon demurrer. To the declaration claiming damages, Judge Kane put in five special pleas, setting forth his office, the proceedings which occurred, and justifying his conduct. The plaintiff replied *de injuria* to these pleas, that the defendant had committed the acts of his own will, without cause. Mr. Kane's counsel demurred specially to the replication on three pleas, and joined issue on two of them. The argument on demurrer was held in December. On Saturday Judge Haynes gave notice that he decided against Judge Kane; so that the replication stands, and the case will go to trial on the general issue, and will be tried this summer.

SOUTHERN REMEDIES.—The New Orleans Crescent suggests as the best means for the security and safety of the South, in view of the progress of the anti-slavery sentiment, the passage of laws by the legislatures of the cotton states, prohibiting the sale and emigration southward of slaves from the slave states north. The Union of Louisiana concures with the Crescent as to this remedy, and also suggests another—the introduction of Cooly labor to supply the deficiency of slaves, and thus to extend Southern interests and institutions. The New Orleans Delta insists upon reopening the slave trade.

A meeting was held in London, on the 31st of March, relative to the mission to fugitive slaves in Canada, the object of which is to provide for their intellectual culture and social elevation, as well as to furnish them with clothing and other necessaries of life. Several new subscriptions towards the mission were added. The Earl of Shaftesbury, stated that the number of fugitive slaves in Canada, exceeded fifty thousand. He probably includes their children in the calculation.

A PREDICTION, or an ANNOUNCEMENT.—The N. H. Patriot, speaking of the Democratic State Convention, to be held in Concord on the 10th of June, calls upon the Democratic Party to "remember that the man nominated by that convention, is to be elected Governor." Really! then it is, after all, a matter of some importance to the State, whom they nominate.

THE FLORIDA WAR.—The latest exploit of "our army in Florida," is the killing of one warrior and two squaws, and the capture of three squaws and two papooses. After this achievement "the army" gave out, and returned to camp for supplies.

It a glorious sight to see two old people, who have weathered the storms and basked in the sunshine of life together, go hand in hand, lovingly and thoughtfully, together down the gentle declivity of time, with no anger, nor jealousy, nor hatred, garnered up against each other, and looking with hope and joy to the everlasting youth of Heaven, where they two shall be one forever. That is a true marriage, for it is a marriage of spirit with spirit. Their love is woven into a woof of gold, that neither time, nor death, nor eternity can sever.

THE MERCHANT SERVICE.—Several prominent merchants in New York, have signed an agreement to abolish the present custom of paying advance wages to seamen after the 1st day of July, 1857. They propose instead, to supply warm clothing, equal to one suit per man, for each ship under their control, which shall be sold at cost to the sailors; and also to pay a bounty of 10 per cent. on the earned wages of each sailor who shall perform a voyage to the end of contract, or return in the ship.—*Boston Adv.*

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855. These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Asso., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $2000.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

FRIDAY, MAY 29, 1857.

☞ Hon. James Bell was one of the sons of the late Hon. Samuel Bell, who died in Chester, Dec. 23, 1850, aged eighty-one. James Bell was born in Francestown, Nov. 13, 1804. He fitted for college at Derry and Andover Academies, and graduated at Bowdoin College, in the class of 1822. Among his classmates were Judge Appleton, now of the Supreme Court of Maine; the late Judge Tibbetts of Rochester; Dr. David H. Storer of Boston, and Prof. Smith, well known as the author of valuable mathematical treatises. Among his cotemporaries in college, but in other classes, were President Pierce, Mr. Hawthorn, now Consul at Liverpool: the late Hon. Jonathan Cilley, of Thomastown, Me.; Gov. Crosby, Senator Fessenden, Judge Howard, Jacob Abbot, the author, Dr. John P. Cleveland and Prof. Stowe.

He studied his profession in the office of his brother, Judge Bell of Manchester, and at the Law School of Judge Gould, in Litchfield, Conn. He commenced the practice of law in Gilmanton, and afterwards removed to Exeter, where he continued it from 1831 to 1847, when he removed to Gilford. Mr. Bell served but twice in the councils of the State; in the year 1846, as one of the Representatives of Exeter, and in 1850, as one of the Delegates from Gilford, in the Constitutional Convention.

A Boy Killed by a Woman.—Last Friday afternoon, a German boy three years and eight months old, named Christopher Darr, whose parents reside at 77 Canton street, Boston, was playing on the sidewalk in front of the house, and amusing himself by pounding with a small tack hammer, on the cellar door. The rapping on the door roused the ire of a woman named —— Hahnor, the occupant of the cellar, who reached her arm up over the edge of the door, and seizing hold of one of the legs of the boy, twitched his legs from under him, causing him to fall, and bringing his head violently in collision with the sidewalk, and fatally injuring him. Medical aid was immediately called, but the injuries were of such a nature as to baffle the skill of the physician, and the little fellow, after intense suffering, died Wednesday. Coroner Stedman was called to investigate the case, and has arrested the woman, and summoned a jury of inquest.

☞ Doesticks has made a calculation of the expense of attending a "fashionable church" (!) in New York; and finds, according to the Knickerbocker, that to be "saved at *that* church would be a greater expense to him than his sins had ever been: prayers cost me forty cents an hour, and sermons four dollars and a half a piece;—and it I am as great a sinner as the minister says I am, it would break the Bank of England to get me 'into the fold.'—and unless they can get a heavy discount, I shall have to give it up, and go to the devil." * * * "I feel I must give up the journey, or find a cheaper conveyance; for I certainly can't afford to go to heaven at such exorbitant rates."

☞ The New Orleans Bulletin is gratified in being able to announce a project for a cotton factory there, and is urging the expediency of manufactures, as certain to establish the prosperity of the city. Thirty per cent., it thought, would be saved in freight, insurance, commission, &c., upon the raw material, and employment would be afforded to thousands of the floating population, who now fill the workhouses, asylums and hospitals.

☞ A mob of several hundred citizens, approached the jail in Edwardsville, Illinois, with the intention of lynching the three men who murdered Mr. Baird, it having been reported that a change of venue for their trial, was about to be made, by the Court. But Sheriff Job, with about thirty men, made a successful defence, unhorsed the leaders of the mob, took their arms from them, and stayed the attack till a military company arrived from Alton, who would guard the prisoners till they could be tried.

Trial for Mutiny.—Four Portuguese sailors, passing under the names of John Smith, John Ned, John Brown, and John DaCosta, were put on trial, in New York, on the charge of having murdered Olisias Lawson, master of the brig, Gen. Pierce, which sailed from New York, on the 24th of January last, for the Coast of Africa. DaCosta inflicted the fatal blows and stabs which caused the captain's death, and the others assisted in throwing the body overboard. They then gave the mate charge of the vessel, obliging him to enter upon the log, that the captain died a natural death. They also murdered the cook.

Concord, N. H.—On Saturday, May 23, in the Police Court, Patrick Murphy was found guilty of being drunk on Spring Street, and fined $2,00 and costs. Murphy is an old offender, and was cautioned—that it found drunk again, he should be sent to the House of Correction for sixty days.

John Murphy was arraigned and tried for *keeping liquor for sale at his house* on Walnut street. A search of Murphy's house, by the officers resulted in finding certain empty liquor casks. Mr. J. W. Burnham, expressman, testified that in April and the fore part of May, he carried two barrels to Murphy's house, marked "Medford Rum."—Wm. Locke testified that the house was a place of common resort, that he had seen people go in and out drunk, and passing with jugs or bottles, and that he saw Patrick Murphy come from the house, on Thursday evening last, about seven o'clock. E. E. Sturtevant testified that, on Thursday evening, about seven o'clock, Patrick Murphy was found drunk and arrested, and on being taken to the lobby and searched, had with him, two quart bottles full of rum. The Court ordered Murphy to find sureties in the sum of $200 for his appearance at the S. J. Court, in August.

☞ Gen. Walker, the great Isthmus filibuster, has arrived at New Orleans, have been gone two years. It is estimated that he has had, from first to last, not less than 5000 Americans in his service, of which probably more than four-fifths now lie in dishonored graves, most of them without the poor privilege of meeting a human enemy. He has, besides, had many foreigners, at sometimes, in his service. At one time his cause was much favored by Pres. Pierce's Cabinet,—and at a later period, they rather let him slide, when his fortunes and their own began to wane.

Dr. L. F. W. Andrews, editor of the Georgia Citizen, has been sued for libel to the tune of $20,000, for publishing the name of a subscriber who had moved off without paying for his subscription dues.

[We find the above paragraph going the rounds of the papers. It seems to us that in that transaction, cool impudence has reached its bounds. Here is an unprincipled fellow who goes off, after reading the paper for years, without paying for it. The editor very properly gives notice of the mean transaction, that others may not be imposed upon by him. It was cautioning the public against a person who had violated the confidence reposed in him. So the cheating fellow, not satisfied with what he had got, snaps at another chance for a speculation, sues the editor for damage to character, to amount of $20,000. A man that would cheat a printer out of pay for his paper, must have a large amount of character laid up! We should like to see him when he gets the first cent. There is not a Court in Christendom, but ought to, and probably would turn such a mean fellow and his case out of Court.]—*Portland Argus.*

Yes, and he ought to be turned out of all decent society, too. We have got somewhat of a (Weekly) black-list to make out, presently; but are waiting till July 1st, to give all a chance to redeem their fair fame.

A Mormon Elder Killed.—Pratt, the Mormon elder, was killed on the 14th inst. near Van Buren, Arkansas, by a man named McLean, whose wife Pratt had seduced. Pratt seduced the wife of McLean, at New Orleans, and fled with her and the children towards Salt Lake. McLean pursued and overtook them near the Cherokee country, and had Pratt and his wife arrested on charge of larceny—in stealing the clothing of the children—and sent to Van Buren. It was his intention, if he failed in holding Pratt, on this charge at Van Buren, to have him arrested for having fled from justice from St. Louis, and get a requisition from the Governor of Missouri for him. Failing, probably, in this, he used the *dernier resort* of a desperate man—the pistol.

☞ The Newburyport Herald says it has leaked out, that against a liquor seller of that city, who has been lying in jail, some weeks, three counts have been found. His case will open rich, and we shall have a reveal of California life shown us.

The Liquor Law in Providence.—The new Rhode Island Liquor Law, termed the "Nuisance Act," has been put into execution by the city authorities of Providence, and many arrests under it have recently been made. It makes the fixtures, i. e., decanters, toddy sticks, &c., *prima facie* evidence of guilt.

The Tower of Nankin.—Recent accounts from China state that the world-renowned porcelain tower of Nankin, the chief architectural glory of the Celestial kingdom has been destroyed. It was in possession of one of the factions of the insurgent army, who had stored some big guns in it; and an opposing faction, on a warlike foray, blew it up, and laid its pride low.

No Troops for Utah.—The National Intelligencer denies the statement heretofore published, that the Administration is about to send a strong military force to Utah.

Fire in New Jersey.—*Philadelphia, May 27.*—A fire has been raging in the woods near Jennesville, Cape May County, N. J., since Monday, doing great damage. The people are endeavoring to extinguish it.

☞ The Phrenological Journal for June, contains a good likeness of Horace Mann, with an excellent, because true, Biographical Sketch. The Journal maintains its interest and value. Fowler & Wells, publishers, New York, who also publish the Water Cure Journal, and Life Illustrated.

SPECIAL NOTICES.

Honor to whom Honor is due.—The Proprietor of Lawrence's Carminative, or Child's Pain Killer, is entitled to the public gratitude for gratuitous distribution of it to the worthy poor.

Davis' Daguerrian Gallery, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out positively at cost, for 21 days, previous to extensive alterations in the store.

The Poor as well as the Rich man's child is cured by the use of Lawrence's celebrated Carminative.

The Secret Discovered at Last.—We have noticed in passing through Market street, lately, that the New Store, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, Messrs. Allen & Paine, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningpong they call it, at Tilton & Nowell's Union Store, No. 12 Market street,—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 63 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

Agent in Portsmouth, JOS. H. THACHER. Wholesale Agents in Boston, Weeks & Potter. Retail Agents, Redding & Co.

IT IS AN ESTABLISHED FACT that Dr. Sanford's Invigorator will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need a medicine, would try one bottle, for it will surely give relief.

Farmers!

AS the season is so backward, you will need some powerful manure to give your corn, potatoes, &c., a good start, so as to ensure a good crop; and there is nothing better for the purpose than
POUDRETTE.
The experience of nearly all, who used it last year, was, that it gave their corn *ten days* start of any other kind of manure. For sale by

Washington Total Abstinence Society.

AT a special meeting of the above named society, held May 20, and by adjournment, May 23, 1857, it was stated that a Religious Society proposed to buy the Temple, and the question arose, Shall the W. T. A. Society sell or convey its right in the same?

Whereupon, it was voted to take this question at an adjournment meeting, to be held on Saturday, May 30, 1857, in the Temple, at 2 o'clock, P. M.,—and that the officers of the Society give notice.
T. R. MILLER, President.

POLICE COURT.

WEDNESDAY, May 28.

Before Justice Odell.—Two boys were convicted of stealing money, $4.25,—and each sentenced to 20 days' imprisonment; also jointly to pay $8.50 damages, and $6.92 costs.

☞ We are requested by a lady who has a son absent at sea, to ask of the person (probably some young lady friend) who took his Ambrotype from its case in Davis Brothers' Rooms, to return it to that place or to her immediately. Doubtless the picture was thoughtlessly taken, for a joke; but to the young man's mother, the deprivation of the portrait of her son is a source of trouble—and we hope this paragraph will meet the eye of the possessor of the ambrotype, and induce its restoration.

OLE BULL'S CONCERT.—The Norwegian Magician, the least assuming, yet most gifted violinist now living, is to give his farewell concert at the Temple, on Saturday evening, when it is to be hoped that that there will be a full house. The fascination of the great performer, the misfortunes of the man, and the probability that this is the last time for years, if not forever, that he will be heard, this side of the Atlantic, will, no doubt, induce a general attendance.

ESCAPE FROM IMPRISONMENT.—Capt. Smith, master of schooner Charles Hill, of Portsmouth, N. H., which arrived at St. Domingo City, last month, was arrested by the Dominican government, in consequence of his vessel having been in contact with a vessel belonging to that government, and was sentenced by the authorities of St. Domingo, to two years imprisonment. This sentence, to an inhabitant of New England, was equivalent to that of death. Capt. Smith, possessing that enlightened self-interest, sometimes made a reproach to a Yankee, made his escape, and has safely reached Boston, as we learn from the Boston Daily Advertisce.

WASHINGTON, May 27.—The President will remove to his summer residence, the Soldier's Home, four miles from Washington, early in July, and occupy Dr. King's house, by invitation of the Board of Directors of the Military Asylum, of which Gen. Scott is President.

Col. McMullen was this morning commissioned as Governor of Washington Territory.

Gen. Scott is here on business connected with the army movements.

A bark, with the name "Mary Cobb, New York," painted on her stern, has been anchored at Gardner's Island, near Piney Point, at the mouth of the Potomac, for more than a week, and, as far as known, there has been no communication between her and either shore. Sounds of heavy hammering are daily heard on board, and there are some suspicions of her being engaged in an illegal business.

The mail train from the South got off the track last night, on the Alexandria and Orange Road. The engine and tender were smashed, and the engineer and fireman seriously injured.

WASHINGTON, May 27.—The Charleston Courier learns by an arrival at that port from Indian river, Florida, that about the 12th inst., Major Dashiel, paymaster in the army, in attempting to land from a schooner, came near drowning, and lost overboard $23,000, intended for payment of the troops in Florida.

An official letter from Cape de Verds says the crops there, though not abundant, are sufficient to keep the people from actual want. More than twenty thousand inhabitants in the Islands and Archipelago have fallen victims to cholera.

The Commissioner of Patents, at the request of the American Guano Company, is distributing and transmitting, at the expense of the recipients, parcels of guano from Baker's Islands in the Pacific, with the object of determining its economical value as compared with other manures.

CHEAP FREIGHT.—Engagements in New York, May 27, for Liverpool, include 2500 bales cotton, at 2s. 6d. a 3s. per bale, and ¼d. per lb.: 4000 brls. rosin and 500 brls. flour, 9d. California freights are extremely flat; there are now seven vessels on the berth, with three ships in reserve, with parts of cargoes engaged; the rates are 22 1-2, a 25c. per foot.

☞ A Philadelphia paper tells the story of a family, the mother of which was found dead, from intemperance and starvation, in Twenty-Third st., near Callowhill, and when the Coroner entered the house, he found the father beastly drunk, while a lad of 14 lay on the floor, sick of intermittent fever.

ANOTHER VETERAN GONE.—Albert Thompson, of Peru, Mass., a relic of the revolutionary army, died on Thursday last, aged 85 years. He retired in usual health at night, and before morning died, apparent-without a pang.

A French peasant woman recently appeared before a tribunal to complain of the ill usage she received from her husband. "What pretext had he for beating you?" inquired the president. "He didn't have no pretext—it was a thick stick!"

LATER FROM CALIFORNIA.

END OF WALKER'S EXPEDITION.

NEW ORLEANS, May 27.

The steamship Empire City is coming up the river, from New York 18th inst., via Havana. She connected at the latter port with the steamship Grenada, from Aspinwall, and brings the California mails and passengers of May 5th. The steamship Illinois left Aspinwall on the 19th inst., for New York, with the California mails and passengers, and about $2,000,000 in specie.

Among the passengers on board the Empire City are Gen. Wm. Walker and staff, who have abandoned the field of operations in Central America.

Gen. Walker capitulated on the 1st of May, to Capt. Davis of the U. S. sloop-of-war St. Mary's, and with his staff and 200 men, the remainder of his army, were rbought to Panama in the steamer Mariposa. The Costa Ricans were not known in the articles of the capitulation.

NEW GRENADA AND GREAT BRITAIN.—The government of New Grenada has ceded an island in the Bay of Panama to England in settlement of the McIntosh claim, which had nearly caused war between the two nations.

NEW ORLEANS, May 29.—The Empire City reached her wharf last evening at 7 o'clock. 10,000 people were present to receive Gen. Walker, who made a speech, expressing his thanks for the reception given him, saying that in the mass before him he recognized the American love of liberty, and assuring them that victory was still sure.

Walker surrendered because Capt. Davis signified his intention of seizing the schooner Grenada, which held Walker's reserve.

Walker was kept a close prisoner by the U. S. Commodore at Panama, notwithstanding the terms of the capitulation allowed him and his officers their liberty, and the privilege of retaining their side-arms.

Lieut. Strain did at Aspinwall May 15,

CAUTION TO TRADERS.—Spurious bills of the Bank of Milford, *Delaware*, altered to Massachusetts, have been circulated in Salem, within a few days. Ones, twos, and threes of the spurious money have been seen, and bills purporting to be of the Milford Bank should be closely scrutinized, to ascertain that they are genuine.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was disposed of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the article. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

A NEW REMEDY.—The Cincinnati Commercial says: A German who resides in Mill Creek township, while suffering from a pulmonary attack, sent for a physician, who resides on College Hill. In the short time the doctor called on him, prescribed two bottles of cod liver oil, and receiving his fee of eight dollars, was told by the German, who disliked the size of the bill, that he need not come again. The German, who, by-the-by, had not heard the doctor's prescription very well, supposed he could get the oil and treat himself.—The doctor saw no more of his patient for some time; but one day, riding past the residence of the German, he was pleased to see him out in the garden digging lustily. The case seemed such a proof of the virtues of cod liver oil that he stopped to make more particular inquiries about it.

"You seem to be getting along very well," said he, addressing the German.

"Yaw, I ish well," responded the former sick man.

"You took as much oil as I told you?" queried the doctor.

"Oh, yaw, I have used as more as four gallons of de dog liver oil."

"The what?" exclaimed the astonished doctor.

"De dog liver oil dat you say I shall take. I have killed most every fat little dog I could catch, and de dog liver oil have cure. It ish great medicine, dat dog liver oil."

The doctor had nothing to say, but rode quickly away, and noticed in his memorandum book that consumption might be as readily cured with dog liver as cod liver oil.

LOW NECKED DRESSES.—In the early days of Pennsylvania there was a law which stated as follows:

That if any white female of ten years or upward, should appear in any public street, lane, highway, church, court-house, tavern, ball-room, theatre, or any other place of public resort, with naked shoulders, (*i. e.* low necked dresses,) being able to purchase necessary clothing, shall pay a fine of not less than one hundred, nor more than two hundred dollars.

The closing paragraph of the law, however, permitted women of questionable character to bare their shoulders, as a distinction between the chaste and unchaste.

ANOTHER WORLD.—M. J. Johnson, of the Oxford Observatory, England, writes to the editor of the 'Astronomical Journal,' under date of April 10:

"I have the pleasure to inform you that another planet—the forty-third of the system between Mars and Jupiter—was discovered last night, at this observatory, by Mr. Pogson."

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—AND—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Fair of the Institute, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tone full, clear and musical like the voice. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lowest set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficient of power to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of tone as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee as *cheap and low* as any house.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms and Manufactory and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the instruments from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon.

Chickering & Sons, Hallett & Cumston,

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair trial of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and so faithfully executed as if the parties were present to select an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which the Subscribers are Managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with these lotteries is conducted in public manner, and that the interests of parties who reside at a distance are as well protected as if they lived in the city where the drawings are held. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. The lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $25. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '20. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(*Sign of the Chinaman grinding Coffee.*)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.*—Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Tarrasconn, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we quote the following one week's prices, viz:

5 lb. Souchong Tea,	1 00	5 lb. Mocha Coffee,	1 00
5 lb. Oolong do.	1 25	5 lb. Java do.	90
5 lb. Hyson do.	2 25	5 lb. good do.	1 00

☞ These teas are put up in 5 and 10 lb. tin cans, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of engineers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process, which retains the good flavor of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and we find it increases having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARRASCON, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "Tarrascon Coffee," may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and wholesome as a healthy beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious food, and as a remedy for Dyspepsia, Bilious affections, &c., &c.

☞ Be careful to observe that all our *Tarrascon* has our trade mark, "*Chinaman grinding Coffee,*" as there are many imitations of our article, called Tarrascon, in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices, as compared with those of any other house.

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZE CAMERAS, and larger lenses than any other Artist, I am enabled to produce the purpose, together with other facilities, I can offer to work at such PRICES as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of LIFE. This process also I have obtained, that any one possessing a small picture of a lost friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, and the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten receives a prize. Tickets are $1; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and the ternary combination, which is easy and simple to understand and keep in mind. There is no combination of numbers to justify the buyer. Prizes vary from $40 to $50,000; every prize being drawn and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and the Philadelphia *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions; and he will offer advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, and establishing the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given represent only those who have SECURED PATENTS AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has sufficient reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The business transacted in this office during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most competent and careful practitioners with whom I have had official intercourse. CHAS. MASON,

BURNING GAS.—In every city where gas is used for supplying the inhabitants with light, whether it is furnished by the corporation or by private companies, there is the same complaints of the cost, and the same disputes about the accuracy of the charges. The metre is the only record of the consumption, and yet it appears so very important one. In an investigation which has just been made by the New York Councils, it was proved by competent witnesses that metres are liable to get out of order; that they can be made to register falsely, either in favor of the company or of the consumer. A manufacurer of metres said there was only one way by which the metre could be made to register in favor of the company, and this was by tipping it on the left side; but there were four ways, which he did not describe, by which the consumer can cheat the company in the use of the metre. A metre can be made which apparently records one thousand feet, when only one hundred feet goes through it, and yet it presents the same external appearanc.

It was also stated that all the gas burnt in the New York Univeraty goes first through a large metre, and is then distributed to the different roooms through small metres. Yet one-third more gas is registered by the small metres than goes through the large one. This proves that the metres are not to be relied upon.

The consumer, however has the regulation of the pressure within his own control. On every service pipe, which is a wrought iron pipe that conveys gas into the house, there is placed within the building, and under the control of the cosumer, a cock, which he can open and close at pleasure, and by which he can regulate the flow of gas as he may require. If this was generally attended to, it it would effect a very great saving to the consumer of gas.—*Philadelphia Ledger.*

MRS. STOWE.—The following in regard to Mrs. Stowe is an extract from a Paris letter of Feb. 20, in the New York Times:

Mrs. Stowe is yet in Paris. She lives retired in the Faubourg Poissonniere, and sees but little of Americans. She does this in order to devote her attention to the study of French. I learn that she is translating into English with the view of publishing in the United States, *L'Amour dans le Mariage* (Love in Wedlock.) It is also said that she is preparing for the press a work on the poorer classes in Europe, a sort of Uncle Tom in white society. At the reception of M. Biot at the French Academy a few days ago, Mrs. Stowe who was present, had a grand success of curiosity, even in that assemblage of the lions and lionesses of the literary world. 'Dred' has not yet appeard in French. Hon. Mrs. Norton and the ladies of Lord Elgin's family, are among the few frequent visitors at the house of Mrs. Stowe in this city."

We are apt to mistake our vocation in looking out of the way for occasions to exercise great and rare virtues, and stepping over ordinary ones which lie directly in the road before us. When we read, we fancy we could be martyrs; when we come to the act, we find we cannot bear a provoking word.

THE WRONG LEGS.—A gentleman of this city, who has had the bad fortune to be troubled with rheumatism in the legs, and the good fortune to have an excellent wife, who is ever prompt in applying the usual remedies to arrest the vexatious pains of this treacherous complaint, went home one evening last week, suffering greatly from his old "misery." His zealous wife immediately rushed to the sideboard, and taking out the bottle of what she supposed to be Dalley's Pain Extractor, proceeded to rub the afflicted husband's legs and feet with the magical elixir. With a grateful smile the affectionate husband signified his great relief, remarking, also, that a good wife was really an inestimable blessing.—"And by-the-by, my dear," continued the affectionate spouse, "I see you have been varnishing the legs of this old furniture; they have needed it for a long time."

"What put that into your head?" asked the good wife.

"Why, can't I smell? I must certainly have a bad cold if I could escape that rather strong odor of copal varnish which pervades the room."

"You are mistaken; I have not opened the varnish bottle to-day."

At this the husband, happening to cast his eyes down to his kneeling wife, who was still rubbing his extremities, was astonished and horrified at the spectacle they presented. They were of a beautiful mahogany color, so brightly polished that he could see his own startled countenance as distinctly in them as in a looking-glass.—Seizing the bottle of magical elixir, what was his surprise to discover that it was labeled "copal varnish!"

This explained the odor, and established an important fact in medical practice, that the best cure for rheumatism is a thick coating of coal varnish. We have heard of the same remedy employed in cases of cholera, to arrest perspiration, but this is the first case we have ever known of its being found as effective in restoring the damaged legs of men as those of tables and sideboards.—*Cincinnati Enquirer.*

MEN ALWAYS FIT FOR FREEDOM.—There is only one cure for the evils which newly acquired freedom produces,—and that cure is freedom! When a prisoner leaves his cell, he cannot bear the light of day; he is unable to discriminate colors, or recognize faces; but the remedy is not to remand him into his dungeon; but to accustom him to the rays of the sun. The blaze of truth and liberty may at first dazzle and bewilder nations which have become half blind in the house of bondage; but let them gaze on, and they will soon be able to hear it. In a few years men learn to reason; the extreme violence of opinion subsides; hostile theories correct each other; the scattered elements of truth cease to conflict, and begin to coalesce; and at length a system of justice and order is educed out of the chaos.—Many politicians of our time are in the habit of laying it down as a self evident proposition, that no people ought to be free till they are fit to use their freedom.—The maxim is worthy of the fool in the old story, who resolved not to go into the water till he had learned to swim! If men are to wait for liberty till they become wise and good in slavery, they may, indeed, wait forever!—*T. B. Macaulay.*

WORK OF BOHEMIAN WOMEN.—The men walk upright with unburdened backs, while their women lose all grace, all comeliness, nay even the very form their creator gave them, beneath the fardels they bear alone. Not an hour since, we saw from our windows an instance of the merciless fashion after which they are permitted by their husbands to abuse their feeble powers, in a couple passing beneath our windows. A woman, the heavy basket familiar to all who visit these parts, strapped to her back, was bearing within a more than sufficient load for one stronger than she seemed to be, but on her left arm she carried a pig, no less! which she maintained there with evident difficulty—she grasped the muzzle of the animal with her right hand (thus drowning its cries, in her respect for the repose, or rather for the gentility, "save the mark!" of those before whose dwellings she was passing, poor soul!) while her own slight frame was shaking and quivering, as she tottered along, with the immoderate exertions she was making. And the man's share in all this, what was it? Why, he carried the rope by which one leg of the pig was bound.—*Travels in Bohemia.*

It is made a state prison offence in Ohio, to use strychnine in the manufacture of Whiskey. Of late, it is said, this active poison has been used by the manufacturers in distilling this liquor. Swine have been fed upon the swill, and the "hog-cholera," about which so much has been written, is thus accounted for. The effect upon men who drink the whiskey, if not as bad as it has proved upon the hogs, must be, in many instances, fatal. Is not whiskey used by some persons in New England? May it not be that strychnine is employed in the manufacture of other intoxicating drinks?—*Exeter News Letter.*

SUNDAY LAW.—In Charlstown, Tuesday, a woman named Ellen Donnovan was brought before Justice Warren, charged with keeping a low groggery open on Sunday, in defiance of the law. She was fined $5 and costs, in default of which she was committed.

CITY COUNCIL.

In the Board of Aldermen, Thursday evening the annual appropriation bill was received from the Common Council, and referred to the committee on Bills on 2d Reading.

The proposition of Robert Gray, to give land to the City to widen Vaughan street, was referred to committee on Streets.

The committee on Streets, Bridges, &c. to whom the subject was referred, reported that Liberty Bridge and the North Bridge required repairs, and that an appropriation should be made for that purpose. Report adopted, and the Street Commissioner ordered to attend to the work immediately.

The following resolution was adopted:—

Resolved, That no person or persons shall move or cause to be moved any house or building through any of the streets, lanes or alleys in this city, without first giving good and sufficient bonds, satisfactory to the Mayor, to indemnify the city for any loss or damage which it may sustain by the moving of such house or building, through any of the streets, lanes or alleys.

In the Common Council, no business was transacted.

PLEASANT INCIDENT.—Mr. B. Akerman, who has the last week returned from a visit to his children in the West, relates an incident which took place in the cars at Cleveland, Ohio. There came into the cars a respectable looking lady, and with two children took her seat. After a few minutes some excitement was manifest, and she told the conductor she had missed her wallet, containing eighty dollars. She went back to the ticket office, but could find no trace of it. Returning to the cars, penniless and many hundred miles from her destination, with two children, her outburst of sorrow can be more easily imagined than described. She was returning to Springfield, Mass. There being good evidence of her respectability, the passengers at once made up a purse for her. On counting the sum readily handed to her, she found it amounted to $76.30. Among the most active in raising this subscription was the Hon. Edward Everett, who chanced to be a fellow passenger.—How such kindnesses smooth the rugged journey of life.—*Journal.*

COMPILED STATUTES—*not yet State Laws.*

Mr. Editor,—As our legislators are to assemble next week, it may be well to call their attention to a matter which, though apparently of small consequence, may make great confusion in the laws. Since the publication of the volume called the "Compiled Statutes of New-Hampshire," statutes have been passed repealing sections of the compiled laws, and others amending them. I hope that no such statutes will be passed by the present Legislature, as that book has never yet been enacted into a law of this State, and it is to be hoped it never will be. Although it purports to be a compilation of the laws then in force, it is not so; but the compilers took the liberty to make very great changes. And these changes are of such a character as to produce great trouble. If the Legislature continues to pass acts as above referred to, the courts may therefore hold that they have recognized the whole book, and thus enacted laws that could not in any other way obtain a vote.

U. S. SENATOR.—The death of Senator Bell will add an important item to the business to be transacted by our State Legislature, which convenes next week. It is to be hoped that the vacancy will be filled by a business man whose general knowledge of the wants of the Northern section of the country will fit him to fill the post with honor to the Granite State. It is not necessary to go into the legal profession to find such a man. Practical business tact has frequently done more towards the formation of wholesome laws than the theories of the most erudite lawyers. In financial matters, to which branch can we look for the practical man? We want a man of influence—a man who will not use that influence as a stepping-stone for preferment. For many years, New-Hampshire has selected lawyers as her Senators: some of them of the first talents as statesmen.—But it is time that some of the other professions should be brought forward. There are interests, very important interests, which the business community could have better represented by gentlemen of more extensive mercantile knowledge than the gentlemen of the bar can be expected to possess. Let New-Hampshire, for this time, select one who may stand out prominently, as John Langdon once did, as a business representative of the State in the first legislative branch of the Government. Such a selection the people ask of their representatives—such a selection would meet the wants of the times.—*Journal.*

NEW-ENGLAND.

BY ALBERT LAIGHTON.

What though they boast of fairer lands,
Give me New-England's hallowed soil;
The fearless hearts, the swarthy hands,
Stamped with the heraldry of toil.

I love her valleys broad and fair,
Each pathless wood, each gleaming lake,
Her bold and rocky bastions, where
The billows of the ocean break.

The grandeur of her granite peaks,
Whose lordly brow the cloud-wreath binds;
The music of the voice that speaks
Forever in her mountain winds.

For oh, thank God, as o'er the plains
They sweep resistless to the sea,
They bear no sound of clanking chains,
But chant the anthem of the free!

Ah, Freedom's flag shall broader wave,
And Freedom's bird shall heavenlier sing,
Until, on Earth, no trembling slave
Shall crouch beneath her sheltering wing.

May, 1857.

DONATION.—We understand that the Mercantile Library Association of this city have received a handsome present of One Hundred Dollars from Sam'l Sheafe, Esq. to be devoted to the purchase of books of a designated character.

Thirty-nine vessels loaded with sugar and molasses arrived at New-York on Saturday last.

Morning Chronicle.

SATURDAY, MAY 30, 1857.

The wife and daughter of Dr. Chaffee, representative from the Springfield district, in whom the ownership of Dred Scott's family rested, have, since the death of the administrator of the estate, given their liberty, and practicably nullified the Taney decision.

The above, from the Portland Advertiser is intelligible.—Dr. Chaffee informed the public, some time ago, that neither he nor his family, had any control in the case and that they would have freed the slaves if they had. The control rested in the administrator. Now he is dead;—the control changes hands,—and the women at once emancipate the slaves. It is worthy of remark, that nearly every slave on whom the U. S. Laws or Courts have acted, for several years, has been emancipated somehow. Verily, there is a higher law than human statutes.

ONE PRAYS AND ANOTHER PUMPS.—The ship Senator, which arrived at New York last week, in a leaky condition, met with a very severe gale of wind just after leaving port, on the 9th of April, in which she shifted her cargo and sprung a leak. After several days of hard pumping, the crew, becoming exhausted and discouraged, notified the captain that they should not pump any longer. Capt. Coffin hereupon assembled all hands. Taking out his watch, he looked at it and then at the men, and said, coolly: "It is now just twelve o'clock; at the rate the ship is now leaking, I calculate we shall be in the other world at about half past two. I am going below to say my prayers," and went into his cabin. A consultation was soon held. One old fellow declared he had rather pump than pray, as he *understood* it better and it agreed better with his constitution. In a few minutes, the Captain heard the pumps going again as lively as ever, and they did not cease going, except for short intervals, until she arrived at New York.

A LADY'S WARDROBE.—A Baltimore lady, going to spend two days in Washington, lost her trunks containing her wardrobe. She held checks, so that the company must pay or find the lost property. The lady produced an invoice, comprising, we should judge, every article (mentionable or unmentionable) which the "*dear* creature" could by any possibility rig on her person,—of which the following is the substance:—Whole value $1765. There were 180 pieces, valued thus; Jewelry $771; skirts and dresses $490; underclothes $43; handkerchiefs, laces and collars $170; opera cloak, furs and glass $113; fans, parasols and flowers $53; toilet articles $44; gloves $21; gaiters $23. She subsequently added $300 worth more to her list. Fortunately the trunks were found.

EAST CAMBRIDGE, MASS.—Wednesday afternoon the police made a seizure of the contents of a wagon, from which a man named Richard Cotter, from Boston, was supplying his patrons with a variety of liquors. Cotter was arrested and taken before Justice Ladd, when he gave bonds for his appearance on Friday, to which time the case was continued.

About five o'clock on Thursday morning, a descent was made upon a similar establishment, driven by William Murphy, who sought to elude the vigilance of the Police by starting at this early hour to supply his customers. Murphy gave bonds to appear on Friday for examination.

CHEERING FROM THE SOUTH AND WEST.—From every part of the southern country—from the Carolinas and Alabama, Mississippi, Tennessee, Texas and Louisiana—the statements are that the promise of an abundant harvest were never better. In Kentucky, also, grain is doing remarkably well, though the cut worm has done some damage among the corn.

The Sherbroke (C. E.) Times, of May 28th, says that the dry time experienced in that vicinity has been attended with frequent fires in the woods. On Monday night about three thousand cords of firewood and one of the sheds of the Grand Trunk Railway at Acton were destroyed by fire.

☞ At Lawrence, Wednesday noon, an Irishman, who was about removing to Springfield, placed his family in the cars, and in attempting to get aboard himself, after the train had started, fell upon the track, and four wheels passed over both legs just below the thigh, cutting one leg so that it hung by a small piece of skin only, and the other to a complete jelly.—He lived but two hours. His name was Patrick Quinn.

FATAL AFFRAY.—Ex-Gov. Wm. Bebb, of Ohio, now residing at Seward, Illinois, was assailed at his residence, on the 20th inst., by a mob, who for some time kept up insulting outcries, and fired guns and threw stones at his house. He remonstrated with them to no effect, and then fired upon the ring-leaders, one of whom was killed, and another wounded. The occasion of the outrage was a dislike to Mr. Bebb, who was considered aristocratic, and whose son had that evening returned home, with his newly-married wife.

HOLE THROUGH THE ALLEGHANY.—The Greenbrier, Va. Era says that the "heading" of the Alleghany tunnel has been finished, and that although daylight cannot be seen, yet there is certainly a hole through the mountain.

☞ SENATOR BELL'S funeral took place at Laconia on Thursday. Services by Rev. J. K. Young. A large number of prominent men attended.

PRICES OF MEAT.—The New York butchers have taken counsel of their pockets, as well as of the opinions of their customers, and refuse to pay the monstrous prices which drovers ask for beef cattle. There was a decline of a cent a pound in the New York cattle market on Tuesday.

SPECIAL NOTICES.

DAVIS' DAGUERREIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and re furnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the New Store, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Take notice, dear reader, that for 40 cts. you can buy a pound of good Tea, Ningyong they call it, at Tilton & Nowell's Union Store, No. 12 Market street,—also shoes for men and women at very reasonable rates; and all other goods cheap. tf

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need such a valuable preparation.—[Cincinnati Daily Sun.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

NEW GRANADA.—President Ospena, of New Granada, in his inaugural address, is modest and philosophic. He recognizes the necessity of cultivating good relations and intercourse with the nations who, under the influence of Christian civilization, have become the depositories of science, arts and power. The causes of the present political degradation of Spanish America, are touched with a truthful spirit, and the necessity of time to effect a change in the ideas, prejudices, habits and social condition of the people, are insisted upon, in a calm, but strong manner.—*Boston Cour.*

WASHINGTON, May 28.—The excitement about Walker's return is intense. The Navy Department do not credit the report of the capitulation with Capt Davis of the St. Mary's, he having no authority to entertain any such proposition. It is understood that Capt. Davis was instructed to render Walker such assistance as he needed; and the threat to take the schooner Granada was only a blind to afford the latter a pretext for surrendering.

Walker's friends confidently assert that he will return to Nicaragua in the course of 50 or 60 days, with plenty of men and means.

Mr. Morse, late Minister to New Granada, discredits the statement that the Republic had ceded to England the islands in Panama Bay. It had before been tendered to the British Minister near that Government, and positively declined in view of our treaty stipulations.

Gov. Broome of Florida has requested that the regiment of regular troops be substituted by mounted volunteers, to be raised in that State, for the purpose of prosecuting hostilities against the Indians vigorously during the summer. The War Department has assented to this proposition, and will cause to be mustered into the service of the United States for that purpose, not exceeding ten companies of such volunteers.

A young lady engaged to be married, and getting sick of her bargain, applied to a friend to help her untie the knot before it was too late, "Oh, certainly," he replied, "it's very easy to untie it now, while it is only a *beau* knot."

Auction Sales. — Those readers who wish to invest their money in real estate in this city, at low prices, will look at the Auction Columns, where four dwellings are advertised — also, plants, trees and flowers, not to mention the honeysuckle gin.

Ole Bull.—This incomparable artist of the Violin, is to be here on Saturday night, to delight the lovers of music, with his performances upon his favorite instrument. Ole Bull has lost none of his power; his "Mother's Prayer" and "Carnival of Venice," have the same magic beauty of artistic perfection, as years ago, when the world first acknowledged his inimitable pre-eminence.

The impression of his wonderful performances, can never be forgotten. One who has never heard him, can form only a faint conception of the power which he exercises over his instrument, in expressing the different passions and emotions of the human mind. His recent farewell Concerts have been attended by large audiences in all cities he visits.

The assistants at his Concerts, Mr. Dressler, the Pianist; Mr. Harrison, Ballad-Singer; Mr. Horncastle, Buffo; are all accomplished in their several departments.

Christian Association.—On Thursday, May 21, at Richmond, Va., the fourth annual Convention of Young Men's Christian Associations of the United States and British Provinces, assembled in the First Presbyterian Church on Wednesday morning. At 10 o'clock the Convention was called to order by Mr. Philip B. Price, of Richmond, when Mr. Z. Richards, of Washington, D. C., was called to the chair, and Mr. Milton Saylar, of Cincinnati, Ohio, appointed Secretary, pro tem.

At the request of the chairman, Rev. Sullivan Holman, of Portsmouth, N. H., conducted the religious exercises at the opening of the Convention, which consisted of singing a hymn, reading the 2d chapter of Paul's letter to Timothy, and prayer.

The same gentleman was also on a committee to nominate officers.

Rev. Charles H. Read, of Richmond, by invitation, delivered an address, characterized by ability and eloquence, which was listened to with profound attention by a numerous audience.

The next annual meeting is to be held at Charleston, S. C.

"Out West."—The New York Tribune says "our impression is that a good many Eastern capitalists who have sent their money over the Mississippi to be loaned to land speculators at two or three per cent per month, will wish they had kept it at home."

The Brig General Pierce.—The trial of John Smith, John DeCosta, John Brown and John Nedz, for the murder of Capt. Lawson on board the brig General Pierce, at St. Thomas, was concluded at New York on Wednesday. The jury returned a verdict of manslaughter against each. Sentences were reserved.

Michigan.—While the reputed cases of actual starvation are not substantiated, the destitution is more wide spread than is generally supposed. It is believed there are nearly or quite five hundred families who will require assistance, and that not less than two thousand barrels of flour, or its equivalent in provisions, will be sufficient to supply their actual necessities until harvest. This is for one county (Gratiot) alone. Others need assistance also.

"Out West" is not *all* a paradise, after all, is it?

Recapture of Children— *A Mormon Killed.*—About two months ago several children were kidnapped at New Orleans by the Mormons. The father was absent in California, and the mother, who had been deluded by the saints, lent herself to the infamous scheme by which her own children were to be ruined. The kidnappers started with the children from New Orleans, to go through Texas, Arkansas and the Indian Nation, to the Salt Lake trail, but were intercepted by the father, who had returned, and started in pursuit of them. He succeeded in capturing them, and also in arresting Elder Pratt and Perley Parker. Pratt was discharged, however, and McLean, the father, shot him dead. Mrs. McLean was Pratt's ninth wife.

LATER FROM EUROPE

The Arabia, from Liverpool, May 16, arrived at New York, 28th.

Liverpool Breadstuffs Market, May 16, is as follows.

With a very favorable change in the weather, any influence which the advices from America might otherwise have had, has been quite counteracted, and a decline at Mark Lane, Monday, of 2s. per quarter on Wheat, was followed by a slow market here. On Tuesday, without change in prices, Wheat and Flour met a very limited sale, and Indian Corn was quiet at 35s. per quarter, for mixed. At to-day's market, there was a small attendance of buyers, and very little business done. In Wheat, the few sales made, were at a reduction of 2 a 3d. per bushel. Flour was unsaleable, and nominally 1s. per brl. lower. Indian Corn opened slow, at 34s. for mixed, but closed rather firmer at 35s. for mixed; 35s. 6d. for yellow; and 37 a 38s. for white; we quote extra Flour, Ohio, 31 a 32s., Western Canal, 29 a 30s.

Since the Indiana sailed, Lord Palmerston has introduced a bill into Parliament, to amend parliamentary oaths, omitting the words "on the true faith of a Christian," and thus admitting Jews.

France.—French news is unimportant.

Spain.—The Spanish Armada has not yet left Cadiz.

The Mexican Ambassador had an interview, on the 14th, with the Minister of Foreign Affairs, at Madrid.

Spain will send a special envoy to China, to secure a share in the commercial arrangements.

Espartero has resigned his seat as Senator.

A correspondent relates that the King of Spain is discovered in conspiracy to dethrone the Queen, and is threatened with trial for treason.

Presbyterian Convention.—*Cleveland, May* 27.—Dr. Ross, of Tennessee, spoke at length at the Presbyterian Convention, in defence of slavery. He quoted largely from his letters to Mr. Barnes, and stigmatized the course of action of the various General Assemblies on the slavery question as unmitigated nonsense.

The Doctor should be kidnapped and sold into the blessed condition whose praise he celebrates.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

Wolfe's Scheidam Aromatic Schnapps is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN

is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

Jewelry, Fancy Goods,
SILVER PLATED WARE, &c.
COMMENCING TO-DAY,
Monday, May 11th, 1857,
And continuing the sale for THREE WEEKS!!

HAVING made arrangements to have my Store refitted, and being desirous of reducing my stock before doing so, I have concluded to sell at COST, for that time, my entire stock of articles in my store. Those wishing to get a *good bargain*, will do well to improve the opportunity, as this is a *bona fide* affair, and every article will be positively sold during that time.

AT COST!

My Stock comprises the following named Goods:—

PINS, RINGS, BRACELETS, GOLD and SILVER PENCILS, SPOONS, CASTORS, CAKE BASKETS, KNIVES AND FORKS, WAITERS, TEA and COFFEE POTS, LAMPS, CLOCKS, LOOKING GLASSES, GOLD AND SILVER WATCHES, BRECKACLES, HAIR and CLOTHES BRUSHES RETICULES, DUSTERS, CANES, ACCORDEONS.

For every article sold, not proving as warranted, the money will be refunded.

☞ N. B.—This Sale will positively close at the time specified, after which I shall continue to dispose of all Goods in my line of trade, on as favorable terms as any other dealer in this city, or elsewhere.

SOAP.

SANGER'S SEEK-NO-FURTHER Chemical Soap—a superior article for washing. For sale by A. A. PAYNE.

EXTRAVAGANCE.—While women punish themselves in fashions for the unselfish desire to make others happy, even though themselves are miserable, the men are quite as extravagant in justifying appetites and passions of a lower character in gluttony and drunkenness. Laces and silks and jewelry for women, cost much; don't the French brandy, Holland gin, Scotch beer, Spanish cigars, cost something, too? Who pays for the billiard tables, the oyster suppers, the costly dinners, the fast horses, the St. Bernard and Newfoundland dogs?

You may strike the balance, to-day, and we'll venture, there are quite as many expensive, unclassy expensive, habits—and more unjustifiable—with the men as among women; but somehow or other it has come about that men are privileged to grumble at acts which they encourage, in women; and that, too, when the expense of women to please their husbands, is not half what the husband's is, for his own selfish gratification.

Still, however, because mutually, males and females help each other on, in extravagance, and the vice and ruin that extravagance bring, economy, prudence and industry are no less virtues to-day, than in former times.—*Newburyport Herald.*

☞ Rev. Hubbard Winslow, formerly pastor of the Bowdoin street Church of Boston, has received and accepted a unanimous call to the First Presbyterian Church, Geneva, N. Y.

☞ Rev. A. W. Fisk, late of Kittery, was installed pastor of the Congregational Church in Fisherville, N. H., May 20.—Sermon by Rev. H. E. Parker, of Concord.

☞ Rev. H. C. Howland, of Warner, has received an unanimous call to become the pastor of the Congregational Church in Chester.

☞ Rev. W. Spaulding will preach in Kensington, N. H., next Sunday—and on each alternate Sunday through the season.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS, Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys; the lower running in octaves higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced skillful workmen; and feel that we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine for themselves the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallet & Cambell,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Stimpson, Ward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Parker & Co. are the managers, are chartered by the Legislature of Maryland, a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a fair and honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact worth mentioning is, that by law, it is made all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special laws in that state, and are held every 10 days throughout the month. If no particular chance is named, orders are filled in the first drawing to take place after the communication comes to hand. Persons can remit money to us in P. O. order. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE POCKET ESCULAPIUS, or *Every One His Own Doctor*, by W. M. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 Spring street, above Fourth, Philadelphia.

Tremont Mills.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(*Sign of the Chinaman grinding Coffee.*)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at the *lowest Cash prices.*—Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Saleratus, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the articles above named, the public may rely upon having them *pure and genuine* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we mention the following scale of prices, viz:—5 lb. Souchong Tea, 1 00 | 5 lb. Mocha Coffee, 1 00
5 lb. Oolong do. 1 25 | 5 lb. Java do. 90
5 lb Y. Hyson do. 2 25 | 5 lb. good do. 1 00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of merchants and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this Coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE. This article is carefully prepared at our Mills, and put up in packages having our trade mark, and trade mark, and on as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding Coffee*," may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of Coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as beets suits the taste, and is sold at a much cheaper price than the usual beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c., &c.

☞ Be careful to observe that all our *Taraxacum* has our trade mark, "*Chinaman grinding Coffee*," as there are many imitations of our article, called Taraxacum, in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profit, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices, as compared with those of any other house.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have seven commissioners appointed to superintend their management, to see that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity to win a competence, the interest of $1 in 62 chances being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $20; halves, $10; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $60,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Herald*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

MR. CUSHING'S SPEECH—AGAIN.

We might extend our remarks upon the dangerous doctrines of Mr. Cushing's speech, in favor of national aggrandisement by extension of empire, but we trust that comparatively few men at the North espouse his sentiments. The glory we should seek consists in promoting the interests, welfare and happiness of all within our national jurisdiction; in preserving peace with all nations, and furnishing an example worthy of their imitation. All ideas of foreign conquest or annexation, should be indignantly rejected.

But we agree with Mr. C. in reprobating Walker, "a reckless American adventurer, recruiting troops for the purpose of plunder and murder in Nicaragua." "Let not the small man, Walker, (he says,) be honored for this, on account of which the great man, Burr was damned." But at the same time, Mr. C. seems to regret that Walker had not a sufficient military force, and therefore he says that he "has only served to obstruct national purposes in Mexico, in Nicaragua, in all Spanish America."

Can it be possible that the last administration intended to acquire dominion over these countries? We ask by what right? Would their conquest come under our "national purposes?" Why should the United States interfere with the nations of Central America? What have they to do with the possessions of England, France, Spain, Denmark, Holland, and Portugal, in the Gulf of Mexico and South America? Because we have become a powerful nation, and been prospered as no preceding nation ever was, are we suddenly to assume the character of a public robber, a filibuster, or buccaneer? Or shall we elect to follow the example of ancient nations, or the powerful nations of modern Europe, and confound might with right? Should that day come, the glory of our republic will have departed.

We are in danger from the ignorant and corrupt morals of foreign immigrants—we are in danger from annexation—but, perhaps, in greater danger from the anti-democratic doctrines of our own corrupt and ambitious politicians. From the rash counsels and hazardous experiments of our last administration, we barely escaped being involved in war with Great Britain. We refer to the trivial causes, if causes they may be called, which induced the administration to dismiss the British minister, Mr. Crampton.

The war with Russia was ended. At that time England never had so powerful a navy and army in service. She would have blockaded every commercial port in our Union, and swept our commerce from the ocean. It is so declared by English statesmen. But she brooked the insult, accompanied by an apology on our part, in dismissing her ambassador.

But the questions now raised in respect to Central America are not settled. It is confidently asserted that the British government will not yield their claims long asserted to British Honduras and certain islands in the vicinity, to the new claims set up by our administration. Does it belong to us to interfere with the claims of England, valid or false, to parts of South America or Central America? The question is,—have the United States any claims whatever to any portion of these regions, in order to justify their interference? If they have any rights in that quarter of the world, when and where did they acquire them?

The truth is, they have no color of right. It may be that a right of way across the Isthmus of Darien would be very advantageous. If so, the only fair mode of obtaining it would be by treaty and purchase.—But we have no cause or right to make war upon the half-civilized nations of Central America, for refusing to let us have a passage-way to the Pacific. Let our motto be—no more extension, and attend to our internal affairs.

We can have a railroad to connect California and the Pacific with the Atlantic coast. Had there been sufficient intelligence in our Congress, and less of a mere sectional feeling, the great work would long since have been commenced. Some of the slave States insist upon a line the most favorable to their pecuniary interests, and by the conflict of opinions the work has been delayed.

Conceding that a right of way across the Isthmus may be desirable, yet we insist that we have no claim or right to demand it—that a refusal would be no cause for war. Should the United States attemt to take forcible possession of any parts of Central America and the West Indies, the nations of Europe having possessions in that part of the world, would combine in the defence of their own possessions, and of the native inhabitants. But the naval armament of Great Britain alone would be sufficient for their protection. CIVIS.

☞ A horse attached to the wagon of a grocer and baker, on Bunker Hill Street, Charlestown, was frightened and ran away a few days since. In his mad career, he turned from the street and ran upon a vacant lot which is excavated, making a precipice of 50 or 60 feet. The animal finding himself in such close proximity to this dangerous place, flung himself on the ground to save himself, but his speed was such that the horse and wagon turned a complete somerset, and both landed within two feet of the dangerous brink. The wagon was a complete wreck, and fifty loaves of bread and $10 in pennies, were scattered about quite promiscuously. Two youngsters who were on the wagon, got off with severe though not dangerous bruises.

A CALIFORNIA CIRCULAR SAW.—A correspondent of the Scientific American writing from Oroville, California, states that a mill in that place, has a circular saw driven by steam power, that cuts daily, in ten hours, from 13,000 to 16,000 feet of one-inch boards. The mechanic who constructed the mill will undertake to cut 30,000 feet of one-fourth inch boards with it, every twenty-four hours for a week. The timber is what is called sugar pine, which is similar to our white pine.

☞ John Williams, one of the hands on board a brig at Portland, was drowned on Tuesday. He had been up town, drinking, and returned to the vessel in the evening; and while crossing the gangway, fell overboard and sunk immediately. An inquest was held by Coroner Danielson and the jury returned a verdict of "accidentally drowned while in a state of intoxication."

CATHOLIC CHURCH PROPERTY.—The Supreme Court of New York has decided that the property of St. Peter's Society, in Buffalo, held in fee by Bishop Timon, must be delivered over to the Trustees of the Society. The case has been in the Courts, since 1851.

Morning Chronicle.

MONDAY, JUNE 1, 1857.

For the Chronicle.

PROGRESSION.

The Hon. Caleb Cushing, in his famous speech at Newburyport—a speech which must have a tendency to raise him in the opinion of true-hearted Americans more than any speech he ever made before—declares himself in favor of the spreading of our glorious republic over North America.

Mr. Cushing has the reputation of being an astute politician; but we opine that he shows his austereness fully in such remarks as those to which we refer above; for any person of shrewdness, versed in the feelings and tendencies of the American people, can but perceive that no person holding to contrary ideas can ever be first in the hearts of his countrymen. The faces of most of our people are flushed with indignation, when they are told that at but a short sail and a short journey from us the people of several provinces are held under the monarchical government of a person between whose country and their own seas roll, and in the placing of whom into power they had no voice.

The American sailor grates his teeth in anger when, sailing from the Northern to the Southern ports, he sees on the many islands almost in sight of our shores, the flags of foreign nations flying, where only should fly the stars and stripes.

From the original thirteen, our country has increased to thirty-one States, and *Je ne sais pas* how many territories; and with the increase of States has come a prosperity unexampled in the history of any nation. Croakers have prophesied with each addition to our constellation, ruin and dissolution. The memory of our oldest inhabitant cannot go back to the time when Croakers did not exist. Ruin has been predicted from the increase of our territory times without number; and yet James Buchanan occupies the Presidential chair at a time when the power of the United States of America never was greater.

I leave my readers to answer whether the power and influence of the original thirteen States would have been as great as is that of thirty-one. We believe in the people. We believe that a republican government, such as ours, is stronger than a despotic government. We have just so much confidence in a republican government, such as ours, that we are not afraid that our domain is too large for a republic.

History will show no such government as ours ever to have existed. It is the composition of all experiences in all forms of government. When we admit nations into our confederation, we take them by their own wishes. We do not wish to acquire territory by the mere conquest of the people, and we have so good an opinion of the good common sense of the people, that we can only think the most of our neighbors can but see the advantages of our government, and will wish to be confederated with us.

The idea that it is absurd for our government to be extended over other people, because they cannot govern themselves, will do very well for the lovers of the principles of the Emperor of France, or of the Czar of Russia. However, the more education and the more knowledge our people may have, the more powerful and the better will be the government. We doubt not that Mr. Cushing looks with pride upon any institution which leads and tends to the general diffusion of knowledge and virtuous principles.

The American people have no idea of waiting in their "march," and indeed they could not if they would. The destiny fixed for them by the Almighty leads them on. "They know their rights, and knowing dare maintain." The people do not believe that a despotism is stronger than a republic. To "march, march, march," is a characteristic of the American people, and if any one waits, he will only be trodden under foot, or left so far in the rear, that it will be difficult for him to come up again to his former position.

E. PLURIBUS UNUM.

NOTE.—Our correspondent, E. P. N., is eminently progressive. So was Gen. Walker, the Isthmus filibuster. Our other correspondent, Civis, anti-filibuster, is a fair match for them. See another communication from him on the first page.

☞ Virginia is said to be overrun by Gipseys. They are of European origin, and practice all the tricks and pilferings for which the class have ever been distinguished. They are attracted to Virginia, just as they are found in worn out countries in the old world.

ONE OF THE MOTHERS.

A writer in the Congregational Journal says, Mrs. Allison of Nottingham, was one hundred and seven years of age, on the 10th day of May. A few days before this date, the writer had the pleasure of seeing her. She is blind, but members of the family in which she resides, are able to make her hear. She sits erect in her chair, but does not walk without assistance, but yet appears comfortable and well, and is apparently as likely to live a number of years, as other aged persons in good health. She speaks distinctly, so much so that the excellence and strength of her articulation is noticeable. The world is shut out from her, and she meditates and speaks of Divine things. She has a surprising familiarity with the Holy Scriptures.—She sung hymns in simple airs, which she doubtless learned scores of years since. The writer was told that she had such a store of hymns in her memory, that she could sing in this way for hours together. After she had sung awhile, she said, "now I will give you the resurrection song." The chorus at the end of the verse was, I think —"We will all rise in the morning." The doctrine of the resurrection of the dead, she spoke of with great satisfaction, and dwelt upon the justified pardoned state of the true christian, and the precious promises of the word of God. On other than religious subjects, her friends say she does not at all incline to converse. It is said that she was hopefully converted to Christ in the tenth year of her age. Her maiden name was Fisk, and she was born in the town of Lee, N. H.

CAMARIDGE, MASS.—In the Police Court, James O'Donnell, William Murphy, Neal Divver and Richard Cotter, the parties arrested in East Cambridge for retailing various intoxicating compounds, were severally arraigned, on the charge of violating the liquor law. The parties pleaded not guilty; the officer who made the arrest testified to the fact of their delivering liquor at various places in the city, and the defendants were all convicted, and sentenced respectively, to pay a fine of $10, and 20 days in the House of Correction, and to give bonds in the sum of $1000 not to commit a like offence for one year. In every case, an appeal was taken, and the parties ordered to recognize in the sum of $100 each, to prosecute the same, at the June term of the Court of Common Pleas, to be holden at Concord. They furnished the requisite securities.

The reader will see by the above, that the Massachusetts law is pretty well enforced in Middlesex Co. These four peddlers are only emissaries from some dealer in Boston.

☞ A letter from Monongui, New Zealand, in the Honolulu Commercial Advertiser, reports that Captain Evans, of the whale ship Arctic, was accidentally killed on the 28th October, 1856. He had fallen overboard, but got hold of a rope which was thrown him. The ship, however, was going fast through the water, and the sea being very rough at the time, when he got abreast of the ship's quarter, she settled down on him, and struck him on the head and chest, breaking his collar bone, and otherwise inflicting fatal injuries upon him. A boat was lowered and he was immediately taken on board the ship, but he merely breathed once or twice, and was dead. Captain Evans was buried at Mongonui, where he was married eight months previously. He was a native of New Hampshire, and 29 years of age.

A RAILROAD CASE.—The Boston Traveller gives the following item respecting a verdict obtained, week before last, in the Supreme Judicial Court, in session at Lancaster, N. H.:—"Some two years since it seems, one James M. Hilliard took his seat in the cars of the Grand Trunk Railroad without a ticket. The conductor, Thos. O. Gould, demanded of him the extra ten cents required in such cases, by the rules of the Company. Hilliard refused to pay more than the regular price, and was therefore ejected from the cars.—He then brought an action for trespass against Gould, and, under improper ruling, obtained a verdict, but a new trial was afterwards ordered on exceptions, which last week, was decided in favor of the conductor. This establishes for New Hampshire, the principle that dirictors have the right to make the extra charge referred to; and further, that conductors are justified in expelling from the cars those who refuse to pay charges."

The Brig Mary Cobb, which a Washington telegraphic despatch made a "suspicious" vessel, turns out to be a very harmless craft, which was taking in wood below the Potomac, for an eastern port, and at the same time was undergoing repairs.

SENTENCE.—McKnight, the draft forger at Buffalo, has been sentenced to five years in the state prison. He has been a produce and commission merchant in Buffalo for some years, and was a man of standing, a prominent member of the Presbyterian Church, and generally esteemed for his affability and good qualities of heart. He became straitened in pecuniary matters a few days since, when he commenced forging, always providing for the redemption of his paper until it became too much for him to carry.

DRED SCOTT.—The real original Dred was the lion of the Court House on Saturday morning. He was recognised and surrounded by about a score of lawyers, all congratulating him on his enviable notoriety. Some said he was the most celebrated character of the present day—that he caused a greater stir in the United States than Lafayette himself, and advised him to go off forthwith to Boston, exhibit himself there, and from thence to London, but to be sure before he left for England to get an introduction from Mrs. Stowe to the Duchess of Sutherland. "No masea," said Dred, "me not go to Boston nor to England neider; me stay in St. Louis with Massa Labaun." Dred is a small, pleasant looking negro, between 50 and 60 years of age.—*St. Louis Leader.*

BEAUTY DEFINED.—The Home Journal gives the best definition of beauty we have yet seen:—

"Beauty, dear reader, is *the woman we love*, whatever she may seem to others."

SPECIAL NOTICES.

DAVIS' DAGUERRIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and re furnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

☞ Don't forget the great sale at Chas. T. Emery's, No. 10 Market Square. Watches, Clocks, Jewelry, and Fancy Articles, selling out POSITIVELY AT COST, for 21 days, previous to extensive alterations in the store.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discovered that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—(Cincinnati Daily Sun.

Agent in Portsmouth, JOS. H. THACHER. Wholesale Agents in Boston, Weeks & Potter. Retail Agents, Redding & Co.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that came under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

ROGUES BAGGED.—We learn from the Dover Gazette, that all the clothing stolen from Davis's store in Rochester, has been recovered; and that Timothy Perkins, George Bixby, and Charles Champion have been arrested as the thieves. One John Rogers, also charged as a thief, is still at large.

The Hog Cholera is quite destructive at Chicago. The symptoms correspond with those shown in actual cases of cholera.—The disease prevails where still slops have never been used.—*Boston Courier.*

Exactly so. It has happened this way—but it has prevailed chiefly among hogs which have been *brought* from quarters where they *were* used.

DEATH IN THE GROGGERY.

On Friday forenoon, May 29, about 11 o'clock, an Englishman named John Flanagan, was at the shop of Thomas Whalley, between Nos. 46 and 48 Hanover street. An Englishman named Deverson, was also there. Flanagan, like some other drinkers, when in his cups was pot valiant, and *would* wrestle with Deverson, who, after some refusals, threw F. He must needs try again; and the second time, stumbling over a spit box, he fell heavily, and striking his head, did not rise again. The liquor and the blow were too much. He was laid away out of sight, on some shavings, to recover if he could; but no physician called, nor his family informed. Between 9 and 10 in the evening, the City Marshal was notified of the man's death,—and about the same time, the dead body was carried home to the bereaved family.

On Saturday morning, Dr. Folsom made an examination, and on removing the scalp on the left side and back of the head, about 1 1-2 gills of clotted blood appeared. The skull was fractured to the length of some inches—both injuries no doubt causing his death.

Now let us look back a little. On the 7th of April, this same Whalley, who then kept at No. 48, had his shop searched, on complaint of keeping liquors for sale,—and two other places were also searched. For these complaints, the complainant was waylaid and pursued by a set of scoundrels, assaulted and violently beaten; and when he gave his testimony on the stand, next day, was vilified and abused by the learned counsel who defended the culprits.

For the same complaints and searches, the windows of one of our traders were smashed in by night. The rum press groaned for a week or two, because any self appointed temperance committee or temperance men dared to stir up the lambs of the groggery. And when Uncle Toby complained of Pierce's assault, and called attention to the promised tall swearing of his confederates and accomplices,—the eloquence of the learned counsel for the prisoner, blazed high in a flame of indignation.

Now,—in one of these very rum dens, in defense of which all this indignation was let off,—a man comes to his death, as we suppose, in a drunken wrestle,—and the dying victim is concealed from his family and from the public for 8 or 10 hours.

Citizens! Mayor and Aldermen! Do you like the institution of grog shops, in one of which half a dozen men, who ought to be at work, are idling, drinking punch, fooling and wrestling, all the forenoon, from 9 to 12 o'clock?

If you do, you can encourage them, until a few more men get killed there, or kill themselves. But if you don't like it—you have plenty of power to break them up.

An inquest was ordered by the Mayor and Aldermen,—and commenced by Justice D. P. Drown, on Saturday—to be concluded this morning.

The following description of the post mortem examination is furnished from the memoranda of Dr. G. G. Brewster, who was present and assisting:

Bruises—two on the fingers of the left hand; one large bruise under the right arm below the arm pit; one on right cheek 1 in. from the eye, and horizontal with the eye; one on right side of forehead, 1 1-2 in. above the eye; one on bridge of nose

Cuts—one on each side of the face, between the ear and temporal bone.

Fracture—temporal bone, left side, 5 7-8 in. long, in a line between mouth and crown of head.

On removal of the cranium, there was a deposit of coagulated blood, 1 1-2 gills.

☞ The three-story Brick House No 20 State street, with fine garden extending to Court street, belonging to Mr. Geo. Henderson, was sold at auction on Saturday by J. P. Morse, Esq., for $3,800. Mr Geo. M. Marsh was said to be the purchaser.

☞ Br. ship Courier, Larkin, which has been lying at Pier Wharf nearly a fortnight, waiting for a fair wind, sailed on Saturday morning, for Quboc.

SLAVE MATTER.—*Cincinnati, May 29.*—Deputy U. S. Marshal Churchill and eleven assistants left this city, on Tuesday last, to arrest four persons in Mechanicsburg, Champaign Co., this state, charged with harboring fugitive slaves nine months ago. The arrest was made on Wednesday, when writs of habeas corpus were taken out, but before they could be served, the U. S. officers resisted, and several shots were fired, but they were finally overpowered and taken prisoners, and brought to Springfield for trial, for resisting the sheriff in discharging his duty. Great excitement prevailed. The U. S. Marshal telegraphed to the Secretary of the Interior to-day, for instructions regarding the arrest and imprisonment of U. S. officers at Springfield, but the nature of the instructions received in reply, has not transpired. U. S. Judge Leavitt has issued a writ of habeas corpus, and a marshal has gone to Springfield to serve it. In case of resistance, it is reported the U. S. troops will be called out.

WASHINGTON, May 29.—The news by telegraph that New Granada had ceded the islands in the Bay of Panama, was not credited in official quarters, nor is such a result apprehended.

BOSTON POSTMASTER.—Mr. Capen, author of the History of Democracy, was to-day appointed by the President, Postmaster of Boston.

VIRGINIA ELECTION.—Messrs. Smith and Faulkner, Democrats, are elected to Congress in Virginia.

THE NEWBURG TRAGEDY.—*New York, May 29.*—There is a rumor in Newburg, that the body of the murdered girl has been identified, and that the murder has been traced from Lowell to New York.

FROM HAVANA.—The steamship Quaker City, from Havana, May 25, arrived here this afternoon, bringing 130 passengers from Mobile and Havana. She reports that the day she left Havana, rumors were current there, that Sana Anna would shortly arrive, *en route* for Mexico, under Spanish protection. The U. S. surveying schooner Varina left Havana on the 25th, for Key West.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in the manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be pilled to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unaccilimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants.

CHARLES' LONDON CORDIAL GIN
Is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

SUPREME COURT—BUFFALO, N. Y.—*Betrayal—Death—Betrayer Sentenced.*—Dr. Bigler, a well-known physician in the western part of New York, was brought up for sentence for an offence which formerly was capital. He debauched Amelia Muir, a girl of 18, who lived in his family as a domestic. To conceal the consequence of this crime, he performed upon her an operation, which resulted in her death.—Judge Clinton addressed him substantially as follows: "The Crime of which you have been guilty was at common law murder, but has been made by statute manslaughter. We cannot expect to touch your conscience and excite you to repentance. But it is to the public that the circumstances of your crime should be stated. You had lived nearly half a century, and was distinguished as a physician.—Amelia Muir's parents confided in you, and allowed her to enter your service.—you yourself had a wife and smiling children, and a daughter just budding into womanhood, and yet you seduced this poor domestic, and deceived her parents, under pretence of having her instructed in a more respectable employment than that of house service. You kept her at a house in Rochester, while you had assured her parents that she lodged in the house of the dressmaker by whom she was at your instance employed. Then she came to this city, taking lodging under an assumed name, and as married; and you visited her from time to time under the false name of Rosendale, and pretending to be her uncle. She became weakened by disease, and you induced her to submit to an operation, the shock of which in her condition you knew would be almost sure to cause instant death. The death of Amelia Muir was the foreseen consequence of that felonious act. The least punishment a decent respect for morality will permit us to award is the heaviest penalty of the law.—Less than that would be a mockery to justice and a treason to the public. The judgment and sentence of the Court therefore, is, that you be imprisoned, at hard labor, in the State Prison at Auburn, for the term of seven years."

JUSTICE.—In Milford, Connecticut, lived Squire Higgins. The other day a loafer was tried before him, and *bonds* were required for his appearance at the next county court.

"Who is your bond?" demanded Higgins of the culprit.

"I am, sir," said loafer No. 2, stepping out from the crowd, and looking enough like the prisoner to be his brother.

Higgins, the justice, eyed him a second or so, and thundered out, "We didn't ask for vaga-*bond*, it's another article we want; you won't answer at all; you can go."

He went; and loafer No. 1 went to jail.

THE POISONED BREAD.—Professor Liebig has analyzed the Proscribed Chinese bread sent to him from Hong Kong, and has found it to contain a quarter gramme of arsenic for every fifty grammes of bread, or more than sufficient to cause death.—The arsenic was spread over the whole surface of the bread, which proves that the poison had been mixed up with the dough.

DE VEAUX COLLEGE.—This institution, located on the banks of the Niagara river, was formally opened on the 20th inst. The college is designed for the maintenance and education of orphan children, and was built and is endowed from a legacy by Judge Samuel DeVeaux, of Niagara Falls. Addresses were delivered by Bishop DeLancy, Rev. Dr. Gregory, President of the College, and Hon. Washington Hunt.

Progression.

I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called

Photographs,

as well as those on GLASS, known as

Ambrotypes,

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZE CAMERAS, and larger than any in this vicinity, I am peculiarly adapted to the purpose, together with other facilities, I can offer to work at such PRICES as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of LIFE. This process also I have obtained, so that any one possessing a small picture of a loved friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

LOTTERIES.

The well-known Maryland Consolidated Lotteries of Messrs. FRENCH & CO are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact worth consideration is, that it is notorious that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of the State, and it is notorious that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of the State, and it is notorious that every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The money received being divided into quarters, $2.50. No tickets sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100 '000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

—MANUFACTURERS OF—

Melodeons, Organ Melodeons, and

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the music clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower one being an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of an Organ, and is sufficiently heavy to fill a house that seats from 1000 to 1600 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The coupler, similar to that in the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our establishment, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee *perfect satisfaction in every instance.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the merits of our MELODEONS we firm our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will bear testimony to our opinion thereof:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, J. Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a first rate of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings. Government officers, appointed model wills the same is done in a strictly honorable manner. They offer to the public a fair opportunity to participate in a lottery conducted at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets in these lotteries, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten will be a prize. Tickets are only $1, Shares, $1 quarter, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can mistake and misunderstand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st., opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Models made and Patents Solicited on Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the Patent Office Models may be had by remmitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and Inventors IN THE WEST FROM THE ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the prompt, faithful, and personal services rendered the immense practice of the subscriber during twenty years past, has enabled him to accumulate the information of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render the office, while from question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R.H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He thoroughly acquainted with the law, and the rules of practice of the Office. Regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

BOSTON TOTAL ABSTINENCE SOC.

A public meeting of this Society was held on Thursday evening at the Music Hall, where there was a large attendance notwithstanding the fact that an admission fee of ten cents was charged at the door.

An opening prayer was made by Rev. Mr. Reed of Newburyport.

Mr. Sinclair of Scotland, the children's Temperance Missionary, at first alluded to the importance there existed for those engaged in any great moral work to come in contact with the evil concerning which they preached, and of seeing all the miseries attendant upon it. In this connection the career of John Howard was instanced, as a model to be followed in the great temperance reformation in this country. They should visit all the prisons, asylums, and scenes of misery, and see the effects of that unlawful traffic.

He wished to ask the audience a few questions. He proceeded to read various sections of the Prohibitory Liquor Law, and inquired what they were going to do about it? He should like to know if they were putting the law in force. He must express the hope that this law was not to remain a dead letter, and he knew from the sentiment he had seen manifested during his stay in this country that such would not be the case. It was time that this law was carried out. Other machinery than we now had was needed to carry forward this great cause. All their movements in the work, such as their cold water armies, Sons of Temperance, etc., should not have been thrown aside for the prohibitory movement. There was a demand, which consequently created a supply, and vice versa, and now we needed these associations to cut off the demand, and the prohibitory law to stop the supply. These influences should all work together.

Another movement which should engage the attention of this country, was to be directed towards the children. There was a coming generation who he feared had not been enlightened in regard to the great evils of intemperance as well as they should have been. He was afraid that the parents, thinking they knew all about it, had neglected the children. This was not as it should be, and he hoped to see some decided action in their behalf.

Rev. E. H. Chapin was introduced and warmly welcomed. He said the evils of intemperance were to be attributed to three causes—appetitite, avarice and apathy.—First, appetite was at the bottom of the evil against which we labored. Not that he meant the appetite of the drunkard, for the inebriate was not the enemy of temperance, and often felt in his soul the worth of the temperance cause. We had dwelt too much on the simpler phases of the evil, and should go to higher, into that society whose customs were the greatest sources of intemperance. The rumseller's chief gains came from those who lived in palatial homes, from persons of refined education and taste. It was that class who patronized and made wealthy the proprietors of splendid saloons and large establishments—and those proprietors were the men who furnished the sinews of war, without which the battle against temperance would be hopeless.

There were certain stages of life where the use of an otherwise harmless thing was criminal, and in every stage of Christian development there was that which no man had a right to keep back; he must throw his particular indulgence down for the benefit of others, and it was the peculiar necessity of this age, that the indulgence in liquor should be the sacrifice.d Among the upper classes he knew there was more intoxication than anywhere else. Young men of fortune knew more of vice, in consequence, at the age of twenty-five, than an old saint could of virtue at the age of seventy-five. These youths lived among drinking customs which were having their effects, not only by example, but by encouraging and strengthening the rumseller.

In the second place, avarice was at the root of the evil. Not that the possession of money was wrong, but that men took the property estimate too much, and thought of wealth before God and their fellow men. That there was a higher wealth of human souls in transit, which we have no right to place second in our estimation, and no right with the fire of distilleries to deface the superscription of God upon it. The splendid saloons were the dangerous places, and he would shut them up first, for the devils hoof's and horns did not stick out so plainly in sight as from the ten foot dram shop. But when we tried to shut them up, we heard avarice cry out that we were destroying the rights of property, and say that it was therefore unconstitutional. There were household sorrows everywhere. They were beyond control. They came like the twilight shadows that trooped along the wall, and we bowed in submission as the hand of Providence brought its dispensations. But there were evils which it was a crime to call the work of Providence, evils that came not from the hands of the Father, but from the hands of men. There was no sorrow so keen as that caused needlessly by human hands. Every one should pause before they encourage a habit of using intoxicating drinks; every clink of the glass should echo like the shriek of human despair; every drop of liquor in the glass be the representative of a drop of human blood.

Men told us that drinking habits were an element of civilization. That was true; they were, just as much as mud was an element of New York. He had become a temperance man because he felt that all the sympathy and labors were needed to cut off that fashion which was crushing hundreds and thousands of our brothers and sisters, and desolating so many homes all over the land. No man has the right to set himself before the community and say that he will not surrender that indulgence which is the ruin of others. He ought to see that this was God's cause and not our own, and therefore it is to triumph. Let true humanity know that there is an evil, and from that hour that evil is doomed. Let it be challenged in the name of God and Humanity, and the firmly rooted sin will shake on its pedestal and fall in ruins. Let us be convinced that this is God's cause, and men will labor on.—There was hope before us, and if the foe appeared in strength we should set teeth, shut visor, couch the lances, sound the trumpets and charge home upon the foe, with the war cry of "God prosper the right."

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to out high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requisements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

THE BEST

Planing, Tonguing & Grooving Machine

IN THE WORLD.

PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

For further information, address the Patentee,

JAMES A. WOODBURY,

1 Scollay's Building, Court street, Boston, Mass. Jan. 8, 1857.—1 yr

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk

Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

TUESDAY, JUNE 2, 1857.

TEMPERANCE—HOW TO PROMOTE IT.—The Newburyport Herald, which speaks on all sides of all questions,—in an article on the efficiency of laws, on Saturday, says:

It should be the constant labor of all good citizens to prevent the evils of intemperance; and for that purpose we should array the public sentiment against it, and we should unite all that can be united in abstinence themselves and active efforts to suppress the sale. To this end we should take that action which will unite the greatest number. We have a class of low grog shops, great nuisances; gambling hells that ought to be rooted from the earth at all hazards; and in this work nine-tenths of the people will unite, the juries will convict, and judges will sentence to extreme punishment. *These-quarters of the liquor sellers themselves will help this work;* and the prayers of women and children will go to heaven for blessings and success.

It the writer of that sentence which we have put in italics, believes it himself, he cannot have had any experience in this line. The rumsellers will "help *no* work" which does not tend to make their trade lucrative and "respectable"—they are always opposing the present action of temperance men, and crying out in favor of the preceding movement in the great reform, which but just now, while it was being made, they were as bitterly denouncing.

The Herald continues:

But change this and take all classes of offenders alike, and you not only lose the aid of the respectable liquor dealers, who do not want the disgrace of being classed with grog shops, and of customers of these respectable liquor dealers, who do not want to be dragged before the courts to testify with ragmuffins and gamblers; but you create sympathizers among the religious and temperate classes, who together form a combination against such extreme action, and against the law put to such uses, and at last against temperance itself, and so the whole cause is swamped and lost. The whole history of reforms proves the truth of what we have said, and more than anything else could they ask to be saved from their friends.

This is mere twattle, and sounds very much like *rum*-twattle, too. "*Respectable* liquor dealers" aid in the temperance reform, eh? And then the old talk of the friends of reform injuring their own cause, —who *does* help on such movements, their opponents?

We tell the Herald, and all such, that he cannot find one single temperance man, (i. e., teetotaller,) who does not fully endorse the action of temperance men in their entire course, of the application of both law and gospel. And we don't know that any reasonable man expects the *other* side to agree to it. This conducting the temperance reform in such a manner as to receive the countenance and aid of the rumsellers, would be too much like serving God so as not to offend a certain personage who may be supposed to have a peculiar interest in the liquor business.

THE NEW CENTS are exciting a good deal of interest all about. Sixty thousand dollars of the new cent, or six million pieces, were paid out at the Philadelphia Mint on Monday and Tuesday, and orders are still coming in from all quarters of the Union, even from the South and Southwest, where the old cent never obtained circulation—lowest prices there being graduated to the smallest silver coin. The demand for the coin in small quantities was so lively, that the newsboys in the large cities dropped their usual avocation and "got up a corner," in selling them to the curious at the rate of three for sixpence. The banks having received a supply, have been besieged by an army of boys, who change their old coppers for the new coins, and then peddle them on the street at an advance. Half the boys in town were soon on the track, and the banks have been obliged to shut down on them.

A great deal of fun is made of the bird on the new coin—but we think the "wild goose" handsomer and better than the old "spread eagle," and more like a bald-head, too.

UTAH.—The administration has decided upon sending a formidable body of troops to Utah. Orders have been issued for the dispatch to that territory, of the second regiment of dragoons, the fifth and tenth regiments of infantry, and Captain Phelp's battery of light artillery, numbering in all some two thousand men, under the command of Gen. Harney. This is said to be only the beginning of the movement.

There is a report from Great Salt Lake, that the schism in the Mormon Church has assumed a formidable character. Brigham Young is said to have deserted the Tabernacle and remains shut up in his own house, guarded night and day by his friends.

LIBERIA.—Advices from Liberia of April 20 state that President Benson had sent a message to the Legislature, announcing that the people of the "State of Maryland in Liberia" have unanimously voted in favor of annexation as a country to the republic of Liberia, and made a formal application for admission. The President thinks the request should be complied with.

KANSAS.—The Lecompton correspondent of the New York Evening Post transmits a copy of Acting Governor Stanton's proclamation for the election of delegates to the Constitutional Convention. The proclamation embraces a table of the census returns. The whole number of voters registered is 9251. From four districts there are no returns. The number of delegates is fixed at 60. The election takes place on the third Monday of June.

BRUTAL.—In New York on Friday morning, a party of rowdies who had been refused admittance to a disreputable house, vented their spleen by shooting, without the least provocation, a negro named Salters, who was standing on the sidewalk in the vicinity. The shot took effect in the man's left eye, completly destroying it, and endangering his life. The ruffians escaped.

ELOPEMENT.—The Bellows Falls (Vt.) Times says that a miserable scamp named Seward, of Marlow, N. H., some weeks since eloped with another man's wife, leaving his wife and three children in Marlow, in destitute circumstances, after having borrowed some sixty dollars on false pretences. He is a carpenter by trade. The woman's name is Gasset. The guilty pair were at Bellows Falls in March.

NOT DEAD.—A portion of the newspapers will insist upon killing off Miss Mary Shaw, (Miss Krollman) sister to Miss Hoey and Mrs. Chas. Howard. She died, they say, at Louis on the 30th ult., but inasmuch as she played at DeBar's theatre Saturday, May 16th, her decease may well be doubted.

☞ At a recent term of the Carroll County (N. H.) Court of Common Pleas, Dudley Chamberlain, jr., had to pay John Clough $36 damages, caused by the frightening of Clough's horse by the defendant's dog, as the plaintiff was riding along the highway.

All right—but a better way is to have a dog, if any, that won't try to scare a horse, and a horse that can't be scared by a dog.

☞ The Senate of Massachusetts have concurred with the House in passing the Resolve concerning idiotic children, over the Governor's veto.

The House refused to pass the Kansas Aid Resolves over the Governor's Veto.

FATAL MISTAKE WITH DRUGS.—In New York, a girl named Ellen Murphy, purchased a dose of epsom salts and senna, and carrying it home, placed it in a closet beside another paper which contained an ounce of oxalic acid; and the next morning fell into the mistake of taking the acid. The error being discovered, Dr. Mott endeavored to administer an emetic, but the girl could not swallow it, and died within half an hour from the time of taking the poison. This was the second death in New York within a week, from the same cause.

HOW TO BEHAVE; A Pocket Manual of Republican Etiquette and Guide to Correct Personal Habits. Embracing an exposition of the principles of good manners; useful hints on the care of the person, eating, drinking, exercise, habits, dress, self-culture, and behavior at home; the etiquette of salutations, introductions, receptions, visits, dinners, evening parties, conversation, letters, presents, weddings, funerals, the church, places of amusement, traveling, etc., with illustrative anecdotes, a chapter on love and courtship, and rules of order for debating societies. Price, post-paid, paper 30c., muslin 50c. New York: Fowler and Wells, 308 Broadway.

The work is essentially different from any other manual of etiquette, and will aid, we hope, in building up a truly American and republican school of politeness.

☞ "Costar," of No. 388 Broadway, New York, whose advertisements will be seen in our columns, is unquestionably offering to the public, meritorious articles. J. H. Thacher is agent in Portsmouth.

PRESENTATION.—A committee of Rev. T. Starr King's society in Boston have presented to him a service of plate, valued at between $400 and $500.

Mrs. General Scott is lying dangerously ill in Paris, and her daughter, Mrs. Major Scott, sailed on Saturday to join her.

SHARP SHOOTING.—In Boston the American Education Society was addressed on Tuesday by the Rev. Henry Ward Beecher, upon the ministry. His remarks were pointed, as may be judged by the following extract:

Men told us that we might preach of geology, and phrenology, and archæology, and astrology, and forgotten Babylon and Ninevite inscriptions, and the dust of Egyptian pyramids, and the heavens and the earth beneath, and the cherubim and seraphim, of whom we know nothing; but when we came to man, for whom all things were made, they told us, "hold, you are going out of your province." But he would tell them that his guns were not in his stern to fire at the past, but in his bows to fire at the future. The Christian minister's duty lay with men in all their relations of life; his call was a divine one, and the spirit which became him, that of overflowing love for his neighbor.

FLORIDA LIFE.—An officer of the U. S. Army, stationed at Fort Cass, Florida, writes as follows in the National Intelligencer, under date of May 16th:—

We are nearly destroyed by mosquitoes. I do all my writing in bed, under the bars, which will account for this letter being in pencil. For the last ten days, I have not been able to write at my desk, and I have slept but two nights during the same period. The men are no better off than I am, and they are not far from being used up. Besides the mosquitoes we are troubles with scurvy, dysentery, and and in fact, nearly all the ills that flesh is heir to. It would take the Indians at least twenty years to kill as many men as the climate of Florida does in six months.

PROF. J. G. HOYT.—We are glad to hear from Professor Hoyt, that the announcement in several papers, of his acceptance of a Professorship in Williams College, is premature, no such arrangement having yet been made. The situation has been offered him, but so many other offers, quite as good, having been before at his disposal, we hope he has so well learned to resist temptation, that he may long be spared to the institution here, whose reputation he has done so much to sustain, and to our community, where he is so universally appreciated and beloved. New Hampshire cannot afford to send off all her truest men—and Professor Hoyt is one of the most learned and best samples, so we respectfully ask that he may be left where he is, until our people see fit to send him to the Congress of the United States.—*Exeter News Letter.*

LARGE EMIGRATION FROM EUROPE.—Nine vessels arrived at New York on Tuesday from Great Britain, France and Germany, bringing 3447 emigrants.

SPECIAL NOTICES.

Safe, pleasant, and sure—Lawrence's Carminative, or "Child's Pain-killer."

DAVIS' DAGUERREAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always were crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, at low prices, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and all diseases of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" which is indeed the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

Agent in Portsmouth, JOS. H. THACHER. Wholesale Agents in Boston, Weeks & Potter. Retail Agents, Redding & Co.

IT IS AN ESTABLISHED FACT that DR. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice, and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this; and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that come under our observation, it seemed the means of snatching its victim from the grave; we wish all our readers who need medicine, would try one bottle, for it will surely give relief.

"COSTAR'S" BULLETIN,—No. 3.

"Costar," of No. 388 Broadway, New York, wants one or more Druggists or Dealers in every City, Town, Village and neighborhood in the United States, Canadas, West Indies and South America, to sell

"COSTAR'S" Rat, Roach, &c., EXTERMINATOR,
"COSTAR'S" Bed-bug EXTERMINATOR,
"COSTAR'S" ELECTRIC POWDER for Ants, Insects, etc.

See what the New York Press says:

From the New York Sunday Times of May 17th.—"Costar's" Exterminators are sure destruction to every species of vermin. Their operation is speedy and permanent. The Exterminators are really all that they profess to be.

New York Daily State Register, of May 1st says:—No judicious housekeeper should delay in purchasing these invaluable remedies for clearing their houses of all sorts of vermin.—With all confidence we can recommend them as indispensable for every family.

From the New York Sunday Mercury of May 17.—It seems incomprehensible that good housewives should go on summer after summer, enduring the pest of Rats, Mice, Roaches, Fleas, Bed Bugs, and the whole tribe of noxious animals and insects, when "Costar's" Exterminators destroy them instantly. His preparations are perfectly harmless to the human species, but death to all vermin, and no family sonnid be without them.

The New York Sunday Atlas of May 17, says—We know by actual experience, that "Costar's" preparations for Rats, Roaches, Bed bugs and insects generally, are complete and perfect exterminators. Wherever used, they have never failed to perform all that is claimed for them.

The New York Journal for April has the following:—"COSTAR'S" Remedies are said to be invaluable; indeed, we can speak from actual knowledge of their rare merits. As the summer approaches we advise every one to procure a timely supply of the Exterminators.

DRUGGISTS and DEALERS also should send their orders early, if they would secure a trade in articles for which there is a *constant demand*, and on which a fair profit may be realized.

Use Dr. Clough's Columbian Pills,

for all the purposes of medicine in your family. Whatever evidence do you want that a pill does not love himself as he ought, and does not love his family, than that he refuses, or neglects to provide and keep on hand this certain remedy for Liver Complaint, Dyspepsia, Jaundice, Headache, Obstructions, &c.

READ THIS! TESTIMONY OF VALUE.
From the Celebrated Sash and Blind Manufacturer, Pittsfield.

"MR. RENNE:—I have used personally your (Dr. Clough's) COLUMBIAN PILLS, and must say they are the most mild, gentle, and yet thorough medicine I ever used, and as far as my observation can go, I would advise every family to keep and use these in preference to any Pills ever made. Respectfully, ALFRED D. STEVENS."

These Pills are warranted to cure Liver Complaint.

These Pills are warranted to cure Dyspepsia.

These Pills are warranted to cure Female Complaints.

These Pills are warranted to cure Chronic Diarrhœa.

These Pills are warranted to cure Kidney Complaints.

These Pills are warranted to cure Sick Headache.

These Pills are warranted to cure Nervousness.

THE DEATH IN THE GROCERY.—The Coroner's Inquest on the body of John Flanagan, which commenced on Saturday, lasted through Monday; we have a fair report of the testimony, part of it in type, but prefer to give it all in one body to-morrow.

In hearing the whole, the conviction fastens on the mind, that there was no intent to kill; nothing worthy the name of a quarrel; but such an accidental death as is liable to happen in any and each, of thirty gambling holes, bar-rooms or groggeries any and every day, as men are drinking, and idling and "fooling," and "larking," and "spreeing" there. The *first crime* is in keeping the dens; and in the city government which tolerates them in violation of the State Laws, and of its own ordinances. And the second crime, consequent on the first, is the concealment of the poor drunken victim, who was also a dying man,—though of this, no one of the parties seems to have been conscious,—they had been so used to seeing drunken men.

The testimony will unmask one rum-hole; a fair sample of the lower ten; the victims of the upper ten die elsewhere.

The jury rendered their verdict on Monday evening at 6 o'clock; it acquits Davidson of any criminal intent,—but condemns the culpable neglect of the injured man by the parties concerned.

SYMPATHETIC SUICIDES.—No phenomena, not even excepting "Spiritualism," is more startling and deserving of attention than that of the so-called sympathetic suicides. We need not go back to olden times for examples, although they are furnished so plentifully, by the history of past ages; we have an instance in our midst.—One farmer becomes wearied of the world, and puts an end to his existence by hanging (and here we will say, that not only the deed, but also the *modus operandi*, seems to be sympathetic;) in a few weeks, another yeoman is found dead, having also freed himself from the cares of this life, by hanging; and now, on Saturday last, a gentleman of this city found a lifeless body, suspended by a string round its neck, hanging in a tree front of his house. The body was that of one well known for sweetness of song; and dressed in its gayest clothing, as though the deed were not premeditated, but rather happened without much thought. VIATOR.

NOTE.—We had nearly forgotten to state that in the last instance, the victim was a beautiful golden robin. He was entangled by a string which he had procured with which to strengthen his nest, but which caused his death, and made him in reality a hang-bird. V.

LECTURE TO LADIES.—Considerable interest is manifested regarding Mrs. Mansfield's Free Lecture, which is now announced to take place on Wednesday afternoon at 3 o'clock. The searching nature of her peculiar examinations has convinced those who have consulted her, that her visit here is of more than ordinary importance to invalids and the sick. D.

☞ The annual meeting of the Portland, Saco, and Portsmouth Railroad Co., was held at North Berwick, Me., on Monday.

Ichabod Goodwin, Esq., President of the corporation, called the meeting to order, and presided. The Annual Report was read, showing the affairs of the road to be in a prosperous condition. A copy of the report will be sent to each stockholder. The old Board of Directors were re-elected.

No other business of importance was transacted, and the meeting dissolved, the stockholders evidently satisfied that as long as the P., S. & P. R. R. is under its present judicious management, no fears need be entertained for the safety of their property.

☞ Two boys about 10 years of age, took a horse belonging in Hampton, from South Street, in this city, about 11 o'clock, on Monday forenoon, and drove around until 8 P. M., when one of them was captured by Marshal Beck, and locked up.

☞ One evening last week a valuable harness was cut in pieces, from a horse, while standing in front of Congress Block. The horse and harness belonged to a lady in Greenland.

☞ It is reported that Messrs. Edward S. Wendell, and Albert Hayes, have been appointed Inspectors of Customs, in place of Samuel Swasey, Esq., resigned, and Andrew B. Vennard, Esq., deceased.

OFF THE ROLLS.—Judge Alexander Campbell has been dismissed from the bar at San Francisco, on account of certain misrepresentations made by him while acting as an attorney!

CINCINNATI, May 30.—Deputy Marshal Churchill and assistants were brought before Justice Christie, at Springfield, this morning. Churchill and Elliott were arraigned on two charges, one of assaulting Deputy Marshal Compton and the other of assaulting Sheriff Layton, with intent to murder. Bail has been fixed at $2500 each, on both charges, for appearance at the next term of Common Pleas court.—The balance of the party, 48 in number, were required to give bail in $10 000, and refusing, the whole were committed to jail.

LECOMPTON, K. T., May 28.—Governor Walker arrived yesterday, and was received very quietly. He read his inaugural, which is lengthy. It declares the territorial laws shall be enforced; criticises the action of the Free State men, and declares the Constitution shall be maintained by the whole force of the government. Governor Walker passed through Lawrence on his way here, and assured the people there, that everything should be fair.

At the Nominating Convention held here for candidates for Constitutional Delegates and Surveyor General, Calhoun Jones of the Union, and a man named Rollins, alleged pro-slavery, were nominated.

The Newburg mystery is pliunged deeper and deeper into mystery. The body is now apparently identified as that of a famous Boston women of the town, but the police are sure of having seen her there since the body was found in Newburg.—The material for a whole brood of "blood and thunder" novels is already developed in this case.—*Traveller.*

FROM VENEZUELA.—The case of Captain Chase of the schooner Jullien of Thomaston, Me., excited much attention at Caracas. The captain with his mate had been imprisoned at Laguayra for an alleged assault on a custom house officer, who had insulted a lady from New York, when on board the Jullien. They had been liberated and sought redress in vain.

CONSULAR APPOINTMENTS.—A letter from Washington, states that the twenty consular appointments which were to be disposed of, have been made. There were over *eight hundred* applicants.

TO THE CITIZENS OF THE UNITED STATES
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic referring to the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN
Is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called

Photographs,

as well as those on GLASS, and also

Ambrotypes,

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZE CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with minor facilities, I can offer to work at such PRICES as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of LIFE. This process also I have obtained, so that any one possessing a small picture of a friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country into which it has not, without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe that Consumption, Bronchitis, Asthma, and Incipient Consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not neglect them until no human skill can remove the inevitable ranker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and so they know too the virtues of this remedy, we need not ignore them, to assure them that it is the best that it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass

AND SOLD BY

AYER'S Cathartic Pills,

(SUGAR COATED,)

NEW MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, and other Benefactors, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body ever had, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,

Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my family and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangement of the organ. Indeed, I have seldom found a case of *bilious disease* to obstinate that it did not readily yield to them.

Fraternally yours, A. H. BULLOCK, M. D.,

Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and failing under dysentery, was given off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling from her bowels what had long worried her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around him had tried long and had spent their money in bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be sought for.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the system thoroughly, and the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours,

J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I can bear your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN M. CORLISS, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of scrofula sores upon her head and neck, and feel that they are incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA HOGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church, Balt.

PLEASANT HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me if I did not report my case to you. A cold settled in my limbs and I became racked with excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SUFFER CHEEVER, Boston House, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and efficient.

Fits, Suppression, Paralysis, Inflammation, and even Deafness and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCK & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the legislature is always sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of persons who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons who have a right to send money for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, numbers are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. The Prizes are paid in cash, or tickets, unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes range from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The Lottery numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; Union and Herald of Independence and Union, of Washington, D.C.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons, and

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of the peculiar quality of voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, round and mellow. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower one running the octave higher than the other, and may be used separately, and thus get in one case two distinct instruments, or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of an Organ, and is well adapted to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument, and is equally well adapted for Melodeons for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and can now put the most well experienced and skillful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an entire *perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine our well tuned instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon.

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,

George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire their best of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their business, who are sworn faithfully and honestly with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send money for tickets in any State lottery of Samuel Swan & Co. as authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received by mail will be drawing exact to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10 for whole, $5 for half, $2 for quarter, $1 for eighth, unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $60,000; every prize being drawn, and result of drawing forwarded to purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta,* Mobile *Register,* Charleston *Standard,* Nashville *Gazette,* Atlanta *Intelligencer,* and New York *Weekly Day Book.* Write your address plainly and direct to S. American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Also, to procure Extensions, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the Patent Office Rules of Practice, to be remitted by mail, free of charge, on application. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any other Agency offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as ABSENCE IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of Boston can the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast store of valuable information and explicit directions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him, on any question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent, more trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor of Patents. He is thoroughly acquainted with the law, and the rules of practice of the Office, I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. Morning Chronicle.

ALARMED.—Much anxiety and uneasiness is being manifested, in these latter days, by a certain class of liquor drinkers, about the quality of the liquors in common use. That thousands are prematurely killed every year, by poisonous counterfeits, will not admit of doubt or question. The genuine article is deadly, but the drugged imitations are doubly destructive to human life. * * *

Men who are base enough to cater to the appetites of drunkards, for five cents, will, for an additional profit of five cents, give them any drugged compound. * * *
And we do not feel like complaining of this necessary incident to the nefarious trade. If men will brutalize themselves by drinking intoxicating liquors, it is of but little moment what they drink. Their premature death is only a question of time, and if the time is hastened, society is sooner rid of an incumbrance. * * *

We do not entertain a doubt that a chemical analysis of the liquors, in all our hotels and drinking shops, high and low, would conclusively show that more than nine-tenths of it is not what it is represented to be. * * * A law against selling drugged liquors, without a provision for entering the premises forcibly, if necessary, and analysing the stock, and destroying counterfeits, would be entirely worthless; and politicians tell us it is "unconstitutional to seize and destroy private property." The only remedy is *entire annihilation*, and when a few hundred thousands more of our young men are slaughtered, the public may be aroused to a sense of their wrongs.

The cholera was never as desolating in this country, as liquor. The former Angel of death alighted upon a city or town, and after a few days of desolation, departed,—this destroyer is everywhere, and always mowing down its victims. The cholera destroyed only the body—the liquor traffic scathes the soul as well as the mortal part.

It is passing strange, that any State will submit to such villanies. A man who would put arsenic in a well or spring, would be hunted as a felon, and if death resulted, hanging, without the benefit of the clergy, would not appease the wrath of the people; but to put a deadly drug in liquor, is daily practised by men who are esteemed for their liberality and public spirit. Strange inconsistency.—*Crusader.*

A FUNNY EXPLOSION.—A baggage man at the Central Depot, while handling a trunk in the usual slam-bang manner of that useful class of citizens, threw it down with such force as to explode a pistol within. The pistol exploded a canister of powder, the powder exploded the trunk, the trunk exploded the baggageman, tumbling him neck over heels; and served him right at that. If such an accident could only happen semi-occasionally, it would be a glorious thing. It might kill a few baggage-smashers, but the community could endure that loss in consideration of the gentler handling which their luggage would receive.—*Buffalo Commercial.*

Constable Batchelder and watchman Hodgdon, of Newburyport, were rather impolitely entertained while serving a warrant on one Timothy O'Conner, on Friday night last. O'Connor struck Mr. Batchelder on the nose with a boot, taking the skin off; and Mrs. O'Conner to defend her husband and fire side, seized a huge coffe-pot well filled, and struck Mr. Hodgdon on the head. We should judge from by the looks of the officers that the tinware, boot and coffee business was rather brisk in this city that night. Mrs. O'Conner was arraigned before the police court on Saturday morning, and fined $6 and costs for the part she took in the affray: and Timothy will probably be presented by the Grand Jury. This happy couple are well matched to assist each other in pugilistic encounters, but they found a better matched pair in Messrs. Batchelder and Hodgdon.—*Herald.*

PINS IN LADIES' DRESSES.—One of our married friends, at the request of some curious bachelor acquaintances, lately made a minute investigation into the question as to how many pins a lady generally uses in completing her toilet. The result of his labors is as follows: the average number of pins used by a full rigged woman is about 700. In the particular instance which he examined, he only found 573—but he knew it to be a very moderate case, and then he wasn't by any means certain that he had found them all.—*Nevada Journal.*

POLITICAL PREACHING.—In our earliest recollections, we remember that the Democrats of Hillsborough county looked upon John Brodhead, George Pickering and Elder Metcalf as pillars of the Democratic faith.—They saw no harm in political clergymen, then. Even modern rum-and-negro Democracy rally with zeal to listen to Mathew Hale Smith, and Elder Walter Harriman and Rev. J. C. Lovejoy. It is the *kind* of politics entertained by the great body of the ministry, that gives offence.—*Manchester American.*

IKE'S COMPROMISE.

Ike was once warmly chased by Mrs. P.,
Who wanted him to come to go to school;
As, when no *man* pursues, the wicked flee,
So Isaac put it for a little pool,
Not deeper than his knees its turbid tide,
And wide but twice a table's widest bound,
And round it ran upon the further side,
The opposite of where she stood her ground.
'Come here,' said she, upon the turfy brink,
'And come expediently, if you're wise!'
'Now, aunt,' cried Ike, 'you're rather hard,
I think,
If you won't wallop me, I'll compromise.'
Consenting she, he compromised the matter,
And met her half way—middle of the water.
—*Sat. Eve. Gaz.*

ONE OF THE FAST BOYS.—"Have a weed gran'pa?" said master Tom.
Gran'pa—"A what, sir?"
Master Tom—"Why a weed—a cigar, you know."
Gran'pa—"Certainly not. I never smoked in my life, sir."
Master Tom—"Ah! then I wouldn't advise you to begin!"

"When the bells ring noon, nine hundred thousand children, (in the State of New York,) pour out from eleven thousand school houses." This implies "diffusion of knowledge" by a sort of intellectual Mississippi, a coming flood of intelligence, which ought to drown out the ignorance and wickedness of the Empire State. But it is not from the little fountains of information alone, however numerous, that large streams flow to purify the land.

Prof. Eustis, of Cambridge, by his weak attempt at an expose of the feats of another's foot, has evidently got his own foot in it. We hear rejoicings among the spiritualistic people, that the Professor has spoken. He stands in the position of Balaam in Scripture, the "ass" seeming to have the best of it.—*Sat. Eve. Gaz.*

All sorts of inducements are held out to induce Western emigration, and a lately published "guide to emigrants" dwells feelingly on the superior advantages presented by Rum River, which empties into the Mississippi some thirty miles above St. Paul; and promises a speedy time when Rum River Valley will be *tapped* by a railroad from Lake Superior.—*Sat. Eve. Gaz.*

POLITICAL PREACHING.—"Did Dr. E. preach politics when here?" asked one, of a certain indignant hearer; this happened the last century. "Yes." "What did he say?" "Well, sir, if he did not preach politics, he *prayed* politics." "And what did he say?" "Say? he said, though hand join in hand, the wicked shall not go unpunished."

The plea of insanity, it is said, will be put in in behalf of a person sentenced for selling liquor. It will not be difficult in such a case to prove monomoniacal melancholy, for it must be evident that the defendant is "out of spirits!"—*Boston Courier*

INQUEST

On the body of John Flannegan.

SATURDAY, May 20.

Before Justice Daniel P. Drown, as Coroner. I. Bartlett Claggett, Phinehas Nichols, and John P. Payson, Jurors.

James Davison—came from same place with Flannegan, viz: Carlisle, Cumberland County, England; now live in this city.—Both worked in the mill.—Flannegan would take a little liquor—intoxicated sometimes.—He drank beer and brandy that morning;—could not tell how often he drank; last time I saw him drink, was yesterday forenoon, (day of death.) Went into the store and saw him there; think it was earlier than 10 A. M., in Lever and Whally's bar-room. Present, Lever's brother Jacob, Abraham Taylor, James Slater, Richard Davison, and Thomas Whally. James Lever and Mike Murphy were in the store or bar, tending, or going in and out. We remained in bar-room. All were jawing and fooling with each other.—Flannegan said, Come, damn it, let us drink. I haven't had any liquor for nine weeks,—this week, I'm going to have a spree. We all got up and drank some punch. Couldn't exactly say—but think Mike prepared it.

Suppose there was brandy and wine in the punch.—John Flannegan called for it.—I drank—don't know who else did.—Drank a glass of ale before, that morning I in same place; think it was prepared by Mike Murphy. John Flannegan took off his coat, vest, handkerchief, and cap, laid them down. Wanted to wrestle with witness; said, Come, I want to wrestle; you and I are the only ones who can wrestle Cumberland fashion. Told him I wanted no trouble with him, to go home. He said he durst not go home now, because he was afraid of losing his work in the mill. He took me round the neck to wrestle; I told him to go away—but he bothered me so that I took hold of his neck and shoulder, back hold, so called: I lifted him up and put him down in the corner, on his back side; he jumped up again, said that was not right, and got hold again; we both clinched and both went down together, on the floor of the bar-room.

I got up, but he did not; got hold of him, got him up and set him on a chair.

I fell on my left side, and he on his right side. [After words corrected, so as to say, Flannegan also fell on his left side.]

He did not speak; sat about 3 minutes;—fell out of the chair on the floor. He lay about a minute, and Jacob Lever lifted him, and put him on the chair again; then Whally came and gave him some of his best brandy, as Mr. W. said. He sat about 5 minutes;—did not speak. He fell out of the chair. Jacob Lever and myself lifted him up and set him in the corner of the bar-room, on the floor. He then slid down and rolled over two or three times; he did not speak. We put him back in the corner, laid him down.—Laid there some time,—all this before 12 M. He laid there till about 20 minutes before 1.

George Ramsbottom, Joshua Ramsbottom of Nottingham, and many other persons were there. Some said he ought to be removed out of sight of the factory people coming along.

Jacob Lever and myself carried him into the side of the bowling alley, and put him on some shavings. I saw him there about half past 6 o'clock, P. M. I spoke to him. He opened his eyes, but made no answer. I left him. Mr. Whally's little boy, Edward, was with him. I went home. Went into Mr. Horrock's store, and heard Whally talk; my wife called me, we went home, and I went to bed, half past 8. Not out till 6 o'clock next morning.

Known Flannegan 15 years; friendly to him—got him work in the mill. When he fell in the bar room, I said I thought he was hurt. Mr. Whally said, O, no, he had seen him so, often. I said I would not have liked to hurt him for $1000. Mr. Thomas Whally was there—Abraham Taylor—Jacob Lever—James Slater also.

Mr. Whalley spoke to him—Jack, Jack! I did not think him so severely hurt, till this morning. Then James Lever told me John Flannegan was dead.

Nothing was said about sending for a doctor.

Have seen him fall down at 9 o'clock, Sunday morning—in the street; go to sleep, he picked up and carried to the lock up, and remain insensible till 4 P. M.

F. was drunk, and staggering in the bar, before we wrestled. He called for a drink, just before we wrestled. He was there when I went in. I was rolling in to the Bowling Alley with Mr. Whally and Abraham Taylor, between 9 and 10.—All seated but Mr. Whally. F. would not sit still, but was staggering round the bar-room;—said I was a devil of a good fellow, and if he was as strong as I, he would not work in the mil.

On the second wrestle, I stepped my foot into a spitting box, which caused me to fall.

No objects in the room to hurt his head by a fall—the chairs were put back when we were getting hold.

Thomas Whally—(one of the shop-keepers;—have known Flannegan for 2 years; 2 years ago this June, in Bridge st., saw him laying asleep. Helped lift him into the wagon, on Sunday forenoon, half past 9. Have not seen him the last month before yesterday. Could not swear that he was intoxicated yesterday. Have seen him intoxicated once or twice.—Once in Hanover st. last summer.

Did not appear to be intoxicated yesterday at all. He was then in the store I now occupy on Hanover street. I went in between 10 and 11, and found him there. There were several other gentlemen there, but I can't say positively who. Michael Murphy was keeping at the time. Mr. Lever might be there. I do not take charge of the store, when there; I have nothing to do with it. When I went in F. was sitting in a chair. Murphy was tending in the store, waiting on people who came in to buy goods.

George Ramsbottom was there, from the country, from Epping, also Mrs. Rutledge.

Abraham Taylor went in when I did—also Jacob Lever,—also James Davison.

Flannegan said, "Davison, you're a big man, but I've thrown many a bigger;" endeavored to get him to wrestle. They took hold; this was in a small room, called the bar-room. Davison lifted him up, swung round and laid him down on the floor. Asked him if he was satisfied; he said No; and insisted on wrestling again. Took hold again, and after a little scuffle, both fell heavily on the floor, Davison uppermost;—D. got up; F. did not; but seemed well enough.—F. did not speak. I went out in 4 or 5 minutes;—returned and took him up, and bathed his head.

I suggested the idea.—Was he hurt? all seemed to think he was not.

Could not say what time it was. Think 10; might be 11: was before dinner.

Bathed his head with water;—He did not sit properly at all. Left him sitting there, without help.

Did not think he was seriously hurt. Did not think he appeared any way remarkable, for a man who was sober a few minutes before. No symptoms of intoxication visible in Flannegan, while I was there. Did not hear him speak after the wrestle. Saw him roll over.

Asked how it was that he lay on the floor. Did not see him removed out of the bar room—saw one or two take hold to carry him out; saw him after he was laid in the alley, in the P. M. when he breathed well, and opened his eyes.

Richard Dixon, a house-joiner of Eliot,—have been at work for Whalley. Saw John Flannegan on Friday pass into the bowling alley; appeared well, but didn't notice him particularly; seemed to walk well; this between 10 and 11. Saw him again past 2, laying on the floor on some shavings; saw him several times in the afternoon, as I passed in and out. Supposed he had been drinking, and lay down to sleep; some people were rolling in the alley, but none were near him.

Richard Adams, pattern maker — knew Flannegan three years; never saw him intoxicated. Saw him Friday morning, in the door way leading to the bowling alley.—Thought he had been drinking, from his general appearance. Next time I saw him, he was laid on the shavings, about 2 P. M. I thought he was drunk. Saw 3 young men sitting on my tool chest; one of them was Geo. Woods; don't know the others. Between 10 and 11 o'clock, I was at work overhead, heard Davison tell Flannegan that he (F.) had got a job away from D. [The other testimony of this witness is a repetition of other statements before made.

Michael Murphy, (bar-tender at Whalley's:) Have seen Flannegan several times in the shop; saw him yesterday, about 9 1-4 o'clock. Thos. Whally, James Davidson, Jacob Lever, and Jacob Scoles were present at the time when Flannegan got hurt. Flannegan had been in the shop about half an hour when Whalley came in.

Heard Flannegan say "I will try it again," and saw them take hold of each other; they had been thrown over before; wrestled about a minute; Flannegan fell underneath, and struck his head on the floor. Whalley and Davidson took him up and put him in a chair; he sat about half an hour; heard Jacob Lever and Abram Taylor say he was only shamming and making believe drunk. I am in the employ of Thomas Whalley and Jacob Lever. Abram Taylor called for three punches, and drank one of them; Whalley drank one, and Davidson one. I mixed two of those punches with wine, rum and whiskey, and mixed the other with brandy. Abram Taylor paid 18 cents for the whole; 6 cts. a glass.

Dr. N. L. Folsom—was called to visit Flannegan about 9 o'clock on Friday evening May 29—found him dead; judged he must have been dead an hour or two; the body was not cold nor rigid, some warmth about the chest; I felt for the pulse, pronounced him dead, and advised that some one should go for the Mayor. The Mayor came with police, and ordered him carried home; and requested me to examine him. I found a bruise on each temple, and another a little higher up; also a bruise on the left elbow. Next morning examined the head; [injuries described in the Chronicle of Monday,]—the cause of death was compression of the brain, caused by a blow on the left temple, which broke the bone and the blood vessels beneath. I should judge by the appearance, that it was caused by some blunt instrument.

Abraham Taylor, of Portsmouth, spinner in factory. Knew Flannegan—has seen him drunk many times—certainly three times.—Saw him last Friday, in Whally's bar-room, he appeared to be in liquor, staggered round the room, about 10 or 11 o'clock. I was in the bowling alley, and went into the bar-room with Thos. Whalley and found Flannegan there.

Thos. Whalley, James and Jacob Lever, J. Davidson, J. Flannegan and James Slater were present when the affair happened. Michael Murphy was tending.

I went into the store to buy an orange; Mr. Whally would have me go into his new bowling alley, to see it, we rolled, and then went into the bar room.

Dispute between Whally and Flannegan, Flannegan said he would not patronize him if it were not for Lever. Saw some drinking. I believe all in the room drank. I drank; drank punch; saw Flannegan drink; I believe Flannegan called for the drink; I heard him say, I will treat all hands with punches: I am certain that I drank and most of the rest, I think all did. Michael Murphy or Jacob Lever tended at that time. It was not lemonade; have not the least doubt there was intoxicating liquor in the punch; don't know of what kind. This was drunk just before the scuffle. Don't know who paid for the punches. Think Flannegan did; saw him stand at the bar, heard him ask what the bill was.

[This testimony about the wrestling was nearly the same as the others.]

Think Jacob Lever was behind the counter of the bar. I was talking with Whalley.—After F. was first thrown, he said it was not a fair throw,—he must have another go. The second time both fell very heavily, Flannegan under. D. got up. F. lay still; he did not speak, nor groan, nor show any sign of consciousness. When Whalley and Davidson placed him on the chair, his eyes were partly open. Did not remain on the chair more than 3 or 4 minutes; fell off; lay there on the floor 15 or 20 minutes, when I went out into the bowling alley. While he was there Whalley went to F. and took hold of his hand, as if to feel his pulse. Whalley said he had better have a sleep; because Davidson said if he went by the mill in liquor, he would lose his work.—When I went into the Bowling Alley,—Whalley, James Davidson, and I were together;—we played. Thos. Walley and I,—we played half an hour,—went to dinner, 20 minutes to 1. I did not see Flannegan after I went out. I am sure F. was not put on a chair more than once while I was in the bar-room. Did not go to the place after a quarter or 20 minutes before 1.

Did have a drink after the scuffle and fall,—half an hour after. Got it at the counter of Mr. Whalley's bar-room. I called for it. I called for punch—the same as the other. I intended to treat the company. Don't know exactly how many drank,—several drank—I paid for it. Michael Murphy tended bar.—It might be before or after 12 o'clock, a little. I think I paid 22 cts. I paid a 10 ct. piece; and I think a 5 and 3; and 4 cts. in copper.

Have been in Whalley's bar-room but once before, since he fixed it up. There were some chairs in the room when the scuffle took place, and a spit-box. Flannegan lay still after he fell,—I supposed he was stunned. I thought he ought to be taken care of, and said so.—This was after we drank the last punches.

Jacob Lever—am a grinder in the mill.—Known Flannegan two years—as a drunken man; seen him drunk three times; saw him drunk the day he left the mill, 6 months ago. Saw him on Friday last in my brother's store, who keeps with Whalley, between 10 and 11. Saw the second wrestle.—the first had just taken place, before. After the fall, Flannegan appeared to be hurt. I went up stairs; when I came back to the bar-room, F. was sitting in the chair, and Whalley bathed his head in water.

Davidson said, "Jacob, help me carry Flannegan into the Bowling Alley, till he gets sober." I did so,—we placed him on some shavings; Davidson placed some shavings under his head;—this was behind a joiner's bench in the bowling alley. He did not groan;—appeared like a drunken man asleep, opened and closed his eyes. I went out as soon as we laid him down; Davidson also went out. Davidson said, he might be hurt, but could not tell: for he had often been in that predicament. Heard Davidson say, just after the fall, he would rather give any money, rather than have him hurt. Whalley, when he bathed his head in water, said he might be dizzy. I helped Davidson remove Flannegan to the bowling alley after the factory bell rang for 20 minutes to 1,—after I had been down in town. Last time I saw F. was when I left him in the bowling alley, until I saw him dead on Saturday morning.

Wright Bancroft, stocking weaver;—was in Whalley's store, in the bar-room, at 4 P. M. Saw James Davidson and Thos. Whalley, James Lever, and Michael, and Mr. Slater. Mr. Wayne went in with me, to get a glass of beer each. We got it. Mr. Whalley treated us to it. We did not pay for it. This was in the bar-room. Whalley said if anything should happen to this man, they would fetch Davidson up. James Davidson said he didn't care if anything should happen to him. I asked James Davidson what had been the trouble.—He told me, when Slater and he were larking, Flannegan came in, and said to Davison, if you want to fight, I'll fight you. D., said, if you want to fight, get off your clothes. F. then said he would not fight, but would wrestle. He stripped, and came in, [here follows the substance of D.'s statement.] Witness has drunk beer there before, paid three cents for a glass last Monday.—Have heard brandy called for there,—have called for brandy in Whally's former store;—and got it, within the last 6 months. Paid 5 cents for it—to Murphy or Lever.

James Lever, (partner of Whally,) in Hanover street, store lately fixed up. Know Flannegan 3 years—his habits were so that he would get a little drunk.—Have not seen him before last Friday, for 2 months. Last Friday, he was so as to talk a little, but not drunk. Saw him in our place. When I came in, 15 min. past 9,—Michael the clerk, was tending before I came in. Flannegan was sitting in the bar-room. [This witness describes the first wrestle nearly as the others do—but did not see the second.] Saw F. on the bar-room floor, about 12 o'clock;—also saw him in a chair; don't know who put him there; was there when I went to dinner. Saw him roll over, when he was on the floor, before he was put on the chair. Don't know whether he had drank any liquor that morning; talked as if he had been drinking.—About 2 P. M. saw F. in the bowling alley; laying down; found him alive; tried to wake him; spoke to him, shook him; he opened his eyes; I did not hear him speak after the injury. I thought him a little tight, and let him lay. Saw him again at about 4 P. M. in the same place; tried to get him up, and go home;—between 5 and 6, saw him again; and again tried to rouse him;—saw him again about half past 7.—I had sent one of Whally's boys, to Frank Flannegan to get him home. Frank Flannegan told me, about 8 o'clock, he could not stir him, and he thought he was dead; I said it could not be. We then went in together, to see the place where he lay. He felt kind of cold, we lifted him up, and he gurgled in his throat, &c.—Then we sent for Dr. Folsom, who came and pronounced him dead;—and the Mayor ordered him taken away. I am a partner of Thomas Whally, and we together occupy the whole building, store, bar, and bowling alley. I thought the whole stupor arose from his being drunk; have seen drunken men lay a long time, but not so long. Did not think him drunk before the wrestle.

John Samuel Brown,—laborer,—live in the house with James Davidson's father.—Have seen Jas. D. and I was in the Bowling Alley on Friday afternoon, talking with Mr. Dixon, a joiner on the building, about half past 1. Saw two men hauling in a man, and laid him on the shavings, beside a joiner's bench, covered his legs with shavings, and laid his coat over his breast. Thought the man had been drinking, and supposed they brought him out to get sober.

I bought new rum at the corner store, next building, last Friday, and paid 5 cents for half pint new rum, and 13 cents for a half pint cherry brandy, or rather got treated for it, for the sickness of my little girl. I do not drink liquor myself.

James Davidson, re-called—Slater and Jacob Lever were rolling the balls on Friday morning; they were rolling for the punches, as proposed by Slater. Lever didn't want to pay tuppence for the alley; but Mr. Whalley said he would not charge anything for the alley. They rolled; Slater had been drinking some. We went into the bar, and somebody called for beer: we had the beer. Saw drinking a good many times in the bar-room that day;—many people were in and out, drinking. Heard some call for punches. Heard Mr. Abram Taylor call for punches;—can't tell what time. He paid for them. Don't know exactly who tended then; Whalley, Mike and Lever all tend bar.

Taylor paid for the punch I drank. I have no doubt there were spirits in it. Know that that bar-room is kept to accommodate those who wish to drink intoxicating liquors. I supposed Flannegan was drunk when he lay still, as I had seen him drunk before. I had punch three or four times at Whalley's that day, and had some beer twice, all at the same place. I went into the alley and saw F. three or four times in the afternoon; the last time about half past 6. I do not think now that I was perfectly sober on Friday, during these transactions; but my condition was in consequence of the liquor I drank. I got no liquor anywhere else that day, but drank it all there.

James Slater, spinner, works in the cotton mill; was present at both the wrestles on Friday. Flannegan looked wild, as if he had been drinking; saw him drink a glass of beer at Whalley's bar. I did not drink any beer, or any punch, or anything else, that day, at Whalley's. Never rolled any balls. On further questions, he recollected that he did roll—rolled for beer, and drank beer. Mike tended the bar. Saw the wrestle. At the second throw, Davison threw Flannegan with his head on the floor very hard. D. got up. F. lay still. Some one put him on a chair, but he fell off, &c. I thought he was hurt. I went off in 15 minutes after the wrestle. Went back before 12; Flannegan was gone. Used to work in the cotton mill; but have not worked there this long time. Have not been in the mill these four months—last work I did there was to tend the picker. Seen brandy sold at Whally's; and seen various liquors sold there. Seen beer sold there. Don't know whether I have drank brandy there. I have called for brandy; they have given me something and I drank it; paid 5 cents a glass for it; can tell the difference between brandy and milk. Have had this drink within a month.

Francis Flannegan—have heard Davison call my cousin a d——d lousy Irishman, who would work for 50 cts. a day, &c. Whally's little boy came for me at evening bell of the factory—and wished me to take care of Jack. When I went down Whally said, Not now: wait till after dark. I went after dark—found him dead. I asked for Whally—they said he was in the house, tight. Davison was often in the bowling alley; a drinking man; I saw him drinking gin in Whally's old shop, gave 5 cts. for it. This day, in Mitchell's shop in Daniel st. I drank a glass of beer. Have drank liquor in Whally & Lever's shop, and paid for it within three months. The ill feeling and altercation between D. and F. was on March 18, in Whally's shop; but have commonly been on good terms. Davison and J. Flannegan were both born in Scotland, but have lived in Carlisle, England, near Scotland—whence they came to this country.

On March 18th, at Whally & Lever's shop, John Flannegan paid 10 cents for gin. I drank one glass; he drank one. Then I took another; John said he would pay for it.

VERDICT OF THE CORONER'S JURY.

The State of New Hampshire, Rockingham, ss.

An inquisition taken at Portsmouth in said County, on the 20th day of May, and the 1st day of June, A. D., 1857, before Daniel P. Drown, Esq., a justice of the peace and quorum, duly appointed, and acting as Coroner in and for said county.

Upon the view of the body of John Flannegan of said Portsmouth, there lying dead, by the oaths of I. Bartlett Claggett, a justice of the peace for said county, and of Phinehas Nichols and John P. Payson, all reputable persons, who being sworn and charged to inquire for the State, when, how, and by what means the said John Flannegan came to his death, upon their oaths do say:

That the said John Flannegan came to his death on the 29th day of May last, by having been thrown, with much violence, but with without any malicious intent, upon the floor of a certain bar room, or store, situated on Hanover street, in said Portsmouth, occupied by Thomas Whally and James Leaver, while wrestling with one James Davison; that by being thrown as aforesaid the skull on the left side of his, the said Flannegan's head was fractured, and some blood vessels therein ruptured, causing thereby an extravasation of blood and a compression of the brain,—which was the more immediate cause of death; that after the accident which happened about eleven o'clock in the forenoon of said day, the said John Flannegan was removed by said James Davison and one Jacob Leaver, from said bar room to a certain Bowling Saloon, in the same building, on said street, occupied by said Whally and Leaver, where he, the said Flannegan, was suffered to linger in a state of stupor for many hours, and being entirely neglected and and uncared for, died on the evening of the same day. In witness whereof the said jurors have hereunto ret their hands this first day of June, A. D., 1857.

I. BARTLETT CLAGGETT,
PHINEHAS NICHOLS,
JOHN P. PAYSON, *Jurors.*

In witness of all above written, the said coroner hath hereunto set his hand and seal the same day and year.

DANIEL P. DROWN,
Justice of the Peace and Quorum.
Acting as Coroner.

BUNKER'S

Life-Preserving and Bathing Shirts!

CHARLES J. BUNKER, of No. 337 Broadway, New York City, has invented an Easy and Entirely Safe Dress for Bathers, Sea-faring men, and for all exposed to accidents by sea. No person should think of crossing river, lake, or sea, without one of these Life-Preservers. The Shirts made for Bathers can be worn as an Under Garment, without the slightest inconvenience. Bunker's Life-Preserving Shirts are unsurpassed by any other article of the kind in the world.—With one of these no person can sink in the roughest breakers. All bathers should have them to guard against danger by cramp, or other accident. By remitting the price to the proprietor, the BATHING SHIRT or PRESERVER, will be forwarded immediately by express, at the following prices:

LIFE PRESERVING SHIRTS.—No. 1, $4 00. No. 2, $6 00. No. 3, $7. No. 4, $8 00. No. 5, $9. No. 6, $10.

POLICE COURT.

TUESDAY, June 2.

Before Justice Odell—Two boys of 8 or 10 were accused of stealing 20 lbs. of butter, value $5, the property of S. Batchelder of Hampton. It appears that the butter was in a wagon, in which two women came to this city on Monday morning. The women had fastened their horse in the South Road, and left him for a short time. The boys took the team, took a ride as far as Newmarket, helped themselves to as much butter as they chose to eat, spent the day, tired the horse, returned to the city at eventide, hitched the horse in Court street, and were leaving upon the run, when Marshal Beck seized one of them,—and this led to the arrest of both.

Found guilty; sentenced to jail for 20 days; pay treble price for the butter; costs $8.18.

Jere. Carlton, for breach of the Sunday law, in boiling clams on a wharf, was fined $3 and costs 3.86.

LADY PHYSICIANS.—*Mrs. Anna Mansfield*, a female practitioner of medicine, is spending a few days, professionally, in this city; and may be consulted at the Rockingham House. She comes well recommended, and is highly spoken of and well received wherever she goes.

It will be seen that she is to deliver a Lecture to Ladies, at the Temple this (Wednesday) afternoon, at 3 o'clock—when she will no doubt communicate important and valuable information to those who visit her. Admission free.

Mrs. Addison, M. D.—It will also be seen that this lady has taken rooms at the Rockingham House, for one week; and that she is to lecture to both ladies and gentleman, this (Wednesday) evening, at 8 o'clock, at the Temple. She has recently visited Portland, and the State of Maine says she lectured to a crowded audience, with good acceptance, and

"That she is an unusually successful practitioner in the science of medicine, there can be no doubt. From the very flattering notices of the press elsewhere, and also the many recomendations she possesses from high and respectable quarters, we should judge her to have been signally favored with success in her treatment of disease. All her remedies are drawn from the vegetable world, and in her lectures she dwells rather satirically upon the various methods of practice, and denounces the numerous nostrums offers the public for the benefit of the pockets of patentees, and not for the health of the people."

BAD MANNERS.—To go out of any concert or meeting before the exercises are finished—as, for instance, those who disturbed the audience, in this way, at Ole Bull's Concert, Saturday evening; and others ditto, at the North Church, Sunday evening. Nothing short of dire necessity can excuse such disregard of the rights of others—a mere whim or idle wish is not sufficient.

FROM EUROPE.—The Canadian, at Quebec, brought news four days later, viz. to May 20. Her commercial accounts of the produce, provisions, and cotton markets at London and Liverpool market for breadstuffs was steady. The Manchester market was dull. The tone of the London money market was not altered; and there was a better supply of money upon the Paris Bourse. The political news from Europe is without a shade of interest.

The China mails, the reports of which have been telegraphed, furnish no news of consequence.

☞ A horse belonging to Daniel Perkins, of New Market, on Saturday afternoon, trotted on the Manchester track, ten miles in 35 minutes 33 seconds.—The horse has till recently been worked in a team, at Manchester, and used for a common road horse. He could have done it in less time, and was not at all distressed. The purse won was $50.

☞ The steamer America, arrived at Halifax, has Liverpool dates to May 23, 3 days later than the Canadian. Breadstuffs slightly improved; cotton quiet.

The failure for a large amount of a Par is merchant is announced. He was supposed to have left for America.

PROVIDENCE, May 30.—The third trial to elect a Mayor of this city, took place to-day, resulting as follows:—Olney, Amer. Rep. had 1680 votes; Burroughs, Democrat, 1446; Doyle, Citizens' ticket, 441; Scattering, 117. Olney has gained 11 votes since the previous trial, and lacks 315 of being elected.

DAMAGE BY LIGHTNING.—*Harwich, June 1.*—The Pine Grove Seminary in Harwich was struck by lighting at 3 o'clock this morning, and considerable damage was done to the building.

FROM KANSAS.—*St. Louis, May 30.*—The Lecompton correspondent of the Democrat says the apportionment will disfranchise one-half of Kansas. Only twenty out of forty counties will be represented in the Convention, and some counties where no census was taken are allowed a representation on the list of voters on the old election books. Other counties have written to acting Governor Stanton, asking for election precincts. He answered that he could do nothing, there being no law to supply the omission. A card has been published, signed by sixty-two prominent persons, urging the State Legislature to reassemble on the 9th of June, to complete the State organization.

WASHINGTON, June 1.—The government has no official account of the fugitive slave case. The Secretary of the interior has replied to the U. S. Marshal's telegraphic message as fallows:—"Consult the District Attorney, and execute the law. The President desires you to do your duty, and he will do his."

Major McCulloch, who is here, has been tendered the Governorship of Utah again.

The court martial convened in Texas has found Major Giles Porter, in command of Fort Brown, guilty of the charge of misconduct, to the prejudice of good order and military discipline, by drunkenness, and sentenced him to be dismissed from the service: but, taking into consideration his infirmity of age and forty years of honorable service, the President has on recommendation of the court martial, mitigated his sentence to a suspension of one year from rank and pay.

Our municipal election is in progress.—There has been fighting at the polls, and some bloodshed. The Executive, at the request of the Mayor, ordered out the marines to preserve order throughout the city, and prevent improper interference with votors at the polls. There is a great deal of excitement.

Capt. Isaac R. Dillon, of Illinois, was appointed Consul to Bremen to-day.

A band of lawless persons, most of them non-residents, attacked one of the polls, while the annual election was in progress, and, after maiming twenty good and peaceful citizens, dispersed the commissioners of election, and threatened further violence on any attempt to carry on the election.

☞ The great election riot at Washington resulted in killing 5 men and wounding 17, mostly innocent persons. The accounts state that a gang of organized rowdies, some 50 in number, called the "Plug Uglies," arrived there from Baltimore, for the purpose of defeating the Democratic ticket and keeping citizens from the polls. They were joined by two bands of Uglies belonging in Washington; and actually drove away citizens and beat them. The police could not resist them successfully—the mayor called on the president for the military—marine and artillery came out, and quelled the riot.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular exoeration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Junipor Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and North-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fanch & Bro. are managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to faithfully execute the duties devolving connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they (thousands) were present at the drawing. A lottery offer fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the same comes to hand. According to the scheme one ticket for every ten dollars must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to puzzle the buyer. Prizes vary from $60 to $25,000; every prize being drawn, and the result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

S. D. & H. W. Smith,

—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instruments, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid movements without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus put in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to hold a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and the upper set operating upon the lower, which is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen. In short, we will warrant our instruments, if not perfect, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in Instruments of the above kind are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons,	Hallett & Cumston,
J. C. Hallet & Co.,	Wm. P. Emerson,
Brown & Allen,	A. W. Ladd & Co.,
George Hewes,	Woodward & Brown,
	Newhall & Co.

MELODEONS WANTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is stated in special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain the assistance of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, will meet with prompt attention. All will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery is drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket for every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to puzzle the buyer. Prizes vary from $60 to $25,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1836.*)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on the liberal terms, and dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

☞ Inventors, who are only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of their inventions, which are not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has given him the advantage of a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical work, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st Premiums have been awarded it, including the *Grand* 1st *Class Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutter to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

One of the above Machines can be seen at the store of the Subscriber.

SPLENDID ASSORTMENT

OF

SPRING CLOTHING

AND FURNISHING GOODS!

—AT THE—

CITY CLOTHING STORE,

No. 8 Market Square, Portsmouth, N. H.

William P. Walker

HAS on hand and is constantly receiving from Boston and New York, every variety of beautiful and desirable materials for

SPRING CLOTHING:

Invites the attention of his friends and the public generally to his fine assortment of Goods.

He is prepared to make up Garments of every description, in the LATEST STYLES or according to the fancy of the purchaser, and perfect satisfaction given. His stock of Goods for

Coats, Pants and Vests,

comprises all the varieties of FINE, PLAIN and FANCY Patterns, so that the most fastidious taste can be gratified.

GENTS' FURNISHING GOODS.

In this department his Stock is remarkably complete, comprising Drawers, Shirts, Bosoms and Collars; Buck, Kid, Silk, Lisle Thread and Woolen GLOVES; Pocket and Neck Handkts., Neck Stocks and Scarfs, Suspenders, &c. Every article is made faithfully and of the best material.

City Clothing Store, 8 Market Square,

m23 WILLIAM P. WALKER.

MOSES & DOWNIE

HAVE just received from

BOSTON and NEW YORK,

A Large Stock of

CLOTHS, DOESKINS, CASSIMERES, SATINETS, CASSIMERETS, VESTINGS, and various other styles of GOODS, for

SPRING AND SUMMER TRADE,

which they will be very happy to make into GARMENTS OF THE LATEST STYLE, or sell in any quantity for others to make. They have also on hand one of the Largest and Best Made Stocks of

CLOTHING

EVER EXHIBITED IN PORTSMOUTH, and warranted all good Custom Work of their Own Manufacture.

We have also a Large Stock of

FURNISHING GOODS,

of all kinds.

ALSO,

HATS, CAPS, BOOTS, SHOES,

and various other articles, too numerous to mention, such as are generally found in a Clothing Store.

During the past year they were compelled, owing to their increase of patronage, to enlarge their store to DOUBLE ITS FORMER SIZE, they have now ample room, notwithstanding their increase of custom, to accommodate all who may favor them with a call.

P. S.—In addition to the above they have a Large Stock of

Boys' Clothing,

OF ALL KINDS.

All who are in want of *Good Clothing at Low Prices*, will do us the favor to look at our large stock; and they will be convinced that

What We State is True.

Morning Chronicle.

THURSDAY, JUNE 4, 1857.

Correspondence of the Chronicle.

LETTER FROM CONCORD.

CONCORD, June 3, 1857.

Messrs. Editors:—The State Capital, today, will be thronged with people from all sections of the State. All day yesterday, they were pouring in by every train, filling the hotels and boarding houses with lodgers, and the landlords and traders with gratification. Not only are the legislators, members of the Senate and House, with that numerous body which compose the lobby, and the large body of anxious expectants of favors, official and legislative, but there is also a great number of doctors, medical as well as political, about, called here. I understand, to attend a meeting of the N. H. Medical Society. This is the harvest season with the people of Concord, and they are making the most of it. The destruction of the Phœnix Hotel, which in former years has accommodatel a large proportion of the legislative sages, has the effect to crowd the other public houses, as well as to induce an unusual number of citizens to receive a number of season boarders. The city appears in its most attractive garb at present—the numerous trees and gardens presenting a fresh and lively hue, which a few hot and dusty days will materially affect.

The Republicans in caucus, last evening, nominated as candidates for officers of the legislature, (which is equivalent to their election,) Moody Currier, for President of the Senate, and E. H. Rollins, for Speaker of the House. The assistant clerks of last year, Calvin May, jr., of the Senate and Henry O. Kent of the House, were nominated for the chief clerkships of the respective bodies, while Greenleaf Cummings of Lisbon, and Benj. F. Parker of Wolfborough, take the places of assistants. The democrats held their caucus, last evening, but everybody I have inquired of, seems to be as ignorant as indifferent, on the subject.

The election of U. S. Senator will be the struggle of the session, and the friends of the respective candidates will zealously work in their behalf. The Manchester representatives will do all men can do, for Clark, who also has many friends in all parts of the State. Edwards will get a respectable vote from Cheshire, and Ex. Gov. Colby, who is, in his own winning way, "button-holing" his friends, seems as confident as any body. Capt. Goodwin of Portsmouth, however, will be a strong candidate, and the thought (to which unquestionably the wish is father,) is entertained by many, that he will be the successful one.

Mr. Haile, the Governor elect, arrived in town yesterday, previous to which, the printer had seen nothing of the message, which, as you know, is often printed in advance. Yours, DOT.

N. H. LEGISLATURE.

WEDNESDAY, 2 P. M.

The two branches of the legislature met in their respective halls at 10 o'clock this morning, every Senator being in his seat, and nearly all the representatives. His Excellency, Gov. Metcalf, accompanied by the honorable Council, entered about half past ten, and administered the oath of office to the members elect. On their retirement, each branch proceeded to the work of organization. For President of the Senate, Daniel Marcy had 1 vote, Charles Rowell 1, —— Burns 3, and Moody Currier 7, and the last named gentleman was declared elected, took the chair, and returned due thanks for the honor conferred. Calvin May, Jr., and Greenleaf Cummings were elected Clerk and assistant Clerk, each having 8 of the 12 votes cast.

In the House, Mr. Stevens of Nashua, was chosen temporary chairman, the roll was called, and a ballot for Speaker followed, with the following result:—H. A. Bellows of Concord 1, Lewis W. Clark of Pittsfield 121, and Edward H. Rollins of Concord 186. Mr. Rollins was declared elected, took the chair, and thanked the House for the compliment shown him, in a neat speech, in which he expressed the opinion that members would best serve the interests and wishes of their constituents, by a speedy performance of the duties they should be called upon to perform. Mr. Clark of Pittsfield, the democratic candidate for Speaker, then remarking that it was evident a consumption of time in balloting would not effect a different result, offered a resolution declaring Henry O. Kent and Benjamin F. Parker, Clerk and assistant Clerk, which resolution was unanimously adopted. Some of the usual preliminaries were adopted, and then the House at 12 1-2 o'clock adjourned to 3 P. M.

The inauguration of Gov. Haile who arrived in town yesterday, will take place and his message probably be read to-morrow afternoon. I will send you a copy at the earliest possible moment, probably in time for your issue of Friday.

Senator John P. Hale is among the celebrities in town to-day. He bears the marks of his recent illness, but is by no means reduced to such a degree as some of the papers have represented. He is in fine spirits, and will be found ready when duty calls him to battle with the foes of freedom.

The N. H. Medical Society adjourned this afternoon, having been in session yesterday and to-day. There was an attendance of 80 members, who agree in pronouncing it a most interesting meeting.—I noticed Dr. Oliver of Portsmouth, among them.

The Phœnix (hotel) is rising proudly from its ashes, and the new building will be a handsome and commodious edifice. It was originally intended to have had it completed before the meeting of the legislature, but the backwardness of the spring prevented. It will be finished during the summer, and be better constructed than if it had been done in a hurry.

Charles W. March of Portsmouth, appeared and was qualified this morning, but was absent from his seat at the first call of the roll of the House. C. L. Woodbury has not made his appearance, and it is presumed will not. Yours, DOT.

WORCESTER, Mass., May 25, '57.

To the editor of the Chronicle & Phœnix:

DEAR SIR:—I am very desirous of obtaining information, from all the towns I can reach, about the actual condition of things in the Temperance movement; and the extent to which legislative enactments against the traffic in intoxicating drinks have been enforced of late; and I write you, sir, for this purpose, asking if you will kindly furnish me with your convictions on this subject.

Ever since I began public labor last autumn, I have been pained to observe the decline of effort to *create* and *preserve* a public sentiment that would abolish the drinking customs and demand the extinction of the traffic. I have also been troubled to see how the people—unconsciously to themselves—have acted upon the feeling that there was a cure for intemperance in the single fact of having a prohibitory law upon the statute book,—and that it would *enforce itself*. I have been convinced that this over confidence was more damaging to progress than a full view of the danger—that righteous laws will be a dead letter, unless the friends of *right* feel the necessity of steady effort, to make them effective.

Will you, sir, oblige me by a reply to the following questions?

1st. Have you evidence that intoxicating drinks have been sold in your place within six or eight months before April 1, 1857? and if so to what extent?

2d. Has there been effort made during that time to enforce legislative prohibition against the traffic, and if so, to what extent has it been successful?

3d. Has there been a time (and if so, what year,) when—before the passage of the Prohibitory law in your State—your town was free from the traffic? If so, was it not in connection with effort to this end on the part of the people?

4th. What has been the condition of Temperance sentiment, during the time above named, as far as the use of intoxicating drinks is concerned?

I enclose a stamp for your reply, and if you will send me your convictions on this subject, at an early day, you will not only greatly assist an arduous work that I hope to complete, but confer a great favor upon Yours, very respectfully,

JOHN B. GOUGH.

ANSWER TO MR. J. B. GOUGH'S FOUR QUESTIONS.

1. They have been sold—largely. There are 60 or 70 shops, stores and bars that sell liquors. Amount sold, I do not know.

2. Efforts were made during that time named, in every county in the State; convictions obtained in every county; fines paid in every county,—verdicts given in this town, but not on cases of this town.

In this city we had a city government elected in order that they should not execute the law—but hinder it in every way they could.

3. Never was there a time, before this law, when there was no rum sold here.—

For a very few days, say 7 or 10, *after* the law began, little or none was sold—but the city never saw a week like it, before nor since.

4. The temperance sentiment among good men, during the time mentioned, was encouraging in every view—but the corrupt, debased, mercenary, opposed. Nearly all our city pastors united in the moral movements of meetings, addresses and pledges. T. H. MILLER.

Portsmouth, June 2, '57.

THE FUGITIVE SLAVE CASE.—*Cincinnati, June* 2.—The habeas corpus, issued by Judge Leavitt in the Mechanicsburg slave affair, has been served, and the prisoners brought here for trial. The examination commenced yesterday, but the case finally adjourned for a week, to allow for the production of affidavits. It is probable the prisoners will be discharged by Judge Leavitt, but that will not prevent their indictment by the grand jury of Clark county, and their re-arrest for trial.

Our city is crowded with visitors, who have come to join in to-morrow's celebration.

GRAFTON, Ohio, June 2.—The Railroad Excursionists arrived here last night, and started again this morning on their route, via the Parkersburg and Ohio Railroad.

Warning to Railroad Travellers—Prof. C. D. Lewis, of the Medical Institute of Cincinnati, had his skull fractured yesterday, on the road from Wheeling, in consequence of thrusting his head out of the car window, while going through a tunnel.

He is still living, but his recovery is doubtful.

FROM UTAH.—*St. Louis, June* 2.—The Leavenworth Herald of the 30th, learns from a person who left Salt Lake on the 15th, that great excitement exists among the Mormons, and many outrages were committed by them. Brigham Young was driving all the gentiles away. Judge Stiles, the United States Marshal, and the Surveyor General, with their families, together with a large number of emigrants, had already left, and others were hurrying away.

SPECIAL NOTICES.

My Good Woman, if you would correct the debilitated and sour stomach of your child, and give tone and energy to the whole system, try a bottle of Lawrence's celebrated Carminative.

DAVIS' DAGUERREIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can be pleased with the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and diseases of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have yet to tempt their appetites a little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time your appetites, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it in this way on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

☞ The Breadstuffs Market in England, is droll enough. The Boston Courier says:

With good reports of the prospect of the harvests in France and England, breadstuffs had advanced in price, upon all articles of consumption.

Liverpool Breadstuffs Market, May 23.—Breadstuffs are generally steady, with an improved demand. Wheat has advanced 2d. per bushel, on the week, with a steady market. Flour quiet and steady, and quotations exhibit 6d. per brl. advance. Corn advanced 1s. and 1s. 6d., with a buoyant market. The weather has been favorable for the crops. Richardson, Spence & Co. quote as follows—Wheat—Red, 8. 6d. a 9s. 4d; white 9s. a 9s. 10d. Flour—Western Canal, 29 a 31s.; Baltimore and Philadelphia, 30s. 6d. a 32s.; Ohio, 32s. a 32s. 6d. Corn—Yellow, 36s. 9d.; white 37s. 6d. a 39s. The failure of a heavy Corn importer is announced.

Now let us put all these things together; prospects of good harvests, good weather, an *advance* in Breadstuffs, and the *failure* of a corn importer. Who can interpret such a confused dream?

GREAT FALLS, N. H., June 3.—*A Swindler Arrested.*—A man calling himself Wyman, alias Senter, was arrested here yesterday through the vigilance of D. H. Buffum, Cashier of the Great Falls Bank, for obtaining money under false pretences.

PHILADELPHIA, June 3d.—A destructive fire is now raging here, in the centre of the business portion of the city, on Sixth and Chesnut sts., communicating to the valuable surrounding property.

☞ The family of William Emerson, of Manchester, N. H., were severely, though not fatally poisoned, Friday evening, it is supposed, by eating milk.

GEN. WALKER AND CAPT. DAVIS.—*Washington, June* 2.—Capt. Davis, of the St. Mary's, in recent official dispatches to the government, says it was the opinion of those who had better means of knowing than himself, that a month before they were written Walker could have at any moment passed the enemy's lines and maintained himself in the open country.—Since that time the desertions have been so numerous and frequent, and their effects so demoralizing, that toward the end of April the only resort left Walker was to cut his way down to the coast and take refuge if possible, on board the schooner Granada. According to the best of intelligence, such an attempt would only have been the last effort of despair, and would have terminated fatally in less than five miles from Rivas. The time, therefore, had arrived for determining on the course to be pursued in the case, anticipated in the instructions of January last, in the event of the expulsion of Walker and his forces from Nicaragua, by the Allied armies, and his departure to the adjacent territory in Central America, for the purpose of hostile and aggressive operations. The reason assigned by Captain Davis for the seizure of the schooner Granada, is that the vessel had lost her nationality, and was belligerent, and should not, therefore, pass his guns.

The Election Troubles.—This city is quiet, though there is much bad feeling. The Light Artillery are still here, and there are no signs of a renewal of the disturbances.

Again Declines.—Major McCulloch has again emphatically declined the Governorship of Utah. A selection will however positively be made in a few days, when the vacant Judgeships will be filled, and other measures adopted with a view to the effective organization of the administrative machinery.

We think it is hardly known even to the most intelligent of our readers, how deep some of the sciences are looking down into the mysteries of creation. We know there were wonderful discoveries in these times, and wonderful uses made of them, but did not know the Chemists were imitating in their crucibles and even surpassing the most wonderful productions of organic life. During our visit to Lowell we were introduced by one of their prominent citizens to the laboratory of Dr. Ayer, (inventor of *Cherry Pectoral and Cathartic Pills*,) where we were shown with generous frankness, his processes and his products. This master genius of his art is manufacturing the subtle essences of flowers from tar and other vegetable substances. His essence of Pine Apple, Strawberry, Checkerberry, Quince, Pear, Vanilla, Cinnamon &c., not only equal but they exceed in purity of flavor, those vegetables themselves. His oil of Winter-green is purer and of better flavor than any that can be gathered from the plant—and yet it is made by chemical composition from the hydro-carbon in tar! His process is, to analyze the substance and find the exact ultimate atoms of which it is made, then recompose them in the same proportions which exist in nature.—*Christian Advocate.*

LOCAL.

WHAT SHALL BE DONE?

We suppose our readers are nearly all aware that within one week, three persons have died from the effects of intoxicating drink; one by its direct effects, one by his own hand, and one, generally known, by the drunken wrestle in this city.

In this latter case, the victim, as he said, had had no liquor for nine weeks; as the shop-keepers said, they had not seen him for two months. Why? What was his story? He had formerly been a factory hand, and had been turned away because he was drunken. He had left the city;—had come back poor; had been introduced into the factory again, by a kind overseer, at the instance of some benevolent ladies who had aided his family, and had used moral suasion on him. He was earning something by his labor, and was in the mill on his promise not to drink the drunkard's drink at all. In an evil hour he went to Whally & Leaver's bar, drank, treated, "fooled," wrestled, fell and died. While he lay there, neglected, more punches were made, sold and drank. And this in the premises of a man who stands charged with keeping liquors for sale—but who plead *not guilty*, was ordered to give bonds *not to sell*, and, as we learn, has given such bonds, but not until a Mittimus was issued.

The den is in the immediate vicinity of the steam factory, and there we find present, during a large part of the day, half a dozen men, able to work, whose families need their earnings, who yet spend their time in treating and being treated. The poor victim who died, might have gone on sober, but for this shop, near his place of working; but it was made for him and such as he; and the old liar who contradicted himself ten times at the inquest, has been kept round the shop as a decoy duck to others.

Now we learn that the proper authorities of the city have caused complaints to be made against the keepers of the place where this death occurred, for selling liquors, contrary to law, and for other offences, which were incidentally revealed by the testimony before the inquest; that warrants were issued in conformity with these complaints; and that these warrants have been committed to the Marshal; but that he is instructed to notify Whally and Leaver that they must close their bowling alley, discontinue the sale of liquors, and promise not to sell any more—and to warn them that if they do sell, then these warrants will be served.

Any person who has watched the movements of the past two years in this city, and who has profited in the least degree by his observation, will know how readily these fellows will promise, how solemnly they will swear, and how slippery and slimy will be their performance; selling at the first chance.

Messrs. —— & ——, of this city paid costs at Exeter Court, soon after the act was passed, and promised to sell no more,—yet we know where to put a finger on evidence that they have sold this year. Mr. ——, of this city, paid costs here, at a later date, and made the same promise, which he has broken in the same way.

The above three persons, hinted at but not named, are men who stand higher in community than Messrs. Whally and Leaver—but yet they broke their word for the sake of selling grog. Does any man believe that W. & L. will keep their word any *better* than they kept the covenant in their bond?

At the inquest, Whally testified that the did not tend the bar, and had nothing to do with the business; but Leaver testified that he and Whally were partners; the clerk testified that he was in the employ of Whally & Leaver; and Davison testified that all three of them tended bar.

What confidence can be placed in the promises of such men, the reader can judge for himself. Also, what effect such a complaint and warrant, notice and warning, will be likely to produce.

☞ Ole Bull's Concert, at the Temple, Saturday evening, was, of course, a great treat. He has lived out west, long enough to catch the fever and ague, and was sick the day he came here, but played with his usual inimitable skill and feeling. Mr. Dresslar is a fair pianist, and excellent accompanist, and played the beautiful Æolian piano, with good effect. Mr. Harrison's singing, we didn't appreciate, if it was anything extra; but Mr. Horncastle is one of the best buffo singers and delineators we have ever heard. Mr. F. Widdows, the business agent for the troupe, is one of the most efficient and gentlemanly of managers.

The audience was not large, say three hundred; but appreciative and generally attentive; save at the close of Ole Bull's last piece—when some few, who perhaps wished to show that they came to hear *him*, and not comic singing, disturbed the singers and those who wished to hear, by going out during the performance of the closing duet.

☞ Rev. I. W. Putnam, D. D., of Middleboro', Mass., preached at the North Church in this city, on Sunday afternoon and evening last. Time has dealt kindly with the old gentleman, who, though just turned three score and ten, is still fresh, hale and hearty—and his voice almost as clear as when he first preached in Portsmouth, upwards of forty years ago, but not quite so full. It was just forty-two years ago, on the 15th of March last, that he commenced his ministrations at the Old North Church, here; and after remaining there twenty years, has been settled in his present location, at Middleboro, for twenty-two years. His visit here, awakened many an old memory, pleasant or saddening; but we doubt not, such as tended to improvement, and the development of the higher life. Long may it be, ere we shall miss his cheerful presence and pleasant voice from among us.

☞ Rev. Mr. Dillingham, formerly pastor of the Universalist Church in this city, occupied his former desk here last Sabbath. We were pleased to see him looking so well. Mr. D. is one of the most genial of men, and of the class who help to spread sunshine rather than shadow over their fellows. May peace and prosperity be his.

☞ Mrs. Mansfield's Lecture to Ladies, at the Temple, Wednesday afternoon, was listened to by a large and attentive audience, whom we are informed, received her remarks with evident satisfaction and interest. She is receiving hosts of visitors at the Rockingham House.

☞ The Boston Post says the report that Mr. Capen has been appointed Postmaster for that city, *is not correct.*

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1845, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic denotes its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cognac, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the various articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travellers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature upon the label.

For sale by all respectable druggists and country merchants. UDOLPHO WOLFE.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

WEST WINDSOR, Pa., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to work from a full stomach, and they cleanse it soon. If they will do to others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREELE,
Clerk of Sumner Circuit.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we have. Their veg- lating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. In my own family, I have used them for *almost the entire* to obviate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

FORT OTTON, HARTLEN, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. I then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. Some of our neighbors tried it too, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as this we want, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with decided success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent cathartic to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Recording Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are doing wonders for us all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her face, and her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

NEW ORLEANS HOTEL, SAVANNAH, GA., Jan. 5, 1856.

HONORED SIR: I should be unworthy the name of that skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which yielded to no remedy or treatment. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, I tried your Pills. They were slow, but sure. By persevering in the use of them I am now entirely well.

SENATOR CRITTENDEN, HAVANA HOTEL, LA., 3 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease, which afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are valuable and agreeable.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where, which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet discovered to the fearful disease and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden attacks croup that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumption it prevents than these others do cure. Keep it by you, and cure your colds while they are curable, for neglect them until no human skill can master the inexorable tanker that, fastened on the vitals, ends your life away. All know the dreadful fatality of lung disorders, and so they know too the virtues of this remedy, we need not dwelling to assure them it is still made the best it can be. We spare no cost, no care, no pains to render it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, which have been so liberally patronized by dealers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they thereby obtained an advantage over the dealer in their which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of the state, and are drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the commencement of the year, at the following scale of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are open the following day to any number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 $0. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawing numbers of the Maryland Lotteries are published by the Commissioner in the following papers: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS.

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C.; also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of voicing, known only to themselves, they have succeeded in removing the harsh and buzzing character, so generally characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS.

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one person. The front set of keys, connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

ORGAN MELODEON.

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and may be used together, or separately, thus is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen. In short, we will warrant our instruments as perfect and equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following,

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
Gilbert & Dana, W. M. Hayes,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the hire credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the cost of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and Drawers are commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by special act of that State. A lottery is drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. We have adopted the scheme of drawing every ten must draw a prize. Tickets are $20; halves, $8; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are open the following day to any number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $60 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Union*, Augusta *Sentinel*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers and Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, as examinations as to the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove the truth of the above. PERSONAL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber, for twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in securing inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the Hon. Thos. Ewing, Cincinnati, Ohio.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

"HARD TIMES."—There is a great deal of real suffering in Western Georgia. The Dahlonega (Lumpkin county, Ga.) Mountain Signal says: "The cry of 'hard times' is to be heard in all quarters of the up-country. In Gilmer, Fannin, Union, and our own county, provisions are becoming exceedingly scarce, and we fear that many of our people will suffer greatly before the harvest season rolls round. Many are the families now in our country, from what we can learn, that have been without meat for weeks, and but small allowance of bread. Many cattle and hogs are dying from hunger. A gentleman informs us, who has just passed through Fannin and Union counties, that he scarcely passed a farm that did not give evidence of some decayed carcass, many of which he saw. Truly, the times are becoming distressing."

THE FUTURE.

The footsteps of a future doom we hear,
Against whose coming, nought may e'er prevail;
And vague presentment of some evil near,
Falls on our heart and turns its current pale.

We tread upon the verge of mighty things,
We grasp the veil, but with unseeming mind;
Death hides the light the soul unconscious brings,
And on the edge of fate, we wander blind.

Charles Swain.

HOLMES'S HOLE, June 1.—Telegraphic communication is re-opened to Holmes's Hole and Edgartown, the lines and cables being now in the most complete and satisfactory working order.

This places Holmes's Hole again, in direct telegraphic communication with Boston and New York. The cable is a new and superior one, and has been successfully laid from Wood's Hole to this place, by Mr. Palmer, the lessee of the Cape Cod telegraph line. Mr. Palmer is also making arrangements, in connection with the leading business men of Nantucket, to put down a cable to connect Edgartown with Nantucket, and will have the line working to the latter place in less than a fortnight.

Of twenty persons who left Plymouth, N. H., and its neighborhood, some months since, with the intention of settling in the West, fifteen have returned, completely cured of the disease.

Ditto of those who went from Portsmouth and vicinity. "We told you so."

☞ We learn from the Ohio State Journal, that Rev. A. Bent and O. Minor, have made a purchase of 4000 acres of land, in Marion county, Illinois, where they propose to establish a religious and anti-slavery colony. Twenty families have agreed to join the enterprise.

THE FOURTH OF JULY AT PORTLAND.—The city government of Portland have appropriated $2500 for the expenses of celebrating the coming 4th in that city. Prizes to the amount of $400 are offered to competetitors in races with wherries, fancy boats, four, six, and eight oared gigs, to take place in the front harbor, down one mile and a quarter, and thence back to the judges station.

NEW HAVEN ELECTION.—At the city election in New Haven, on Monday, the Democrats prevailed on the vote for Mayor by about 400 majority, and carried half of the City Council. The control of the government of the city is with the Democrats.

☞ The British Parliament agree to give to the Princess Royal, who is to be married to the Prince of Prussia, a marriage portion of £40,000, and a pension of £8000 a year.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the patent for which expired, Dec. 26, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $500.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

FRIDAY, JUNE 5, 1857.

A CINCINNATI LAWYER MOBBED.—The Cincinnati Gazette of Monday says that John Joliffe, Esq., a lawyer of that city, extensively known as the friend and advocate of the slave in cases arising under the fugitive slave law, was on Saturday last mobbed in Covington, Ky., and driven out of the town. Covington is situated on the Ohio, opposite to Cincinnati. Mr. Joliffe had been invited by Rev. Mr. Sage, of Covington, to dine, and between 12 and 1 o'clock crossed the ferry to that city. The Gazette says:

Proceeding up town, Mr. Joliffe was accosted near the first cross street, above the landing, by name. He extended his hand to the man, saying at the same time, "I don't recollect you." The man replied, "my name is Gaines. I know you d——d well, you d——d rascal, you d——d nigger thief. You came over here to steal our niggers." Mr. Joliffe, thinking this was only the usual Kentucky way, said good-naturedly, "Oh, no, I came over here to dine with my friend, the Rev. Mr. Sage." A crowd collected round them, and Gaines thrust his fist against Mr. Joliffe's breast and into his face, using violent and insulting language at the same time, evidently with the design of provoking Mr. J. to some show of violence. Mr. J. however walked on, surrounded by the hooting crowd, beyond the Madison House, and finally went into Timberlake's store for protection.

Timberlake made some show of dissuading Gaines, and even holding him, but seemed very glad when he got Mr. Joliffe out into the street again. Gaines then went to the corner of the street and made proclamation that "Joliffe was a d——d nigger thief, and that all those interested in niggers had better look out, for he had come over to steal their niggers." This brought a still larger crowd out. Mr. Joliffe, finding it impossible to proceed to Mr. Sage's, turned to the crowd and told them that if they were determined that he should not go on, he would return, and appealed to them for protection to the ferry. This gathering of Kentucky gentlemen (for there was a number of merchants and respectable looking men in it, with some rowdies,) replied with one voice, "G——d d——n you, you need not appeal to us," and laughed in derision at the idea.

At this juncture, Marshal Lott and ex-Marshal Warnock took Mr. Joliffe by the arm, to protect him on the way to the ferry. While proceeding thither, however, the man Gaines, mentioned above, obtained a whip and struck Mr. Joliffe over the shoulders with it, when he was immediately arrested. No further molestation was offered, and Mr. Joliffe reached the ferry in safety, although the crowd frequently shouted "lynch him," "cowhide him," &c. Gaines is the man who became notorious as the master of Margaret, the negro woman who murdered her little girl rather than see her returned to slavery.

☞ A heavy storm of rain, hail and wind, passed along from the South West, over a part of Hampton, North Hampton, (Little River,) and Rye, about 11 o'clock on Tuesday night, breaking thousands of panes of glass, cutting off buds, leaves and blossoms from the trees. We had a shower of rain, and a little hail here, but no damage done. The stripe of hail was narrow, but 8 or 10 miles long.

A gentleman in this city tells us that just after the shower had passed, one of those phenomena so extremely rare that but few mortals ever witness them—a Lunar Rainbow—was seen in a north-eastern direction, from 30 to 40° degrees above the horizon. Its arc was as well defined as that of a solar rainbow, but pale,—though its colors were quite distinct, especially the red, violet and green; the orange slightly seen—the whole exhibiting a very novel but interesting spectacle.

POLICE COURT, MANCHESTER, N. H.—On the 2d of June, Ebenezer Clark, who keeps the "El Dorado" restorator, at the corner of Lowell and Elm streets, was arraigned for keeping liquors for sale on the 1st of June. The Assistant Marshals of the city, made the search; found plenty of liquors, and were the principal witnesses. They notified all the restorators to stop dram-selling, a month or six weeks ago. The Court held Clark in $300 bonds to the Supreme Court.

The similar course, if pursued here, in good faith, would close two-thirds of our 30 bars, and make the remainder keep so close as not to be detected, except by an *accidental death*, or something of that sort.

POLITICAL MINISTERS.—Hear what Daniel Webster said in his palmiest days, in an address from Plymouth Rock in 1820, while urging upon the clergy the duty of preaching against slavery. Said Mr. Webster, "*If the pulpit be silent*, whenever and wherever there may be a sinner bloody with guilt, that pulpit is false to its trust."

FOURTH OF JULY.—We hear of no movement for celebrating the coming Fourth in Manchester, and in reality, it would be very hard to get up a general celebration at this time.—Perhaps the better plan is to celebrate the day in social and neighborhood parties, by making excursions, pic-nics, &c. The people of Chesterfield, have fitted up a steamboat, which will ply between the shore and an island on Spofford Lake, where speeches, a dinner and other festivities will be enjoyed. The young men of Conway have a grand trout excursion during the early part of the day, and a "grand chowder" at three in the afternoon. A party of young men of this city propose a similar excursion to the Massabesic, winding up with a patriotic perch and pickerel chowder on some one of the islands of the lake.—*Manchester Amer.*

We don't see much likelihood of a public celebration in Portsmouth—although we have heard some plans talked of, and there is plenty of time yet. To make more of a social day, and less hard work for display, we believe is the best way. The great shows, though they "pay" well, are only got up at a great sacrifice of real comfort, and after all confer no lasting benefit. Nevertheless, we are always willing to do our share in such matters.

ATTEMPT TO MURDER.—We learn from the Manchester Mirror that a man named Plumer Cate was shot by his brother-in-law, Geo. W. Turner, in Candia, N. H., on Saturday evening. The parties have harbored bitter hostility towards each other for the past six months, so much that they have kept their guns loaded for the avowed purpose of shooting each other.—Cate lies in a critical condition, though his physician entertains strong hopes of his recovery. A reward is out for Turner's arrest, but he has fled.

☞ A large number of diseased cattle were brought down to the New York market on Wednesday, and the street leading to the drove-yard was blockaded with disabled and dying oxen; six of these died during the morning, and were removed by the proper officers, but the remainder were taken by *respectable* butchers. The cattle had been fed on whiskey slops, and their disease was like that which has affected so many hogs in Ohio.

FIRE AT MANCHESTER.—*Man Killed.*—On Wednesday morning, about 3 o'clock, the Steam Mill of Baldwin & Co., in Jamesville, Manchester, was burnt to ashes. The mill was used for sawing and plaining lumber, manufacturing pails, &c. Loss above $16,000, on which was insurance of $5,000.

Mr. C. D. Hoyt, a very respectable and worthy man, while engaged in saving some property of his, was killed by the falling of a brick wall.

☞ Frank Leslie's Gazette of Fashion, for June, contains a colored plate of Four Ladies in full dress; Four Gentlemen;—dozens of ladies in all sorts of dresses: bonnets; caps; embroidery; and one figure that puzzles us. It is on page 125, and is certainly a very fine show of costly goods; but whether they are on a woman or on a frame, we cannot tell. It is a "triumph of art over nature!"

CHILLICOTHE, OHIO, June 3.—The Excursionists arrived here last evening, at about 10 o'clock, having travelled here by the Parkersburg and Marietta Railroad. The run to Parkersburg (104 miles) was made in 4 hours and 20 minutes, including stoppage. They were conveyed to Marietta in the steamboats Albermarle and John Buck, which were lashed together, the guests dancing during the trip for 80 miles. The reception at Marietta was signalized by the firing of cannon, and the presence of a large concourse of citizens. Gov. Chase of Ohio, delivered an eloquent address, welcoming to Ohio, Gen. Cass, the representative of the Baltimore and Ohio Railroad Co., and others. Gen. Cass responded in beautiful style, saying that 57 years since, he had landed, a poor boy, within a few yards of the spot where he stood, and the recollections of that time, and the changes which had occurred since, were almost overpowering. He ventured the prediction that, from the past history of the United States, persons now living would see its population augmented to 100,000,000. Nathaniel Cox responded to the address on the part of Maryland, Hon. Fayette McMullen on the part of Virginia, Thomas Swan on the part of the Baltimore and Ohio Railroad Co.

The guests started for this city in five trains, over the Marietta road at 3 o'clock. The trip was not very satisfactory, in consequence of the incomplete condition of a portion of the road, rendering rapid travelling impossible. The reception was very enthusiastic. A procession was formed of military companies, the guests and the citizens, which marched to Masonic Hall.

KANSAS JUDGES.—*Washington, June 3.* Joseph Williams, of Iowa, is appointed Associate Justice of the Supreme Court of Kansas, vice Cunningham, resigned: Calvin F. Burns, United States Attorney General of Eastern district of Missouri, vice Reynolds, resigned.

☞ The Concord, N. H., Statesman says that the body of Hon. James Bell was examined by Dr. Josiah Crosby, of Manchester, when it was found that his disease had been misapprehended. He was cancer in the intestines.

☞ We devote much space this morning to Gov. Haile's Address to the Legislature, in full. It was but just commenced to be delivered at the time the P. & C. cars left; and we are under great obligations to Conductor Sanborn and Hon. H. D. Walker, for advance copies procured for us at the office of the Independent Democrat.

DAVIS' DAGUERREAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while their pictures are unrivalled, their prices are so low that all can afford them.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, always looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, always can sell at low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 63 cents per bottle.

☞ We call attention of the Bald and Gray to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality, and has given universal satisfaction. The Professor has the testimonials of hundreds of cases cured by this infallible remedy, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have been so tempt their appetites as little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it upon double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

"HIMSELF AGAIN."

MUSICAL NOTICE!!

A. PEARSON, having returned to his old place of business, at

Exchange Hall, No. 4 Exchange Buildings,

in rear of Chronicle Office,

which has been beautifully and thoroughly refitted since the fire last winter, would announce to his friends and patrons, and lovers of Music in general, that he is now again fully prepared to attend to all business in his line, as usual.—

Thanks to the attention of kind friends and a liberal public, his facilities for the instruction of single pupils or classes, are better than ever before; and he invites a call from all interested.

Juvenile Singing School.

AT the repeated request of friends and parents, and for the benefit of the rising generation more than of himself, the subscriber will commence a new Juvenile School, at his airy and beautiful new Room,

Exchange Hall, No. 4 Exchange Buildings,

On SATURDAY AFTERNOON, June 13, at 3 o'clock precisely;

to continue on Wednesday and Saturday Afternoons.

TERMS, One Dollar for the Course of Twelve Lessons, to be paid in advance. Tickets to be had at Mr. Cobb's Music Store, and of Mr. Pearson.

It must certainly be regretted by every one who considers the matter intelligently, that of about two thousand children attending the public schools in Portsmouth, so few are receiving any musical instruction in classes, or in any way save by private teachers—which of course is not the most efficient or economical mode of disseminating a general love and knowledge of music.

In the absence of any provision to have music taught in our public schools, the subscriber is willing and desirous to "do what he can" to make up the deficiency; and will therefore engage again in the instruction of a Juvenile Class—one of the most laborious, though not most remunerative, departments of the musical profession.

Having most excellent accommodations for

ONE HUNDRED PUPILS,

it would seem that this comparatively small number could easily be gathered from the various schools in the city.

The attention of parents and all others interested, is respectfully invited to our new and beautiful room, &c.

TO THE CITIZENS OF THE UNITED STATES. CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1856, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so closely imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates in this fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in detecting out and exposing the unscrupulous merchants, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travellers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

For sale by all respectable druggists and country merchants.

LOCAL.

☞ It will be seen that the new tenants of the Chronicle Building, or rather the tenants of the *new building*,—for most of them are the same who were here long before the fire, and the consequent rebuilding of the store—have liberally advertised for various businesses, this morning.—To one of them need a word of introduction, recommendation, or eulogy from us; but we are desirous of saying something of the firm with whom we have shipped to sail, we hope, for a long time.

The Chronicle must speak for itself—for when it *can't* "have its say," will not attempt to speak at all. As to Job and Card Printing, we have excellent facilities for executing most anything in this line, and solicit orders. We believe we have the best office in this region, and shall be enabled to attend to our increasing and encouraging business with greater despatch and more comfort than heretofore.

Mr. Pearson, who has resumed his old quarters, whence he was driven by the fire a few months since,—but which has been so greatly improved as to be unrecognizable,—is now on hand to attend to his flourishing business, and make up lost time. He is meeting the reward of unassuming merit, combined with industry and close application to business, here; and has proved himself worthy to occupy that old home of the arts and muses, Exchange Hall.

Mr. Henry H. Ham, the old tenant in a new store below—who keeps our good city (clocks) "up to time," and so of course is always up in time himself—is so well known and known so *well*, in this region, that we shall leave him to the applying tick of his own conscience, and continued care of the time-keeping public.

Mr. Cobb is one of the best mechanics anywhere, and being practically acquainted with the manufacture of pianos and the instruments, is of course, better qualified to select such, than any other man in the city. He has the largest and best stock ever offered in Portsmouth. For the information of any of our readers abroad, who are not acquainted with him, we will say that he is entirely reliable, and this is the place to buy goods in this line.

ORDINATION.—Mr. Amos Abbott, a member of the North Church, in this city, formerly City Missionary, being ordained by the American Board as a prospective Missionary, and having sought ordination at the hands of the church here,—have called a council, consisting of churches within the bounds of the Piscataqua Association, and of Rev. Prof. Park, with two other clergymen connected with benevolent associations. This council is to meet to-day, in this city, when Mr. Abbott is to be ordained as a Missionary of the American Board of Commissioners for Foreign Missions. The public services will take place in the North Church, 2 1-2, P.M. Prof. E. A. Park, D. D. of Andover, will preach the Ordination sermon.

THE ORDINATION of Mr. Abbott, as a foreign missionary, to-day, will receive public attention, from the sympathies of friends toward a man who so long and faithfully served our city as missionary, and from the unusual attraction of the preacher, Prof. Park, of Andover. He is regarded as the master preacher of New-England, if not of the country. To hear a man is an era in a lifetime. G.

GOVERNOR'S MESSAGE.

Gentlemen of the Senate and House of Representatives:

We are assembled at the commencement of another political year to assume the important duties of Legislation. A kind Providence, by whose aid our free institutions were established, has extended His guardian care over us, and preserved to the people of the State the privilege of enjoying in peace, their natural rights and the blessings of life. To that Providence we should now look for a continuance of His blessing, and for His aid in the discharge of the important duties, with which we are entrusted.

We are permitted to enter upon the duties assigned us, under most gratifying circumstances. The principal, if not the only, subject of regret is, that the spirit of emigration is depriving the State of some of its ablest and most enterprising citizens. Notwithstanding the serious hindrance which emigration presents to a more rapid development of our resources, the people of the State have made unusual progress in the various industrial pursuits within the past year.

Manufacturing interests and agricultural products have increased and improved, and the frugality and industry of the people, whose vigorous constitutions, in our healthful climate, are rarely impaired by the heat nap burdens of labor, have more than compensated for the sterility of the soil. Thousands of mechanics of limited capital, who have established themselves along the numerous never-failing streams and water-falls, have in many ways contributed to the public good, and their individual interests.

Without the burden of a heavy State debt, or reasonable fear of oppressive taxation, but with all the elements of social progress in our midst, where actual suffering from extreme poverty is scarcely known,—we are surrounded with innumerable monuments of civil, moral and material prosperity.

At this period of my official relations, it will not be expected that I shall offer many suggestions in respect to your legislative duties; and my present duty will be better performed by calling your attention to a few general considerations, than by any specific recommendations in regard to your public acts and duties.

I would comprehend the sound political principles of our government, and the nature of the important powers conferred upon its different branches, we have but to refer to the Constitution; and we have, for an example to aid and guide us in our acts and deliberations, a long course of Legislation, extending beyond the memory of living men under which our State has advanced and prospered.

Fortunately the interest of the State requires but little legislation, yet a dangerous tendency exists in this as in many other States, to increased and unnecessary legislation. To this end long sessions and the unnecessary expenditure of the public money, are a most serious, but perhaps not the greatest objection. Frequent and inconsiderate changes in legislation and a multiplicity of public acts are usually followed by much litigation, and lead to a disrespect for the laws and customs of the State.

To avoid these evils, no changes should be allowed unless clearly and positively demanded for the security of rights and the redress of grievances. On the contrary, the fear of change or reverence for antiquity should create no hesitancy in the removal of absurd and unjust legal precedents or statutes; but in any change of law, even in substituting a wholesome statute for what may appear to be an absurd custom or unjust precedent, there is need of caution and deliberation, until the presumption in favor of the existing law is completely overcome, and the custom or precedent to be set aside is clearly shown to be positively unjust and absurd. Still greater caution should be observed in innovations of doubtful expediency about which the opinions of men are divided.

The education of children in our common schools is a subject of interest to all classes, and of the highest importance to the welfare of the State. The stability and purity of our institutions are intimately connected with, and, indeed, dependent upon, the intelligence and virtue of the people. That system of education, therefore, which secures the best advantages to the greatest number of people, is well worthy the attention of the legislature. Experience has shown that when the duty and burden of providing means of instruction is dependent solely upon the voluntary contributions of parents, their children, in many cases, become the unconscious enemies of the community. The same children, who being suffered to remain in ignorance in childhood, naturally become idle and vicious men, would, probably, under a system equalizing the expenses of education and compelling the attendance of children upon the public schools, have become useful and most worthy citizens.

As all classes, the rich no less, certainly, than the poor, are interested in the objects of popular education; and that none, from poverty or other cause, may be excluded from its advantages, it is just that every citizen should submit to be taxed for the purpose of yielding to this cause a liberal support. The system of common schools, which exists in this State, is regarded with much popular interest and favor. This system, greatly improved within a few years past, and doubtless capable of much greater improvement, has been attended with the most beneficial results.

In these schools nine-tenths at least of our people receive their entire education, and the advantages of our improved system of instruction are attested by the general intelligence and good habits of the young. It is desirable that the advantages and opportunities for instruction afforded by our common schools, should be shared as equally as possible. Complaint is frequently made, that, in the poorer districts, with the amount of money at present appropriated by the State, and raised by towns, such advantages in respect to schools are not enjoyed by the people as the best policy would seem to require, and further legislation may be necessary in aid of such districts, and for the more equal distribution of the benefits of the system.

A bill to create a Board of Education and establish a Normal school in this State, was referred from the last legislature to the present session, and will come before you for your deliberation and action. As this bill has appeared in the various newspapers which have published the laws of the State, your attention has doubtless been called to it; and coming as you do from different parts of the State, you are probably familiar with the sentiments of those whom you represent in respect to this measure, and are prepared, without any suggestions from me, to consider the bill upon its merits, and to take such action, as shall, upon mature deliberation, in your opinion, be most conducive to the future interests of Education.

The interests of Agriculture, engaging the attention of a large majority of the people of the State, are fortunately at the present time in an eminently prosperous condition. Agricultural labor and the productions of the earth, from which all wealth proceeds, command liberal prices, and the condition of those engaged in this important and honorable pursuit, is respect to their wealth, position, influence and the knowledge of their art, is proof of their industrious habits and furnishes the best assurance of their future prosperity. The various industrial pursuits are so intimately connected with, and mutually dependent upon, each other that the success and encouragement of Agriculture invariably extends its beneficial effects to manufactures and the mechanical pursuits.

The Constitution requires the legislature to encourage Agriculture and the Arts. Appropriations with this view for the dissemination of useful knowledge on these subjects, and for the encouragement of agricultural societies, may be expedient; but a proper appreciation of the products of home labor, and the skill of our own mechanics, which shall manifest itself in giving the preference to the manufactures and productions of citizens of the State, and lead to the purchase and use of articles made and produced within our own borders, when this may be done without sacrifice of other interests, will give to all our industrial pursuits, a far more potent encouragement than any legislation can afford.

The State Treasurer, an efficient officer, and an estimable man, has deceased during the past year. The report of the Commissioner appointed by the Governor and Council to take charge of the office and perform the duties of Treasurer, will show a slight increased State debt from last year, which is attributable to the liberal appropriations in behalf of the House of Reformation and the Asylum for the Insane. With the appropriations of last year the indebtedness of the State has not increased more than three or four thousand dollars, from which it is evident that the ordinary expenses of the State government for the past year will compare favorably with those of former years, and but for the aid afforded to these charitable institutions, which seem to have been dictated by a christian humanity, the financial affairs of the State would appear in a most favorable condition. By a due regard to strict economy, and perhaps retrenchment, we shall be able to extinguish the State debt without a resort to increased taxation.

In this connection I would respectfully suggest, as one means of retrenchment, the expediency of as short a session of the present legislature as a due regard to the public good will permit. I am confident this will meet the entire approbation of your constituents. I refer you to the report of the Commissioner, which will soon be submitted for your examination, for a full statement of the condition of the Treasury.

The Insane Asylum reflects much honor upon the State, and affords for the most unfortunate class of our fellow-citizens advantages not excelled by any institution of the kind in the country. During the past year, an additional wing has been completed, furnished, and is now occupied, adding largely to the convenience and comfort of the inmates, and affording accommodations for an increased number of invalids. Under its able and accomplished superintendent it is fast repaying the State liberality as well as individual munificence, by which, to a considerable extent, it has been sustained. I learn with regret, that the superintendent, Dr. J. E. Tyler, has resigned his position. The eminent success of this institution for a few years past may be attributed to a considerable extent, to the skill, fidelity and unwearied attention which he has devoted to its interests. The financial affairs of this institution are fortunately in so prosperous a condition, owing to its successful management, and the appropriations of former years as to require no further aid at this time from the State. The reports of the superintendent and other officers of the institution will come before you, giving a full and detailed account of all its transactions during the past year.

The condition of the State Prison, the healthful appearance of the convicts, and the order and discipline which prevail throughout the establishment, are most creditable to the State, and demonstrate the eminent skill and fitness of the able and worthy warden for the position which he now occupies. The last legislature made an appropriation for altering and repairing that portion of the prison building occupied by family of the warden. In making these improvements, a large and convenient reception-room has been furnished, over-looking the whole yard and other parts of the prison, and it is now desirable that for a hospital for the sick, which was certainly demanded for the welfare of the invalids;—and also a new chapel well lighted and ventilated, sufficiently large to accommodate all of the prisoners. These improvements were demanded for the health and convenience of the officers of the prison as well as for the benefit of the convicts. These alterations have been made in part with stone taken from the old prison, which has been useless for many years. A small appropriation may be necessary to complete the improvements.

The financial department is in a favorable condition, and notwithstanding the high prices of all kinds of articles required at the prison, with a reduced number of men able to work, I understand the report of the warden, which will soon be before you, will show a considerable balance in favor of the State.

The evils of intemperance in the use of intoxicating liquors, have been the subject of much legislation for many years in this, and other New England States. To this vice, the source of overwhelming misery and desolation to counties, families, nine-tenths of the crime and poverty in the country, is attributable. Appeals to personal duty and the better feelings of men, have been found to be ineffectual to abate the evil, and it is now generally conceded that some law prohibiting the indiscriminate traffic in spirituous liquors, and visiting the offences against which it is directed, with severe penalties, is necessary for the suppression of intemperance. The present law of the State has been the subject of much discussion and some complaint; but the object of the statute was to restrain and correct this great public evil, without infringing upon the just rights of citizens, and it is believed to have been attended with favorable results to the cause of temperance, and that the illegal traffic and evils of intemperance have perceptibly diminished in many portions of our State.

Former legislatures have made appropriations for a House of Reformation for juvenile and female offenders against the laws, which is established for the confinement and instruction of youth, who have hitherto been confined and imprisoned with old and hardened criminals. Measures with this humane object in view, were first taken in the legislature of 1851, when a commission was provided with select sites, furnish plans, and estimate the cost of suitable buildings. An eligible site has now been selected, and a structure is now in process of construction, which will be well worthy of State pride, and admirably fitted for the wise and benevolent purposes for which it was intended.

The work has been prosecuted under the direction of able and judicious men, who in the expenditures incurred, have doubtless been governed by a desire to promote the public good. Additional appropriations will be necessary to secure the bequest of the Hon. James McKean Wilkins, and to receive the full benefit of the appropriations already made.

The great and good object of this humane enterprise, worthy of the co-operation of all who desire the public good, ought not to be defeated or delayed for the want of such funds as may be necessary to complete the work in a suitable and creditable manner.—The reports of the Trustees and Commissioners will be before you, with full information concerning the progress and condition of the work.

Taxation for the support of Goverment is a subject which has received much attention and legislation in this State, with a view to a fair and equal distribution of its burdens upon all classes, and in just proportion to the value of the estate which each tax paying person may possess. This desirable result may be unattainable in all cases, but there are imperfections and deficiencies in the present law upon the subject of taxation to which I would respectfully invite your attention.

The present law exempting from taxation the indebtedness of an individual, by deducting the same from the money which he has on hand or at interest, is liable to the objection of granting to one class of its citizens peculiar privileges, at the expense of the owners of all other kinds of property, other than money. There can be no good reason for restricting this principle of exemption to the possessor of notes and money. Money has no inherent quality in itself which should entitle it to such privilege, and there is nothing in the calling of the mere borrower and lender which will justify exclusive legislation in their behalf. It is obvious that such exemption should be removed or should be extended to farmers and mechanics and the owners of the various kinds of property, excepting merchandise held for the purposes of traffic.

I would therefore suggest, for your consideration, the expediency of a law providing that in the assessment of taxes upon real estate, and the machinery and implements of mechanics, the indebtedness of the proprietors for such property should be deducted from the appraised valuation, the amount of indebtedness should be taxable to persons residing in the State.

There is another class of citizens who enjoy all the privileges of our schools and government, receiving large annual incomes, which, in some instances, amount to thousands of dollars, but not being in possession of property now taxable, they bear a most disproportionate part of the public burdens, frequently paying nothing beyond a mere poll tax. The farmer, merchant and mechanic, whose incomes, deducting the interest on their taxable capital, will not exceed those of many individuals living on large salaries, or the income of profitable professions, are thus made chargeable with almost the entire sum of the expenses of government. A law exists in several States, and would seem to be demanded here, taxing incomes from any profession, trade or employment, exceeding a specified sum, not derived from taxable property or estate.

I would also suggest for your consideration a modification of the laws concerning taxes paid by railroad corporations which pay no dividends to the stockholders, and who have entirely lost the amount of their investment.

Corporations are frequently necessary to secure to the public the benefits of great enterprises, which are beyond the means of unassociated capital. It is but doubtless true that corporate privileges, which have resulted in the accomplishment of many objects of public utility, rarely paying the individuals interested in them more than a fair remuneration for the hazards incurred and the capital expended, and often resulting in severe private losses, have generally hitherto been judiciously granted. As these bodies are invested with powers denied to the people, and individual feeling or the public good is not always consulted in their action, it becomes the duty of the legislature to hold them to a strict construction of the limitations contained in their charters, and make them accountable for the manner in which their peculiar powers are exercised. Special charters have heretofore been granted so numerously in this State, that the necessity would not seem to exist for new banking corporations at the present session. There may be, however, cases where the public good may require it, but no precedent of the liberality of former legislatures should avail as a reason or excuse for granting new charters. It should be clearly shown that they are demanded from reasonable public considerations, and not merely from motives of public cupidity.

My immediate predecessor called the attention of former legislatures, to the expediency of a modification of the law relating to the priority of attachment on mesne process, providing that all prior liens by attachment be abolished, in cases of actual insolvency, and that the debtor be allowed after, as well as before attachments are made, to assign all his attachable property, to be divided equally among all of his creditors in proportion to the amount of their claims. Such a change in the present law is clearly equitable, and in my opinion is demanded by the people of this State, and is respectfully suggested for your consideration.

The sacred right of suffrage cannot be too well guarded, that its exercise may be voluntary and uncontrolled. In our free government we look to the ballot box for the selection of rulers, the correction of abuses and the unrestrained expression of public sentiment, and it is, therefore, upon this right in its purity and voluntary exercise, that, to a great degree, the character and perpetuity of republican institutions depend. In respect to this right by our existing laws, all citizens are equal without regard to social position, circumstances, or attainments,—all upon a common level, at the ballot box with the same power and influence in directing public affairs. The uncontrolled exercise of this important privilege would seem to require on the part of those exercising it, some knowledge of the general wants of the public and the value of our institutions. This privilege of the elective franchise must be esteemed of small value when the sentiments of enlightened and patriotic citizens upon important questions are counterbalanced by the ballots of strangers who have never acquired or manifested an attachment to our institutions, and have yet to learn their spirit and character, who cannot partake in our national feelings, and can neither read nor write the name on their ballot.

Public attention has for several years been called to the importance of placing further restrictions upon this sacred privilege: by the number of ignorant and unfortunate emigrants who fly to our country—some of them as a refuge from crime, but by far the larger portion, as we believe, to escape from the hopeless misfortune by which they were oppressed in their native land; and with honest endeavors to obtain an inheritance for themselver and their children. To every emigrant who honestly seeks asylum on our shores, we would cheerfully extend the freedom of thought and action and the protection of our laws, in the possession and pursuit of life, liberty and happiness, to be enjoyed by him equally with our selves. Without proscribing any man who has a just claim to this sacred right, we may justly require a longer period of residence in country before admitting a stranger to have a voice in the direction of public affairs.

In this connection I would also suggest for your consideration, the expediency of a provision similar to that adopted in some of the sister States, requiring every citizen to be able to read the English language before being admitted to the right of suffrage.

The duties to which you are called are principally of a local character. It is therefore desirable in your deliberations to avoid the unnecessary mingling of local questions with subjects committed to the National Administration.

As a Sovereign State, New-Hampshire has a common interest in the affairs of the general government; and the influence of its legislation, although designed to be local, may be communicated to all parts of the country.—The people of the State share in the moral responsibility for the laws of the Union, and for the wrongs which may be sanctioned under such laws. State Legislatures have, fortunately, power to admit to the privileges of citizenship, and to protect those citizens, to whom such privileges are denied under the *declared* laws of the United States. When the highest tribunal in the country declares that citizenship is made to depend upon mere color, or race, the race proscribed should have their minds relieved from all doubts concerning their rights under the laws of the State.—With this view, and by way of protest against a principle contrary to the spirit of our institutions, it may be expedient to declare what is now true, that under our local law, all men of whatever grade, color, or race, if injured, or unjustly deprived of their property or freedom, may at least sue for redress, and be heard in our courts of justice.

A recent opinion of a majority of the judges of the United States Supreme Court, by which every individual of the African race, in the United States, may be deprived of their estate, their liberty and their families, but can have no redress, because they are not citizens, suggests the expediency of an earnest protest from the Legislature of every free State, against the law, which, as declared, is repugnant to our sense of justice and to the principles of equality, which lie at the foundation of our government.

Attempts to extend the institution of slavery, and make it the controlling interest in the administration of the Federal Government, have made the subject of increasing agitation. So long as this great moral, political and social evil is confined to particular States, it is beyond the interference of the people of this State, who are in no manner responsible for its existence or continuance in those States. The responsibility of the people of the whole country begins where slavery ceases to be local. The history of this institution proves the necessity of the use of all constitutional means of resistance to its steady encroachments and extension, and to its insidious attempts to strengthen itself in the general government, and make every other interest subservient. It is but without harm, or apparent danger to the Union, we have recently passed a severe and almost purely sectional contest, originating in a scheme to take from free labor the country secured to it by the most solemn covenants. These covenants have been recklessly disregarded and broken, and the rights of Northern men and the interests of free labor have been ruthlessly trampled upon, under the color and authority of law, because they were opposed to the extension and progress of slavery. The mild regions of the middle latitudes, set apart for the free laborers of the Northern, and also the South-ern States, have, by violence and fraud, been brought under the dominion and curse of slavery.

It is yet hoped that the real interests of these Territories, and the apparent and known disadvantages of slavery will ultimately secure these regions as an inheritance for free labor.

Pecuniary aid is not asked for from the State, as the present condition of the settlers in that Territory does not make it necessary or expedient. No exigency may hereafter arise to require it; but while we confidently hope that, without the shedding of blood, and in the peaceable exercise of the rights of citizens, the cause of freedom will yet prevail, it is a plain requirement of duty to afford sympathy and encouragement, and, if necessary, pecuniary aid, to those men who are contending for the rights of free labor in the Territories of the United States.

In consequence of the death of the late lamented Hon. James Bell, Senator from this State in the Congress of the United States, whose term of office would have expired in four years from the fourth of March last, it becomes the duty of the Legislature, at the present session, to fill the vacancy.

I have thus, gentlemen, alluded briefly to some of the subjects to which your attention will be called at the present session; many others of interest and importance, to which I have not referred, may require your deliberation. Confident that no consideration other than an earnest desire to promote the public welfare will govern you in your legislation, it will give me pleasure in acknowledgment of my grateful feelings for the expression of confidence with which I have been honored by the people of this State, cordially to unite with you in your efforts to promote the prosperity and honor of the State.

AYER'S Cathartic Pills,

(SUGAR COATED,)

SEE WEEK 99

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been troubled for years with the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEBBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., Feb., 1856.

SIR: I have used your Pills in my family and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the bowels is quite equal to calomel, while they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO ROBBINS, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Were off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us had given him twenty doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be used here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in different neighborhoods in this city. They purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WILLIAMSBURGH, N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MALLORY, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the purgative for all that is great in medicine. They have cured my little daughter of ulcerous sores upon her neck, which had become incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair, which your Pills have cured, and her father, your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me, if I did not inform you of it. Your Pills in a cold settled in my limbs and brought on excruciating neuralgic pains, which yielded to certain alternation. Notwithstanding that I had taken your Pills freely, the disease grew worse and worse, until, by the advice of your agent in Baltimore, Dr. McKenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I was soon cured, and have been well ever since.

SENATOR CRAWFORD, HOUSE REPRES. U. S., Dec. 1854.

DR. AYER, I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that I suffered from for years.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an unequalled remedy.

For Costiveness or Costipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the ignorance and recklessness of the quantity follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay,, by all the families of any civilized country in the world, there is some personal experience of its effects; and, fewer yet the community any where which have not among them some living trophy of its triumphs, some victim snatched from gaverous diseases of the throat and lungs. Whilst it is the most powerful antidote yet known to man for the fatal diseases of the pulmonary organs, it is also the gentlest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden attacks that steals upon them in the night, and it should be in every home. We believe the CHERRY PECTORAL saves more lives by the arrest of consumption it prevents than those it cures. Keep it by you, and cure your colds while they are curable, one neglect them until human skill can't insure the slightest remedy. All know the dreadful fatality of long disease, and so they know to the virtues of this remedy, to be well not a more than the same form of it will make the best it can do. We spare no cost, no care, no toil to produce it the most perfect possible, and thus offer it to the world, in the best agent which to purchase health.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and are conducted under the immediate supervision of sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and all the payments of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that they have a legal right to send tickets for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, the next one to come off is the one to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. Schemes, showing the number of prizes and prices for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations, and the prizes are paid immediately on $100 to $1000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all parties ordering, shortly after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Sun, Wednesday, Saturday, Wednesday Intelligencer and Union, of Washington, D.C.

Address R. M. HUBBARD & CO.,
Box 2 Fayette st., or box No. 40,
Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Ross & Co are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner.

They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same is received. Every ticket in every lottery must draw a prize. Tickets are $1; halves, 50; quarters, $2.50. No tickets sent unless the money accompanies the order. Parties ordering will be sure to write a number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to deceive the buyer. Prizes payable immediately after the drawing, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the State of Georgia every day, as soon as ascertained, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Union*, Atlanta *Intelligencer* and New York *Weekly Day Book*. Write your address plainly, and direct to

S. SWAN & Co., Atlanta, Georgia.

Prizes yield to the holder, no percentage deducted from prizes as in other lotteries. Address as above.

All communications strictly confidential.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, we awarded to these Manufacturers.

By means of a new method of Voicing, known only to them, they have succeeded in removing the harsh and buzzing sound which has merely characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time; the tones of the front set, not affected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, banks of keys with two octaves, but the coupler, when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced workmen. Our facilities for work, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *easier and perfect satisfaction.*

Dealers and Teachers of Music, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent allowed for a longer or shorter, on the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the cost of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, send direct, addressed as above, will receive with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, opp. Kilby st, Boston,

AFFERS an experience of nearly twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, specifications, drawings, and every other Drawing for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Patent rights, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, by reason of the impartability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The practice of this bureau for twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his experience of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I was employed in the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most skillful and conscientious practitioners with whom I have had official intercourse. CHAS. MASON,

MURDER AND ROBBERY IN RUSSELL.—As Mr. Jackson of Westfield, a jew pedlar, was driving his wagon on the road between Westfield and Russell, Tuesday, afternoon, he was murdered, and afterwards the person and wagon were robbed of their valuables. About ten o'clock, a man calling himself Charles Jones, presented himself at the house of Simeon Mallory, who was on the road to Russell, and wished to store some boxes made, as he said, to pack his goods in.

About this hour the pedlar's horse was found straying without its master, which combined with the recent report of a pistol and the strange manner and errand of Jones, excited suspicions in the minds of Mallory and his neighbors, and upon reaching the bank of the river, the body of Jackson was found, covered with rubbish and leaves. He had been shot through the heart. Jones was immediately secured. On him were found a loaded pistol and money and clothes, that the brother of Jackson, living in Westfield, has identified as being those the deceased took away with him that morning.

Jones was arraigned before a magistrate in Russell during the day, and was held for trial. He exhibited little or no concern during the examination, and said there were two or three men who could tell where he was when the murder occurred. One witness says Jones used to be an Advent preacher; but is a hard customer.—*Springfield Republican.*

ACCIDENT.—Mr. George W. Perkins of Dover N. H., engaged in the express business of James W. Odlin, was walking in a street of Boston, on Monday of last week and received a serious injury. A ladder fell from the height of 80 feet, and struck him on the shoulder with such force that he fell upon his knee on the hard pavement. His knee-pan was so broken that he could not return home. He was taken to the hospital, where he still remains. In many streets of Boston there are buildings in process of being taken down, and some of them do not appear to be properly guarded against the danger of accidents from falling materials. The ladder that struck Mr. Perkins is said to have been taken off by the wind. It ought to have been firmly fastened, wind or no wind. Mr. Perkins is doing well.—*News Letter.*

NEW SCHOOL PRESBYTERIAN CONVENTION TO-DAY.—*Cleveland, June 3.*—A vote on the slavery question was taken, resulting in follows: Yeas 167, nays 26. The North voted yea unanimously, the South protested against the vote. The Home Missionary resolution was referred to a committee, who will report to the next general assembly. Several unimportant votes were then read. The assembly will probably adjourn today.

A WHOLESALE BUSINESS IN LOST BABIES. Monday being a warm and pleasant day, babies were all out sunning in New York, and nearly 100 of them strayed away from mamma's apron string, and got lost. But all were found and restored to their house before night by the police and telegraph, extending from station to station.

HON. ELI THAYER'S SOUTHERN EMIGRATION SCHEME.—The Worcester Spy, in noticing the return of Hon. Eli Thayer from a tour of business and observation in Western Virginia and Eastern Kentucky, says:

Mr. Thayer made no secret of the objects of his visit, and was received with the most cordial hospitality wherever he went, by slaveholders as well as others, and the most intense interest was everywhere manifested, in his emigration scheme for infusing Yankee enterprise and Yankee thrift into the dead and lifeless communities of the sunny south. Mr. Thayer addressed several public meetings during his absence, at which he unfolded his plans of the Emigration Association, and at all of which his remarks were listened to with the closest attention, and complimentary resolutions were passed. Mr. Thayer's first visit has demonstrated that "the bark of the *fanatics* of the South is worse than their bite," and that the people are ready and anxious for the influx of a horde of Northern emigrants, to till their fields, and show them how to appropriate the munificent natural advantages they possess.

☞ The two men who were run over and killed on the Harrisburg and Lancaster Railroad at Highspire, Pa., on the night of the 28th ult., were robbers and burglars, one of whom was named George Vickory. They committed a daring robbery in Middleton on the night before, and had stolen $3000 in cash from a lumberman.

TEXAS CROPS.—New Orleans papers state that refreshing rains have visited nearly every part of Texas, with the exception of Gonsales and Guadaloupe, where the drouth still prevails. The wheat crops are excellent, and the other crops promise an abundant harvest.

ANOTHER ENTERPRISE AMONG THE IRON MOUNTAINS.—We understand that a company has been formed of wealthy New Englanders for the purpose of erecting and working two blast furnaces at Marquette. The company has a cash capital of $125,000. Five thousand acres of timber land have been purchased for the purpose of charcoal.—*Cleveland Herald.*

A DANGEROUS PLAYTHING.—A modical friend informs us that he has been consulted in several cases where the new cent has been swallowed by children, one of whom is only two years old, and in which great irritation of the stomach and bowels has followed, because of the corrosive nature of the metals composing it, as its well as mechanical action upon the delicate mucous surfaces.—*N. Y. Tribune.*

Several Printers who went down the harbor from Boston, on Saturday afternoon, in coming home at night, mistook Castle Island for the moon in steering, and as a consequence ran their craft ashore on the flats, at South Boston Point, where they spent the night.—*Charlestown Advertiser.*

CHARADE.

Now is my *first* a mystic form
That visits earth in summer's night,
To cheer the rose till rising morn,
Then slowly vanish out of sight.
My *next* doth shine 'neath Ellen's ear,
Aye, from yon cloud it doth descend;
It greeteth Europe every year,
Alike saluting foe and friend.
My *whole* does shine on every field,
On hills, thro' wild wood far away;
It bids the drooping plant not yield,
But live and greet another day.

BOILING ROCK.

"Prayer books are now sold in London, with looking-glasses inserted on the cover." Here is an inconsistency, more apparent than real; many object to personal reflections in church, but the objection comes from the inner man; the outward woman may not be unwilling to see herself and reform when necessary, "to the beauty of ——" countenance.—*Boston Courier.*

"The lady has a fortune in her own right of nearly a quarter of a million," and yet taxes herself with a husband. Many such cases, if female interest in politics continues to increase, may encourage bribery "at elections."—*Boston Courier.*

ROCHEFOUCAULDIC.—The true way of learning your own progress towards prosperity is to observe how much you are dreaded by others. You cannot ascertain your own condition so well by the praise you receive as by the abuse which is bestowed. People often praise those whom they pity, and from whom they have nothing to fear. When you are getting out of their reach, they are always ready to shoot at you.—*Boston Courier.*

SUGAR.—This article seems to have reached its highest point, and though the stocks are somewhat less in Europe than last year, they are larger in the United States; and with the prospect of a good crop in Louisiana, prices must decline one half from the present value. It is singular that the difference between a crop of 200,000 hhds. and 400,000 hhds. in Louisiana, makes a difference of full fifty per cent. in the price of the whole product of sugar in the world.—*Newburyport Herald.*

SCHOOL APPROPRIATIONS.

There has been recorded in the doings of the Common Council one act which must be looked upon with regret by the friends of our public schools. The finance committee, after a proper examination of the subject, recommended the appropriation of $12,077 for the support of our public schools the current year. This sum is not one cent more than will be needed to sustain the schools in their present good standing. When the matter came before the Common Council, after some discussion, $1077 were cut off—which sum it seemed to be the wish of the leading members of the board, to cut off from the salaries of the teachers. Adopting the idea, that if those teachers now employed will not consent to serve for less, others will be found who will.

We know of no teacher in Portsmouth whom we would wish to see driven off by such a process.—There are none who receive anything more than a compensation for their services; and the policy of dismissing a teacher who has been tried and found fitted to his place, to enter upon the experiment of inducting a stranger, is not a desirable policy.

There is no assessment our heaviest tax payers more readily assent to than that laid for the support of our admirable school system. In our old town meetings, before the city government was formed, more opposition was usually raised from some men who only paid a poll tax and who had the most children at school, than from those who paid heavy taxes and did not avail themselves of the public school privileges. The feeling apparently grew out of some personal animosity, and a desire to punish the teachers who perhaps had been too faithful in chastising their children, and by such pressure to crush the teachers out. Such feelings could be better overlooked in a town-meeting sponter, than in the popular branch of the city government, where men have an opportunity of acting with deliberation and calmness, and where personal prejudices should never be brought in conflict with the public good.

A vote also passed that body, forbidding the School Committees to exceed the amount of appropriation.

Our impression is, that the School Committees are chosen by the people, not by the city council. That they are a distinct organization, and have as much right to pass instructions for regulating the Common Council, as the latter body has to give instructions to the School Committee. The law instructs the City Council to raise "so much money as may be necessary" for school purposes. And the law defines a penalty for any neglect to make such appropriations. There is also a section of the School law defining the duties of the School Clerk, which says that "he shall deliver to the selectmen a certified copy of every vote to raise money within ten days thereafter." Showing that the School Committees have the right to state their wants.

And yet another clause which says that "the *district* shall be liable for the wages of the teacher and for all contracts lawfully made by the prudential committee."

While the school committees should use all prudence and economy in expenditures of money, there is no question that all necessary expenditures will have to be met by the city, whatever votes of limitation the Common Council may in their wisdom pass.—*Journal.*

MUNICIPAL.—*In Board of Aldermen*, on Thursday evening, a resolution passed to widen Congress street two feet on the south side, on the premises of Col. Joshua W. Peirce, and that $200 be appropriated for the expense.

A resolution providing for the discontinuance of Frenchman's Lane was read and referred.

The following resolution was read and laid on the table:

Resolved, That a joint committee of the City Council be selected to inquire into the extent of the rights of the Portsmouth Aqueduct Co. and that they be authorized to consult counsel in respect to the same; and also to report what measures may be lawfully taken to procure a supply of water for the city at reasonable rates.

The Committee on Bills on 2d reading reported the appropriation ordinance with amendments, as follows:

Added $500 to the amount for streets, &c. making the sum $2500. Passed.

Adding to the amount for schools $1000, making the sum $12,000. Passed, ayes 6—nays 1.

Adding to the bill, a clause providing for the appropriation of $3000 for the erection of a new school house in Dist. No. 2. Passed.

The proviso of the Common Council that the School Committees shall not be permitted to exceed the appropriation was rejected. Ayes 3, nays 4.

The bill as amended was then passed and sent to the Common Council for concurrence in the amendments.

In Common Council no business transacted.

BURNING OF THE ROBERT PARKER.

SAFETY OF CAPT. E. G. ADAMS AND CREW.—By the last arrival from England, letters have been received from Capt. Eben. G. Adams, of ship Robert Parker, which vessel was struck at sea by lightning and burnt in a few hours. The crew were all taken on board the English ship Bannockburn, and arrived at Liverpool on the 20th of May, all well.

We have seen a letter from Capt. Adams, giving an account of the disaster.

The ship Robert Parker sailed from Mobile on the 8th of April. On the 22d, in lat. 33 44, lon. 71 07 west, wind blowing hard S. W. with hard squalls, about 1 o'clock in the morning, when the crew were at yard furling main top-sail, the main top-mast was struck by lightning, knocking 2d Mate off top-sail yard into the top. The lightning, following the top-sail sheets down, struck the bit, splitting it down to the deck. Six or eight deck planks were broke and riped up, the lightning setting fire to the cotton between decks. In a few moments smoke was discovered coming up the fore scuttle, and cabin soon filled with smoke and gas. As soon as it was discovered that the ship was on fire, everything that could be done to smother it was done; caulked up every place that smoke was seen coming up, filled the decks with water.—At 7 A. M. found the decks very hot, the pitch boiling out of seams, and a number of planks rising up. Found it impossible to save the ship. Set the hands to clear the long boat, and hoist it out with a small quantity of water and provisions. At 10 A. M. the fire had burnt through outside in the waist. About this time a ship was discovered to the westward; made a signal. The ship bore up and run down, and hove to close to the R. Parker. It proved to be the British ship Bannockburn, Capt. Bruce, of Greenock, from New-Orleans, bound to Liverpool, who kindly lay by until we saved a small quantity of provision and part of a cask of water. Sent the long boat with a part of the crew, clothes, stores, &c. on board the Bannockburn. The long boat returned as soon as possible, and secured a few barrels of bread and what stores could be had. All hands left the R. Parker and went on board the Bannockburn.—At this time the fire had burnt through both sides of the ship and decks, from main to fore-mast. In 30 minutes after the last boat left, all three masts went over the side.

Morning Chronicle.

SATURDAY, JUNE 6, 1857.

FROM CUBA.—Accounts from Cuba, to the 25th ult. state that there was a slight pause in the sugar market, though prices had not given way.

A Matanzas paper gives the following brief description of the prospects of the island:—"The island of Cuba increases rapidly in prosperity; the prices of her produce are exorbitantly high; money is so plenty that we do not know what to do with it, and in order to be enabled to employ it productively, a host of associations, and undertakings of practical benefit to the country, have been established."

The Prensa contains a list of about fifty different railroad and other companies, the shares of which are now held from 3 to 75 per cent. above par.

CUBA SLAVE TRADE.—A letter from Havana, by steamer Cahawba at New York, states that sixty negroes had been seized by the government officers on the south side of the island, near Sancti Spiritus. Four hundred Chinese coolies were landed on the 29th ult., from a vessel which lost twenty-six on the voyage. The negroes were sent to Batabanao, and Gen. Concha had ordered an investigation; but the popular dread of the influence of the slave-traders was so extensive, that it was feared that testimony could not be had against them.

THE MURDER AT RUSSELL.—The coroner's jury who were summoned to investigate the cause of the death of Isaac Jackson, the Jew pedlar, of Russell, who was murdered between Westfield and Russell on Monday, returned a verdict to the effect that Charles E. Jones, the man who was arrested on suspicion, was his murderer. The examination of Jones was commenced in Westfield on Wednesday. He maintains the most imperturbable coolness, denies the murder, and when confronted with the dead body of his victim, viewed the spectacle unmoved. After the discovery of the body he went in a wagon with some others to the scene of the murder, and on the way he was discovered holding a loaded pistol behind his back. He surrendered the weapon; and coolly inquired if capital punishment had been abolished.

☞ Jones, who murdered the Jew pedler at Westfield, Mass., has been examined. Upon the complaint being read, the prisoner replied with the utmost indifference, "I haint guilty of murder—I haint murdered any man;" and on being asked by Justice Boies whether the trial should proceed, replied in the same strain, "You may do as you like." Jones is a native of Montpelier, Vt., and his family is respectable. He has been known as a preacher of Millerism and a store-breaker in Connecticut, and for the latter offence he has served a term in the Connecticut State Prison.

☞ On Thursday evening, the Bowdoin Street Society, in Boston, at their meeting, after accepting the resignation of Rev. Dr. Waterbury, presented him the sum of six thousand dollars.

☞ Hon. Henry Hubbard, formerly governor of this State, member of Congress; &c., died at Charlestown, N. H., on Friday morning.

THE PHILADELPHIA FIRE.—The fire in Philadelphia, on Tuesday night, was confined to the building on Chesnut street, known as the Melodeon, which was entirely destroyed. The Arcade Hotel, adjoining, was considerably scorched. A good deal of excitement prevailed in the neighborhood for a while. David Mathews, a fireman, was precipitated to the ground from the burning building, and badly injured—probably fatally.

☞ "The Adventures of a blind man and his faithful Dog; a true narrative of his eventful wanderings, by land and sea; by Abram V. Courtney, who has been totally blind for the last thirty-one years."

This is the title of a neat and readable little volume, by the sale of which, the ostensible author and hero procures a livelihood. He has a very handsome, intelligent and faithful dog, "Caper," with him, and is stopping at the Franklin House, for a few days.

☞ At the National American Council at Louisville, on Wednesday, a letter was read from Andrew Jackson Donelson, bitterly denouncing the present administration of the general government.

Hon. Erastus Brooks, from a committee, reported an address and plan of organization, and the officers for the year were afterwards elected.

☞ Counterfeit twos, Bridgeport Bank, Conn., (not described in the Detector,) are in circulation in Newburyport.

WASHINGTON, June 4.—A private despatch has been received from St. Louis announcing the safe arrival at that city of D. H. Burr, Surveyor General of Utah.

Boston Postmaster.—Since the arrival of Mr. Bailey, he has tendered his resignation as Postmaster of Boston, to take effect on the 1st of October. The appointment of Nahum Capen, his successor, will be officially announced to-morrow.

NEW ORLEANS, 4th.—Late Mexican papers confirm the execution of Gen. Crabbe and 53 of his followers.

It was rumored in the City of Mexico that a terrible revenge was being taken in California, by murdering all the Mexicans found there.

NEW ORLEANS, June 4.—Late papers from the city of Mexico have been received. There is no positive information with regard to Gen. Grabbe and his filibustering party, but the probabilities are that the fears of their execution will be realized.

The election in Mexico was progressing, and the results, so far as known, were generally favorable to the re-election of President Comonfort.

Dates from the city of Mexico are to the 16th of May. Heavy rains had fallen, and the inhabitants were alarmed at the prospect of an inundation. There had been several robberies on the Puebla road.

SPECIAL NOTICES.

A beautiful, healthy child, and one emaciated by sickness, sitting in his easy chair, with his wooden horse, gun and drum lying by his side, may be seen on the label of Lawrence's Carminative. It is very impressive. Mothers and others should examine it. It may be seen at any of the apothecary stores.

DAVIS' DAGUERRIAN GALLERY, No. 8 Daniel street, has been refitted, enlarged, and refurnished, the past week, and is now decidedly the finest and best Saloon in the State. No expense has been spared to make it not only a place to obtain good pictures, but an agreeable and interesting room for visitors. And while t r pictures are unrivalled, their prices are so low that all can afford them.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, Messrs. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those intending to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, have the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 88 cents per bottle.

☞ We call attention of the Bald and Grey to Professor Wood's "Hair Restorative;" without doubt the only remedy that can restore the hair to its pristine quality. It has given unfailing results, and the Professor has the testimonials of hundreds of cases cured by this infallible restorative, and we can cordially recommend it to all who need to use this valuable preparation.—[Cincinnati Daily Sun.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have cooks who tempt their appetite a little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will digest cast iron stones, and take the Invigorator and they will digest. We have tried it in double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

"HIMSELF AGAIN."

MUSICAL NOTICE!!

A. PEARSON, having returned to his old place of business, at

Exchange Hall, No. 4 Exchange Buildings,

in rear of Chronicle Office,

which has been beautifully and thoroughly refitted since the fire last winter, would announce to his friends and patrons, and lovers of Music in general, that he is now again fully prepared to attend to all business in his line, as usual.—

Thanks to the attention of kind friends and a liberal public, his facilities for the instruction of single pupils or classes, are better than ever before; and he invites a call from all interested.

Musical Instruments

—AND—

MERCHANDISE,

furnished to order, as heretofore, at the lowest prices.

Sheet Music and Instruction Books for sale.

Juvenile Singing School.

AT the repeated request of friends and parents, and for the benefit of the rising generation more than of himself, the subscriber will commence a Term of Juvenile School, at his airy and beautiful new Room,

Exchange Hall, No. 4 Exchange Buildings,

On SATURDAY AFTERNOON, June 13, at 3 o'clock precisely;

to continue on Wednesday and Saturday Afternoons.

TERMS, One Dollar for the Course of Twelve Lessons, to be paid in advance. Tickets to be had at Mr. Cobb's Music Store, and of Mr. Pearson.

It must certainly be regretted by every one who considers the matter intelligently, that of about two thousand children attending the public schools in Portsmouth, so few are receiving any musical instruction in classes, or in any way save by private teachers—which of course is not the most efficient or economical mode of disseminating a general love and knowledge of music.

In the absence of any provision to have music taught in our public schools, the subscriber is willing and desirous to do what he can to make up the deficiency; and will therefore engage again in the instruction of a Juvenile Class—one of the most laborious, though not most remunerative, departments of the musical profession.

Having most excellent accommodations for

ONE HUNDRED PUPILS,

it would seem that this comparatively small number could easily be gathered from the various schools in the city.

The attention of parents and all others interested, is respectfully invited to our new and beautiful room, &c.

LOCAL.

THE ORDINATION of Mr. Amos Abbott, as a Missionary of the American Board of Commissioners for Foreign Missions, took place on Friday afternoon, at the North Church in this city.—The order of exercises was as follows:

Invocation and Reading the Scriptures, Rev. B. F. Parsons, Dover.

Prayer before Sermon; Rev. W. Fifield, South Newmarket.

Sermon; Prof. E. A. Park, D. D., Andover.

Ordaining Prayer; Rev. Isaac Willey, Goffstown.

Charge; Rev. L. Whiting, Portsmouth.

Right Hand of Fellowship; Rev. John Colby, Hampton.

Concluding Prayer; Rev. J. E. Medbery, Portsmouth.

Benediction; Rev. Amos Abbott.

The services were opened by the anthem "I waited patiently"—and interspersed with appropriate hymns, with the fine organ accompaniment of Prof. Clark.

The Sermon of Prof. Park was from Mark 15, 15: Go ye into all the world, and preach the Gospel to all people.

His subject was:—The Value of Christian Mission to the Heathen.

1. Intellectual; not the chief advantage, but incidental, and if this be so great, how much greater must be the principal benefit, Central truth—Jesus Christ and him crucified.

3. Social and political benefits. These are but the foliage of the tree; but if these are so valuable, what must be the value of the ultimate fruit.

3. Christian Missions have a religious bearing. The ear is not turned inward, but outward; so the heart is not to contract its bliss round itself,—but to expand to children, family, nations, the world, the universe.

4. Their main end is to purify the world of heathenism.

All duty is a good. Foreign Missions are the fulfilment of a command of Jesus, and also an imitation of his example. God is love, and the missionary enterprise is in this spirit.

The Council was large; as many as seventeen churches were represented; and more than 20 clergymen were present. A numerous congregation attended.

Mr. Abbott expects to sail for India on Wednesday next.

☞ Rev. Geo. M. Payne is to preach at Hanover street Chapel in this city, tomorrow,—*not* in Newington.

His appointment in Newington, is to preach there on Sunday, June 13th,—or to send some other preacher.

Rev. T. H. Miller is to preach at Newington to morrow as usual,—not at Kittery until the next Sabbath.

RUN AWAY MATCHES seem to be wonderfully on the increase, since the revival of the publishment law.—The Portsmouth clergymen are having a nice time, marrying our young folks. Better stay at home, give the fees to your own minister, and face the music!—*Portland Transcript.*

The new marriage law of Maine, or rather the old one revived, requires the notices of intentions of marriage to be posted up in church for three Sabbaths, we believe; and in some churches the practice was and is, under this law, to read them from the desk, which is termed "crying" a couple. This don't work at all, now a-days; and the young folks come to Portsmouth, Exeter, Dover and elsewhere, to get spliced. Perhaps they don't relish the "crying" in advance—thinking that, in the natural course of events, there will be plenty of that afterwards.

MRS. MANSFIELD.—The audience at Mrs. Mansfield's lecture on Wednesday afternoon seem to been very favorably impressed, and the result of her examinations has confirmed the opinion that she is possessed of no ordinary faculties regarding the knowledge of disease. The closeness and exactness with which she details the feelings and sufferings of those he examines, without asking any questions, leaves no doubt of her actual knowledge of the patient's condition, and hence a knowledge of the appropriate treatment to effect a cure. Her success in *treating* disease thus corresponding with her *knowledge of it*, as betokened by these examinations, it is not surprising that there is considerable anxiety among invalids to have her cure them, and we learn that she makes reduced terms to those who are unable to pay out much money, so that even those who are comparatively poor need not be debarred from the advantage of regaining health by her treatment. This course naturally meets with favor from all. Those who are in good circumstances do not mind paying a fair price to be really cured, and those who are not abundantly supplied with money, are glad to be favored in price for the treatment they need to cure them.

We are informed that in consequence of the numbers who visit her, she will remain a few days longer at the Rockingham House in this city, than she at first intended, prolonging her stay probably during the whole of next week. COM.

NEW HAMPSHIRE LEGISLATURE.

THURSDAY, June 4.

SENATE.—Mr. Marcy introduced a resolution for procuring fifteen copies of each of the daily papers published in Concord for the use of the Senate. Adopted.

An address was passed, calling for the removal of James H. Rixford, Sheriff of Merrimack county.

HOUSE.—A message was received from Gov. Metcalf, covering plans and estimates for the enlargement of the State House, and for the erection of a fire-proof building for the security of the records.

Mr. Hackett gave notice of the introduction of a bill in amendment of the act to incorporate the Portsmouth South Parish Sabbath School, passed Dec. 16, 1828.

The address for the removal of Sheriff Rixford was adopted.

IN CONVENTION, the number of votes cast for Governor was reported:

Whole number of votes cast,	65,882
Necessary for a choice,	32,942
Scattering,	452
John S. Wells,	31,214
William Haile,	34,216

and is elected by a majority of 2,520; plurality over Wells, 3,002.

No returns of votes were received from Millsfield and Dixfield, in the county of Coos—(possibly, because nobody lives there!)—*Statesman.*

Thirty-six votes returned from Eaton, Carroll county, as having been given for Wm. Haile, the letters *Wm.* being written as the common abbreviation of the name William usually is, were not included in the computation.

Two hundred and ten votes returned from Candia, Rockingham county, as having been given for William *H.* Haile, were reckoned among the scattering votes.

In the afternoon, the new Governor delivered his Message, as before given. It occupied about forty minutes in delivery, and was read in a clear, loud voice, which rendered it perfectly audible to the large assembly that filled hall, galleries and entries.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1843, in making a discovery in its manufacture by which it has deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c, and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

CHARLES' LONDON CORDIAL GIN

Is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headaches by your Pills, and have also cured my *girl* of them by the use of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will a mothers as they do me, the fact is worth knowing.

Yours with great respect, RO. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and have found them to say they are the best cathartic we employ. Their rapidly acting action on the liver is quick and decided, consequently they are an admirable remedy in derangement of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They also expelled from her one two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, which others around me had tried in vain for months. Your Pills, and Cherry Pectoral, are the best medicines we have in the house, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. My wife has been greatly relieved by afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have proved to her like a charm.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church, Baltim.

PITCHER HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and produced an acute attack of neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, for nearly two years. I tried every celebrated agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATOR CRAMMER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as **a Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that follow its improper exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and few are the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe that Consumption, in its early stages, is by its use completely in presents than does it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can reach the lesions of the lungs, or the fatal disease of the vitals, sale your life away. All know the dreadful fatality of lung disorders, and we they know too the virtues of this remedy, we need not be more than to assure the public that it is the best in the world. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the State of Maryland, and consequently authorized by the people, who are sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are protected as if they were themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to the Havana Lotteries, are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, the tickets will be used in the next drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received by the Managers. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations (varying in amount from $20 to $100 200. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ Copies of the Laws of the State of Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co are chartered by the State of Georgia, and have their commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully ask attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of Georgia. The drawings will take place on Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme adopted in every ticket drawing a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to unravel the buyer. Prices vary from $5 to $100; every ticket being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes, as is the custom of others.

All communications strictly confidential. m18 1y

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to them, they have succeeded in removing the harsh and buzzing sound so long formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the upper, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one set of keys. This coupler, when coupled with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and substantial manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at our warerooms.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Fairbanks.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the same time the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, will be heard, or satisfactory references will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 78 State st. oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, and Assignments, drawn and Patents for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and the best advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by return mail, for One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages of procuring patents, not accordingly the patentability of inventions, unsurpassed by, it not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given are those of persons in Portsmouth, WHO HAVE PATENTED AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES ADVERTISED, it would seem that he has strong reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The business of the undersigned having during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical books, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in such a form to secure them all early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner of Patents.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most honorable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

APPOINTMENTS.—The Washington Union announces officially the appointments of Wm. A. Richardson of Illinois as Governor of Nebraska, Joseph A. Wright of Indiana as Minister to Prussia, Henry C. Murphy of New York as Minister to the Hague, and of Mr. Hiller of Illinois as Consul at Bremen, Wm. Thompson of New York as Consul at Southampton, and Mr. Fleurot of New York as Consul at Bordeaux.

☞ It is stated that there are four thousand men at work in the lead mines of Missouri.

OFFICIAL CORRUPTION.—In Chicago, on Monday, T. G. Pendergast, Charles O'Malley, J. S. Quinn, Michael Ford, James Nolan, Jeremiah Pendergast, and John Conklin—two of them justices of the peace and the rest constables—were convicted by a jury, of having conspired to extort money from the keepers and inmates of disreputable houses. Exceptions were taken for a new trial.

C. C. P., NEWBURYPORT, JUNE 4.—James Davis, of Lawrence, for polygamy, entracted his plea of not guilty, and plead guilty. Sentenced to 15 months' hard labor in the House of Correction at Ipswich.

Edward Smith of Salisbury, receiving stolen property, jury returned a verdict of guilty on two counts.

Warren Brickett and Joseph B. Whittier, both of Haverhill, were arraigned on an indictment found against them by the Grand Jury as common sellers. They severally pleaded not guilty, and gave bonds for future appearance.

☞ Madame Lorini, *nee* Virginia Whiting, made her first appearance at the Theatre Pazliano, in Florence, on the 8th of May, with great success. She sang Lucia, with Mirate. She was called before the curtain and applauded in the most enthusiastic manner. Lorini had left the Grisi troupe in London, to join his wife at Florence.

VIRGINIA ELECTION.—Mr. Hopkins, the regular nominated candidate for the 13th district of Virginia, has been defeated by Mr. Martin, a distribution Democrat.—The defeat was caused principally by the prejudice against Hopkins for resigning his Judgship, in the hope of election to Congress.

FROM BATHURST, RIVER GAMBIA.—Advices from Bathurst report that a serious conflagration took place about April 15, and that a large amount of property had been destroyed, including 60,000 bushels of peanuts.

MODEL JURYMEN.—The Boston Christian Era says:

It was recently stated that a person summoned to serve in a State Court, as a juror, was found to have, a short time previously, taken up his abode in the House of Correction. Last week, in the Municipal Court, the case of Wm. Thomas, a liquor seller in North Market st., was called up for trial on a charge of larceny of $100, when it was found that the said Thomas was serving as a Grand Juror in the U. S. District Court! This caused a postponement of the case.

Time was, when our courts were regarded as the "temples of justice," but what justice can be expected at the hands of a jury made up of such materials? Is it any wonder that villains are acquitted or the innocent made to suffer, when corruption itself is permitted to balance the scales of justice.

☞ Robert D. Weeks, formerly of Whately, has received the appointment of professor of English literature and farm economy in the new agricultural college in Michigan. Mr. Weeks is an experienced school-teacher, a scientific farmer, and a first-rate printer.

FIRES.—In Blandford, Hampden county, on Wednesday, a small house took fire, and was consumed. The flames communicated to the country around; 300 acres of land was burned over, and the Western Railroad lost 200 cords of piled wood.

☞ 100 new Cents are said to weigh a pound, avoirdupois. They overweigh a little, now, but wear will bring them down. Nevertheless, they will be very handy weights.

☞ His Royal Highness, Prince Albert, was made an honorary member of the Ancient and Honorable Artillery Company, at their 219th anniversary at Faneuil Hall, Boston, amid loud and prolonged cheering.

It has been hinted that the Legislature was too weak to rise, and that they probably never would adjourn, but after voting themselves two days' pay, after the busines was finished, they were so far recruited as to be able to leave, and on Saturday night last returned to their anxious families.—*Plymouth Rock.*

RAISING THE STEAMSHIP PHILADELPHIA.—Mr. R. D. Bartlett, of Bangor, launched in that city, on Thursday, a steam schooner of about 250 tons burthen, to be used as an auxiliary force to assist in raising the steamship City of Philadelphia, which was cast away on the coast of Newfoundland in September, 1854. The City of Philadelphia belonged to the Liverpool and Philadelphia line of steamers, is of 3000 tons burthen, and was purchased by Mr. Bartlett from the underwriters at Lloyd's, London. She was a valuable steamer, with perfect and powerful machinery. She lies in only about 24 feet of water, and is about 700 feet from the shore. She is in a cove, and the beach is smooth and of easy grade, offering no obstacle to her safe approach to the shore.—*Portland State of Maine.*

CRUELTY NEAR HOME.—An old man named Markham, was found by the roadside in Palmer, last Monday week, suffering intensely from the ravages of the small pox. The burning sun beat on his bloated and swollen features; he was unable to speak, and almost insensible to his hard condition. It was not till he had been taken over the hills to the hospital in Monson, and received the refreshing charities of that institution, that he was sufficiently restored to tell his mournful story. He had lived in Wilbraham, and as soon as the marks of his malignant disease appeared, he had been moved by order of the overseer of the poor, to the limits of Palmer, and left by the roadside to perish.—*Worcester Trans.*

DELIRIUM TREMENS.—Scarcely a newspaper do we take up but what contains a record of some death by this horrid disease. Poison run in killing men by the wholesale, swelling our pauper bills, filling our State Prisons, and increasing the calendar of crime on every hand.—*Amesbury Villager.*

There is a hog at the distillery in Waterville, which has six perfectly formed feet.

A hog with six feet is certainly a remarkable *lusus naturæ;* but we have seen several with only two, and very decided hogs they were.—*Boston Post.*
